Minutes of a Regular Town Board Meeting held by the Town Board of the Town of Riverhead, held at the Town Hall, Howell Avenue, Riverhead, New York, on Tuesday, January 7, 1997, at 7:00 p.m.

Present:

James R. Stark,	Supervisor
Victor J. Prusinowski,	Councilman
James B. Lull,	Councilman
Otto Wittmeier,	Councilman

Also Present:

Barbara Grattan,	Town Clerk
Robert Kozakiewicz,	Town Attorney

Absent:

Mark A. Kwasna,	Councilman

Supervisor Stark called the meeting to order at 7:00 p.m. and the Pledge of Allegiance was recited.

Supervisor Stark: "Mr. Pipczynski, if you and the coaches would bring the kids up, I would appreciate a nice round of applause for this young group of men. Boy, you've got better uniforms than the high school football team. Okay, guys, we're inside, everybody take their hats off. That a boy. Joey, you're the head coach? Why don't you give a little to do as to what we've got here, where we've been and what we accomplished."

Joe Pipczynski: "I appreciate it. On behalf of myself and the coach and staff and the players, I would like to thank the Town, Mr. Stark and the Town Board, for recognition. It's a lot of work. These kids get started around July time frame. We put in 16 weeks from start to finish. We play a 10 game schedule. We play against competition that sometimes some of the programs are 30 times the size that we are.

I can tell you that nine times out of ten this year they couldn't beat us and the only other team tied us, they couldn't beat us. It ended up nine and one. Played probably the toughest schedule that you can. We play what you call the "A" division and they base that on the competition from years past. These kids have been with me for four years and probably played the best season this year. They are all

dedicated, hard working, and if they are going to be members of our society later on in life, I will be sure proud with the Town of Riverhead that these kids were on it. I think they deserve a round of applause, and thank you very much."

(Applause)

Joey Pipczynski: "Okay. They helped me out throughout the season and deserve a little bit of a recognition is by brother, Jim Pipczynski, is a coach; Dan Ruthinoski (phonetic) and Mr. (inaudible)."

Supervisor Stark: "Joey, on behalf of us on the Town Board, and the (inaudible), we certainly thank you and your coaching staff for taking time out because this is all volunteer. I, as a former (inaudible) coach know the amount of time it takes to teach these kids the fundamental abilities of the game and what the game is really about, sportsmanship. And Joe is a former college football player so you can see that he's well instructed just by the size.

Joey, I know you are going to a kind of a football PAL dinner, and this proclamation here proclaims January 12th the day you're taking the team down, as Riverhead (inaudible) Giants Day in the Town of Riverhead."

Joey Pipczynski: "Thank you."

Supervisor Stark: "So I would like to give you that."

(Applause)

Supervisor Stark: "Now, each one of these young men we have come up with-- if the Board would help me-- we have kind of our own Olympic gold medal that we have designed for them. We hope to make this a tradition, not only in the football but any time we have sports when we can give these kids the encouragement that we need to give them to continue to work and study in school, right? Is that a yes? Okay. Because you are our future as your coach said, so we're proud of you so I will call your names out and Steve Abrahamsen, number 33. He's age 11 and he weighs 84 pounds. Number 70, Evan Berry, He's 10 and he weighs 110 pounds. We have number 24, Patrick Carberry. He's 10 years old and he weighs 110. We have number 50, Brian DeCabia. age 10, 101 pounds. Number 22, this name sounds familiar, Eric Goodale. He's

10 years old and he weighs 75. A.J. Grossclaus, number 19. Age nine, 71 pounds. This name sounds familiar, too, Russell Kratoville, number 11, quarterback. Russell has got to go to a basketball game right after this, so he is being run along here. Number 3, Ryan Long, son of one of our police officers. If you are half as good as your father was in high school, we'll do well. Nick McKay, number 36. Number 55, Joey Hipczynski, III. If you are half as good as your grandfather was, you will be good. Chris Raynor, number 8. Joey Raynor's son, Joey Raynor, well, we are seeing a lot of familiar cases here. Eric Schandel, number 4. Number 10, Chris Schmidt. Number 27, Gary Schultz. Number 73, Cary Tilton. Number 30, Ed Wanser. Number 32, Kyle Watts. And finally number 49, Bill Wilkinson. The 1996 10 year old football PAL champs. And their coaches."

(Applause)

Supervisor Stark: "Suffolk County champs, I'm sorry. Anybody want to get a picture quick, come on right up if you want to. Okay, boys we look forward to you being champions next year. You represented us well. Thank you very, very much."

(Applause)

Supervisor Stark: "When they go, would you shut that for me? Okay, let the record show that the time of 7:14 has arrived. Before we get into the Regular Town Board Meeting, we will have the annual Community Development Agency meeting to-- for the purpose of ratifying two resolutions."

Recess
Meeting reconvened: 7:17 p.m.

Supervisor Stark: "I see him standing in the back of the hall here. I would like to mention at this particular time and give congratulations to the Police Chief, Joseph Grattan, who starts his 35th year with our Riverhead police department on January 16th. So, Joe, if you just kind of come out in the light, maybe the camera can get a little picture of you. I know you are not dressed up."

(Applause)

Supervisor Stark: "Is there a motion to approve the Regular Town

Board Meeting-- minutes of the Regular Town Board Meeting of December 17th, and the final Special Board Meeting of December 31st?"

Councilman Prusinowski: "So moved."

Councilman Lull: "Seconded."

Supervisor Stark: "Moved and seconded. Any discussion? All in favor?"

The Vote (Collective response): "Aye."

Supervisor Stark: "Opposed? Motion carried."

Supervisor Stark: "Madam Clerk, if you would give Reports for us, please?"

REPORTS:

Receiver of Taxes	Report to the County Treasurer from the Receiver of Taxes
Receiver of Taxes	Water collections, Landfill collections, Scavenger Waste collections
Building Department	Total monies collected for the month of December
Police Department	November, 1996, monthly report
Town Clerk	1996 annual report
Sewer Department	Discharge monitoring report for the month of November, 1996
Frank J. Columbus	Submits his letter of retirement
Association of Towns	Announces the 1997 Training School & Annual Meeting for all town officers
Open Bid Report	Disposal of solid waste which was

	opened on 12/30/96. One bid was received from Crown Recycling Facility
Open Bid Report	Disposal of bulk waste, opened on 12/30/96. One bid was received also from Crown Recycling
Open Bid Report	Wood repairs at Hallock Homestead. One bid was received from Cromwell & Tish. Opened on 12/30/96

APPLICATIONS:

Site Plan	Pergament - propose to extend outdoor storage of Lumber & Garden Center, Route 58, Riverhead
Site Plan	Riverhead Enterprises - facade alterations, 209 East Main Street
Special Permit	Robert J. Andrews to erect one temporary greenhouse
Special Permit	East End Disabilities Assoc. at 107 Roanoke Avenue. Would like to use the second and third floor as a day care and after school program
East End Water Ski Development Corp.	Application for a three day tournament permit in Terry Creek on June 20, 21 and 22
Allen M. Smith, Esq.	Requesting amendment to Town Board Resolution for a sale regarding David Willmott, Sr. and J. Crew

CORRESPONDENCE:

Ralph and Mary Brown	Thanks to Diane, Mark, Stan, Milt, Bill and Russ for their courtesies and professionalism while hooking up

	water to the Brown home
Joseph Mercuri	Supporting the Mid Atlantic Race Complex
2 post cards	In support of the Mid Atlantic Race Complex
Office of County Legislature	Resolution No. 1067 which was adopted on 11/7/96

Supervisor Stark: "Thank you."

Public Hearing opened: 7:19 p.m.

Supervisor Stark: "Let the record show that the time of 7:19 has arrived. Would the Clerk please read the notice of Public Hearing?"

Barbara Grattan: "I have affidavits of publishing and posting of a Public Hearing to be held at Riverhead Town Hall, Riverhead, New York, at 7:05 p.m., on Tuesday, January 7, 1997, to hear all interested persons who wish to be heard regarding the petition of Ann Baillet to convert an existing single family residence to a two family residence on property located within the Agriculture A Zoning use district at Herricks Lane, Jamesport."

Supervisor Stark: "Counselor, we wait on you."

Peter Danowski: "My name is Peter Danowski. I represent Ann Baillet who is in the room tonight. I've indicated to her that I would make a brief comment and should I need any answers to questions addressed from the public or the Board, I would certainly seek her counsel.

Just by way of a little bit of history here, Mrs. Baillet on her own discussed an application to put an additional room on to her house because she has a son who has certain medical difficulties. She brought these facts before the Riverhead Town Planning Board. The Planning Board considered her application and made a recommendation of approval.

But they made some very specific limitations on their recommendation approval and I would like to read at least the decretal paragraph which begins with Resolve paragraph. And that is that the applicant shall have her domicile at the residence covered by the special permit, that the term of this permit shall be limited by the term of ownership and residence of the applicant, and that the owner of the premises shall file with the County Clerk a covenant in form approved by the Town Attorney that the two family use shall expire upon sale or transfer of the property from the applicant and there shall be no use of said premises for retail or office use.

So very specifically the Planning Board has recommended approval of this limited use of a two family house because of the condition of her son and she has agreed to file a covenant with the County Clerk that will erase the special permit and the use as a two family should she sell the home and not reside there as her main domicile.

So with that said, I believe there is at least a neighbor who wishes to speak to the topic. I think Mr. Niemandomski is one of those people and he will address some questions about construction and placing of vehicles in the right of way."

Supervisor Stark: "Thank you. Is there anybody who would like to make comment on this particular Public Hearing? Hold on one second, sir. Are you coming up, sir? Yes, go ahead."

Jan Niemandomski: "My name is Jan Niemandomski. I live at 242 Herricks Lane. I also am on the same right of way on which Mrs. Baillet lives. I have three things. When any construction is taking place on Mrs. Baillet's property, that no vehicles be parked on the right of way at any given time and that after her family moves in, there is to be no parking to take place on that same right of way, also at any given time.

Any debris from this construction should be picked up and not left to be blown around in the right of way at any given time, and, third, that the Town (inaudible) of the ordinance enforcement to see to these matters."

Supervisor Stark: "Thank you, sir."

Jan Niemandomski: "Thank you."

Supervisor Stark: "Thank you. Yes, sir."

David Darrow: "Members of the Town Board. With your permission I would like to refer to a prepared statement for this?"

Supervisor Stark: "Yes, just give your name for the record."

David Darrow: "Okay. My name is David Darrow. I reside on 244 Herricks Lane. With your permission, I will continue."

Supervisor Stark: "Yes, sir."

David Darrow: "Okay. We purchased our present home on Herricks Lane 18 years ago and have chosen this spot to have our children and raise our family.

We chose this spot because of its rural nature, its half acre size, which was affordable but did not put a lot of people in a small area and the community itself appeared stable with surroundings of families and farms.

Our realtor at the time was our primary informative source and we were assured that multiple family dwellings ere not permitted. This was of concern even back then as we were aware of the problems which may arise as a result of this kind of situation.

Mrs. Baillet enjoys a right of way using a driveway which is owned jointly by myself and another resident, Mr. Niemandomski. She has use of this while under no burden of assessment, taxation or contributions for maintenance. The requested change would potentially result in a 40% increase in traffic flow on an already stressed drive and exacerbate or create new maintenance problems.

The motivation for building this proposed addition is apparently purely financial. Mrs. Baillet has informed us that construction is unlikely shoud her son acquire sufficient moneys through an impending legal suit to provide him with the opportunity to build a more spacious home in another location. As finances become a more critical issue, quality of construction and maintenance of safe and clean conditions around a work site may suffer. Light materials may blow into nearby yards and debris may be scattered or left about creating an attractive nuisance for neighborhood children. I feel that I have justifiable

ause for concern here as construction debris from a recent bathroom enovation completed by her son at the same residence has been left in he front yard and on the right of way which she does not own for over hree weeks time. This has resulted in a rather unpleasant and un- ecessary eyesore during the holidays, and could easily become a real azard when covered with snow and possible be spread about by plows.

As the residence in question is immediately adjacent to three amilies with small children, I feel that these issues merit serious onsideration.

Despite whatever intentions the present owner may have for her ome as it is now or how she may believe it could become in the future, irtually all our plans have the potential for change in time. esidents frequently expand or improve their homes with little effect n their neighbors. Improvements, as the name implies, tend to better he quality of life for the owner and generally have a positive effect n the neighborhood. What is being requested is not permission to mprove, but rather change the immediate neighborhood and potentially n a harmful way. Mutliple family dwellings have not had a positive mpact on the quality of life for residents in other communities. On he contrary they have a decidedly negative impact on the lives of ommunity members and subsequently lower the value of nearby homes when esidents attempt to sell.

Another possible and highly realistic scenario would be part or ll of what is now a primary residence becoming one or two rented nits. This would again subject the other residents to the myriad roblems associated with short term residents who have no long term nterests in the community or the people who live there.

People who have made this area their home have done so believing hat they were assured of the community's stability and its continuation f being made of families who were making it their home.

I believe that granting the permit for the construction of a ultiple family dwelling would set a very dangerous and potentially damaging precedent for the people who have chosen to make this area heir home. We came and remain here because we like what we found and e like what we have and we appreciate the community in which we raise ur families. My family and I strongly request that you deny the ermit as requested by Mrs. Baillet and protect the interests and

quality of life of the residents who live in this single family dwelling neighborhood and have always assumed that it would remain so."

Supervisor Stark: "Very good. Could we have that so it would be easier for transcribing it? Or I could have one of the girls make a copy of it."

David Darrow: "Okay. May I further request-- "

Supervisor Stark: "Sure. If you would move up closer to the microphone, I would appreciate it."

David Darrow: "Yes. Mr. Danowski has suggested that a covenant would be put in place. The shortcomings of covenants like this when made in the past, have fallen in that after the family wishes to move or puts the house up for sale, that the covenants is in existance but it is difficult or impossible to enforce this or police to make sure that the covenant is kept in the manner that it was originally stated.

I would suggest that the only way that the Town could be assured and that the residents who live in the area could be assured that this was, in fact, kept in the way it is proposed to be, which is-- as she has put it, a dwelling for her son to live alongside, would be that in the event of sale, at the owner's expense, that the house be made unlivable for two families, that is, any second or accessory entrances be destroyed and covered up and that any walls made be taken down, and any kitchen facilities or additional plumbing facilities that were installed be permanently removed so that it was no longer capable of being used as a two family residence."

Supervisor Stark: "Okay, thank you. Good point. If I could get a copy of that, yes, she will put it right in the record, which will make it a little easier transcribing. Thank you very much. Is there anybody else who would like to make comment on this particular Public Hearing? Peter, I think somebody is coming up."

Eric and Wendy Gabrielson: "I have a paper here. My husband and I-- "

Supervisor Stark: "Excuse me. Can we have your name, please?"

Eric and Wendy Gabrielson: "Yes. Eric and Wendy Gabrielson. We

n the property directly in front of Mrs. Baillet's house. We cently finished building our dream house. We've lived there about ree years. We hope to raise our family and live there, you know, definitely. We did this believing that the community that we were ining was a single family home. My husband was born there; has ved there his entire life. We ask the Town to safeguard our privacy d our community.

You-- we feel that we have no way of knowing where this can go. u know, I have nothing against her son moving in with her, but you-- ere does this go in 20 years? You know, she is not going to be here rever; her son may decide to move out; her son may decide to rent is to someone else. And then we have no way of knowing. Who moves n. Now we have a dual family home right next door to us. What does is do to our property values? We just-- I really ask the Town Board d everything to deny the petition. I just don't-- you know-- the ssiblity of having one, two, 10, where does it end? I understand at this is supposed to be a special case, you know, just for her, t everybody is a special case. Thank you."

Councilman Prusinowski: "Ma'am, if I might. In this particular ea zone, Agriculture A, we have another category called Residential it's not a special case for her. It's a special case that's llowed under the code, I believe, if I'm not mistaken, in Agriculture two family houses are allowed by a special permit. So that's why ey made the petition."

Wendy Gabrielson: "Well, then I ask that-- "

Councilman Prusinowski: "And it's up to the Town Board-- and the ason the Town fathers did that years ago, and we do this all the me, is because on a case per case basis, it gives the neighbors the portunity to come forward and make the kind of case you are making us tonight."

Wendy Gabrielson: "Okay."

Counciman Prusinowski: "That's why it's there. So-- "

Wendy Gabrielson: "That's great."

Councilman Prusinowski: "That's why-- "

Wendy Gabrielson: "That's why I want to put my-- you know-- and you know it's not one neighbor-- you know-- that many of us feel this way. We prefer our community remain rural, that's the way we like it."

Counciman Prusinowski: "How wide is this road, this right of way that goes to the other house?"

Wendy Gabrielson: "The right of way?"

Unidentified): "Thirty feet."

Councilman Prusinowski: "Thirty feet. Okay."

Wendy Gabrielson: "Any my property is not located on the right of way. I'm directly across from the right of way."

Supervisor Stark: "Okay. Thank you very much. Is there anybody else who would like to make comment at this particular time? Peter?"

Peter Danowski: "Just in response, I'll ask Mrs. Baillet to make new comments so you can recognize who she is. Certainly, I'm in agreement with comments that we will talk about not letting this revert to a two family house in perpetuity. Certainly, the covenants as recommended by the Planning Board will limit that. We'll file with the County Clerk.

I am also willing to consider any other language that the Town Attorney may come up with for the Town Board. I'm in agreement that if my client no longer lives there as a main residence, this use will lapse and I do think that the Town has to consider this under the special permit provisions and I would merely ask you to follow the recommendations of the Planning Board.

But I do recognize some of the comments from those people that have addressed you and I don't think we're at variance with those comments. We are willing to limit ourselves and occupy this house and only have it for the purpose of the person who has it because of the medical difficulty. As a matter of fact, it's only an 826 square foot addition. So it's not a hugh addition going on to the house. So with that said, I would just ask Mrs. Baillet to make any further comments so you can at least recognize who she is."

Ann Baillet: "I just wanted to thank the Town Board for considering this petition and I don't have too much to say because I feel that we will do whatever the Town and the Planning Board advise. If anything happens to me, it will revert to a one family residence. There won't be a lot of traffic on the right of way. My son has one small man, one baby who won't be driving for a while. I have one car. My neighbors have a car, a truck, a boat, lots of things, and I lead a very quiet simple life so I don't expect there will be any problems with traffic or anything.

My house had been rented for years and was very dirty. The property was not cared for. I've made a lot of improvements in the two years that I've moved in and I hope to keep it that way. I retired from St. Francis Hospital in Roslyn after 17 years in a professional capacity. I owned a lovely home in Port Washington. I love it out here. I'm happy to retire here. I like my neighbors and I want everything to remain as nice as they want it to remain so I leave the final judgment to you. And I thank you for your consideration."

Supervisor Stark: "Thank you. Is there anybody else who would like to make comment? If not, I will declare the hearing to be closed."

Public Hearing closed: 7:34 p.m.

Supervisor Stark: "Before we get into the next Public Hearing, I see the other character has arrived and I would like to make a recognition that actually and I think the former Supervisor, Allen Smith, is in the audience, but 21 years ago on January 7th, I believe you hired Jack Hansen. Jack is starting his 22nd year-- will be starting his 22nd year tomorrow morning. Way in the back. Jack is our financial administrator. Getting a lot of old people around here. You certainly had the foresight, Counsel, to pick a very qualified and enduring person who I have enjoyed to be working with for the last seven years. So I commend you on your foresight and Jack, I commend you upon your long tenure with us and hope it's for many, many more years."

Public Hearing opened: 7:35 p.m.

Supervisor Stark: "Let the record show that the time of 7:35 has come. Would the Clerk please read the notice of Public Hearing?"

Barbara Grattan: "I have affidavits of publishing and posting of a Public Hearing to be held at Riverhead Town Hall, Riverhead, New York, at 7:10 p.m., on Tuesday, January 7, 1997, to hear all interested persons who wish to be heard regarding the special permit petition of Darroll Meyer to allow a motor vehicle and accessory retail facility upon property located at Route 25, Riverhead."

Supervisor Stark: "Good evening, Counselor. How are you tonight?"

Jeanmarie Costello: "How are you? Fine. Thank you gentlemen. I'm Jeanmarie Costello, and I represent Darroll Meyer in this petition. Mr. Meyer originally came before the Town Board about three years ago with a similar petition and unfortunately for some reason it never made it to Resolution, so we are back here again trying to do the same-- pretty much the same thing.

We went before the Planning Board and the Planning Board recommended that his special permit be granted. As I'm sure you are aware, he's asking for a motor vehicle repair shop with accessory use. This location has been pretty much continuously in use as some sort of motor vehicle repair shop or a window repair shop, always having something to do with motor vehicles. And Mr. Meyer is asking that that use be continued and legally permitted under the Town code."

Supervisor Stark: "Okay. Rick, do you have any comment or do you want to-- right next to-- ."

Rick Hanley: "Rick Hanley, Planning Director. I don't know if Jeanmarie mentioned, but this was referred to the Planning Board and they have approved it with a number of conditions. Jim, I should tell you that I errored today and I wrote a Resolution approving this. It's in the package. You might want to remove that or take it from the floor depending upon what's-- thank you."

Supervisor Stark: "Okay. Is there anybody who would like to make comment on this particular Public Hearing? Steve."

Steve Haizlip: "Steve Haizlip of Calverton. I would like to try ascertain the location on Route 25 where this facility is going to ?"

Supervisor Stark: "It's at the corner of Marcy and 25, the post ffice annex would be on the westerly side, this would be on the sterly side, about diagonally across from what we used to call Irma's ner."

Steve Haizlip: "Oh. Is that-- "

Supervisor Stark: "Yes, as far back as I can remember, Steve, t's been in some kind of automobive type business, gas station, etc., tc."

Steve Haizlip: "Oh, I see. It's a little station?"

Supervisor Stark: "Yes."

Steve Haizlip: "Right behind where (inaudible) used to be?"

Supervisor Stark: "In front of, south of it. Right on the rner there."

Steve Haizlip: "Yeah, I know. No problem."

Supervisor Stark: "All right. Is there anybody else who would ke to make comment at this particular time? If not, I will declare e hearing closed."

Public Hearing closed: 7:38 p.m.

Public Hearing opened: 7:38 p.m.

Supervisor Stark: "Let the record show that the time of 7:38 has rrived. Would the Clerk please read the notice of Public Hearing?"

Barbara Grattan: "I have affidavits of publishing and posting f a Public Hearing to be held at Riverhead Town Hall, Riverhead, New

York at 7:15 p.m., on Tuesday, January 7, 1997, to hear all interested persons who wish to be heard regarding the amendment to Chapter 108, site plan review of the Riverhead Town code, Section 108-131 - Application Procedure, Fees."

Supervisor Stark: "Thank you, Barbara. Bobby?"

Robert Kozakiewicz: "This Public Hearing is to hear all people considering the change to the site plan review procedure, specifically Section 108-131. It is my understanding that the proposal is an outcome of a meeting with the Fire District personnel or Commissioners. Specifically the change would be to delete from the current code provision the requirement that two site plans be distributed to the Fire Marshal and instead substitute that one copy of all site plan would be distributed to the appropriate or affected fire districts. That's the sole change that's being proposed here."

Supervisor Stark: "Thank you, Bobby. Is there anybody that would like to make comment on this particular Public Hearing? This is a concerted effort on behalf of the Town Board and the three districts to, in fact, bring communication and better fire protection within our codes to the Town of Riverhead.

If there is no public comment at this particular time, I will declare the Hearing to be closed."

Public Hearing closed: 7:40 p.m.

Public Hearing opened: 7:40 p.m.

Supervisor Stark: "Let the record show that the time of 7:40 has arrived. Would the Clerk please read the notice of Public Hearing?"

Barbara Grattan: "I have affidavits of publishing and posting of a Public Hearing to be held at Riverhead Town Hall, Riverhead, New York, at 7:20 p.m., on Tuesday, January 7, 1997, to hear all interested persons who wish to be heard regarding a local law entitled, Enforcement of uniform fire prevention and building code for government buildings and activities, to be added to existing Chapter 52 of the Riverhead

own code."

Robert Kozakiewicz: "This, again, is an outgrowth of some discussions with the fire district, in this case, the Riverhead Fire District. There's a large number of Comptroller opinions, Attorney General's opinions which make a lot of sense and say that a fire district as a special unit of local government, should not be subject to local government's zoning rules and/or local building rules.

That all changed somewhat when in 1984 the State adopted the New York State Uniform Fire Prevention Building Code and thereafter adopted certain rules and regulations as to how those rules will be promulgated. The-- when the particular code, the New York State Uniform Code was adopted, it became incumbent that in certain instances the Town was charged with enforcement of the New York State code.

The proposal before the public today is to hear comments with respect to a change in our particular code, Chapter 52, which would provide that all plans by various districts, fire districts, sewer district, water district, be submitted to the Town Clerk. There would be a requirement that all plans contain the seal or stamp of a licensed engineer, architect, and would be reviewed in such fashion. So that is the proposal before the court-- before this body today. Again, it's an outgrowth of the fire district discussions."

Supervisor Stark: "Thank you, Bobby. Counselor, would you like to-- you are counsel for the district, I believe."

Allen Smith, Esq.: "Allen Smith-- "

Supervisor Stark: "Member and Counsel."

Allen Smith, Esq.: "Member of the Hook and Ladder Co. but not wearing that hat this evening. I have additionally spoken to Mr. Francis Yakaboski who represents the Jamesport Fire District and I have been authorized to tell you that he concurs with the comments that I am about to make.

For those who may not be aware, under the Education Law of the State of New York, any fire district or similar entity such as the Sewer District undertaking the specialized capital improvement program are required to retain the services of a licensed professional dealing

with that particular field. For instance, a pump station for a Sewer District is a really unique type of thing and as we've done in the Town of Riverhead over the years whether it's Malcolm Pirnie or H2M or some of the other firms, we hire the appropriate professional to design it, supervise the construction and certify to us as a municipality that the work has, in fact, been done in compliance with all the engineering standards that are applying thereto.

It has been clear for lots of years that that is the procedure to be followed with these very special types of construction. There is some ambiguity that was created somewhat inartfully in the drafting by the state legislature and the state-- Secretary of the State and the clarification that is before the Board this evening is that these professionals, say for instance in the design of a water tower, very specific and tricky and unique type of thing will be certified by the design professionals that are involved, filed with the Town Clerk and certifying that there is compliance with the State Building and Fire Code. Thank you."

Supervisor Stark: "Thank you, Counselor. Is there anybody that would like to make comment at this particular time? Bill?"

William Kasperovich: "William Kasperovich. I reside in the Township of Riverhead. I don't know why it falls my lot in life to come up here after attorney Allen Smith has been up here. But how else can anybody say and put on record that Mr. Allen Smith is wrong. He might be misinformed or he might be confused but I don't think so. He's just wrong. In the State of New York, a professional engineer's license is issued without stipulation to specialty. This is true in other states. One of the more stringent states is Pennsylvania. But not in the State of New York.

The seal that's put down by a license professional engineer makes legally liable the individual who practice or refrain from practicing that which he has no experience. Consequently a particular firm can be doing a special kind of work and favoring that particular kind of work, getting added additional consultants and/or associates to cover the man who puts his seal on the document.

This differs from organizations that are listed as professional engineering organizations. Mr. Smith did not indicate this as such. No matter how you hire the organization it falls on your backs to

determine the qualification and capabilities of the organization that you hire. I think I'll leave it at that, but it just rubs me the wrong way on this Christmas Day coming here and indicte that a man of Mr. Smith's stature would come in with this wrong information. Whether he does this intentionally or otherwise or he's leaning on his good name, I don't know. But certainly somebody should get up here and say when he's wrong, he's wrong. Thank you."

Supervisor Stark: "Thank you, Bill. Is there anybody else who would like to make comment at this particular time? Fran?"

Fran Friszolowski: "My name is Frances Friszolowski. I live at Northville Turnpike. I just have one question. Is this Resolution from today only? Or is it going to be something that gets back dated to something that was started a year ago? Not finished? Two months ago? Is it from construction today?"

Supervisor Stark: "This is a Public Hearing. If there is a Resolution to be passed tonight, I believe it would be from this point forward-- it doesn't say anything about grandfathering."

Fran Friszolowski: "Thank you."

Supervisor Stark: "Thank you, Fran. Is there anybody else who would like to make comment at this particular time? Steve? You are absolutely right, Bill. It is Little Christmas today. I forgot that."

Steve Haizlip: "Steve Haizlip of Calverton. You know the way that this write up reads here, Uniform Fire Prevention and Building Code, it's got government buildings and activities. This activities, is that for let's say for sake of argument, a lumber yard, a garage? re they called activities? Otherwise, it's put down here for government buildings. Then it goes on activities. I don't know all these nglish doodads, but they've got the things up there, you know, so I'm little concerned what they're referring to about these activities. nd to be added to existing Chapter 52."

Supervisor Stark: "All right. Allen, would you like to make mment on this?"

Steve Haizlip: "Yeah, I would like to be cleared up on that, Allen."

Allen Smith, Esq.: "An activity might be a water main."

Steve Haizlip: "That don't help me. That ain't going to catch fire. No, I don't want-- "

Supervisor Stark: "Steve, what the Counselor is referring to that some activity may be a building; some activity may be a sewer line; some activity may be a pumping station; some activity may be a water line. It's governmental activity. Activity was that-- "

Steve Haizlip: "All right. I won't be argumentative but the way this is read, it's fire prevention and so water mains don't catch fire. All right. Now, is this going to-- "

Supervisor Stark: "Hopefully not sewer lines either."

Steve Haizlip: "Sewer line gas could explode. Yes."

Supervisor Stark: "That's right."

Steve Haizlip: "Now, is this going to lead to possibly hiring or creating a position for a fire marshal for the Town?"

Supervisor Stark: "Absolutely not. Is there anybody else who would like to make comment at this particular time? If not, I will declare the Hearing to be closed."

Public Hearing closed: 7:54 p.m.

Public Hearing opened: 7:54 p.m.

Supervisor Stark: "Let the record show that the time of 7:54 has arrived. Would the Clerk please read the notice of Public Hearing."

Barbara Grattan: "I have affidavits of publishing and posting of a Public Hearing to be held at Riverhead Town Hall, Riverhead, New York, at 7:25 p.m., on Tuesday, January 7, 1997, to hear all interested persons who wish to be heard regarding the consideration of amending Chapter 108 entitled Zoning Article VII, Business A District (Resort Business) of the Riverhead Town Code."

Supervisor Stark: "Thank you, Barbara. We'll let Rick handle his one."

Rick Hanley: "Rick Hanley, Planning Director. The subject of onight's hearing is some changes-- certain changes to the Business A istrict zoning use district which is known as resort business. The hanges are intended to remove some of the more intensive uses from he permitted use category and to move those uses to the special permit se category.

The purpose of that is to provide for more public input and review f these particular uses to allow for public hearings and to allow for more complete process relative to environmental review on the part f the Town. The notice did, in fact, describe specifically the rious uses which are being changed, specifically marina which is resently a permitted use, is being changed to a special permit use, staurant and motel.

There is also removal of service station from the district in tal. This use change is a result of both deliberations by the mesport Hamlet Study as well as the Riverhead Planning Board who s sent this along to the Town Board for their consideration. Thank ou."

Supervisor Stark: "Thank you, Rick. Is there anybody who would ike to make comment at this particular time? You are not allowed, ter."

Peter Danowski, Esq.: "Peter Danowski, representing certain lients who have interest in certain properties in the resort business, pecifically the Great Peconic Bay Yacht Basin and Helen Driis, Mr. bert (inaudible) who is here tonight, who has interest in various roperties in South Jamesport in that zone and has some plans for rtain areas that I think will make the Town proud. And Maidstone nding and Wilbur Freed (phonetic) who have been through an application rocess with this Town and Maidstone Landing site which is down near he Iron Pier.

I would just ask the Board to hold off passing any Resolutions in gard to this proposal and certainly to consider the fact that my lients have various stages of approvals with regard to these areas. d the suggestion that these-- "

Supervisor Stark: "Peter, this will not be addressed tonight."

Peter Danowski, Esq.: "Okay. Thank you, but I think further before it is addressed by Resolution, I would just like the opportunity to have the Board consider grandfathering certain of the applications and I certainly think that Mr. Pachel's (phonetic) properties in particular are also worthy of consideration. Thank you."

Supervisor Stark: "Is there anybody else who would like to make comment at this particular time? Only if you do not read a digest. You will not be allowed to read a digest tonight. A few short comments will be more than well accepted. No more storybooks."

Charles Cetas: "Charles Cetas, Vice-President North Fork Environmental Council and I would just like to say on behalf of North Fork Environmental Council that we are in favor of these changes."

Supervisor Stark: "Thank you. I can't believe that, Charlie. You broke a record today. Is there any other comment on this particular Public Hearing? If not, I will declare the Public Hearing to be closed."

Public Hearing closed: 7:57 p.m.

Supervisor Stark: "At this particular time there are no more Public Hearings. I would like to bring to the attention of the public and the viewing public who view this on television that we had some very exciting things happen in the Town of Riverhead today. One of them was that we have through the efforts of Senator Alphonse D'Amato, Congressman Michael Forbes, finalized arrangements today with the FBI that the Town of Riverhead will recommence site visitation to the Grumman facility effective immediately. We will have the entire facility available for future-- people interested in trying to re-develop the facility for us. We will have an exception that we will not be allowed inside the buildings that are being currently used for that particular investigation, there are about three or four of them, but the rest of the site.

We have been very patient; we have tried not to interfere with the NTSB-- the National Transportation Safety Board or the FBI in this

very serious investigation of this tragic accident. We have though now been allowed to through their procedures to start revisting the site. We have several entities very interested in the possible re-development of Calverton, so I would like to publicly thank Senator Alphonse D'Amato's staff and Congressman Michael Forbes for facilitating this conclusion here today and this gives our Riverhead Development Corporation the opportunity to move forward in the redevelopment which we sorely need in our economy in Riverhead and throughout all Long Island.

We also today through a press release from Governor Pataki have received a grant for $100,000 for the Grangible Park restoration. The upper side of the river, the bulkheading is deteriorating to the point where it's a land levee and one only has to watch TV and watch what's going on out in California, Idaho where the levees are breaking. If that levee does break because of saturation of waters, we won't have a river anymore. And we won't have to worry about the Wild Scenic Rivers Act because there is no river. So this will go well into the-- we have already received $100,000 grant which was approved this past summer plus about $15,000 for engineering and design. We have another grant pending for around $28,500 for engineering and design and we also have another grant pending-- this is the grant of $100,000. So that was-- the Governor announced it today. We are in dire need of those grant monies. We will continue to reach for more.

We also found out today that soon to be we have a gentleman who owns a farm on River Road who was coupled and corralled by the Wild Scenic Rivers Act and then the Pine Barrens legislation came along. Well, I'm proud to announce that tomorrow as one of the Commissioners of the Pine Barrens legislation, we will certify the credits to (inaudible) Warner and his farm on River Road which Monday, County Executive Robert Gaffney will purchase those credits which will allow Olin to get out from underneath the kind of jail that legislation has put him in. And Olin, it's been a long trip. I know it's been a very costly one for you and I hope there is some degree of satisfaction in this, but I'm glad we were able to be somewhat of a help. Sure."

Olin Warner: "Can I comment on this? Olin Warner, lifetime resident and property owner, River Road in Calverton. You took my entire speech, Jim"

Supervisor Stark: "Well, it's nice to bring good news every now

:hen."

Olin Warner: "It certainly is and I would like at this time to ›ublicly thank this Town Board for their efforts and help and in ›articular our Supervisor, Jim Stark. Many, many meetings I've had vith this Board and with Jim; many phone calls. At times I was here vaiting in the hall for him to come to work in the morning so I could :alk with him. But as he said tomorrow in this room, the Pine Barrens Commission will issue the first certificates in the Town of Riverhead. ind I'm proud and happy to be a recipient of those certificates. And I thank you gain for your help."

Supervisor Stark: "Well, I hope to see you Monday when they ;ive you the check. These credits will allow Olin to retain ownership)f his farm and also be able to resell it for the purpose of farming vith the wetland plantlife type farms which I think somebody is interested. But it puts him back on the road to recovery and, hope-fully, maybe the system does work eventually if we perserve, you know, long enough. So, Olin, thank you and good luck to you.

With that, is there anybody in the audience that would like to address the-- Bill, please-- address anything, Bill, anything. On your way up, Bill, while you're coming up, I would ask Councilman Prusinowski, we are going to be doing some advertising. We have two new garbage carters and if you want to kind of make something maybe it will get on TV Friday night. Just give a quick surrounding, I would appreciate it."

Councilman Prusinowski: "In the-- well, this is going to be Friday night, so by now you've seen in the local papers the ads we put in there outlining the procedures for the garbage collection. The main thing is that well while your carter might have changed, the schedule has not and we would just remind everybody that the solid waste household garbage and the yard waste, any materials out for collection, must be out prior to six a.m. I know in the past, some of the carters even in my neighborhood didn't come by until seven, eight or ten o'clock in the morning. But the contract allows them to begin collecting at six a.m. and that's why we've had some of the phone calls that are coming in.

I think you will be very pleased with the new carters. They have an excellent reputation in the industry. We've checked them out and

he new contract provides severe economic penalties if they should not ick up on the scheduled day. And in the newspapers you will be eeing in the next two or three weeks a detailed personal guide to ecycling and hazardous waste and, hopefully-- plus the one you got nto the mail-- should be getting in the mail as of today is Friday-- hich should answer most of your questions. And as always if you ave those questions, keep the phones ringing, 'cause I know they are inging off the hook now.

But, I think you will see in 1997 the garbage collection will mprove and I want to say contrary to things you see on the local able channels out east and what you read in the local papers, I want o assure you that there's no one on the east end has a more cost ffective garbage collection than the Town of Riverhead, we pay $230 year. Part of that is the fine to the DEC and we privatized our olid waste and tipping fees for the Town of Riverhead itself has ropped because now we're using a private transfer station that's icensed by the DEC. You don't have to purchase plastic bags. We have n easy recycling system.

I have to say that the Town of Riverhead does not recycle at 9%. e've always been between 15 and 25%. Those figures in Newsday were ncorrect and the most important thing is we wanted to put a system n place that made economic sense, that was easy for the average house- old to deal with and I think our system is by far the best and I hink all you have to do is talk to your friends and neighbors in the ther towns who have to buy these plastic bags and run up to the ransfer station and everything else. Plastic bags, yes, they are lastic.

And the fact of the matter is the recycling market has totally ollapsed. There are other towns that are having hugh stockpiles of ecyclables, they cannot sell them, they have to pay to get rid of hem. That is now the responsibility of our carters who have a con- ract with us. Our price is set for three years. We're not susceptible o the markets where we now have to have hugh deficits like in the ther three towns. The Town Board members are not fighting. I see ast Hampton Town Board, Southampton, Southold, they are all fighting bout garbage. Steve knows the (inaudible). You've been there. hey are calling each other names. No this is a half a million deficit.

What's really happening is that in the other town they have three

ays of paying for the garbage. One is the garbage tax or taxes stimating the revenues for the recyclables and selling the bags. And wo of the three categories has been unreliable. People have not ought the bags as they thought because they are taking the garbage to ur town or back to New York City or illegally dumping it and the re- ycling market has totally collapsed. So we estimate you are going to et a half a million dollars selling cardboard and number one and two lastic and you are not getting anything, you've got to pay to get id of it, that's where you have these hugh deficits. We didn't have o build a plant in Calverton. I know the people in Calverton are appy about that, that the plant was cancelled. And I think that in he long run it has worked out well and so if you do have collection roblems, we have addressed them in the new contract. Follow the aterials in the newspaper and remember, 6:00 a.m., if you have it-- s you go home at night, put your materials out the night before and hey will be picked up properly. Thank you."

Supervisor Stark: "Thank you. I didn't know he was going to ake that long, Bill."

Bill Roberts: "It's all right. It's no problem."

Councilman Prusinowski: "I have a five minute limit."

Bill Roberts: "Don't read from the bible, that's all. Bill oberts, from Baiting Hollow. You mentioned something that the plant n Calverton has been cancelled. You mean Omni has cancelled their lans?"

Supervisor Stark: "Omni-- we have-- what would you call it-- efaulted them and we will no longer do business with them. It does ot preclude the fact that they make sue us, though. Litigation is lways a possibility."

Bill Roberts: "Okay. A couple of weeks ago, I drove down Main treet, I think it was on a Saturday and I really was overjoyed. I aw these stanchions in the middle of the street, saying caution, edestrians have the right of way. I saw two of them. And I went ack several other days and also on a weekend and I didn't see them nymore. Have they been stolen or are they not putting them out ecause this-- "

Supervisor Stark: "No. What we try to do, Bill, is to-- the erchants cooperate with us. We have finally-- we have what they call he co e bill, which was passed by the State Legislature and the ssembly and the Senate and it went to the Governor and I believe the overnor did sign it and it was specifically earmarked for Pt. Jefferson illage and Riverhead. And through the efforts of Senator LaValle, his cone bill was passed where we said basically to them that this appens to be a State highway that happens to go through one of our usiest business sections in the Town of Riverhead.

They have given us guidelines as to what the cones are going to ade of, etc., etc. At Christmastime I did put those cones out. To e honest with you, I don't think that they met what were going to be equired, but because of Christmas holidays they were put out, but I uess merchants got busy and forgot to put them out in the morning, ome nights they were left there, sometimes they ended up down at the olice station where the sector patrol would pick them up and bring hem. But they will-- I have a meeting next Wednesday with the DOT ho is coming here and will sit with the Town Engineer, will design xactly what they want, which will be very similar-- what they want s really a soft rubber. So if a car does for some reason nick it nd spiral it somewhere, that it won't either damage or hurt another ar.

Lord knows, Bill, that traffic slowed down and they do work. And hey are much easier than having big overhead signs. So they will eturn. Remind me to call Barry Barth to ask him if he can get the erchants-- they are there early in the morning, they are there when hey leave and they are supposed to put them out and bring them in. t's a cooperative effort on both parts."

Bill Roberts: "Yes. One last thing. I would appreciate the oard considering fixing up the chairs the audience sits in. I think here's six in the first row and I think there's one or two in the ack. I mean we are spending all this money, we're getting all this oney-- "

Supervisor Stark: "They've already been looked at, Bill. The ngineering Department is going to purchasing and, hopefully, very soon e will have them-- "

Bill Roberts: "Because if they take pictures-- TV pictures of

he room, people are sitting there, you know, so."

Supervisor Stark: "George likes to slouch down anyway. Yes, hey have been. Is there anybody else who would like to make comment? ou? George, you know you are my finale."

Lou Passintino: "Lou Passintino, Wading River. I just wanted o know if I could be informed on Resolution 24, amending site plan ound View Golf. Would you just elaborate on that, please. Thank you."

Supervisor Stark: "Is Rick here, Counsel? Did he go back in is office? Let me get it out for you, Lou. Allen, you want to make omment on it? If somebody would get Rick for me, I would appreciate t."

Allen Smith, Esq.: "In the evaluation of the site plan that was reviously approved by the Board, were comments that if possible the lan should be amended as such that no fill or cuts and fills would ccur on the property. As a consequence, the design professional for he golf course resurveyed the property and has altered the designs hat the cuts and fills that were objected to by some of the neighbors, tc., are, in fact, removed.

As a consequence the holes on the westerly side as you look at t have been redesigned to stick with the existing contours and as a onsequence there is no need to lower those elevations and move the oil down onto the easterly part of the job."

Supervisor Stark: "Okay."

Allen Smith, Esq.: "And it is such that anybody that doesn't ollow this, it came into the Town Board so many months ago, it was eferred out to the Planning Board, the Planning Board has sat with he design professionals, gone over it, and has given back to the Town oard its recommendations in support of this change."

Supervisor Stark: "Thank you, Counsel. Rick, would you make a omment on Resolution 24?"

Rick Hanley: "Rick Hanley, again, Planning Director. Just one, im. As the Board is aware, the petition for the change of zone to llow this golf course was approved by this Board and the site plan

r the decision of this Board was to refer the site plan to the lanning Board for its review, that's the original site plan on the olf course. The reason why the Board decided to do that was because here was an existing subdivision in front of the Planning Board in hich this golf course would be constructed.

As Allen has stated, the amended site plan has been referred to he Planning Board. The Planning Board is overjoyed at the change in hat originally the site plan showed-- or the original site plan pproval showed an exportation of a significant amount of material ff the site. The resdesign will, in fact, minimize that cut and fill o the point where there is no exportation of any material off the roperty and that has been submitted or a memo has been submitted to he Town Board to that effect."

Supervisor Stark: "Thank you, Rick. Is there anybody else who as any comment? Steve?"

Steve Haizlip: "Steve Haizlip of Calverton. I would like to ick up on where you say the Omni plant is cancelled. Now, you are ot going to do business with them. Does this rescind Resolution No. 16, dated 28th of June of '96?"

Councilman Lull: "Is that the site plan approval? The amended ite plan approval, Steve?"

Steve Haizlip: "That was amended site plan when Mr. Schuman poke, but none of the rest of us could speak that day-- "

Supervisor Stark: "The site plan has-- "

Robert Kozakiewicz: "That's one of the issues that's before the ourt with respect to the challenge that was brought by Greater alverton Civic Association. The Resolution the Board adopted declared ast End-- or Omni in default under the terms of their agreement with he Town. And that's solely what that Resolution did, which it erminated-- declared them in default and terminated the terms of the greement. The site plan issue is still one that's a subject of itigation as such. We're going to see what the Court's going to ecide-- that's what's before the Judge."

Steve Haizlip: "I don't know. Maybe I'm wrong, but I was under

he impression if Resolution 516 was rescinded by this Town Board, hat stops everything right there. It's all finished."

Couincilman Prusinowski: "Steve, the reality of the situation is ou need customers to build things. They don't have any customers."

Steve Haizlip: "Uh-huh."

Supervisor Stark: "Okay."

Steve Haizlip: "All right. That takes care of that then."

Supervisor Stark: "Thank you, Steve. We are going to take a hort 10 minute recess. One of the Councilman has to confer with the lanning-- oh, I'm sorry, I thought you were done, Steve. Right after ou're done, I'm going to take a 10 minute recess because Councilman ull has a question he has to have answered before we get into the further the Resolutions. So then we'll come back. I'm going to take 10 minute-- yes, there will be, but I want to get his answer before e go further into the meeting. Only for short comment."

Steve Haizlip: "If you want me to come back after the 10 minute reak-- "

Supervisor Stark: "No, that's all right, Steve, go ahead."

Steve Haizlip: "You want me to continue now?"

Supervisor Stark: "I thought you were finished. I'm sorry. My uble apologies."

Steve Haizlip: "All right, thank you, Jim. The Golden Donor lood Drive which occurred on the 2nd of January, which Henry and I re on the committee, brought us 51 pints. And at this time-- I call at out of respect for somebody up here speaking and you sit there nd talk among yourselves. I don't think that's proper and nice."

Supervisor Stark: "Well, Steve, we're listening to you. If you uld like to stand up there and make comment to the Board, I think 's very-- "

Steve Haizlip: "I don't think you can hear me very good."

Supervisor Stark: "I can hear you very clearly."

Steve Haizlip: "Well, then I'll continue."

Supervisor Stark: "I would hope so."

Steve Haizlip: "But I don't like it. I don't think anybody se likes it. I don't believe it should be done. Now that's my rsonal comment and-- "

Supervisor Stark: "I don't happen to agree with you, Steve."

Steve Haizlip: "And that's my belief."

Supervisor Stark: "I don't have to agree with you."

Steve Haizlip: "Well, you don't have to agree, no."

Supervisor Stark: "All right. Please extend your comments."

Steve Haizlip: "Well, I'm finished on that. I wanted to thank u for helping us-- for all your help you gave us in accomplishing is here blood drive. And we certainly appreciate it and Nancy tzman appreciates it because she wants me to extend her thanks."

Supervisor Stark: "Was it good healthy blood or was it thinned t the day after New Year's?"

Steve Haizlip: "Oh, I wouldn't be surprised if some of it was. w, I have been very curious about this Long Island Lighting Company it, so I have sit down and taken the time to write some letters and t some answers. The eight one million dollars that was first given your cousin to say that they were due it or due that money, may ve gotten it. Now, the only thing is they are waiting for the PSC make up their mind as to how to distribute that money but if you nt my personal opinion Long Island Lighting has a strong influence PSC and I think it will be ending up that we won't get none of it. en though we are paying."

Supervisor Stark: "Are you talking about the settlement that-- "

Steve Haizlip: "There's eight one million the first time and-- "

Supervisor Stark: "Oh, the first one."

Steve Haizlip: "Yeah, and then there's seven hundred-- "

Supervisor Stark: "I was going to say the second time it was a ot more than that."

Steve Haizlip: "One point one million. Because I've got it in lack and white, right here on the letter that that's what it is. And hat hasn't been paid and they're waiting to pay it and I have-- so I on't know if that fifty four cents that Mr. Gaffney came up with ust prior to the end of November and added twenty dollars on to our axes, is having any effect of having to pay that or not. I'm not ure about that. Anyhow, now-- "

Supervisor Stark: "Well, the second decision is certainly why I ave to have a police escort going through Brookhaven."

Steve Haizlip: "Well, I don't think-- "

Supervisor Stark: "You wonder why, because, if you know the udge's last name. He's actually my first cousin."

Steve Haizlip: "They know the last name is Stark. Now, in eading the News Review last Saturday as I returned back from Virginia nd Carolina, I tell you I got sort of upset and as the old saying oes down south, I'm madder than an old sitting hen with a gang of iddies. Now, this man of the year business, and people taking raises and so forth for what they've done. Well, I don't know if t's Vic's fault or if it's this young lady's fault, but Vic, you have aken credit hundred per cent for the thousand dollars to (inaudible) hat I worked hard to get for you. Now all they had to say in there, nd would make me very happy, nominated by, nominated by, that's only wo words. Of course my name is not really a word, it's a word in a ense, but the name is standard. So okay, that's my feelings on that."

Councilman Prusinowski: "Well, I didn't know I was getting the ward so they wrote the article without my knowledge, so, but I think t was previously-- "

Supervisor Stark: "You have to blame that young lady right there."

Councilman Prusinowski: "I think it was previously reported rough in the paper when we and I use we because you nominated me and ou were instrumental in-- "

Steve Haizlip: "That's past, I'm talking about the current ead. You know there's a lot of people that read the paper currently, idn't read it before."

Councilman Prusinowski: "There's no question-- I-- okay."

Steve Haizlip: "Okay. Now, I don't want to upset anybody up here too much, which I don't think you are too easy to upset-- "

Supervisor Stark: "Not really."

Steve Haizlip: "But, a few of us in Town here get a little up- et about this here next article. Is this fish tank over here used axpayers' money so far? Is any of our taxpayers' money went into hat fish tank?"

Supervisor Stark: "The fish-- you mean the aquarium? Some tax- ayers money has gone into it, yes."

Steve Haizlip: "Okay, now we've got the answer."

Supervisor Stark: "The last monies that we gave them was not axpayers money, but monies that came from Steve Tanger for economic mpact for mediation downtown which was at the time negotiated with r. Tanger that primarily was going to go to try to build an aquarium owntown."

Steve Haizlip: "All right. Vic, are you still-- "

Supervisor Stark: "A little bit of both, George."

Steve Haizlip: "-- are you still Highway Committee?"

Councilman Prusinowski: "Yes."

Steve Haizlip: "I wish you would get off to the State highway arn and tell them to go up to Calverton Deli and fix the south houlder. That would be coming east. That deli generates a lot of

ew York State tax money and it generates a lot of business for the own and people."

Councilman Prusinowski: "Because they park across the street and alk over to the deli."

Steve Haizlip: "Big trucks. Big trucks can't park in that ittle lot when there's a few cars there."

Councilman Prusinowski: "I know I've seen them there."

Steve Haizlip: "Big trucks, so-- "

Councilman Prusinowski: "We'll call the-- "

Steve Haizlip: "Now, there's been a few times that I've asked ou to do things on that but I never got any response back. Now, I'm trong with your boss on that where you don't get response back to the eople, you know. All right, now-- "

Councilman Prusinowski: "But there were times that we did get hings done, too."

Steve Haizlip: "Oh, yeah."

Councilman Prusinowski: "Okay."

Supervisor Stark: "A lot of things."

Steve Haizlip: "Mr. Jim Lull, your parking meters are still on he street. Now, how long does it take New York State. There's an ld saying, you know, sometimes you are slow as seven year itch and ix years behind on the scratch. I mean-- "

Councilman Lull: "That pretty much-- "

Supervisor Stark: "You want to answer that question or to you ant to get into the Beverly Hills hillbillies?"

Councilman Lull: "That pretty much applies to the DOT, Steve. I hink you're absolutely right. We have submitted a plan after a meet- ng with the DOT that the public parking meters-- we have submitted a

lan. When and if that plan is approved we can go ahead. That's what t boils down to. There can be no change in parking laws in any kind f vehicle laws along a state road without the state approval."

Steve Haizlip: "Okay, now like I once said before, that don't ontrol our town streets, but I guess what you're doing is waiting to et approval from them and then you will make one removal at one time. s that right?"

Councilman Lull: "Yes."

Steve Haizlip: "Thank you."

Supervisor Stark: "Thank you, Steve. We will take a 10 minute ecess. We'll be back at 20 minutes to 9. Thank you."

(Recess)

Supervisor Stark: "The time of 8:45 has arrived and we are back n session. Is there anybody else who would like to make comment to he Town Board? Charlie?"

Charles Cetas: "Charles Cetas, North Fork Environmental Council."

Councilman Prusinowski: "Charlie, I think I turned off that icrophone."

Charles Cetas: "This one?"

Councilman Prusinowski: "Yes."

Charles Cetas: "Charles Cetas, President of North Fork Environ- ental Council. I was away for about nearly a month from Town, so I - as you know, I've made a couple statements on behalf of North Fork nvironmental Council."

Supervisor Stark: "That doesn't give you any credit for time ff."

Charles Cetas: "Tanger III project, and I guess the News Review rticle, December 12th, the week after I left, on page 13, they said anger recently submitted application for retail development on a 14

re parcel to the north of the current mall entrance, that's Route 25. s. Nebbins said Tanger officials last week asked to withdraw the pplication from the Riverhead Town Planning Board agenda in order to ake adjustments. They are quoting her the plan is still there, we're ust not ready to move forward at this time, she said. Then it says, ne town official said that it appears Tanger is backing off develop- ng the 14 acres and instead is considering placing more parking paces on that land. Mrs. Nebbins was unable to confirm or deny that eport, saying she's not involved in that aspect of the company's usiness. Tanger construction manager Kevin Dillon (phonetic) did ot return calls for comment.

My question to the Town Board is what is the status of the Tanger II project? How is it proceeding with the town? As you know we rged the Town Board to rescind their negative declaration on this roject. Is the town considering doing that or not?"

Supervisor Stark: "Is it to the best of my knowledge that the orth Fork Environmental Council served notice of litigation on us day, Bob?"

Robert Kozakiewicz: "As a matter of fact, I was just looking at t. We received a letter and a memorandum setting forth the North ork Environmental Council's position."

Charles Cetas: "Right, I understand."

Robert Kozakiewicz: "We haven't been served with a suit."

Supervisor Stark: "Oh, somebody told me that."

Charles Cetas: "I think we just sent a memorandum-- a legal morandum-- "

Supervisor Stark: "Because if it was litigation, I would say no mment, we will let the attorneys-- in the meantime, I'll let Rick nley answer your question. What is the status of Tanger III?"

Charles Cetas: "Yes, is it now a parking lot? Is it a full pplication for-- "

Supervisor Stark: "If you let me, I'll explain the question.

at is the status of Tanger III, Rick?"

Rick Hanley: "The Town received a petition for a-- "

Supervisor Stark: "Let the record show that the-- "

Rick Hanley: "Rick Hanley, Planning Director. The Town Board eceived both a site plan petition for an expansion of a manufacturer's tlet on the southerly portion of the premises of the property. As u know, that portion was not developed originally, that it was ithin the regulated area and Tanger decided at that time to avoid a ermit to the DEC on the first phase.

The second petition was for a special permit for a retail use ithin the Business F Business District, there's a specific retail e which is for lack of a better word, called a box. The unit must e soley occupied by an individual store and must have a floor area f a minimum 100,000 square feet.

So that special permit has been submitted to the Town. The Town ard deliberated on the EAF that was submitted with the special permit s well as two submissions that were made part of the assessment form hich were an analysis of economic impact to commercial areas within e Town as well as traffic impacts. Those traffic impacts dealt with th manufacturer's outlet development as well as the retail develop- ent. That neg dec was issued by the Town Board by Resolution. There as been no further action or submissions by Mr. Tanger in that regard, in.

The Planning Board has an appearance by Tanger on the special ermit and the Planning Board's decision was to delay any report to he Town Board until a permit was issued by the New York State DEC for hat area on the parcel."

Supervisor Stark: "Thank you."

Rick Hanley: "You're welcome."

Supervisor Stark: "Is there anybody else who would like to make omment? Rolph?"

Rolph Kestling: "Rolph Kestling, Wading River. I'm a little

nfused. Last October at a meeting, I believe Steve Haizlip was com-laining about the unkempt grounds around the entrance going into nger Mall and Ms. Nebbins was there at that time and she got up and e said according to the State DEC or whatever, they're not allowed touch a blade of grass. And you concurred on that. You said yes, at's absolutely right. Now, what gives-- "

Supervisor Stark: "In the entrance, Rolph, there is no grass."

Rolph Kestling: "Well, the bushes and the-- "

Supervisor Stark: "Yes, because at that particular time they re protected by the Wild Scenic Rivers Act."

Rolph Kestling: "Oh, they're not protected anymore?"

Supervisor Stark: "They're protected-- they're inside the Wild enic Rivers Act which is a half mile from the river's edge. With e advent of the extension of the commercial sewer district, that elief may be granted by the DEC. That's yet to be heard."

Rolph Kestling: "All right. As long as I'm up here anyway, at's happening down on the Hulse Landing project? They were pposed to replace pipes and this and that. Nothing has moved. They ded two more (inaudible) there, but nothing is doing. And on top f that, when they dug those holes there, that deep, come on, fill it p."

Supervisor Stark: "All right. I can't give you an answer on it ght now because I don't see Kenny Testa here tonight. I will get answer. If you will give me-- Lori-- your phone number, I'll call a tomorrow morning and have the answers for you."

Robert Kozakiewicz: "I know they were reaching a meeting at the te."

Rolph Kestling: "Okay. But, you know, you can even lose your nt end in those things."

Robert Kozakiewicz: "I know that Thomas Wolpert who is the gineer from Young & Young had had further communications with the ntractor concerning the rejection of that piping and they were

ranging a site visit in order to inspect the pipe and determine-- parently the contractor had raised some issue or the pipe supplier d raised some issue and he was being brought out-- I think-- from w Jersey to the site to look at it. I'm-- I believe that's either curred this week or will occur next week. I can't recall the exact te, and the communications from Mr. Wolpert to the contractor which lt with the other issue, the water pipe issue, I think have been mewhat addressed and my understanding is once this pipe issue gets solved, the contractor has indicated he's ready to proceed forward."

Rolph Kestling: "Who's going to pay for the boo-boo on this?"

Supervisor Stark: "It's not going to be the Town of Riverhead, lph."

Rolph Kestling: "That's what I want."

Supervisor Stark: "Is there anybody else who would like to make mment? George. Finale, George. Do you want to say something se, too, Steve?"

Steve Haizlip: "If you will allow me, but-- "

Supervisor Stark: "I certainly will. I always try to use George or my finale, but we will use you tonight."

George Schmelzer: "You eat your supper yet?"

Supervisor Stark: "I haven't had supper yet. But after the lidays, I don't know whether I really need supper or not."

George Schmelzer: "What's the Town Board doing about the disparity the tax collection between the three towns in Central District 2?"

Supervisor Stark: "As I said once before, George, I have made veral trips to Albany. We are working on that. We hope to have islation or the change in the formula, and I think it has to be obably done by legislation and maybe by-- I don't know what the ocess is up there. I had a meeting with Senator LaValle less than o weeks ago on several topics. I have a meeting with Senator LaValle is coming Friday. I'll seek that. The only ones who can change is disparity for us right now is the State legislature and I will

ontinue to give every effort that I have in getting our delegation rom Long Island to achieve that goal."

George Schmelzer: "I think maybe our fire taxes is the same roblem maybe-- Fire Department tax. Might want to look into that, oo. We're getting screwed that way, too. Just a thought."

Supervisor Stark: "Okay."

George Schmelzer: "And I don't see why you need to go up to see enator LaValle."

Supervisor Stark: "I not only see him in Albany, but there are ther things that we do in Albany while we are there. I also see him hen he's down here. I arrange meetings. He usually gets down here hursday night and I arrange meetings for Friday. Sometimes in the elden office, sometimes he's out in this particular area and I can et to meet with him then."

George Schmelzer: "He can come down here before election. He as done here, he did a lot of butt kissing for votes so he can come own here."

Supervisor Stark: "Well, I found Senator LaValle over the last o to three years that I've been Acting and now Supervisor, to be ery cooperative in arranging meetings and you've got to remember, e's one Senator out of several so there's a lot of things that have ot to happen upstate before things will change."

George Schmelzer: "We need some results."

Supervisor Stark: "Well, I'm trying, George. I hope to be able bring those results"

George Schmelzer: "Yeah, because never heard anything. I figured you were sleeping on it because don't hear anything."

Supervisor Stark: "No."

George Schmelzer: "Really. Good. Now-- "

Supervisor Stark: "Thank you, George."

George Schmelzer: "Wait a minute. You said you were going to ave everything. I'll save it, too. You said last time that you had o control over what the Nassau County Boy Scouts who want to sell to. f they wanted to sell to a golf course, why didn't you support them?"

Supervisor Stark: "We absolutely did support them. We put an verlay over the zone long prior to the Pine Barrens legislation-- "

George Schmelzer: "That was four years ago."

Supervisor Stark: "-- we were in support of-- "

(Tape ended and did not pass on to the second tape. The balance of Mr. Schmelzer's statements were not recorded.)

Steve Haizlip: "Steve Haizlip of Calverton. One thing that isturbed me quite bad is when this petition that Sherry Patterson irculated and they said it came in four days late. Well, I investigated hat and got all the way to Albany and got answers back that it is 30 ontinuous days. That is unfair. Now, it should be 30 working days. his thing went down when the Thanksgiving holidays were involved, ut I have submitted paperwork to our New York State representatives f this district that that should be changed to 30 working days nstead of 30 continuous days.

If the lawmakers that made the law is not on duty on holidays and eekends, and the Town government is not on duty on holidays and eekends, then how come it's got to be 30 continuous days when it ould be 30 working days."

Supervisor Stark: "Thank you. Bill?"

William Kasperovich: "William Kasperovich, a resident of River- ead Township. There are a couple of things here that I want to bring o your attention now that we have a vacant chair there on the podium ot be that as it may."

Supervisor Stark: "Mr. Kwasna is on vacation."

William Kasperovich: "Well, more power to him. You can't put he Township on vacation just because it's bad weather. Your esolution #12 maintains policy of nondiscrimination. This could very

ell be true depending on how far back in time you go and from what eriod are you (inaudible) this policy. I don't think I'll ever for- et the authority (inaudible) of the township coming to my house for he first time and only time in his tenure of office to tell me I'm o old to work for Riverhead. So it depends on how far back you go ith this policy. One should understand that I feel an example that can attest to this. However, I'm also aware and can attest to ther situations. Mr. Stark I'm depending a great deal on you as ead man of this Township to be in your term of office, and I hope t's more than just one, that such a thing never again exists."

Supervisor Stark: "I will do my utmost, Bill."

William Kasperovich: "The other point I would like to bring to he Town's attention is the Planning Board. I continually hear people oming up here saying, the Planning Board approved this, the Planning oard approved that. You might say this is the (inaudible) but I don't hink so."

Supervisor Stark: "The Planning Board really only has one egislative authority and that's to approve subdivisions. The other ctions taken by the Planning Board would be only recommendations via he form of a Resolution-- would be for recommendations or comments hat we ask them to make. Their only legal power if I'm mistaken, obby, you can correct me, is the approval or disapproval of site-- ubdivisions."

William Kasperovich: "Well, I'm particularly focusing in on pecial permits."

Supervisor Stark: "What? I didn't hear you, Bill."

William Kasperovich: "Particularly focusing on special permits."

Supervisor Stark: "Well, part of our code is anytime we go for special permit, it must be submitted to the Planning Board for their ecommendations."

William Kasperovich: "All right. They can act on favorably or ith comment or act unfavorably."

Supervisor Stark: "Yes, they could-- "

William Kasperovich: "But as far as this words of approving or ot approving, I think it's out of order to put into the record that hey approve something."

Supervisor Stark: "They would make-- "

William Kasperovich: "On a special permit, I don't think that hat word applies and so it should be (inaudible)."

Supervisor Stark: "Point well taken."

William Kasperovich: "I see that you have appointed a new Chair- lady for the Planning Board. I don't know what her qualifications or alents are. You appoint a Vice-Chairman."

Supervisor Stark: "Barbara Blass has been the Chairlady of the lanning Board for the last two years so we are reaffirming her ppointment for the third year. Barbara has been on the Planning oard for at least a term and three-quarters. The Vice-Chairman has een on the Planning Board for at least, I think, three terms or 15-- etween 10 and 15 years."

William Kasperovich: "That might-- that no doubt is quite true, ut Mr. (inaudible) has only one specialty, water in the Health epartment. That is his working life scope. Water in the Health epartment. Now, this in planning for the Town-- for the good of the own-- seems like a one-sided interest.

I also note that you have listed a man by the name of John aynor, PE., Planning Board."

Supervisor Stark: "John has been a consultant to the Planning oard now for about the last five, six years."

William Kasperovich: "Well, I'm seeing some of his recent work. I have my own thoughts about it."

Supervisor Stark: "Okay."

William Kasperovich: "But, I don't see anywhere as being a part f this, one most technically individual in the Town Hall as part of lanning Board. And that's our Town Engineer."

Supervisor Stark: "The Town Engineer reviews all site plans and does the calculations for drainage, etc., etc. So he is a-- although you may not formally see them-- his name appearing along with the board, he is consultant on every project."

William Kasperovich: "Well, I am not going to get into Mr. Testa's workload, but I have my-- and I don't want this to sound as if I'm making any disparaging remarks. I thank God that he is here. But he is being sidetracked with a lot of legwork, a lot of what you might say high class arithmetic which takes time and effort and what we need from this man is his viewpoints which are influenced by his extended knowledge. And there we are not fully utilizing that. So this makeup of the Planning Board which I've been hearing Planning Board approved this, Planning Board approved that, the Planning Board does recommends to the Town Board. Does not approve anything. The Town Board approves."

Supervisor Stark: "Again, I refer back to Bill, that the only power of legislation that they have, if that's the way you would describe it, Bobby, you can correct me if I'm wrong, would be the approval of subdivision or disapproval. The other remaining aspects of activities of the Planning Board are certainly as you say calling for recommendations to be passed on to the Town Board for their consideration and their knowledge."

William Kasperovich: "All right. One final item. During our break, I told our Town Attorney that the only avenue left for me to take is to file a formal complaint against one of your employees. Now this I don't think accomplishes anything to the good of the Township. But I think it would be wise for you gentlemen to check with your Town Attorney and review the conduct of the man that he can elaborate on what he has done and has not done."

Supervisor Stark: "All right."

William Kasperovich: "It might be a small item, but if any one person in this Township can thumb his nose at the Town Board, the Town Board loses position and this cannot be tolerated. So, once again, I ask you (inaudible) low profile and hold to what we believe we have put into the Town code, in the amendments, in the additions, and we put them there because we honestly believe that they are to be lived by and upheld. And if there is some reason that it cannot be so, then

et us make the necessary corrections."

Supervisor Stark: "Okay."

William Kasperovich: "Thank you."

Supervisor Stark: "Thank you, Bill. Let us take up the esolutions. Wait a minute. Looks like fire in the eyes. I don't ant this thing to go on too far, now, so."

Allen Smith, Esq.: "Mr. Stark and members of the Board. I pologize in advance for burdening you with these comments and the ime that it will take. And I apologize to the audience who knows hat some of the comments that were just made are just absolutely un- rue and unfounded and unwarranted. But where we are is we have the V camera up there and there are a lot of people who do not know the eople that were just disparaged by Mr. Kasperovich. And I interpret he fact that some of us sit here in the audience and you sit up there n the Board and that somehow by sufferance and that we don't rise to he occasion, somehow we concur. I for one know Mr. Baer for a long ime. I've had my differences with Mr. Baer. Mr. Baer is a talented entleman, an absolute professional, who probably forgets on a given ay more about Planning and Zoning than Mr. Kasperovich ever knew, and or Mr. Kasperovich to come up here and disparage him is unwarranted, nfair, he takes a shot at a guy who is not here, he doesn't know t's coming, it's absolutely untrue and anybody who is watching us on W should know that it's untrue.

Now, with reference to Mr. Raynor, again, Mr. Raynor is a gentle- an that I've had my differences with, but he is a consummate pro- essional. And he does a very, very fine job for this jurisdiction nd the other jurisdictions that he represents. And, again, Mr. asperovich neither has the talent, fortitude or anything else to arry Mr. Raynor's bags. And it's unfortunate that comments such as hat are said here and nobody says anything about it. Thank you."

Supervisor Stark: "Thank you. Let us take up the Resolutions."

Resolution #1

Supervisor Stark: "I'll get you right after the Resolutions, ill."

William Kasperovich: "I think it's in order."

Supervisor Stark: "I'm going to take up the Resolutions, Bill, ill recognize you after the Resolutions. Barbara."

Resolution #1

Councilman Wittmeier: "Should I take all these down to 9? Read ch individual one? Resolution 1 sets the salaries of elected ficials for the year 1997. So moved."

Councilman Prusinowski: "Seconded."

Supervisor Stark: "Moved and seconded. Any discussion? All favor?"

The Vote (Collective response): "Aye."

Supervisor Stark: "Opposed? Motion carried."

Resolution #2

Councilman Prusinowski: "Sets salaries of general town employees the year 1997. So moved."

Councilman Lull: "Seconded."

Supervisor Stark: "Moved and seconded. Any discussion? All favor?"

The Vote (Collective response): "Aye."

Supervisor Stark: "Opposed? Motion carried."

Resolution #3

Councilman Lull: "Sets salaries of Public Parking District ployees for the year 1997. So moved."

Councilman Wittmeier: "Seconded."

Supervisor Stark: "Moved and seconded. Any discussion? All

favor?"

The Vote (Collective response): "Aye."

Supervisor Stark: "Opposed? Motion carried."

Resolution #4

Councilman Wittmeier: "Sets salaries of Police Officers for the ear 1997. So moved."

Councilman Prusinowski: "Seconded."

Supervisor Stark: "Moved and seconded. Any discussion? All favor?"

The Vote (Collective response): "Aye."

Supervisor Stark: "Opposed? Motion carried."

Resolution #5

Councilman Prusinowski: "Sets salaries of the Water District mployees for the year 1997. So moved."

Councilman Lull: "Seconded."

Supervisor Stark: "Moved and seconded. Any discussion? All favor?"

The Vote (Collective response): "Aye."

Supervisor Stark: "Opposed? Motion carried."

Resolution #6

Councilman Lull: "Sets salaries of Refuse and Garbage collection istrict for the year 1997. So moved."

Councilman Prusinowski: "And to follow up what I said previous bout our collection costs in the Town, we have one employee left in he Sanitation Department. So moved."

Councilman Wittmeier: "Seconded."

Supervisor Stark: "Moved and seconded. Any discussion? All favor?"

The Vote (Collective response): "Aye."

Supervisor Stark: "Opposed? Motion carried."

Resolution #7

Councilman Wittmeier: "Sets salaries of Sewer/Scavenger Waste District for the year 1997. So moved."

Councilman Prusinowski: "Seconded."

Supervisor Stark: "Moved and seconded. Any discussion? All favor?"

The Vote (Collective response): "Aye."

Supervisor Stark: "Opposed? Motion carried."

Resolution #8

Councilman Prusinowski: "Sets salaries of Street Lighting District for the year 1997. So moved."

Councilman Lull: "Seconded."

Supervisor Stark: "Moved and seconded. Any discussion? All favor?"

The Vote (Collective response): "Aye."

Supervisor Stark: "Opposed? Motion carried."

Resolution #9

Councilman Lull: "Sets salaries of the Highway District employees for the year 1997. So moved."

Councilman Prusinowski: "Seconded."

Supervisor Stark: "Moved and seconded. Any discussion? All favor?"

The Vote (Collective response): "Aye."

Supervisor Stark: "Opposed? Motion carried."

Resolution #10

Councilman Wittmeier: "Fixes time of regular meetings of the wn Board. So moved."

Councilman Prusinowski: "Seconded."

Supervisor Stark: "Moved and seconded. Any discussion? All favor?"

The Vote (Collective response): "Aye."

Supervisor Stark: "Opposed? Motion carried."

Resolution #11

Councilman Prusinowski: "Maintains policy of nondiscrimination. moved."

Supervisor Stark: "No, you're on 11."

Councilman Prusinowski: "Oh. Authorizes publication of public earing notice for use of municipal facilities. So moved."

Councilman Wittmeier: "Seconded."

Supervisor Stark: "Moved and seconded. Any discussion? All favor?"

The Vote (Collective response): "Aye."

Supervisor Stark: "Opposed? Motion carried."

Resolution #12

Councilman Lull: "Maintains policy of nondiscrimination. And points the Supervisor as the officer in charge. So moved."

Councilman Prusinowski: "Seconded."

Supervisor Stark: "Moved and seconded. All in favor?"

The Vote (Collective response): "Aye."

Supervisor Stark: "Opposed? Motion carried."

Resolution #13

Councilman Wittmeier: "Sets towing and storage fees for vehicles. moved."

Councilman Prusinowski: "Seconded."

Supervisor Stark: "Moved and seconded. Any discussion? All favor?"

The Vote (Collective response): "Aye."

Supervisor Stark: "Opposed? Motion carried."

Resolution #14

Councilman Prusinowski: "Sets mileage for reimbursement for all employees. So moved."

Councilman Lull: "Seconded."

Supervisor Stark: "Moved and seconded. Any discussion? This be to the IRS rate and it's allowed. Any other discussion. All favor?"

The Vote (Collective response): "Aye."

Supervisor Stark: "Opposed? Motion carried."

Resolution #15

Councilman Lull: "Designates seven local banks as official positories for Town funds. So moved."

Councilman Prusinowski: "Seconded."

Supervisor Stark: "Moved and seconded. Any discussion? All favor?"

The Vote (Collective response): "Aye."

Supervisor Stark: "Opposed? Motion carried."

Resolution #16

Councilman Wittmeier: "Reappoints Justine Wells as Town storian. So moved."

Councilman Prusinowski: "Seconded."

Supervisor Stark: "Moved and seconded. Any discussion? All favor?"

The Vote (Collective reponse): "Aye."

Supervisor Stark: "Opposed? Motion carried."

Resolution #17

Councilman Prusinowski: "Appoints Robert Stromski to the chitectural Review Board. So moved."

Councilman Lull: "Seconded."

Supervisor Stark: "Moved and seconded. Any discussion? All favor?"

The Vote (Collective response): "Aye."

Supervisor Stark: "Opposed? Motion carried."

Resolution #18

Councilman Lull: "Appoints Barbara Blass, Chairman of the anning Board. So moved."

Councilman Prusinowski: "Seconded."

Supervisor Stark: "Moved and seconded. Any discussion? All Favor?"

The Vote (Collective response): "Aye."

Supervisor Stark: "Opposed? Motion carried."

Resolution #19

Councilman Wittmeier: "Appoints Joseph Baier as Vice-Chair to Planning Board. So moved."

Councilman Prusinowski: "Seconded."

Supervisor Stark: "Moved and seconded. Any discussion? All favor?"

The Vote (Collective response): "Aye."

Supervisor Stark: "Opposed? Motion carried."

Resolution #20

Councilman Prusinowski: "Appoints Bruce Stuke as Vice-Chairman the Zoning Board of Appeals. So moved."

Councilman Lull: "Seconded."

Supervisor Stark: "Moved and seconded. Any discussion? All favor?"

The Vote (Collective response): "Aye."

Supervisor Stark: "Opposed? Motion carried."

Resolution #21

Councilman Lull: "Appoints CPA for the Town's annual audit. So
ved."

Councilman Wittmeier: "Seconded."

Supervisor Stark: "Moved and seconded. Any discussion?
t the record show that Councilman Wittmeier seconded. All in favor?"

The Vote (Collective response): "Aye."

Supervisor Stark: "Opposed? Motion carried."

Resolution #22

Councilman Wittmeier: "Reappoints legal representation: service
ntracts, engineering, computer, court reporting, board transcription,
d interpretation consultants. So moved."

Councilman Prusinowski: "Seconded."

Supervisor Stark: "Moved and seconded. Any discussion? All
favor?"

The Vote (Collective response): "Aye."

Supervisor Stark: "Opposed? Motion carried."

Resolution #23

Councilman Prusinowski: "Rejects bid for improvements to
lockville Museum Farm. So moved."

Councilman Lull: "Seconded."

Supervisor Stark: "Moved and seconded. Any discussion? All
favor?"

The Vote (Collective response): "Aye."

Supervisor Stark: "Opposed? Motion carried."

Resolution #24

Councilman Lull: "Amends site plan of 1994 Sound View Golf, Inc. Rock Golf Course, Wading River. So moved."

Counciman Prusinowski: "Seconded."

Supervisor Stark: "Moved and seconded. Any discussion? All favor?"

The Vote (Collective response): "Aye."

Supervisor Stark: "Opposed? Motion carried."

Resolution #25

Councilman Wittmeier: "Resolution and consent approving the dedication of highways known as Crystal Drive, Serial Drive, Ruby Drive, and recharge basin in Crystal Pine Estates. So moved."

Councilman Prusinowski: "Seconded."

Supervisor Stark: "Moved and seconded. Any discussion? All in favor?"

The Vote (Collective response): "Aye."

Supervisor Stark: "Opposed? Motion carried."

Resolution #26

Councilman Prusinowski: "Authorize attendance of employee at training seminar. So moved."

Councilman Lull: "Seconded."

Supervisor Stark: "Moved and seconded. Any discussion? All in favor?"

The Vote (Collective response): "Aye."

Supervisor Stark: "Opposed? Motion carried."

Resolution #27

Councilman Lull: "Authorizes the submission of a grant application to the US Department of Justice for COPS universal hiring funding. So moved."

Councilman Prusinowski: "Seconded."

Supervisor Stark: "Moved and seconded. Any discussion? All in favor?"

The Vote (Collective response): "Aye."

Supervisor Stark: "Opposed? Motion carried. Do all of those."

Resolutions Nos. 28 through 37

Councilman Wittmeier: 28 through 37 appoints Recreation Aides to the Riverhead Recreation Department. So moved."

Councilman Prusinowski: "Seconded."

Supervisor Stark: "Moved and seconded. Any discussion? All in favor?"

The Vote (Collective response): "Aye."

Supervisor Stark: "Opposed? Motions carried."

Resolution #38

Councilman Lull: "Approves Highway Superintendent expenditures. So moved."

Councilman Prusinowski: "Seconded."

Supervisor Stark: "Moved and seconded. Any discussion? All in favor?"

The Vote (Collective response): "Aye."

Supervisor Stark: "Opposed? Motion carried."

Resolution #39

Councilman Wittmeier: "Approves application of David J. Willmott r. and David J. Willmott Jr. So moved."

Supervisor Stark: "Seconded. Moved and seconded. Any discussion? ll in favor?"

The Vote (Collective response): "Aye."

Supervisor Stark: "Can I have a roll call vote, please?"

The Vote: "Councilman Wittmeier, aye; Councilman Lull, nay; ouncilman Prusinowski, abstain; Supervisor Stark, yes. Motion fails, ot adopted."

Resolution #40

Councilman Prusinowski: "Waives fees for Timber Ridge Homes. So oved."

Councilman Lull: "Seconded."

Supervisor Stark: "Moved and seconded. Any discussion? All n favor?"

The Vote (Collective response): "Aye."

Supervisor Stark: "Opposed? Motion carried."

Resolution #41

Councilman Lull: "Approves special permit application of Darroll Meyer that we talked about earlier. So moved."

Councilman Prusinowski: "Seconded."

Supervisor Stark: "Moved and seconded. Any discussion? All in favor?"

The Vote (Collective response): "Aye."

Supervisor Stark: "Opposed? Motion carried.

Is there a motion to pay the bills?"

Councilman Prusinowski: "I make a motion to pay the bills."

Councilman Lull: "Seconded."

Supervisor Stark: "Moved and seconded. Any discussion? All
ı favor?"

The Vote (Collective response): "Aye."

Supervisor Stark: "Opposed? Motion carried."

Councilman Prusinowski: "Mr. Supervisor, I make a motion to
djourn the meeting."

Supervisor Stark: "Now, the Chair will recognize Mr. Kasperovich."

Councilman Prusinowski: "Actually a motion to adjourn the meeting
s not debatable."

Supervisor Stark: "I had recognized Mr. Kasperovich before the
otion. Bill, quickly, please."

William Kasperovich: "William Kasperovich, a long time resident
f this Township. (inaudible).

Councilman Prusinowski: "You know, Bill, that's very incorrect.
nd I'm going to stand my ground because you say a lot of things up
ere that are absolutely not true and I've listened to them for 15
ears. And the only reason we don't respond to you is because we
on't want to get into this argument. And I've been very patient for
6 years sitting up here and listening to you. I've been very polite
o you. Even the times you wouldn't recognize me because I thought
ou were mad at me and you said I don't exist anymore. You made your
ittle crack about Mark going on vacation. You had the empty chair.
he fact of the matter is you say a lot of things that are absolutely
ot true. Excuse me. I made a motion to adjourn, which is not
ebatable. No. It's not out of order."

William Kasperovich: "It's out of order. So you say because-- "

Councilman Prusinowski: "No. You know something, I know. You ıow something, I know the rules of orders. You don't."

Supervisor Stark: "The Chair has recognized Mr. Kasperovich for ıe purpose of making a statement. Bill, I'm not going to allow - or I will adjourn the meeting. Please make your statement. I had ecognized Mr. Kasperovich before a motion was for adjournment. I ill stand by my recognition and then I will entertain a motion for djournment."

William Kasperovich: "All right. I feel that I am entitled to rebuttal to Mr. Smith's insults and disparaging remarks which I egin to recognize as an attorney, trial attorney's gimmick. Here is man that was traveling a very narrow road of deceit and concealment ıd instead of defend-- where instead of straightening the situation ıt, he is going to tear the man apart that said it. This is an old awyer's trick and I'm sure you people recognize this. But Mr. Smith as no privileges up here than any other citizen and to tolerate this fter him coming up and misinforming the public, especially you gentle- en, can't be acceptable.

So he gets up here and he tears me apart. I know Mr. Biaer be- ause he's an alumni of mine. I know Mr. Raynor because I have worked ith people that he worked in offices with. I am familiar with these eople. And-- made no disparaging remarks about them personally ther than their position that they were appointed to tonight.

Now, this Mr. Smith, his attitude and mentality feels he's got o tear Kasperovich apart to undo what? That he came up here before inaudible) of deceit and concealment. So the validity and the enuineness of his words have to be discounted because he's taking dvantage of you people allowing him to carry on this way. Thank you."

Supervisor Stark: "Thank you. No further business to be brought rth, I will entertain a motion for adjournment."

Councilman Prusinowski: "So moved."

Supervisor Stark: "So moved. Seconded. Discussion? Vote? Aye. ıe meeting is adjourned."

Meeting adjourned: 9:29 p.m.

Barbara Gaetani
Town Clerk
