

Minutes of a Regular Board Meeting held by the Town Board of the Town of Riverhead held in the Jamesport Community Center, Jamesport, New York on Tuesday, August 6, 1991 at 7:30 p.m.

Present: Joseph F. Janoski, Supervisor
Denise Civiletti, Councilwoman
Victor Prusinowski, Councilman
James Stark, Councilman
Frank Creighton, Councilman

Also Present: Patricia Moore, Town Attorney
Irene J. Pendzick, Town Clerk

Supervisor Janoski called the meeting to order at 7:30 p.m. and the Pledge of Allegiance was recited .

Supervisor Janoski: "Before we get into the normal business of the Town Board Meeting, the Members of the Town Board and I would like recognize the National Night Out and of course we are going to take a break at 8:30 and the Jamesport Civic Association is sponsoring a little get together out by the gazebo. It is my pleasure to proclaim this day and I would like to read you this proclamation.

WHEREAS, the National Association of Town Watch is sponsoring the eighth annual edition of important nation wide crime and drug prevention on August 6th, 1991 called National Night Out, and

WHEREAS, National Night Out provides a unique opportunity for Riverhead to join forces with thousands of other communities across the country promoting cooperative police community crime and drug prevention efforts, and

WHEREAS, it is essential that all citizens of Riverhead be aware of the importance of crime prevention programs and impact that their participation can have on reducing crime and drug abuse in Riverhead,

WHEREAS, neighborhood awareness, community unity and police community cooperation are the important themes of National Night Out programs.

NOW THEREFORE I, Joseph F. Janoski the Supervisor of the Town of Riverhead proclaim August 6, 1991 to be National Night Out and I do hereby call upon all citizens of Riverhead to join the Town of Riverhead at the National Association of Town Watch in supporting and participating in the eighth annual National Night Out on August 6th, 1991.

IN WITNESS WHEREOF, I here unto set my hand and cause the great seal of the Town of Riverhead to be affixed on this 6th day of August, the year of Our Lord 1991.

I would like to present this proclamation to Bill Welsh, the president of the Jamesport Civic Association. Bill if you would

come forward.

With our thanks for your participation and support of this program thank you.

I have a motion to approve the minutes of the Regular Board Meeting held on June 18th, July 2nd, July 16th and a Special Board Meeting on July 23rd. and one of July 24th."

Councilman Vic Prusinowski: "So moved.

Councilwoman Denise Civiletti: "Seconded."

Supervisor Janoski: "Moved and seconded."

The Vote: Creighton, yes; Stark, yes; Civiletti, yes; Prusinowski, yes; Janoski, yes. 5 YES

Supervisor Janoski: "Let me say on behalf of the Board that we are very pleased to be here in the community of Jamesport at a facility which gets a great deal of use and this will become an annual practice of having Town Board meetings both here and in the Wading River area. We were talking outside that maybe next time we will have the meeting out of doors if it is a beautiful evening such as we have tonight. Reports."

REPORTS:

Building Dept.	For month of July 1991
Police Depart.	For month of June 1991
Town Clerk	For month of July 1991
Open Bid Report - Tractor Trailer/Highway Department	Opened August 5, 1991 (1 Bid Received)

NAME: Trux, Inc.

ADDRESS: Riverhead

BID: \$7,470.00

Supervisor: "Thank you. Applications."

APPLICATIONS:

Site Plan	North Fork Bank (handicap ramp)
Special Permit	Meat Way (business sign, Rte. 58)
Special Permit	Birchwood (directional sign)
Special Permit	All County Aggregates (trade shop and gravel and sand processing, Kroemer Ave)

Petition 32 members of Westwood Acres Civic Assoc. requesting that Additive Circuits be financially responsible for hookup to the town water system

Site Plan East End Commons (seven retail stores)

Special Permit Roanoke Links/Golf and clubhouse

Supervisor Janoski: "Correspondence."

CORRESPONDENCE:

Supervisor Janoski: "Thank you. The time for the first scheduled public hearing has not yet arrived. I will recognize anyone who wishes to be heard on any subject."

Ron Wellman, Member of East End Surf Club: "I'm waiting for our president to show up. I don't want the meeting to pass without our representation concerning beach permits."

Supervisor Janoski: "Thank you. Steve."

Steve Haizlip, Calverton: "Mr. Supervisor and other Board Members. I don't know how the July 23rd. meeting got by me. And I didn't remember it, but I guess it was short published. So I suppose anything I want to say towards you now will not matter. It will not be in your record right."

Supervisor Janoski: "Certainly there is a record kept of this meeting. Are you talking about the public hearings on the solid waste garbage?"

Steve Haizlip: "Yes. After I found about it I felt very bad that I just didn't remember it and did not come. What I would have liked to have said if I would have been there and I'll say it now for the purpose of this meeting. Some people don't like to hear me talk like this, but I think we are beginning to be a little bit communist controlled and dominated. Because if I got a pickup truck and I bought it for the sole purpose of taking my garbage, now if they've got a recycling area somewhere why can't I take it to that recycling area and I've got it recycled. I think I have that right. Why do I have to yield to a planner so to speak to that's getting twelve or fifteen thousand dollars for this chore and he's bringing all the other people in - the carters and so forth. I thought that like fifty years ago when I was sitting on Lincoln Field down in Miami Beach, Florida and this drill instructor is telling me that I went down there for freedom and future of the Country and for my children and so forth. This ain't it. Because if I've got to pay two or three hundred dollars more for the guy to come and pick it up when I've got my own transportation and I can take it to the site as good as he can. Okay.

Now I've got a couple of other things. I suppose you have heard of the philosophy or saying: Everything that you would like to know or things that you would like to know, but some people are afraid to ask. During my last two weeks I've had quite of few people approach me, talk to me and selected for me to be their spokesman. I guess I have to take on that task. At the last meeting Frank mentioned there that he wasn't aware of any authorization of funds to hire a super sleuth. And now I've been asked if that is the case and he didn't know and the paper states that he didn't know and he didn't like to go along with authorizing paying, but I think the other members didn't want to leave the other creditors hanging out so they went along. Now the key question is did you have the sole authority to authorize for them to hire a super sleuth in the quiet."

Councilman Vic Prusinowski: "Steve the authorization for that action was made prior to Mr. Creighton's appointment to the Town Board. Several months before his appointment it was fully authorized. That's why the four members who authorized it paid the bill."

Steve Haizlip: "Well when I first found out about it I just came back from North Carolina and Virginia so I wasn't fully aware at the last meeting of what was going on so I made a study

and as I said I got inquiries. So this goes ways back. So it's got to be confidentially among them that it was okay. Alright. That answers that.

Now another thing. I'm reading the NEWSDAY this past Wednesday, it'll be a week tomorrow, and all of a sudden I see in there where the Town Clerk, the one that is running to be elected, I think her name is Mrs. Moore. I see in there that it looks like that she is getting harassed, so to speak, because she wants to make fund-raising and she is going about it in a unique way to get this fund-raising. It just sort of hits me now maybe I'm wrong, but this is just the way I got it in my mind and you may not think anymore of me, but I don't want you to think any less either, but it looks like maybe the elephants trunk might have been leaking a little bit to some higher ups somewhere when this information got out, because it kind of said if I get one complaint. So it's like I'm urging somebody on. Now that was on Wednesday. On a Friday I go somewhere and I bring the subject up to this particular person, how I read it in the paper and so forth, so she says that ain't nothing did you hear about Mr. Prusinowski getting \$10,000.00. Wooooooo, I says No! That was a game so to speak for raising funds. Let look and see if anything appears in the paper. I guess the donkey didn't bray because nothing every appeared in the paper on that."

Councilman Prusinowski: "Steve, I would just to answer that question. We all run for public office. When I ran first in 1979 I spent \$12,000.00 of my own money. Over the last 15 years I probably have contributed to the Jamesport Fire Department every year runs a \$10,000.00 raffle. Bill Mayday comes down and gets me for \$200.00 a year for 15 years. So right there that's about \$3,000.00. Yes I won \$10,000.00 and I'm very happy that I won it. But I have to tell you that unfortunately the way it's - not only for political organizations, but for fire departments, for non profit organizations that is a mechanism that is used and I'm a member of a lot of organizations that run raffles and lotteries to raise money."

Steve Haizlip: "Hey it's alright. You put your money up and you're entitled like anybody else."

Supervisor Janoski: "Steve, if I could please. It sometimes amazes me how you put some things together."

Steve Haizlip: "I do the best I can Joe."

Supervisor Janoski: "But I got the jist of what you're saying and you're talking about the fund-raiser that was held. The question was raised not in Riverhead, it was raised in Islip where there is a primary between the incumbent supervisor, Mr. Jones and an assemblyman by the name of Barraga. Barraga is challenging Mr. Jones and raised these questions concerning a lottery raffle that Mr. Jones is having. That was the question that was raised. As far as the article concerning Nadia's fund-raiser that was sort of brought in and I think it was the

uniqueness of it which really attracted the attention. As I am happy to say I guess I use that mechanism to raise funds as do many community groups including the Jamesport Fire Department for which I buy a number of tickets also. They all do it and that was the inception of the problem. Nothing to do with us sitting here or the Republican Party. It was a question which was internal in Islip."

Steve Haizlip: "It's the first time that I've ever seen it in the paper about jumping on someone about a fund-raiser. The method that they were doing it was a game or not."

Supervisor Janoski: "You are absolutely right."

Councilman James Stark: "It was in the paper three days before that about the Islip thing. You evidently missed it."

Steve Haizlip: "I guess I didn't catch it. But I did catch that one. Alright."

Councilman Stark: "You can't catch them all Steve."

Steve Haizlip: "No you can't. The dwelling tax that was put out on a eight year accountability. I've done some checking on that and inquiring. The gentleman that came up with that is named John Cochran. To find out where it is it's dead. It's not going anywhere this year. It's finished. I think you know the one that I'm talking about. Jim knows."

Supervisor Janoski: "Yes, it's the exemption of home improvements."

Steve Haizlip: "That's the one where if a guy did alterations he'd get tax abatement for eight years. Alright it's dead so it's not going anywhere. It was 2101 I believe it was. It can come out next year with a different number and nobody might be watching the till or monitoring it too close and it could slip through. That's the way they work."

Now I did a little further inquiry into the land laws. For some of these people that are here in the audience they might not know, but I guess everyone of you know that the land law pusher was Mr. Cuomo and Mr. Trunzo. Now he's too proud to back off. And Bob Wertz was the one that had all the good information, passed it on, but couldn't get through the skulls of all those other people. I prior spoke about their controlling me with my garbage, their controlling me with my money, what little I have since I'm on pension, and I can't take it myself. A few cans and papers or what-have-you. I just think that it has come to the point of complete communist domination. Thank you very much Joe."

Supervisor Janoski: "Thank you Steve. We will come back. We have some public hearings. It looks like it's about 7:47 p.m. and the Town Clerk will please read the notice of public hearing."

P U B L I C H E A R I N G 7:40 P.M.

Irene J. Pendzick, Town Clerk: "I have affidavits of publishing and posting of a public notice for a public hearing to be held at Jamesport Community Center at 7:40 p.m. on Tuesday, August 6, 1991 to hear all interested persons who wish to be heard regarding: **AN AMENDMENT TO SECTION 48-3 & 48-7 OF THE RIVERHEAD TOWN CODE.**"

Patricia Moore, Town Attorney: "I apologize I don't have a microphone. I'll try to be as loud as I can.

We define a duly organized fishing club as a club that's organized under the laws of the State of New York and has a principal office in the Town of Riverhead. Organized for the purpose of sport fishing and comprised primarily of residents of the Town of Riverhead. The Recreation Department has in the past issued permits so we are going to legalize it by putting it into the code. They will be permitted to issue permits to use or operate a motor vehicle on the Long Island Sound Beach to any duly organized fishing club. The club must be recognized and approved by the Town Board. The permit shall be issued for \$50.00 per permit. That permit would be transferable. The fishing club would be authorized to receive up to 10% of its active membership. So there can be numerous permits issued that can be passed to the different members of the club. In addition the Recreation Department will be authorized to issue parking permits which allows parking in spaces between the hours of 6 p.m. and 9 a.m. at any public bathing beach to a duly organized fishing club. This was at the request of a fishing club."

Supervisor Janoski: "Thank you. I see that the president of the East End Surf Fishing Club is here and I know that he would like to make a statement. At least I've been told that."

Gary Cobb, President of the East End Surf Fishing Club:
"Mr. Supervisor, Members of the Board. As most of you know my name is Gary Cobb and I'm the current president of the East End Surf Fishing Club which has made it's home here in Riverhead since 1931. On behalf of our club's membership I would like to go on record as being in favor of the proposed amendment to Sections 48-3 and 48-7 of the Riverhead Town Code which concerns fishing access to Long Island Sound. Continuing development of the East Ends once vast open spaces makes it imperative that organizations such as ours join forces with local government to insure that no future erosion of the rights of public access occur. The adoption of this amendment will insure that organized fishing clubs such as ours will be able to fully utilize and enjoy the natural resource that exists on Riverhead's extensive Long Island Sound front. As a club we applaud the Town Board's recognition of the social and financial benefits of organizations such as ours and we look forward to the continued cooperation of the Town to insure that our childrens' children are afforded the same privileges that we currently enjoy. Thank you."

Supervisor Janoski: "Thank you. Is there anyone who wishes to address the Town Board on this proposal? Yes sir."

Joe Sykora, Riverhead: "I don't know whether I heard right or not. But if I don't belong to a fishing club does that mean that I can't get a permit for fishing?"

Supervisor Janoski: "It doesn't mean that at all."

Joe Sykora: "Oh okay, I'm sorry I misunderstood."

Supervisor Janoski: "If that were the proposal this room would be packed and more so. Outside even. Is there anyone else wishing to address the Town Board on this proposal?"

Denise Civiletti, Councilwoman: "No offense Pat, I'd just like to try to explain this in English. I'm going to give it a shot. There are fishing clubs that are organized and located within the Town of Riverhead who have some members who do not live in the Town of Riverhead and therefore not allowed by virtue of the current law to fish. Ten percent of it's active membership is the number of permits that they can get upon payment of a fee for the out of town members."

James Stark, Councilman: "A year and a half ago Joe assigned me to the Recreation Committee. One of the trips that I made was with the East End Surf Club. It was in the spring of 1990. This is the club that is responsible for cleaning up our beaches from Wading River presumably down to Northville Docks and around Iron Pier. This past year, for your information, they collected almost five tons of debris and garbage that either people left there or washed up during the winter. One of the things that I felt was a gratitude to this club which was not getting the publicity that they were doing this. As a matter of fact I think I took Joey McClellan and we rode the beach that day, almost got sucked into the Sound, but we got through. They do a nice job up there. They respect the beach. We brought it back to the Recreation Committee which recommended that the Town Board in cooperation with the East End Surf Club and Larry Taylor and his group and I'm very happy to see this happen because they're doing a great job on the Sound for us and something that really nobody knows about and I commend them and I thank them for doing that job. Thank you."

Supervisor Janoski: "Before we close this hearing is there anyone else wishing to address the Board on this proposal? Yes sir."

Bill Donovan, Aquebogue: "Ladies and gentlemen is there any public monies to be used in getting this thing together?"

Supervisor Janoski: "No sir. As a matter of fact it sets up a process in which the Town will collect fees for the permits which are issued."

Bill Donovan: "Thank you very much."

Supervisor Janoski: "Anyone else? That being the case and without objection I declare the hearing to be closed. Let the record show that the hour of 7:57 P.M. has arrived and the Town Clerk will please read the notice of public hearing."

P U B L I C H E A R I N G 7:45 P.M.

Irene J. Pendzick, Town Clerk: "I have affidavits of publishing and posting of a public notice for a public hearing to be held at Jamesport Community Center at 7:45 P.M. on Tuesday, August 6, 1991 to hear all interested persons who wish to be heard regarding: **THE STRUCTURE LOCATED AT ROUTE 25, CALVERTON AND WHETHER IT SHOULD BE REPAIRED OR DEMOLISHED, PURSUANT TO CHAPTER 54.**"

Patricia Moore, Town Attorney: "This property is Suffolk County Tax Map #600-97-180 and I believe it's owned by Mr. Naso. The process that we are going through is one which when a property is deemed by the Building Department in the Town to be unsafe or in a dangerous condition either for sanitary reasons, public health, safety, we are committed to go through this process. We give the owner an opportunity to appear and state his position and if the owner does not correct the violation or the condition of the property then the Town may go in, do whatever repairs or demolition that may be necessary and then assess it against the taxes of that individual."

Supervisor Janoski: "Thank you Pat. I see Mr. Naso in the audience. Do you wish to be heard Mr. Naso?"

Ralph Naso: "I gonna fix as soon as a possible. I try to make something like a restaurant."

Supervisor Janoski: "What you are saying is that you have a plan in your mind to put that building back into use."

Ralph Naso: "Yes."

Supervisor Janoski: "Do you have a time frame?"

Ralph Naso: "Need time. We need time. You know we cannot rush it one, two three."

Supervisor Janoski: "Well you know that it's been vacant for six years, isn't it?"

Ralph Naso: "We gonna fix it. No worry, no problem."

Supervisor Janoski: "Thank you Mr. Naso. Is there anyone else present wishing to address the Board on the matter of this property deemed to be a dangerous and hazardous building? Mr. Kasperovich."

William Kasperovich, Wading River: "I don't like this unsafe structures hearing mainly because it is not specific."

Town Attorney, Patricia Moore: "May I answer?"

William Kasperovich: "No, I've got the floor if you don't mind. You give a list of reasons on what basis it could be brought to condemnation or brought to forcing the owner to do something. But you don't say exactly what it is, how long it's been that way, whether there has been any occupancy, what specific danger to the public. Very ambiguous. I don't think we ought to set any precedent. It seems to me that when Mr. Janoski rides down the roads and doesn't like the looks of this thing it's kind of sagging by aesthetics he goes after it to get rid of it. And I say no way. Aesthetics got nothing to do with it. It's a man's private property. We've got to respect private property. Because that's one of the basis of the American foundation stands on. Private property. When you approach and attack a man's property you've got to be specific and to the point which this case is not and so I object to this approach."

Supervisor Janoski: "Thank you Bill."

Patricia Moore, Town Attorney: "Just to correct the record. Attached to the notice the owner receives an outline of the different issues that are raised by the Building Department which range from structurally unsafe, dilapidation etc. and we go into such specificity as rodent infestation, open missing windows, broken windows and it goes on from there. So there is a litany of items that are addressed and pointed out to the owner. These are the things that are specifically a problem under the Building Code. So it is very specific in it's objections to the property."

William Kasperovich: "Can I offer a rebuttal to that?"

Supervisor Janoski: "No, this is not a debate. This is a public hearing."

William Kasperovich: "Well you present something after I talk" (interrupted - too many people talking)

Patricia Moore, Town Attorney: "You didn't let me present it."

Supervisor Janoski: "Bill it was presented with the inception of the action and we go through you with this all the time. These" (interrupted)

William Kasperovich: "And all the time you're wrong. "

Supervisor Janoski: "Probably."

William Kasperovich: "You should tell the public before the public hearing. Not after the speaker finishes."

Supervisor Janoski: "We are required by law to publish the notice ten days prior to the public hearing and anything that wants to be examined is available in the Office of the Town Clerk and those charges that were issues or violations are part of what is on record for anyone who wishes to find out this specifics of the situation. And yes indeed the aesthetics of the situation is one of the things that we do notice. Is there anyone else wishing to address the Town Board on the matter of this dangerous and hazardous building? That being----"(interrupted)

William Kasperovich: (from audience) "I object to the terminology used thereby, Mr. Supervisor."

Supervisor Janoski: "Listen that's the name under the ordinance which we are operating. So I have to call it that. No one wishing to be heard I declare the hearing - did you wish to speak on that. Sure."

Fred Cataldo, Jamesport: "I certainly approve of the Board's action regarding property that's deteriorating. On Front and Second Street, I don't know, no, Front and something" (interrupted)

Councilman Stark: "South Jamesport Avenue."

Fred Cataldo: "I'm not talking about the Bayview Motel."

Councilman Stark: "Oh."

Fred Cataldo: "I mean that's an issue unto itself. On the east corner we have a barn that's been condemned and nothing has been done about it and that is a danger. We have a building directly in front of my house that is a danger. I have chased children out of there. I have found beer cans in there. Most recently gun shells. Do you want anything else there. I don't know. I want it destroyed and torn down. It is a hazard. It is a definite hazard. The bar that is there and has been boarded up and children still get in there. I see candle lights at night. Yes, we must take action when the owner doesn't. I think my rights are just as important as the owner of the properties. I don't know what property you were referring to with this gentlemen, but I think it all falls in the same category. Thank you."

Supervisor Janoski: "Let me say that this is not an arbitrary proceeding that we are going through. The owner of the property is notified of violations. We are not going to take his property away from him. However, the code provides that failing the owners remedy of the existing situation that the Town has the ability to demolish the property and put the cost of such demolition on as a lien against the property tax. Now he has every opportunity to come forward with the proposal and to carry out that proposal to improve and to put that property back into active and productive use. But the point is that a structure in

the Town has been deemed to be hazardous and dangerous in the community. We have followed this procedure on many, many occasions. It is an opportunity for the two sides to point to the problem and to find a remedy. Unfortunately if there is no remedy on the part of the owner, the Town will take the necessary action to correct it."

(Someone from audience: (inaudible)

Supervisor Janoski: "Would you like to be heard?"

Patricia Moore, Town Attorney: "He doesn't know where it is?"

Supervisor Janoski: "Oh. It used to be, I think in it's last life which was at least six years ago, but I think it's more like eight, it was the Trio Lounge. It is very proximate to the intersection of Route 25 and 25A in Calverton. Is there anyone else wishing to address the Town Board in this matter? That being the case and without objection I declare the hearing to be closed.

Let the record show that the hour of 8:08 p.m. has arrived and the Town Clerk will read the notice of public hearing."

P U B L I C H E A R I N G 7:55 PM

Irene J. Pendzick, Town Clerk: "I have affidavits of publishing and posting of a public notice for a public hearing to be held at Jamesport Community Center at 7:50 p.m. on Tuesday, August 6, 1991 to hear all interested persons who wish to be heard regarding: **THE STRUCTURE LOCATED AT ROUTE 25 IN RIVERHEAD AND WHETHER IT SHOULD BE REPAIRED OR DEMOLISHED PURSUANT TO CHAPTER 54.**"

Supervisor Janoski: "Let me do this Pat."

Patricia Moore, Town Attorney: "Okay."

Supervisor Janoski: "This is a very similar action being taken by the Town Board. I think what is of interest is where the property is and what the property is. If you think of when you reach the western end of Route 58 up on a hill there is the shell of a gas station. It has remained vacant for many years. It is deteriorating and collapsing. The Town Board is taking the same action here and notifying the owner of what it deems to be the dangerous and hazardous condition of the property and asking for the owner to take action to correct it. Failing to take such action the Town Board will move to correct it. Is there anyone here wishing to address the Town Board. Steve."

Steve Haizlip, Calverton: "Mr. Janoski, I'm sure you do. I don't know if the other Board Members do. I've already hit that place right at a Town Board Meeting along with a couple of other bad ones. Sitting around and trees growing through them and so

forth. One in particular is across from St. Isidore's Cemetery. The thing is very bad. Anybody could just go in there to get out of the sun or the weather and it could come down. But there was another house up on 25, quite a few of them I mentioned and this was one of them. That gas station, I think it is a so called gas station shell, was put there, I wouldn't know how to phrase this, but I think they were trying to con money out of the Thruway at that time or the Expressway when it came through. Planting a little site here and planting a little site there and one over on 25 by Nugents old barn, a little ways from there. Yes that thing ought to come down because it could be a gas station without a lot of excavation and it's just sitting there and I guess the guy got his money and he could care less. He just walked away and forgot about it."

Supervisor Janoski: "Thank you Steve. I think you are correct. But the plan for that gas station was a proposed continuation of the Long Island Expressway which never took place and probably will never in our lifetime. I want to point out that last year the Town Board took a very similar action in Wading River with regard to what used to be the Greenbrier. And through that process we got the attention of the owner who is now bringing that building back into use. It is being reconstructed. So this is a mechanism that is very useful in bringing about the renovation and as I say positive use of these buildings. Is there anyone else who wishes to be heard on this proposal. Bill."

William Kasperovich, Wading River: "Memory serves me to remember this building as part of a functioning gas station. It was a functioning gas station. And that's a long time ago. Now from the period that it appeared conclusive that the Expressway would not go through it there has been no visible action by the Building Department or by the Town Board. Now that's going back better than ten years. Nothing was done. All of a sudden we've got to do something about it. Now this --although not applicable to this particular hearing. But this is true for the entire township. There are unsafe, dangerous and hazardous conditions throughout the township and the Building Department isn't doing a damn thing about it. And I use that language to be as emphatic as I can, because public life is at stake."

Supervisor Janoski: "So you are suggesting that we seek out more of these?"

William Kasperovich: "No, no you ---I can't figure out what you are saying, because at one time you talk demolition, another time you talk to remedy the conditions. Now if the owner can make this a safe situation to the public I can't see what it matters what a structure is or how it is used. It's there. It was there before anything. I mean you bring up the Greenbrier, our Senior Building Inspector was tending bar there before he was even a Building Inspector. He knows every brick in the place. And yet for twenty years he did nothing about it. Now that should be brought to the attention of the Town Board that this situation

can continue. Just to pick out specific items and particularly work on them. Now if the owner wants to put an acceptable fence around the property not to permit the public to get to it, it can be declared safe. It could be falling down from the rain, but the public is not there it's uninhabited. I can't see forcing the owner in that sense. And I think the Town Board is remiss for not having done anything about this until so many years have gone by. Now I think the owner should be give all latitude possible to correct the situation. To come to terms with the Town Board and the authorities involved, because we let them stand this way for so long I think we are not coming in with clean hands and say hey you've got to do something right away. Thank you."

Supervisor Janoski: "Thank you Bill. I would only point out that the dangerous and hazardous provision in the Town Code is a more recent enactment and has not existed for that very long as an option available to the Town Board for action. We have, since it has been put on the books, used it on many occasions and I will say that the Greenbrier was a long saga of trying to deal with the property owner who was impossible to deal with. And I will let you talk with Cathy Casey about that. She is the president of the Wading River Civic Association and probably better than I knows the story of the years of back and forth before the Town Board was forced to take the action that it took. What is important for your to comments is that this has not been on the books for twenty years. It has not been on the books for ten years. It is a recent enactment of the Town Board and one that we use when the situation warrants it. Thank you Bill. Is there anyone else? George."

George Schmelzer, Calverton: "That ordinance could be used dangerously. This ordinance can be very dangerous if used selectively in certain ways. There are plenty of things in Town that are dangerous. Every so often people say that Main Street is dangerous. Crime and drugs are not going to knock the whole buildings on Main Street just because it's dangerous.

The crossroad of River Road at Edwards Avenue is dangerous. On Edwards Avenue south of River Road there is a sign there, the Speed Limit is over or something. There is no speed limit there. People come down the hill 55 mph. It's dangerous everyday. Nothing is done about it. Plenty of things in town are more dangerous. Some of these buildings --- nobody ever got hurt. Anybody ever get hurt in one of these buildings that you are concerned about? Has anyone ever gotten hurt in any building?"

Councilman Creighton: "Should we wait for that?"

George Schmelzer: "No, I didn't ask you that. I asked you has anybody ever gotten hurt? That's the question."

Councilman Creighton: "Should we wait for one to get hurt?"

George Schmelzer: "You answer it. You don't weasel by asking another question."

Supervisor Janoski: "George we have a specific proposal in front of us and that concerns a former gas or building that was designed to be a gas station on a hill. Do you have a feeling in favor of the action that we are taking or opposed to the action we are taking and tell us why."

George Schmelzer: "I think it's a lot of nonsense. It's up there on the hill. It doesn't bother anybody. If he is paying taxes on it, so what. I don't see anybody getting hurt in there. Because if he pays his full assessment who cares? The traffic signs around town we could work on. I just suggested about River Road."

Supervisor Janoski: "Well those traffic signs are under the control of New York State."

George Schmelzer: " Yeh, pass the buck to somebody else."

Supervisor Janoski: "Well I'm sorry, but that's the way the law is George. We do not control the signs and speed limits on roads in the Town of Riverhead nor does any other town."

George Schmelzer: "You reduced the speed on River Road itself."

Supervisor Janoski: "The Town Board never reduced the speed anywhere. We requested the State that they study a situation and they do what they deem to be appropriate. But we are getting off the subject. You have stated your position. You are opposed to the actual taking and that's the purpose of this hearing George."

George Schmelzer: "Okay with that particular building, yeh. I don't see anybody getting hurt there. You could carry this to the tenth degree and threaten half the buildings in Riverhead. Maybe some Town owned buildings too. Thank you."

Supervisor Janoski: "Thank you George. Is there anyone else wishing to address the Town Board on this matter. Yes. Cathy."

Cathy Casey, Wading River: "I just want to tell you that I commend you on what you are doing. As far as I'm concerned if you want to own property in the Town of Riverhead. I certainly think that you have an obligation to everyone including your own self-respect to take care of it and if you can't take care of it and somebody has to help perhaps prod you along to do that and I think that should happen. And I do not think any property should be left standing and to deteriorate and be premised that because nobody has been hurt it should be left alone and belongs to somebody else. I do not think we should wait until somebody gets hurt or some child gets raped and murdered and all of a sudden the remains of their body is found in there, because nobody is in the building and it's left standing there. It's just there and nobody cares about it and that's part of the problem. I thank you very much."

Supervisor Janoski: "Is there anyone else wishing to address the Town Board in this matter? That being the case and without objection I declare the hearing to be closed. Let the record show that the hour of 8:23 P.M. has arrived and the Town Clerk will please read the notice of public hearing."

P U B L I C H E A R I N G 7:55 P.M.

Irene J. Pendzick, Town Clerk: "I have affidavits of publishing and posting of a public notice for a public hearing to be held at Jamesport Community Center at 7:55 P.M. on Tuesday, August 6, 1991 to hear all interested persons who wish to be heard regarding: **THE ADOPTION OF A LOCAL LAW ELECTING A RETIREMENT INCENTIVE PROGRAM FOR ELIGIBLE EMPLOYEES OF THE TOWN.**

I have a letter that I have been asked to read into the record which says that:

'I am here to urge you to adopt into Town Law the N.Y.S. Early Retirement incentive program.

There would be a few disadvantages to the Town because they would lose some very dedicated, experienced and devoted employees.

However the Town would reduce costs as follows: Retiring employees, because of their length of service are either in Tier I or Tier II and therefore,

1. They are in the top step and wage scale in their grade. A replacement would start at the lowest step and or salary would take years to reach that top step.

2. The Town pays longevity of between 4%-7% to employees after 10 years of continuous service. When the employee retires, the Town would save on these payments.

3. They do not have to contribute to the N.Y.S. Retirement System or to the Health Insurance Plan. A new employee must make contributions to each.

4. They receive 4 or 5 weeks vacation because of length of service. A new employee receives 2 weeks.

I believe all of the aforementioned are valid reasons for adopting the N.Y.S. Early Retirement Incentive Program and would result in monetary savings for the Town.

In closing, from a statement by Pope John Paul II, May 8, 1988, 'People who employ others are morally obligated to make sure that working conditions are good. At the same time employers should provide wages sufficient to maintain a decent standard of living and if possible, to better such a standard.'

I hope Supervisor Janoski and the rest of the Town Board agrees with His Eminence Pope John Paul and sees fit to help all of us...dedicated, devoted and possibly soon to be retiring employees in our "twilight" years.

Doris Edwards'

Councilwoman Denise Civiletti: "You should stand up and take a bow for that Doris."

Supervisor Janoski: "Well I believe that the Town Board agrees with His Holiness. Let me just say that the purpose of this hearing is to consider a new enacted retirement incentive program which was passed at the last session by the N.Y.S. Legislature, signed into law by the governor. The fact that we are holding this hearing does not indicate that we have made a decision in providing it. We would like to hear from you the reasons why or why not this plan should be put in place. We are under very tight time constraints with which to act on this proposal so that we in holding this hearing are giving ourselves, The Town Board, the option of putting in place or making a decision not to. But now is your opportunity to tell the Town Board what you think of the proposal. Sal."

Sal Quinonez, Vice President of C.S.E.A.: "Our union recommends and requests that the Town take favorable action on this measure and approve it. In the long run it would save the Town money and at the same time quite possibly eliminate the necessity of layoffs. Thank you."

Supervisor Janoski: "Thank you Sal. Is there anyone else present wishing to address the Board? Steve."

Steve Haizlip, Calverton: "I would like to interject something in this hearing to give you something to think about. Something that happened to me when I retired. Now if you start putting these people out. Sal there just recommended approval. So if you start putting these people out, we'll say as of now in August, when you discharge these people you're going to give them the severance pay and vacation and so forth on. It will all be added up as income. So now when you get through calculating the Social Security tax you will probably be paying out maybe a thousand, twelve hundred dollars from January to August. Now they'll pay out and you'll pay out, the Town, the treasurer of the Town. The employees will not get the benefit of it. I'm telling you they won't get the benefit of it. You know what they are going to get? They are going to get the best five years. So if those people are going out they should try to hang in there to December 31st. then get that full year of social security and it will bring it up so that they are totally contributed. I pay \$2,004.00, the company paid \$2,004.00, there's \$4,008.00. I didn't get a red cent for it and I got no credit and I got very few furious and I pursued it and I went all the way to every top government branch that I could. I finally got a hold of one woman, she says do you want the truth, do you want the honest truth. Are you pursuing it? I said yes. She says you'll never see a dime of it. All you are going to get is you best five years. Good-bye. So I'm trying to look out for these people."

Supervisor Janoski: "I'm sure they appreciate that Steve. Is there anyone else wishing to address the Board? George."

George Schmelzer: "Anytime you retire somebody early you hire somebody else to take their place?"

Supervisor Janoski: "That is an option that is open to the Town Board."

George Schmelzer: "Is that the intent?"

Supervisor Janoski: "The intent is to examine financially whether there is a benefit to the Town and those benefits in part have been enumerated in the letter and by the testimony of Mr. Quinonez. It is entirely possible that the early retirement will in the long term result in a savings even if the position is filled. We are generating the financial information necessary at this present time. We have identified those individuals who qualify to take advantage of early retirement. We have asked all of those employees if they are interested. Four have indicated that they are at this time. These are decisions that will have to be made based on the information which is provided, financial and of course the input that we receive through a hearing such as this."

George Schmelzer: "It seems to me that if you retire somebody and you hire somebody else you're paying one guy for not working and the new guy for working. So you say the State pays the retirement let the State get the money for them. They get it from us. So no wonder the State is broke. Otherwise the State will raise the taxes to pay retirement for people who are sitting down and doing nothing retired. So what do you end up with. More cost. Then you'll say it's the State's fault not ours. So that's why I think it's a reverse mooch. Most of the time the Town tries to mooch off of the State, now we'll get it right in the tail through more State taxes, because the State has to get the money from us. So who's kidding who."

Supervisor Janoski: "Thank you George. Is there anyone else wishing to address the Town Board on this proposal? That being the case and without objection I declare the hearing to be closed."

We are going to have a recess now. The Town Board will gather with many of you, I hope, out at the gazebo for the observation of the night out."

R E C E S S

Supervisor Janoski: "If everyone will take their seats, McRuff is here along with Sergeant Cheshire and Police Officer Boden."

Sergeant Cheshire: "On behalf of the Riverhead Town Police Crime Prevention Unit which members the Supervisor just announced are here. We would like to present the Town Board with a National Night Out Pin. Tonight is National Night Out and we are celebrating it in the Town of Riverhead. It is our fifth year that we are celebrating the Night Out. We've been visiting all of our Neighborhood Watch Communities. As a matter of fact we have three more to go yet tonight. Night Out is something where

between the hours of 8 and 10 nationwide we've asked the people to turn on their lights, get out into their communities at barbecues, get together, social wise and in general let the bad guys know that 'we're out here, this is our community and the bad guys aren't going to have our community or any part of it'. So on behalf of the Crime Prevention Unit we're going to make the Town Board honorary Junior Police Officers and give you a Junior Police Officer Badge and we are also going to present a Night Out Pin symbolizing Nation Night Out. And we do thank you for participating with the Town Board in the National Night Out."

Supervisor Janoski: "Thank you Dave. And let me say on behalf of the Board that we are proud of the work that you and Rick and Tim Hubbard over there and of course most especially McRuff for combating crime and drug abuse in the community. Thank you.

Before we take up the resolutions is there anyone present wishing to address the Board? Bill."

William Kasperovich: "Not too many days ago, but enough days to where my anger and indignation has simmered down to a level state. I got on the telephone and I tried to find somebody in the Town Hall that was legally responsible for public safety on private property. I couldn't find anybody. Nobody would admit to being responsible for public safety on private property. Now this attitude has come to my attention every couple of years. When I see something or I participate in something, that is I almost break my tail falling down. I'm getting too old for that. I confront the owner and he says, 'what the hell do you want, my insurance is paid up.' That's enough to get me started. And this attitude exists to an extent that I wish it didn't. And I think that we've got to put a label on somebody specifically that they are responsible. Public Safety Officer. Other than Mr. Janoski who is busy with public administration and many other things, not always available and understandably so. Because when something of this nature has to be acted upon it has to be done then and there. Not a couple of days or a week later. Now maybe you sense some thinking on my part when I talked at the public hearing. It's there for building safety. Things jump out at me as being unsafe, dangerous and hazardous that the average layperson doesn't see. But I've participated in enough accidents and court cases to where I know dangerous and hazardous conditions and they just jump out at me. The other portion of this concern is that people get used to it. Nothing happened so what's the big to do. Nothing happened. Nobody got hurt there so why should we bother. That's not the approach. The degree of danger and the degree of the hazard depends on what action and to what extent action should be taken. And I feel that we have come to get more people in the Town Hall, more learned people, more concerned people, but we still have a bureaucratic setup where nobody's going to do anything on their own volition. They have to be directed, their responsibilities have to be spelled out to them or him or her. And I feel that this is an absolute must and it's certainly a lot easier, but when one of the officials is invited into a structure

and I'm purposely leaving out names and places, privately I'll be glad to spell them out to you, but publicly I can't, and couldn't believe it. Man are you blind. You know your job. You've been on the job long enough. You don't see this. You don't see that. I say just because nothing happened doesn't mean nothing will. We've been in Gods good graces that we haven't had any disastrous things happen. So corrective and preventive measures are in order throughout Riverhead and some places really need it badly. Thank you."

Supervisor Janoski: "Thank you Bill. Joe."

Joe Sykora, Riverhead: "I would like to speak about the garbage situation. I couldn't make the meeting and I would like to speak. I'm president of the Mobile Home Association of Eastern Southfork Inc. I would like to know how much is it going to cost the mobile home owners with this districting of garbage?"

Councilwoman Civiletti: "I'd like to answer your question. The way the district has been proposed and the legislation accompanying the proposed map and plan mobile home parks, as you are probably aware are excluded from---"

Joe Sykora: "That's right. That's why I want to know how much is it going to run us?"

Councilwoman Civiletti: "And like other properties that are not within the district the current proposal is to have the Town Board fix or regulate rates charged by the private carters to park owners, apartment building owners, and business owners that essentially will then be required to have that service. It's going to be determined by the Board if the proposal's adopted."

Joe Sykora: "When it goes up for bid that means anybody can bid for it."

Councilwoman Civiletti: "There is not going to be any bidding as far as mobile home parks are concerned. It's going to be a private contract between the park owner and a carting company."

Joe Sykora: "Do you know what our rent is going to go to if it goes that way?"

Councilwoman Civiletti: "Except that the rates that the carting company will be allowed to charge under the current proposal will be regulated by the Town."

Joe Sykora: "But do you know how much our rent is going to go up? Joe."

Councilman Vic Prusinowski: "There is a couple of facts here. Bruce Stark got up here at the last meeting and said that he wanted senior citizens not to be treated like second class

citizens. That's certainly not the case at all. Right now we included one of the things that we have to look at. We included the mobile home parks into the district bidding process. The total cost of collection whether it be three million dollars per year or whatever the cost is would be evenly divided across the board according to your tax assessment. In that particular scenario, most likely, the mobile home parks would go up. Under this current status that Denise has just pointed out, you're paying approximately \$17.00 per month, which by State Law the mobile home park owner cannot add on to your monthly rent. It is included in your monthly rent. Now one of the discussions we are going to be having with some of the mobile home park owners is that we want to get an understanding on how this fee structure will work. In all respects we do not want the senior citizens paying for something more than they should be getting. We understand that. We understand that we don't want any switcharoos going between tax rates and what the cost is. However, you pay a far less of a rate than the other people of carter service around the Town. You're paying about \$17.00 a month for twice a month pick up."

Joe Sykora: "The reason that we are paying less is because our homes are closer together. I know all about it. I looked into that."

Councilwoman Civiletti: "Why do you think the rates that you will be paying will go up?"

Joe Sykora: "Why? Because it's been going up in every town that went into redistricting."

Supervisor Janoski: "That's not true. It's entirely not true and I don't know where you got that from because the fact is that every town that went to districts the cost of collection was reduced. Brookhaven was the last town to implement it and the cost went down thirty per cent. Now that's a fact and I can certainly get those numbers for you Joe, but please do not give us testimony that you think is true. But you are not going to be in the district as it is currently being proposed."

Joe Sykora: "Well I'm just worried about our rents. That's the thing I'm worried about. Because our rents go up every year."

Supervisor Janoski: "And I want you to know, Joe, that the Town Board is concerned about your rents and that's why we are searching for the most efficient and cost effective way to proceed to compliance with the law. And if after all the dust settles we judge that the most cost effective way and efficient way to do this is through districting, I guess that's the decision we've made. If not then districts will not be implemented. We are going through a process of consideration. We're not happy with the landfill law. We are going through a procedure as far as challenging it in court. But we would be

foolish and irresponsible not to look towards the future and make plans now to come into compliance with the law that we don't agree with. The result of that law is going to be, and we've known this since 1983 when it was passed and that's why we opposed it and the cost of garbage disposal is going to go up. Not because of anything that we want to do, but because we have a law that we must comply with or at least prepare to comply with."

Joe Sykora: "I just wanted to ask and see what it is about."

Councilman Prusinowski: "We are very aware of that Joe. And that's the reason why we are considering both approaches to the mobile home parks. We're getting some more data on it. Some of the mobile home park owners want to submit some more testimony to the Solid Waste Committee which will be considering tomorrow such a plan. Although from the outset it's easy for somebody to say I want to be in the district, but you have to understand that right now you're paying a far lesser fee, because of the way the mobile home parks are set up. Once you include that cost of the total town collection of the garbage district and spread it across evenly through the assessed evaluation formulas that we have, automatically your rate is going to increase. I don't think that is what we are trying to achieve. We are trying to achieve, like the Supervisor said, a fair system and something that you will get what you are paying for. One of the concerns is that they want the yard waste pickup, the recyclables, the S.T.O.P. Program, the appliances and things like that. So those are some of the separate issues we have to address with the mobile home parks and the apartment dwelling complexes as well."

Joe Sykora: "Thank you."

Supervisor Janoski: "Thank you Joe. Steve."

Steve Haizlip: "I would like to address the question that Mr. Kasperovich raised. I want to take some people back to 1956 when the Cooper boy fell in the well in Manorville. The telephone call went out, I believe our Town Police, Fire Department were all involved and doing everything it could and also private people. Private people contractors, well diggers and what have you got involved when somebody on private property is in jeopardy. I think the way I would handle this, Mr. Kasperovich asked a question and I said with all do respect to Mr. Kasperovich, I'm just the way I would handle it. I would call my fire department and get my police department and I says quick there's a kid up in a tree. He's hanging and a limb is (inaudible) or something. Get up here. They'll get involved."

Supervisor Janoski: "Is there anyone else? George."

Bill Welsh, President of Jamesport Civic Association:
"First I want to thank you very much for coming here tonight and participating in the night out activity that we have had. I think

it's a great idea for the Town Board to visit Wading River and Jamesport on a regular basis with their meetings. There is a lot of good that is happening in Jamesport. Tonight I think we begin the Jamesport Hamlet Study really getting kicked off. Our recreation facilities have taken on substantially better look in the last few months. But I just ask that you remember the problems and work with us on them. I mean the Bayview has already been mentioned. There are businesses, commercial businesses that are operating in residential areas here that continue to be a problem with us. And please don't forget the Bay and the Sound too. We have to address the problems of rentals at least develop some kind of mechanism for managing this and ultimately controlling it. We want to work with you. I'm sure all the good people in the Town both in Jamesport and throughout the Town want to address the problems that are here now.

So again I would just like to thank you for coming and hopefully we can work with you in the future on these."

Supervisor Janoski: "Thank you Bill. We may have some news for you concerning the Bayview in the very few short weeks ahead. Something happening. Mr. Schmelzer I see that you have your copy of McKinny's with you. Why don't you come up and tell us all about it."

George Schmelzer: "McKinny's sounds Irish, but still it's an American book. This is a 1954 issue and the Town Attorney claims she hasn't got that. There is a newer issue. This shows in here Section 10, Article 15 which was deleted from the Constitution in 1963 by the Rockefeller administration with the help of Perry Duryea. It's a shame. So it reduced the rights pertaining to colonial patents. So it might be of interest to the Town. I'll leave the book for you and in a few days I can pick it up."

Supervisor Janoski: "Why don't you leave it with the Town Attorney. She is a very responsible person and she understands it."

George Schmelzer: "I thought I would ask the boss first. Would you please pass the book? Thank you."

Supervisor Janoski: "Thank you George. Is there anyone else before we take up the resolutions? Then we are going to take up the resolutions."

R E S O L U T I O N

Resolution #494 - ADOPTS AMENDMENT TO ARTICLE I "USE OF DESIGNATED BEACH" OF CHAPTER 48 OF THE RIVERHEAD TOWN CODE

Introduced by Councilman Stark and seconded by Councilwoman Civiletti.

Councilman James Stark: (The second tape did not pick up the beginning of Councilman Stark's dialogue. Picked up in the middle of a sentence.) "Resolution to pass the use of designating beaches of Chapter 48 of the Town Code where it establishes that approved organized fishing clubs in the Town of Riverhead etc. I don't know if I have the proper wording on this, tomorrow ten percent of it's membership can have a beach permits. So moved."

The Vote: Creighton, yes; Stark, yes; Civiletti, yes; Prusinowski, yes; Janoski, yes. 5 YES

Dick Benedict, Riverhead: "Resolution #480 reminded me of something. Obviously we do these stop signs for a reason and I hope they are for a safety reason. But not too long ago one was changed at Doctor's Path and Middle Road from a yield to a stop. I happen to use that road a lot and I live in the area. So the other evening I took a walk. I was there maybe eight to ten minutes. I saw nine cars use that stop sign. Two stopped. Six didn't and there was one that had to stop because of oncoming traffic. I think after a reasonable amount of time when we change a sign we should see if it's doing it's job and maybe put a police officer there. Thank you."

Supervisor Janoski: "Steve."

Steve Haizlip: "I would just like to ask a question or comment on #477. It's going to authorize the Town Clerk to publish and post notice to consider deleting Chapter 11 of the Civil Service of the Riverhead Town Code. Publish notice to who? Who gets notice? Is it a public hearing? Do the citizens get a notice? I mean it's not implying as such."

Supervisor Janoski: "Well I'm glad that you brought that up Steve. The notice is the posting in Town Hall and of course the legal notice in the official paper of the Town indicating that there is going to be a hearing on this subject. But what is important to me is that the reference to Civil Service. The Town has in the Code Book right now a obsolete reference to Civil Service. Right now Civil Service the hiring or the certifying of the employees of the Town of Riverhead and all towns in Suffolk County are under the control and the rules and regulations of Suffolk County Civil Service. Riverhead Town does not have a Civil Service department. They give the testing and they do the certifying. So this is not going to be any removal of any protection to employees or potential employees of the Town. This is simply removing from the code something that no longer applies."

Steve Haizlip: "Oh I get it, in other words it's got to be taken out of your book because Suffolk County controls it."

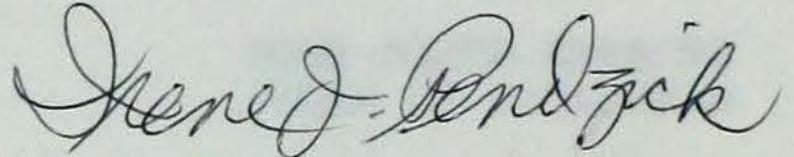

Supervisor Janoski: "We have no authority. Civil Service authority."

Steve Haizlip: "Joe, I'm going to comment one step further. This is communist domination and control that I've just been speaking of. Why does the County have to have something to do with Town employees. Who knows them best. Our officers, our supervisors, our police chief, etc. knows them best. What are you going to do hire them and then recommend after 90 days that they are okay? Is that the way they work the system? You have no more control?"

Supervisor Janoski: "It is a very complex system and I wish that you could have been at a meeting that we held earlier today on something very closely related to Civil Service and the difficulty that we have in dealing with it. But I thank you for the comment."

Ladies and gentlemen, first, before we go let me say on behalf of the Town Board we are happy to have been here. We thank you for attending this meeting and we are going to stay in Jamesport for awhile. We are going to move down the road a little bit.

Let the record show that the hour is 9:43 P.M. and this meeting is adjourned."

Irene J. Pendzick
Town Clerk

IJP:ch
