

Minutes of a Meeting of the Town Board of the Town of Riverhead, held in the Town Hall, Riverhead, New York, on Tuesday, June 17, 1980 at 7:30 P.M.

Present: Joseph F. Janoski, Supervisor
Francis E. Menendez, Councilman
John Lombardi, Councilman
Antone J. Regula, Councilman
Victor Prusinowski, Councilman

Also present: Kevin Duffy, Town Attorney

Supervisor Janoski called the meeting to order at 7:30 P.M., and the Pledge of Allegiance was recited.

Supervisor Janoski asked the audience to remain standing for a moment of silence in memory of Sergeant Jack Seaman.

Councilman Regula offered the following resolution which was seconded by Councilman Menendez.

RESOLVED, that the Minutes of the Town Board Meeting held May 20, 1980 are dispensed without objection and be approved as submitted.

The vote, Prusinowski, Yes, Regula, Yes, Lombardi, Yes, Menendez, Yes, and Janoski, Yes.

The resolution was thereupon declared duly adopted.

BILLS

Bills submitted on abstract dated June 3, 1980 as follows:

General Town	\$148,632.94
Highway Item #1	\$ 16,671.95
Highway Item #3	\$ 1,605.99
Highway Item #4	\$ 123.22

Councilman Regula offered the following resolution which was seconded by Councilman Prusinowski.

RESOLVED, that subject to complete audit, the following bills be approved for payment:

General Town	\$148,362.94
Highway Item #1	\$ 16,671.95

Highway Item #3	\$ 1,605.99
Highway Item #4	\$ 123.22

The vote, Prusinowski, Yes, Regula, Yes, Lombardi, Yes, Menendez, Yes, and Janoski, Yes.

The resolution was thereupon declared duly adopted.

Supervisor Janoski: "With us tonight are various members of the Riverhead Town Government department heads. If there are any questions of them, they will certainly be available to answer those questions."

OPEN BID REPORT - 90-DAY LEASE OF MEDIUM SIZE BULLDOZER

After being duly advertised the bids for the 90-Day lease of a medium size bulldozer were opened by the Town Clerk on Monday, June 9, 1980 at 11:00 A.M.

of March & February, 1980. Filed.

APPLICATIONS & PETITIONS
Petition of 17 Polish Town merchants for additional
parking. Filed.

Supervisor Janoski: "The time not having arrived for public hearings, I would open the meeting at this time to anyone who wishes to address the Board? Yes Sir. Please come up to the microphone and state your name and address."

Harry Rambo, 612 East Main Street, Riverhead; "I'm here tonight about this Delores Avenue situation where Herb Obser has fenced off the right-of-way of twelve families that live on Delores Avenue. Now this is getting to be an intolerable situation. Now I knocked the fence down and I was arrested and I was hauled into court here and accused of taking the law into my own hands. Now I went up to Herb Obser and I showed him my deed that owes me legal right. I had a new title search and a guaranteed insured title that I have right-of-way and I went back fifty years. I brought it to the Town lawyer, I spoke to the Judge here and nothing has been done about it.

Now, it's not only myself it's Hilly Booker, Frank Maxwell and a few other people. I don't even know their names that live on this street and we all have this same problem and something has got to be done about it. And I'd like to know what the Town Board, you have a town code that says nobody can dig into that road or block it off. Without getting written permission from the Town, the Highway Department, the Sewer Department, the Water Department even if it's a private road, you have a right-of-way in there a fifty foot right-of-way from Route 58 right on down to the end of Delores Avenue and you can maintain that and I want to know why you haven't maintained it so these people can get in and out?"

Supervisor Janoski: "This situation is something that we've been aware of for sometime and we have discussed the legalities with our Town Attorney. I would, as a matter of fact, call on him to explain the legal position of the Town."

Harry Rambo: "Well your Town Attorney went up to Herb Obser and he came back with a written note from Herb Obser and Herb Obser gave him permission to service your facilities under that road. Now that's about as ridiculous as I've ever heard,

PERSONAL APPEARANCES - continuedHarry Rambo continues:

I'm not a lawyer, but I know better than that. There's something wrong in this situation. There's twelve families that cannot get in and out of their houses without trespassing onto somebody else's property. I've had some tenants who have moved out because of this. Frank Maxwell himself has had a heart attack. He's up in the hospital right now. And it is an intolerable situation and it's getting worse.

This Herb Obser has removed the mailboxes from Route 58. He's removed the street sign from Route 58. And he went to the post office and he told them he was going to put a fence up and they assumed he was putting the fence along around 58 and they told him he could move the mailboxes. He took the mailboxes down and he put the fence two hundred feet in across the road, and there are other problems up there. The fence is one of the problems. He also has blacktopped over an acre of his property without one single drain. And all the water is running off that blacktop and washing out Delores Avenue. Now that its fenced off, there is no way to grade it or to maintain that road. Who's going to maintain this road now?"

Supervisor Janoski: "Is that an area that was previously blacktopped?"

Harry Rambo: "It was previously blacktopped, but it has become a dirt road and the Town in order to maintain their own facilities for years since 1954 has graded that road once or twice a year to maintain the fire hydrants and the sewer lines and the rest of the facilities that go down that road. And now nothing can get in there. If an ambulance had to get in there, he couldn't get in there. The fuel trucks can't get in there to fuel these people and I'm going to tell you right now, I am going to cut this fence down to get the fuel trucks in. I am within my legal rights to maintain a right-of-way.

This man has not proven to anybody, in fact, before Judge Manning, he admitted before the Judge and the District Attorney that was here, that he know if it was a right-of-way and he saw my papers and he's fencing it off anyway. I think something is very serious here. He's using junk cars, also, to block this road. Now I got a summons from the Riverhead Police Department for having a car in my own driveway without license plates on it and I had to come before Judge Leonard. Now this man is using junk cars to block a right-of-way of everybody else and I insist that he removes these cars. Well this is about all I have to say on this. I want a street sign up there. I want the mailboxes back up there and I want the fence taken down until he proves a legal right to fence it off and I think I'm entitled to that along with the rest of the people that live on that street."

PERSONAL APPEARANCES - continued

Supervisor Janoski: "Thank you Mr. Rambo. Mr. Duffy."

Kevin Duffy, Town Attorney; "Mr. Rambo first came to see me back in the beginning of April. And first of all, I don't think this is a proper forum for him to be trying a case when he first consulted me, I suggested that he see an Attorney. The Town's position in this matter is that Mr. Rambo quoted a section of the Town Code. What he's referring to is section 92/1 which in my opinion does not concern the situation he is describing. I advised Mr. Rambo to seek an attorney's advice and I've discussed this matter with the Board as you're aware and that was the conclusion we came to."

Supervisor Janoski: "Thank you Mr. Duffy. Bill Nohejl,"

Bill Nohejl, Wading River; "Gentlemen, I'm not completely satisfied with the response that I've gotten at the last Board Meeting in reference to resolution #259. If I recall, it was about \$37,000 in overtime pay for about 56½ hours or 57 hours which comes to roughly over \$60.00 an hour. Doc Menendez gave me the reply that it was time and one-half. So a policeman in order to make \$60.00 an hour, must make \$40.00 a hour regular time. And looking into it more so, I found out that the policemen makes about \$21,000 a year which is roughly \$10.00 or \$11.00 an hour and his benefits come up to \$33,000 with the benefits which would be roughly \$15.00 an hour. Now where is this? I see a discrepancy."

Councilman Prusinowski: "Bill it's very simple. I made a mistake adding up — we had four or five resolutions. Some had overtime of hours, others longevity pay on days accrued. The 57½ was not hours, it was 57½ days."

Bill Nohejl: "It was quoted as hours,"

Councilman Prusinowski; "Right. I made the mistake. I was going to make an announcement tonight. It was my error."

Bill Nohejl: "Well that clarified it. For two weeks I was not satisfied."

Councilman Prusinowski: "It was longevity pay differential. It was 57½ hours."

PERSONAL APPEARANCES - continued

Bill Nohejl: "Fifty seven and one half what?"

Councilman Prusinowski: "Fifty seven and one half days."

Bill Nohejl: "You said hours again."

Councilman Prusinowski: "I'm sorry. I made a mistake. I stand corrected, I apologize."

Bill Nohejl: "Okay, well looking down the resolutions why is Swan Pond Road being changed to Grumman Blvd? Who requested it?"

Supervisor Janoski: "The Long Island Business Expo '80" requested the Town of Riverhead to consider that."

Bill Nohejl: "Has the people of Swan Pond Road had input into this whether they wanted a change in it."

Supervisor Janoski: "As a matter of fact, Bill, it's the subject of a public hearing."

Bill Nohejl: "It is subject?"

Councilman Prusinowski: "Eight ten."

Bill Nohejl: "How come a public hearing on the oil refinery? It's on a resolution here."

Supervisor Janoski: "Certainly the purpose of a public hearing is to get public input on any issue that the Town Board is considering."

Councilman Prusinowski: "Why not a public hearing? Are you opposed to public hearings?"

Bill Nohejl: "First of all, I think it's out of order. We've gone through this a long time ago. . ."

PERSONAL APPEARANCES - continued
Councilman Prusinowski: "Ten years ago."

Bill Nohejl: "We've had public hearings on this before. We've had a long debate on it years and years ago and the same old thing coming up again. I don't see why the people of Riverhead should have things like this crammed down their throat because of three big companies. Pretty soon three big companies are going to own Riverhead and they're going to be the only ones who are going to dictate as what the hell Riverhead should do. I want to speak later for a group of people who are not here. I hope that the meeting will be opened again later."

Supervisor Janoski: "Yes it will be Bill. Yes Sir."

Dr. Al Smith, President of Northville Beach Civic Association; "This is in regard to the oil refinery. Most of our members live down on Sound Shore Road in between Pier Avenue and Pennys Lane. I've lived down there since 1924. The organization was started in 1954. We pay high taxes which we should because we're waterfront properties. We received no sewage, we received no water. The fire, we have no hydrants so our insurance for fire insurance is high and I think we're a pretty good bunch of citizens for Riverhead. We're usually a happy band of people down there and then something like this oil refinery comes up. Now we fought Levon and we were the only ones that raised our voice against Levon back in 1963. We fought against the oil desulfurization plant and we were in the beginning of that and then the "It Stinks Committee" came along and then carried it on. And we beat them.

The next thing we came along, we were one of the first interveners along with the Riverhead First Committee and the LILCO Atomic Energy Plant at Jamesport. We've been fighting all these things, the fuel desulfurization plant probably would be worse than the oil refinery, but I don't see where it's going to be much worse and as far as this hearing is concerned, if this hearing is anything like the hearing or information meeting that LILCO put on at the high school when they started in on their Jamesport plan, it's a waste of time. It's a waste of money and it's a waste of energy. We get up there and they hog-tied the whole damn thing. We couldn't answer any questions we couldn't ask them any questions and it was absolutely a waste of time for us. We hope that this will not be the same, although I imagine it will be. I have here a list of petitions with about one hundred forty-two people on it and I'd like to leave this with you. Thank you."

At this time, Doctor Smith submitted a petition which is on file in the Office of the Town Clerk.

PERSONAL APPEARANCES - continuedSupervisor Janoski: "Thank you. Jack?"

Jacob Harding, 128 Hallock Street, Riverhead; "Mr. Supervisor, members of the Town Board, I will take only a few minutes so you can have time for your public hearing at 8:00 p.m. There are many things that this Town Board can do and should do. One of the most important things it can do and should do is listen. In my opinion, some members of this Board have been operating from the emotional and political angles rather than from the practical and good business angles. To consider and waste time on the subject of abortion which is a matter out of the jurisdiction of this local legislative body is an example of misplaced efforts.

There was an exception in this particular subject at least Councilman Prusinowski had the good sense to realize that this moral issue had no place in this room and realizing a power and pressure group was imposing on this body, refrained from voting, and I say good for him. Everybody else fell into the trap.

But back to the subject of listening and listening to proper subjects. Northville Industries in my opinion has been beneficial to the Town of Riverhead. They constitute our largest industries. While other properties have been taken from our tax rolls, state, county property, church properties and so forth, this industry has been a continuous addition to our tax base. So has Grumman's and so has LILCO. I would like to refer briefly to the statement by Northville Industries in which they take a full-page ad and ask the Town Board and the people of the Town of Riverhead and the people of the Town of Riverhead, Why study the impact of a refinery in Riverhead? And they say that they've been asked to participate in a study. They asked the question will a refinery result in regional energy independence? Will it reduce dependence on foreign imports? Can a facility be created which is environmentally and it's compatible of the Riverhead Community. We all want to know that can a refinery creating regional economic stability. Will it reduce real estate property, real estate taxes, real property taxes and create jobs? They say on June 17th, the Town Board is expected to consider a resolution against this study. We would appreciate your contacting your Supervisor and Councilmen prior to June 17th to let them know what you think about the study.

I say to you listen. Listen to them and others in regard to the impact of such an industry and study them. Do not arbitrarily, without study, throw this opposition out. There is an article here by a newspaper on the south side, which after calling the Supervisor thick-headed and so forth, goes on to say that these plants are obnoxious, foul smelling, dirty and a blot on the land. They definitely have no place in this suburban report community. If they do have that effect, if they are foul smelling and dirty, you don't want them and I don't want them. But let's

PERSONAL APPEARANCES - continued

Jacob Harding continues:

find out about them. The subject last came up over ten years ago. Let's see if they have improved the subject. Then we have nice people. Everybody is nice. All friends of mine, all friends of yours, in which a group of people say we support and they list four Councilmen and their opposition to an oil refinery in our Town of Riverhead. Well its my town, it's our Town, it's your Town. Yes if something is obnoxious, we want you to vote against it. But gentlemen, we want you to listen. Why the rabble rousing? At least listen.

Perhaps I'm one of those who didn't vote for Mr. Janoski, but he is our Supervisor. Is there not left in our form of government such thing as courtesy and fair play? Why all the name calling? Why the politics? Why the emotion? Let's think of our Town and let's give a group if they have something to present by way of a study let them do it. You know it reminds us of the old western philosophy that we see in the movies. The attitude of some people will give the guy a fair trial and then will hang him. Let's get away from a little of that. We've had other industries before. We once had a potato chip factory in Riverhead on the north road in Baiting Hollow. It had an aroma if you got near it. The very pleasant odor of fresh salted potato chips. I didn't mind it. As I rode by, I liked it. I wish it was still there. It may be possible to have a refinery without an offensive odor. Maybe it won't be like Poco Raban or English Leather, but let's study. Let's get into this. Let's give everybody a chance.

If we find it's offensive to our senses, we don't want it. If it's offensive to the eye, to the sight, we don't want it. If it's offensive because of noise or smell, we don't want it. If it's offensive to the ear, we don't want it. Let's do a little more listening. There's one great commercial ad on the airways today.

I am not directly or indirectly connected with Northville Industries, or Grumman or Lilco. I'm not employed by the Town. I'm just a taxpayer. I thank this Board for the time granted me and I wish you all a very pleasant summer."

Supervisor Janoski: "Thank you Jack."

Councilman Menendez: "Jack before you sit down, I want to correct one misapprehension you have or one misstatement you made."

Jacob Harding: "Yes."

Councilman Menendez: "When you're speaking of the abortion issue, you said that Councilman Prusinowski was the one that had

PERSONAL APPEARANCES - continuedCouncilman Menendez continues;

the good sense to abstain from voting. Well just so we bring you up to date, I want you to know that I voted no on that issue and I was the only one that voted No. And I still stand by it."

Supervisor Janoski: "Please just a minute Doc. You will all be given an opportunity to speak if you wish. I wish that you would refrain from making comments from the floor."

Jacob Harding: "If I made an error Councilman, I regret it. I was using it as an elegy to show what I thought was time wasted on the subject where you could use time here to listening to other things."

Councilman Menendez: "Yes Sir."

Jacob Harding: "I know now you're correct and I'm in error."

Councilman Menendez: "Jack, on the other issue that you spoke of why the hearing and so forth the only reason we have a hearing because we think it's fair to everybody concerned. In this country, everybody has the right to speak his piece at the right time. And to deny somebody this right to me is wrong. Whether you agree with it or not, they have that right. I mean that's the reason I go along with this."

Jacob Harding: "I'm glad to hear you speak that way."

Councilman Menendez: "If it was two sides to every question . . ."

Jacob Harding: "You're right."

Councilman Menendez: "There would be no need for the multitude of lawyers that we have."

Jacob Harding: "You're correct. And I like to hear you talk that way. You know they often say to people when you're under discussion take an interest in local affairs. Take an interest in local politics. It's your town. You should become

PERSONAL APPEARANCES - continued

interested. Find out what's happening and then you come up and, of course, a lot of people whether they're paid by the Town, whether they're officers, or just citizens, take a lot of abuse. Well that doesn't mean too much to me. I'm very happy to be here to try to call your attention to the subject and I'm glad to hear Councilman Menendez that you have the idea of hearing and listening and granting the hearing."

Councilman Menendez: "Well it's a matter of fairness Jack."

Supervisor Janoski: "Thank you Jack. Yes ma'am."

Donna Raab, Edwards Avenue, Calverton; "And I'd just like to go on the record as saying, I take very strong objection to Mr. Hardings statement that certain things should not be the concern of a Town Board or certain things should not be brought up for discussion. I think anything that's a prime concern to people in a district or a Town, should have an opportunity like this to be discussed and people in government like yourselves, should hear what people say. Whether we agree, or we disagree. and if we're going to sit here and listen to Mr. Hardings views on what's important to him, I think he should be concerned of what's important to everyone else in the Town."

Supervisor Janoski: "Thank you."

Dorothy Moloney - protesting the establishment of an oil refinery in Riverhead. Filed.

Supervisor Janoski recessed the meeting to hold a public hearing.

PUBLIC HEARING - 8:00 P.M.

The Town Clerk submitted affidavits of publishing and posting of a Public Notice for a public hearing to be held at Riverhead Town Hall on Tuesday, June 17, 1980 at 8:00 P.M. to hear all interested persons regarding the proposed code amendments to Chapter 108 of the Riverhead Town Code pertaining to accessory buildings and structures.

The affidavits were ordered to be placed on file.

Supervisor Janoski: "Kevin, would you please explain to the people this particular ordinance change?"

Kevin Duffy: "What the change in the ordinance will allow is for a family to have one shed of an area one hundred square feet or less in their rear yard without any permit requirement."

Supervisor Janoski: "Thank you Kevin. There is one more requirement and that is that it must be five feet from the property line. Is there any comment on this issue? Yes Sir."

Dr. Al Smith, Northville Beach Civic Association; "We have a problem and that is this that we don't know which is our front or back yard? And I'm serious about this. We're on the Sound and we have a lot of people want to put these work sheds up and they're not allowed to because it's their front yard and you want to put a garage up and you can't because it's your front yard and yet it's your back yard. We consider our back yard, what you people consider our front yard. Now where do we stand?"

Supervisor Janoski: "I asked a very similar question, Mr. Smith, and that question was is there a clear definition in existance of a back yard? Now the Town Planning Board does have such a description. I don't remember it addressing any problems such as yours and Miles?"

PUBLIC HEARING - continued

Miles Fairley: "I think that's a matter to ask the Zoning Board, not Planning Board."

Supervisor Janoski: "I'm sorry. It was Pat Tormey that I asked the question of. And Pat isn't here tonight."

Dr. Al Smith: "What's the answer?"

Supervisor Janoski: "We'd have to look at it. It's an exception and it's very unique. Yes, there is a description in the Town Code. Is there anyone else that wishes to speak to this issue?"

No one else wishing to be heard and no communications having been received thereto, Supervisor Janoski declared the hearing closed at 8:03 P.M.

Supervisor Janoski: "In the remaining time before the
next public hearing, let us move on to a few of these resolutions."

RESOLUTIONS

#314 AUTHORIZES APPOINTMENT OF RECREATION AIDES TO RECREATION
DEPARTMENT

Before the resolution was offered, Councilman Prusinowski
stated: "These individuals were picked by lottery."

Councilman Prusinowski offered the following resolution
which was seconded by Councilman Regula.

RESOLVED, That the following be and are hereby appointed
to serve as Recreation Aides effective July 7, 1980 to and
including August 15, 1980, to be paid bi-weekly at the hourly
rate of \$3.10 and to serve at the pleasure of the Town Board:

Maura A. Greegan

Brian M. Dunn

Sherry A. Kacherski

Sue M. Kacherski

Marcia R. Kucera

Roberta M. Langhorne

Edward C. Lee

RESOLUTIONS

Nani Lynn Masek

Diane F. McCarthy

Ellen G. Stark

Mary E. Woodson

The vote, Prusinowski, Yes, Regula, Yes, Lombardi, Yes, Menendez, Yes, and Janoski, Yes.

The resolution was thereupon declared duly adopted.

#315 AUTHORIZES APPOINTMENT OF LIFEGUARDS TO RECREATION
DEPARTMENT

Councilman Regula offered the following resolution which was seconded by Councilman Prusinowski.

RESOLVED, that the following be and are hereby appointed to serve as Lifeguards effective June 21, 1980 to and including September 1, 1980, to be paid bi-weekly at the following hourly rate and to serve at the pleasure of the Town Board:

Thomas A. Brady	\$4.40
Amy D. Carlson	\$3.40
James J. DeCarle	\$3.75
Christopher E. Gevinski	\$3.40
Frank F. Heimroth	\$3.40
James Q. Hirsch	\$4.40
Thomas M. Mullings	\$3.50
Mary M. Patrick	\$3.65
Emily Ebbitt Stewart	\$3.50

The vote, Prusinowski, Yes, Regula, Yes, Lombardi, Yes, Menendez, Yes, and Janoski, Yes.

The resolution was thereupon declared duly adopted.

#316 AUTHORIZES APPOINTMENT OF BEACH ATTENDANTS TO RECREATION
DEPARTMENT

Councilman Lombardi offered the following resolution which was seconded by Councilman Menendez.

RESOLVED, that the following be and are hereby appointed

RESOLUTIONS - continued

#319 RESCINDS PARK ATTENDANT - RECREATION DEPARTMENT

Councilman Regula offered the following resolution which was seconded by Councilman Prusinowski.

WHEREAS, William E. Wegener was appointed Park Attendant effective May 5, 1980 to and including September 5, 1980, and

WHEREAS, William E. Wegener has indicated his inability to serve,

BE IT THEREFORE RESOLVED, that the appointment of William E. Wegener made in a Town Board Resolution under the date of 5/06/80 be and is hereby rescinded.

The vote, Prusinowski, Yes, Regula, Yes, Lombardi, Yes, Menendez, Yes, and Janoski, Yes.

The resolution was thereupon declared duly adopted.

#320 RESOLUTION APPOINTING WILLIAM BERK AS A TEMPORARY EMPLOYEE IN THE COMMUNITY DEVELOPMENT OFFICE

Councilman Lombardi offered the following resolution which was seconded by Councilman Menendez.

WHEREAS, the Community Development Office has requested additional help for a five (5) week period beginning June 9, 1980, and

WHEREAS, William Berk, has applied for said position, NOW, THEREFORE,

BE IT RESOLVED, that the Community Development Office is authorized to employ William Berk from East Hampton for a five (5) week period of 35 hours per week at \$3.75 per hour for a total of \$124.95 per week.

The vote, Prusinowski, Yes, Regula, Yes, Lombardi, Yes, Menendez, Yes, and Janoski, Yes.

The resolution was thereupon declared duly adopted.

#321 AUTHORIZES POLICE LIEUTENANT TO ATTEND WORK SHOP ON RECORD KEEPING, BUDGETS AND COURT CASES FOR DOG CONTROL OFFICERS

Councilman Menendez offered the following resolution which was seconded by Councilman Lombardi.

BE IT RESOLVED, that Lieutenant Wesley Droskoski be authorized to attend a two-day work shop at Newburgh, New York, on June 27th and 28th, 1980. Said work shop is sponsored by the New York State Department of Agriculture & Markets and relates to Article 7 of the Agriculture & Markets Law, which deals with record keeping, budgets and court cases for Dog Control Officers. All expenses to be paid by the Riverhead Police Department.

The vote, Prusinowski, Yes, Regula, Yes, Lombardi, Yes, Menendez, Yes, and Janoski, Yes.

The resolution was thereupon declared duly adopted.

Supervisor Janoski recessed the meeting to hold a public hearing.

PUBLIC HEARING - 8:10 P.M.

The Town Clerk submitted affidavits of publishing and posting of a Public Notice for a Public Hearing to be held at Riverhead Town Hall on Tuesday, June 17, 1980 at 8:10 P.M. to hear all interested persons regarding the proposal to commemorate Grumman Aerospace's 50th Anniversary by changing the name of Swan Pond Road to Grumman Boulevard.

The affidavits were ordered to be placed on file.

COMMUNICATIONS

Department of Economic Development, 5/23/80 - thanking the Town Board for considering the name change and explaining that the request for the commemoration was made by Expo "80" of the Department of Economic Development.

Supervisor Janoski: "Is there anyone present wishing to address themselves to this issue? Bill."

Bill Nohejl, Wading River; "I strongly object to changing Swan Pond Road to Grumman Boulevard. Swan Pond has been there before Grumman ever came along Swan Pond Road has been there. It is a beautiful area. And now we have a beautiful golf course there, Swan Pond Golf Course. I feel as though Swan Pond is more fitting for the area, nature. Why should we just come out of the sky and change it to Grumman Boulevard. I'm sure that the people working at Grumman will find their way to work on Swan Pond Road as well as Grumman Boulevard. I thank you."

Supervisor Janoski: "Bill was that a pun 'coming out of the sky', with regard to Grumman?"

Bill Nohejl: "Beg your pardon."

Supervisor Janoski: "Were you making a joke saying 'coming out of the sky', with regard to Grumman?"

Bill Nohejl: "No. Grumman is good too, but I feel as though this was there before Grumman ever came along. It's fitting for the area nature, why change it to commercial? That's my feelings."

PUBLIC HEARING - continued

Supervisor Janoski: "I appreciate your feelings Bill. Thank you very much. Is there anyone else who wishes to express an opinion?"

No one else wishing to be heard and no further communications having been received thereto, Supervisor Janoski declared the hearing closed at 8:12 P.M.

Supervisor Janoski: "Is there anyone who wishes to be heard?"

Bob Tooker, 3 Waterview Court; "Just a few years ago, David E. Scale arrived in Riverhead trying to sell us on oil refinery in a more euphonistic label fuel desulphurization plant. This oil refinery was to be erected on the sound bluffs, a shadow of the Northville storage tanks. In short order, and in spite of a beautifully prepared and articulately presented proposal Mr. Scale met such violent opposition that within a few weeks he abandoned his efforts. The Riverhead Town Planning Board wrote to the Town Board that, and I quote 'the proposed use would change the predominant and fundamental character of the community', and recommended that the Town Board deny Mr. Scale's application.

Here we are just ten years later, once again being presented with a carefully orchestrated public relations senario by Northville and it's co-venture is Lilco and Grumman. Just as soon as you, Supervisor Janoski, announce your private meeting with this triumphant, I immediately conveyed my deep concern to you that such a project in short order destroy our cherished way of life. In the eastern end of Long Island, a way of life which we had worked hard to protect, to nuture, I have conveyed to each of you members of the Town Board my unwaivering opposition to this oil refinery.

Northville and its friends are now pushing vigorously to obtain your endorsement of a \$300,000 study. The purpose of this study is to ascertain whether a refinery for Riverhead is a good idea, the cost of the study I understand is to be paid from the bank accounts of Northville and others. Can there really be any question as to the result of such a study? Can the Town Board say to Northville, once the study has been undertaken that they do not want it to proceed or that they disagree with the result. If you disagree with the result of the study, you would have to undertake a new study, this time financed by the tax-payers of Riverhead to counteract Northville's proposal.

To stop the Northville steam roller would cost hundreds of thousands of dollars. If once underway, it could be stopped at all, this is the time to nip the oil refinery idea in the bud. Northville and its friends propose to spend this \$300,000 in an effort to convince us that their oil refinery is a desirable

PERSONAL APPEARANCES - continued

Bob Tooker continues:

neighbor. They have started with hundreds of thousands of dollars and ads placed in our local papers. A one-page ad in the Long Island Traveler, the size of Northville's last week, cost over \$700. This is the kind of money they are prepared to spend. This study, I believe, is the first step of their well orchestrated public relations program. It will inevitably and inexorably lead to a second and then to a third study. Very soon the steam roller will be going much too fast for any of us to stop. The local farmer, merchant, or school teacher cannot match the hundreds of millions available to the proponents yesterday.

I went to Elizabeth New Jersey in Union County to see what's new in the oil refinery business. As soon as I crossed over the Gothels Bridge, I could smell that nothing is really new when it comes to refinery smells. This study of mine cost me \$19 in gas and \$3.00 in tolls for a total of \$22.50. My study cost \$299,977.50 less than Northville's proposed study. When I left Riverhead, I was absolutely certain that my study would show that an oil refinery in any guise was not an acceptable neighbor. When Northville proposed their study, they were just as certain as I would conclude that an oil refinery was a delightful neighbor for them, for you and for me.

During my visit to Elizabeth, I sniffed out a few facts about the effect of oil refineries on the surrounding communities. The first startling fact was that with all the pungent pollutants of Elizabeth, their real estate taxes are higher by some 30% than our own taxes here in Riverhead. In fact, the real estate taxes in Elizabeth are amongst the highest in Union County where Elizabeth is located. The refineries employ thousands of blue collar and lower paid laborers. The executives, the engineers and the accountants working at the refineries have apparently elected to live in the suburbs far removed and upwind from the stench in Elizabeth. The refineries in Elizabeth have attracted to them other industry. They, too, do not make desirable neighbors. They include tank car loading facilities, pipe line terminals, chemical companies, pollution control companies and chemical cartage firms.

In recent years, United States Steel has opted to contract its operations, manufacturing operations in Elizabeth. Singer, one of the big employers may be on the verge of closing their facilities in Elizabeth. When the last study was undertaken in 1975, the per capita income in Elizabeth was a little over \$5,000 per year. The average per capita income for Union County as a whole was \$1,300 higher than in Elizabeth. Union County is right this very minute doing its own study to determine the long range effect of its air pollution on the health of its residents. There are no tourists in Elizabeth. There are no farmers in Elizabeth. There are few flowers in Elizabeth. During my visit to Elizabeth I rode along the waterfront as my nose sought a most potent stench. The smell seemed to be at its very worst as I drove out Tremely Point Road to the gates of the Cyanamide Company. As I drove

PERSONAL APPEARANCES - continuedBob Tooker continues:

away from the Cyanamide Plant, there was Northvilles sign pointing the way to the Northville Lyndon Terminal Corp facility. Why I wondered, did Northville decide to go to New Orleans to find a refinery to look at when they're within a stones throw of their plant in Lyndon were several refineries apparently complying at all respect with the rules and regulations of the Federal Government in the State of New Jersey. If Northville wants a refinery, they can buy 168 acres from George Sacks of Jersey City. This property is across the street on Temely Point Road from their facility. This site is surrounded from chemical companies sludge, the water facilities, and other neighbors appropriate to a refinery. I have put my report to you in writing. I brought a copy for each of you. For the benefit of the members of the audience, my report is short and consistent with the \$22.50 it cost to prepare.

It reads as follows:

'To Supervisor Janoski, Menendez, Regula, Lombardi, and Prusinowski, Councilmen

Members of the Riverhead Town Board:

reference proposed oil refineries of Northville Industries Corp., Long Island Lighting Company and Grumman Corp.

Gentlemen:

It stinks.

Very truly yours,'

I thank you for your patience in allowing me to speak this evening. I have one of two things more to say, if it's possible?"

Supervisor Janoski: "You're running out of time, but I would like to make a request of your Bob. Would you please spell my name correctly next time."

Bob Tooker: "Certainly. I'd be pleased. I appreciate the opportunity you've given me to speak tonight as well as Mr. Harding and the other people interested. I have discussed with each of you my concern that this matter be promptly resolved. I am firm in my own connection that we cannot have a refinery in Riverhead. I understand your duties as politicians to give us all an opportunity to be heard. I appreciate your consideration

PERSONAL APPEARANCES - continuedBob Tooker continues:

to me tonight and I hope that you will promptly decide as I have that we don't need this facility in Riverhead. I beseech you to stop this madness before it proceeds further. I urge you to pass a resolution telling Northville and the other members of this triumphant that we cherish our farms that we are proud of our homes, that we enjoy our beaches and that we will get along just fine without the pungent pollutants from their foul smelling proposal. Thank you."

Councilman Prusinowski: "That's the shortest report or proposal in writing from an attorney that I've seen in my whole life. Usually it's about five hundred pages long."

Supervisor Janoski: "We have about six minutes left. Can we attempt to do some more resolutions please."

RESOLUTIONS#322 AUTHORIZES POLICE CHIEF TO ATTEND F.B.I. RETRAINING SESSION

Councilman Prusinowski offered the following resolution which was seconded by Councilman Regula.

BE IT RESOLVED, that Chief Roscoe Palmer be authorized to attend the F.B.I. Retraining Session at the Sagamore Hotel, Bolton Landing, New York, on June 29th through July 2nd, 1980, and that all expenses be paid by the Riverhead Police Department.

The vote, Prusinowski, Yes, Regula, Yes, Lombardi, Yes, Menendez, Yes, and Janoski, Yes.

The resolution was thereupon declared duly adopted.

#333 APPOINTS GERALD SNOVER & CO. TO PERFORM APPRAISALS

Councilman Regula offered the following resolution which was seconded by Councilman Prusinowski.

WHEREAS, the Town needs appraisals in connection with tax certiorari causes, and

WHEREAS, Frank Yakaboski, Special Town Attorney, has recommended Gerald Snover & Co. to perform said appraisals,

THEREFORE, be it

RESOLVED, that the Town Board authorizes Gerald Snover & Co. to perform the appraisals in connection with the tax certiorari on an amount to be agreed.

The vote, Prusinowski, Yes, Regula, Yes, Lombardi, Yes, Menendez, Yes, and Janoski, Yes.

The resolution was thereupon declared duly adopted.

RESOLUTIONS - continued#324 AUTHORIZES TOWN CLERK TO AWARD BID FOR SUPERIOR OFFICERS UNIFORMS

Councilman Lombardi offered the following resolution which was seconded by Councilman Menendez.

BE IT RESOLVED, That the bid for superior officers' uniforms be awarded to MANNO UNIFORMS as per bid opened at Town Clerk's Office on May 19, 1980 at 11:00 A.M.

The vote, Prusinowski, Yes, Regula, Yes, Lombardi, Yes, Menendez, Yes, and Janoski, Yes.

The resolution was thereupon declared duly adopted.

#325 RESOLUTION AUTHORIZING TOWN CLERK TO PUBLISH AND POST THE NOTICE OF PUBLIC HEARING REGARDING STEVE AND JOSEPHINE MITACCHIONE

Councilman Menendez offered the following resolution which was seconded by Councilman Lombardi.

RESOLVED, that the Town Clerk be, and is hereby authorized to publish and post the following public notice with regard to the special permit application of Steve and Josephine Mitacchione to extend the existing non-conforming use of premises located in Business "B" Use District, Sound Avenue & Route 25A, Wading River, New York:

NOTICE OF PUBLIC HEARING
STEVE AND JOSEPHINE MITACCHIONE

PLEASE TAKE NOTICE, that a public hearing will be held at Town Hall, Riverhead, New York, on Tuesday, July 1, 1980, at 8:00 P.M. to hear all interested persons regarding the Special Permit application of Steve and Josephine Mitacchione to extend the existing non-conforming use of premises located in Business "B" Use District, Sound Avenue & Route 25A, Wading River, New York.

The vote, Prusinowski, Yes, Regula, Yes, Lombardi, Yes, Menendez, Yes, and Janoski, Yes,

The resolution was thereupon declared duly adopted.

#326 AUTHORIZES OVERTIME PAY - HIGHWAY DEPARTMENT
Councilman Prusinowski offered the following resolution which was seconded by Councilman Regula.

RESOLVED, that the Superintendent of Highways be and is hereby authorized to pay time and one-half compensation for overtime April 25th, May 26th, and May 27th, 1980 for a total of 8 hours in the amount of \$70.83), in accordance with personal services abstract submitted and filed in the Office of the Town Clerk.

The vote, Prusinowski, Yes, Regula, Yes, Lombardi, Yes, Menendez, Yes, and Janoski, Yes.

The resolution was thereupon declared duly adopted.

RESOLUTIONS - continued

#327 CREATES DRUG ABUSE PREVENTION COUNCIL (DAPC)
Councilman Regula offered the following resolution which was seconded by Councilman Prusinowski.

WHEREAS, the Town Board of the Town of Riverhead wishes to create a Drug Abuse Prevention Council, (DAPC) which shall operate on a completely voluntary basis, having community linkage with other such agencies in an effort to combat drug abuse in any form by various means,

NOW, THEREFORE,

BE IT RESOLVED, that the Town Board does hereby create a Drug Abuse Prevention Council (DAPC), and said Council shall have as its Board of Directors the five members of the Riverhead Town Board, who shall serve for the remainder of their terms of office, not less than one year, and no more than three years, and

BE IT FURTHER RESOLVED, that an Advisory Council shall be appointed to assist in keeping the Drug Abuse Prevention Council informed of appropriate community sentiment, ideas, and opinions. This Advisory Council will formulate strategies and projects for board approval, implement said projects and stratagems within the community and to report the results of their work to the DAPC for assessment and evaluation.

The vote, Prusinowski, Yes, Regula, Yes, Lombardi, Yes, Menendez, Yes, and Janoski, Yes.

The resolution was thereupon declared duly adopted.

#328 AUTHORIZES PUBLISH AND POST WANT AD FOR TWO TOWN POSITIONS

Councilman Lombardi offered the following resolution which was seconded by Councilman Menendez.

RESOLVED, that the Town Clerk be, and is hereby authorized to publish and post a "Help Wanted" Notice for the position of Bus Driver to operate the Senior Citizen Van and for a Custodial Worker to maintain buildings in the Recreation Department.

HELP WANTED
TOWN OF RIVERHEAD

BUS DRIVER - To operate Senior Citizen Van. Apply to the Accounting Department, 200 Howell Avenue, Riverhead, New York. The Town of Riverhead is an equal opportunity employer.

CUSTODIAL WORKER - To maintain buildings in the Recreation Department. Apply to the Accounting Department, 200 Howell Avenue, Riverhead, New York. The Town of Riverhead is an equal opportunity employer.

RESOLUTIONS - continued

The vote, Prusinowski, Yes, Regula, Yes, Lombardi, Yes, Menendez, Yes, and Janoski, Yes.

The resolution was thereupon declared duly adopted.

#329 GRANTS ONE MONTH LEAVE OF ABSENCE TO BARBARA PICARIELLO
Councilman Menendez offered the following resolution which was seconded by Councilman Lombardi.

WHEREAS, under Article XII, section #4, of the CSEA Contract allows for a leave of absence without pay, and

WHEREAS, a Town Employee covered by the CSEA Contract has asked for a one month leave of absence,

NOW, THEREFORE, be it

RESOLVED, that the Town Board grant Barbara Picariello a one (1) month leave of absence without pay from August 4th to August 29th, 1980.

The vote, Prusinowski, Yes, Regula, Yes, Lombardi, Yes, Menendez, Yes, and Janoski, Yes.

The resolution was thereupon declared duly adopted.

#330 BONUS COMPENSATION

Councilman Prusinowski offered the following resolution which was seconded by Councilman Regula.

WHEREAS, the CSEA Contract for 1979 calls for a \$300.00 dollar bonus to be paid in January 1979, and

WHEREAS, two employees were omitted from the \$300.00 dollar bonus,

NOW, THEREFORE, be it

RESOLVED, that Anne Ribeiro and Marion Riley be compensated for the 1979 bonus of \$300.00 dollars.

The vote, Prusinowski, Yes, Regula, Yes, Lombardi, Yes, Menendez, Yes, and Janoski, Yes.

The resolution was thereupon declared duly adopted.

Supervisor Janoski recessed the meeting to hold a public hearing.

PUBLIC HEARING - 8:30 P.M.

The Town Clerk submitted affidavits of publishing and posting of a Public Notice that a Public Hearing will be held at Town Hall on Tuesday, June 17, 1980 at 8:30 P.M. to hear all interested persons regarding the special permit application of Wellington Stoves, Inc. to operate a non-nuisance industry, the assembly and manufacture of coal stoves at premises located at Route 25 and Kroemer Avenue, Riverhead, New York.

PUBLIC HEARING - continued

The affidavits were ordered to be placed on file.

COMMUNICATIONS

Environmental Quality Review Board, 6/05/80 - recommending that application is a Type II action which will not have a significant impact upon the environment. Filed.

Planning Board, 6/06/80 - recommending application be granted, on condition that there be no outside storage or assembly. Filed.

Supervisor Janoski: "Is there anyone present wishing to address the Board on this application? Mr. Arnone?"

Robert Arnone, 4 Zopher Mills Road, Wading River; "I'm the President of Wellington Stoves. Well we are strictly an assembly operation. We're employing approximately 45 people, most of those people will be coming right here from the Township of Riverhead, New York. Our assembly parts are completely contained from sub-vendors meaning that painting is done on the outside, there is not welding being done. It is strictly a three-line assembly line of nuts and bolts and that's it. They'll be no storage outside. There is no environmental impact in the sense that there is no sulphur dioxide burning of coal. That's just strictly assemblance."

Supervisor Janoski: "Okay, thank you Bob."

Unidentified Voice from Audience: "Can we ask what kind of stoves they are?"

Robert Arnone: "Yes, they're coal burning stoves."

Bill Nohejl: "May I ask where on West Main Street?"

Robert Arnone: "Do you know where the Oak Case Plumbing and Supply Building used to be, that's it. In fact, our sign is now up approximately two weeks."

Supervisor Janoski: "Bill there is a reason I feel that it's incumbent upon me to explain it. The area is zoned Industrial B, I believe, and it reached our attention recently that you could do an awful lot of things in that zoned area, but not assemble

PUBLIC HEARING - continuedSupervisor Janoski continues;

things, so that is the reason for this public hearing and hopefully it will meet with the Town Board's approval. Any . . ."

Unidentified Voice from Audience: "How many men will they hire Sir?"

Robert Arnone: "Approximately forty-five. In fact, most of the applicants now and those who have been notified, come right from the Township of Riverhead."

Supervisor Janoski: "Any further questions? Thank you Bob."

Robert Arnone: "Thank you."

Supervisor Janoski: "Is there anyone else present that wishes to address a question to this issue?"

No one else wishing to be heard and no further communications having been received thereto, Supervisor Janoski declared the hearing closed at 8:35 P.M.

Supervisor Janoski: "Ladies and gentlemen come to order. Mr. Smith you had made a request to speak before we started the resolutions."

Dr. Al Smith, Sound Shore Road; "It's really not that important, but I felt that Bill Nohejl got up and talked on this Swan Road and on changing it to Grumman Boulevard and yet nobody else responded except him and if you vote on it tonight, you certainly will have to vote on it in favor and it seems to me a crime that this area and I agree with Bill whole-heartedly this area is not a commercial area. It's a beautiful ride. I don't think there are any houses on the darn road. It's a minor thing, but I would like to go on record as saying I would favor it staying Swan Road."

Supervisor Janoski: "I would like to make a comment. I've been very quiet all night. I did say something out in the hall and that was that had you been in the Pacific during World

PERSONAL APPEARANCES - continuedSupervisor Janoski continues:

War II and you've seen hellcats in the sky about you, I think that you would have loved the word 'Grumman', Doctor Granttham?"

Dr. Al Smith: "I was there for five years."

Supervisor Janoski: "Then you know what I'm talking about."

Dr. Al Smith: "I like Swans too."

Dr. Carol Granttham, Sound Avenue, Riverhead; "First of all, I'd like to concur whole-heartedly with what Bob Tooker has said tonight about the proposal for an oil refinery and I want to make a very brief comment that I, too, was involved with many others in that campaign many years ago called 'It Stinks'. How can you, the Board, and this community, expect to get a fair objective feasibility study in the public interest when it's financed, controlled, kept under absolute hands of the three corporations involved? I do not believe that you could ever invite the fox into the chicken house and expect to come out safely. Thank you."

Supervisor Janoski: "Thank you Dr. Granttham. One more comment. Actually the study has been offered to be under the control of the Town of Riverhead through an agency of its own creation. Perhaps the Planning Board, Zoning Board of Appeals, Conservation Advisory Council and the Town Board itself are possible as making up this controlling body. However I would have to say that certain members of some of those Boards would have to absent themselves because of their pre-determined opinion, but those three companies are willing to put the control of the study into the hands of the Town of Riverhead. Now we'll hear from Southold."

Marie Johnson, Deputy Supervisor Southold Town; "I'd like to point out that the matter of an oil refinery in Riverhead Town is not a Riverhead situation alone, I think it's a regional situation. We in Southold would certainly be effected in many ways should a plant come into being. I'd like to say also that I'm concerned that the study is going to be done by the people who will profit most from the realization of an oil refinery. I'd like to suggest that you think of turning the study over to someone like Dr. Koppelman and his Planning Department. Well I don't think the man who is not intimately tied to one of the

PERSONAL APPEARANCES - continuedMarie Johnson continues:

companies involved is certainly going to do a better study than someone who is going to profit from the thing eventually. But I would primarily like to suggest that if this study does get underway that you keep Southold Town in mind and that we be part of it as much as we possibly can because we'll be part of any problem that arises from it, I assure you. Thank you."

Supervisor Janoski; "Thank you."

Councilman Prusinowski: "Mr. Supervisor can I make one point of information. I think everybody in the Town is getting off the track here. There is no study underway right now. I've sat here already for six months and I've heard this. The resolution that we have before us tonight for a public hearing on July 2nd is to address a resolution written by Councilman Lombardi which opposes the establishment of an oil refinery in the Town of Riverhead. The — which was offered a couple of weeks ago — there is no study underway right now. And what you will be addressing that night is whether or not you agree with the Town Board to either vote for this resolution or against it. And that's where we are. I've heard now we've got Lee Koppelman involved and everything else. There is no study underway right now. And that's the purpose of the public hearing on July 2nd. That's just a point of information. And you know we get to be here all night and that's why we have a public hearing on July 2nd to hear both sides."

Supervisor Janoski: "Thank you Victor. Fred?"

Fred Moore, Baiting Hollow Lane, Calverton: "I'm interested to hear — Councilman Prusinowski said there's no study right now. There's one contemplated, however, it would seem. And I'm interested to see that kind of reaction because it was very many weeks ago that this Town Board refused to even support a study and I can understand why they wouldn't support a study. For the estuary study could be done regarding Peconic Bay. The problems with studies is as it was pointed out by Mr. Tooker, is that they have a propensity for becoming a fact at some point. And that's why you didn't want a study because the next thing you're going to be faced with was the reality. And what I'm hearing here tonight is a lot of people are saying the same thing.

We don't even want a study because what we're going to be faced with is the reality. Like it or not and that's what we're concerned about. Nip it in the bud because a refinery is not compatible without agriculture and with recreation and with the Town of Riverhead with the way it is. Thank you."

PERSONAL APPEARANCES - continued

Councilman Regula: "Well Fred, if I may answer that, Mr. Supervisor. On the Estuarine Sanctuary, Fred, I think that started in our Town Boards executive session. And after an hour of discussion, the vote was three to two. Three men voted against the study and two men that voted for it. After all that, we had gone through and the pressure and everything else that went into that and we had people from the federal government and state government and all come in. We had newspaper people and just about everyone and many people from East Hampton and Southold, not so much Southampton because in the beginning they were partly for it. But I think we showed that with the end result four Towns voted against the study.

Now that was, as Mr. Smith said earlier, we're not going to get a fair shot at this. They're not going to let us ask questions. Well with the study — the Sanctuary Study, we didn't get to ask questions. And right here in this room, Mr. Koppelman, who ran the meeting, took a vote of the body that sits here now and all he had was a raise of twenty-three hands and he went on and on with this study. They accepted the \$50,000. It still leaves four Towns. I know one newspaperman called, not only our Town Board stupid, but he called the other three Towns stupid, because we turned it down. There were just too many questions and we didn't have the answers and four Towns turned it down, so I think we, this Town Board, has been under pressure before and I'm sure there's nothing that's going to be steam rolled as far as whether this vote goes for or against tonight. But I sepak for myself, that I'm going to have plenty of questions and I'm sure everybody else in this room will have."

Supervisor Janoski: "Thank you, Allen?"

Allen Smith, Jacobs Place, Aquebogue: "Earlier in the evening, someone said what's wrong with a study? In what conveys to me that this current Town Board seems to have adopted a theory of government that is certainly not my own. I do not believe that you as elected public officials act in a vaccum. The voters of this Town did not elect you or elect me when I sat there, to simply stand in the breeze and blow hither and thither as the breeze came through. I think you were elected to exercise your best judgment. I think you were elected to study problems facing our community reaction, lead, and I think that's what John Lombardi was doing when he proposed this resolution. I think the thing is upside down. I think if somebody wanted to propose a study that you should have had a resolution put before the Board sponsoring adopting proposing pushing forward the study. Instead Lombardi has to come off as the bad guy because he says what are we studying? It's just all upside down.

I ask you to assume for the moment that the consequence of the study will be what you put a refinery in, Riverhead? Where?

PERSNNAL APPEARANCES - continuedAllen Smith continues:

Are you going to put in Industrial B? That means we'll have refineries from one end of the Town to the other. Are you going to put it in Industrial A? You can put one right along side Larry's Lighthouse Marina then. Do you really believe that the Master Plan in the Town of Riverhead as is currently situated can accommodate an oil refinery? Do you believe that the regional plan of Suffolk County can accommodate an oil refinery? The opponents who are speaking here tonight will tie you up in knots for years. Where's the leadership.

You say you're going to gauge public opinion, that's what you're elected to do. I think Johnny has gauged it right. I don't think the thing stands a snowballs chance in hell. I don't want to be here tonight. I consider the people at Northville friends. I consider the four years that I worked with those people good years. I think we did some cooperative good things for our Town together. But I think maybe a test of friendship is when you tell your friend that he's wrong. And you look him right in the eye when you do it. And that's why I'm here. I told my friends from Northville privately and I'm telling them tonight publicly they're good people they have a lot of right ideas, but this one's a bummer and I can't see investing five more seconds in it and I think Johnny, you should put your resolution on and if you don't get a second, but at least your conscience is clean on the thing. Thank you for listentig to me."

Councilman Menendez: "After an ovation for one of our esteemed lawyers. That was a very elogent plea as was Mr. Tooker's. I think everybody's missing the boat here. We're not talking for or against at this point. You speak of leadership when Allen was Supervisor of this Town, we had hearings on everything from hangnails on up and there's no reason that anybody in this country can't have a hearing if he wants to, to say his piece. He can't tell somebody he can't talk on an issue. If that was the case, you'd have no need for courts, no need for judges and certainly no need for lawyers. I think you fellows are supposed to be the lawyers here, are supposed to be awards of the court, have taken an oath to uphold the laws of the country and I think you are way off base on this. You are denying people the right to talk to speak. To me that's unamerican. I don't care whether I'm for it or against it and I won't say so at this point, but I do think they are entitled to speak their piece. And that goes for everybody in this Town, and this country."

Councilman Regula: "Mr. Supervisor, If I might add something that Doc — we went through this with the nuclear plant, as most everyone remembers. And I was in favor of the nuclear plant in the beginning and personally I am still in favor of nuclear plants. However, at some point in time in my travels, I went through Riverhead and I found people were just not with

PERSONAL APPEARANCES - continuedCouncilman Regula continues:

it. And especially the Three Mile Island thing happening, so we fought and we got the referendum on. It was an advisory referendum and I tell you I had quite a battle getting it through. And so with that, we had the people speak and I think most of you remember the results.

There were 5,000 people voted on that one proposition. And it was at the farthest corner of the ballot. There are only 7,300 people that vote in the Town last year or that November, and 5,000 went and found that proposition. So with that four to one vote, the entire Town Board said no nuclear plant. So I feel that we've gone through this before and as I say whether this resolution passes tonight or not, I feel that we have to get the pulse of the people of the Town of Riverhead. And we met with these three companies last week and they just wanted the opportunity to be heard. And my comment to the other Councilmen and Supervisor were that I felt that we should give them a shot at being heard or that all the people or as many people that are interested to hear their comments, they know nothing or they feel that there are so many ramifications to this that it's just their feeling that way also and know when Bob Tooker says once they spend that \$300,000 with the Town of Riverhead we'll have to come back and spend \$100,000, I don't know about that Bob, but I feel that we should at least at this point in time I feel that we should give them a change to be heard."

Supervisor Janoski: "Yes Sir."

David Grunner, Sound Shore Road, Riverhead: "Just in response to what the last two gentlemen said, I'm sorry I don't know your names, but said that the two lawyers who spoke were somewhat off base and your philosophy is to hear everyone's view points,

One thing you've forgotten which has been brought up tonight, is that people that were heard some years ago in regard to an oil refinery that's when the desulfurization plant was discussed. And he don't think there's any need to go through again. Now you're just opening up a can of worms that was closed a long time ago. I just feel that there's no need for it and I'd like to go on record as being opposed to you re-opening this discussion."

Supervisor Janoski: "Is there anyone else present that wishes to be heard?"

PERSONAL APPEARANCES - continued

Harry Rambo, 612 Main Street, Riverhead; "I'm not for or against desulfurization or refineries or — but I don't know if there's a difference. We had an application put in for somebody that would put a gasohol plant in. I see no difference whatsoever from a gasohol plant or any other refinery is exactly the same thing. Now that refinery was going to be put on Edwards Avenue and the Board seemed to think that was a very good idea. I happen to have a little bit of information on gasohol and there isn't enough potatoes on Long Island even when they planted 20,000 acres to make enough fuel for the Long Island Expressway on the 4th of July weekend. And you definitely know that once that refinery is built whether it's the gasohol or anything else, they say it's very easily used for petroleum. It is a refinery exactly the same thing."

Supervisor Janoski: "Mr. Rambo, I have to agree with you, The production of alcohol is a fermentation process."

Harry Rambo: "I'll have to disagree with you Sir,"

Supervisor Janoski: "Well it's just like brewing beer. Now we could discuss this back and forth all night,"

Harry Rambo: "But you have to have a distillery to get the alcohol from the fermentation. That is a distillery. The distillery is a plant exactly the same. In order to get the volume that they need, they need a column. A column with a refractory column and a strip around it is a refinery. And there is no way to separate the size of that refinery. In order to get 200 gallons an hour, it takes a 12-inch column which is exactly the same thing you'll see off the Jersey Turnpike. And the amount of stages that you have and it determines what you're pulling out of the column. And to get gasohol you need a refinery because it takes anhydrous alcohol to make gasohol you can only get 195 proof out of any ordinary refractory still. And you cannot combine that with gasoline whatsoever without a catalyst and it takes a refinery. And I think if you look into it you will find that out."

Councilman Prusinowski: "Excuse me, Mr. Supervisor, again I have to point out, there is no proposal in front of us for a gasohol plant. If there is when Mr. White is serious about building his gasohol plant, he will apply to the Town for the proper permits, at which time all the information will come out at the public hearings."

PERSONAL APPEARANCES - continued

Harry Rambo: "Well there was a public hearing."

Councilman Prusinowski: "Not on the gasohol, we did not."

Harry Rambo: "He came and gave you a big spiel."

Councilman Prusinowski: "That was an informal meeting of the Board and it was not a public hearing and it was nothing concrete."

Harry Rambo: "I wasn't here. I thought they had a hearing on that, that that is a refinery."

Supervisor Janoski: "Well it's a distillery, but why get into it."

Harry Rambo: "Well that's what these people are here for now, that's what a refinery is a distillery. It is a distillery."

Supervisor Janoski: "Thank you Mr. Rambo."

Councilman Lombardi: "Joe can I say a few words."

Supervisor Janoski: "Certainly John."

Councilman Lombardi: "It seems like I'm the one that started the rigmarole. I wrote a few things down. I'm not really a public speaker or anything like that, I just like to sit and listen to people and then make my judgment. When this was started and this refinery did come up, I was meeting people on the road, calling me up that they were against this refinery. And I felt I waited long enough and I'm telling people I'm against the refinery. Maybe I'm wrong for not listening to the other side, but I knew what problems we had gone through with the desulphurization. I knew what problems we had gone through with the nuclear plant and I felt it's about time we made a statement one way or the other for it or against it to get it on record and I felt let's get it on record that I was against and I spoke to the Board Members and they all agreed. It happened

PERSONAL APPEARANCES - continuedCouncilman Lombardi continues:

that we decided to give the companies a chance to talk to us which we never sat down with any of them till this resolution was brought up. So we did sit with them and they did have — they did speak to us and we decided to go ahead and have a public hearing. I . . ."

Unidentified speaker from the Audience was inaudible.

Supervisor Janoski: "Mr. Rambo, you're out of order."

Councilman Lombardi: "Harry, I'm not going against you or anything else, I'm just trying to get something out. Let me just say what I wrote down. In my four years of office, I have not had such an outpour of public opinion as the oil refinery has brought. I've had letters, phone calls, personal contact, 95% against the refinery. Most of the people called to tell me that they did not want to come and speak in front of a microphone and to convey their messages to you, to the Town Board. So it's against my better judgment to prolong the Board's action for another two weeks. But since it's what the other Board Members want, I have agreed to go along with it. And this is on the public hearing. But I feel that we had this problem and it's going to continue and I don't think it's going to create anything better with an oil refinery. I will listen to both sides, I will listen to anybody, then I'll have to make my decision, Thank you."

Supervisor Janoski: "Thank you John. Before I close this meeting, I will open it again to public comment. I would like to continue with the resolutions at this time."

RESOLUTIONS#331 APPOINTS SUMMER INTERN AS TOWN EMPLOYEE

Councilman Menendez offered the following resolution which was seconded by Councilman Lombardi.

WHEREAS, the Town Board of the Town of Riverhead has traditionally appointed college interns to help the Town Departments in special projects for the summer, and

WHEREAS, the Town Board has found this project to be beneficial to both the Town, its citizens, and the individuals, NOW, THEREFORE, be it

RESOLVED, that Douglas VanSlyke, be and is hereby appointed to the position of summer intern at the rate of \$3.75 dollars per hour, effective June 16, 1980, to serve at the pleasure of the Town Board.

RESOLUTIONS - continued

The vote, Prusinowski, Yes, Regula, Yes, Lombardi, Yes, Menendez, Yes, and Janoski, Yes.

The resolution was thereupon declared duly adopted.

#332 SUPPORTS ASSEMBLY AND SENATE BILLS GRANTING VETERANS' EXEMPTIONS UNDER FULL VALUE ASSESSING

Councilman Regula offered the following resolution which was seconded by Councilman Prusinowski.

WHEREAS, the Courts, through a series of decision, have mandated that each and every taxing jurisdiction in the State of New York institute full value assessing, and

WHEREAS, full value assessing most seriously impacts upon the exemptions previously given to Veterans in the State of New York,

NOW, THEREFORE, be it

RESOLVED, that this Town Board does hereby recognize the inequity of the present Veterans' exemptions and full value assessing, and further encourages those elected representatives at the State level, representing the Town of Riverhead, to vote favorably on Assembly Bill No. 1061, Senate Bill No. 862, which would grant Veterans' exemptions, which are consistent with the principle of full value assessing subject to permissive referendum.

The vote, Prusinowski, Yes, Regula, Yes, Lombardi, Yes, Menendez, Yes, and Janoski, Yes.

The resolution was thereupon declared duly adopted.

#333 APPOINTS SECRETARY FOR THE BOARD OF ASSESSMENT REVIEW

Councilman Lombardi offered the following resolution which was seconded by Councilman Menendez.

RESOLVED, that Kathy Johns, be appointed as Secretary to the Board of Assessment Review, at an hourly rate of \$4.25, FURTHER RESOLVED, that payment will be taken from the Board of Assessment Review budget, effective July 6, 1980.

The vote, Prusinowski, Yes, Regula, Yes, Lombardi, Yes, Menendez, Yes, and Janoski, Yes.

The resolution was thereupon declared duly adopted.

#334 RESOLUTIONS BOARD OF ASSESSMENT REVIEW

Councilman Prusinowski offered the following resolution which was seconded by Councilman Regula.

RESOLVED, that Carl Locker, Chairman, Howard Tuthill and John Kalba members of the Board of Assessment Review be paid in the amount of \$65.00 Chairman and \$55.00 members each per day of hearing complaints of assessment review.

And hereby, all expenses to be paid from the Board of Assessment Review budget.

RESOLUTIONS - continued

The vote, Prusinowski, Yes, Regula, Yes, Lombardi, Yes, Menendez, Yes, and Janoski, Yes.

The resolution was thereupon declared duly adopted.

#335 AUTHORIZES TOWN CLERK PUBLISH AND POST BID NOTICE -
ELECTRONIC DATA EQUIPMENT

Councilman Regula offered the following resolution which was seconded by Councilman Prusinowski.

RESOLVED, that the Town Clerk be, and is hereby authorized to publish and post a Notice to Bidders for Electronic Data Processing Equipment and Related Services; bids to be opened in the Town Clerk's Office on Tuesday, June 24, 1980 at 11:00 A.M.

RESOLUTIONS - continued

Bids must be marked "Microfilm Equipment".

Said bids will be publicly opened in the Town Clerk's Office at 11:15 A.M. on June 24, 1980, and thereafter considered by the Town Board of the Town of Riverhead.

THE TOWN BOARD RESERVES THE RIGHT TO REJECT ANY AND ALL BIDS AND TO WAIVE ANY INFORMALITIES.

The vote, Prusinowski, Yes, Regula, Yes, Lombardi, Yes, Menendez, Yes, and Janoski, Yes.

The resolution was thereupon declared duly adopted.

#338 AUTHORIZES THE REPAIR OF THE MICHIGAN 270B PAY LOADER
Councilman Prusinowski offered the following resolution which was seconded by Councilman Reugla.

WHEREAS, the Michigan 275B pay loader is inoperative at the present time, and

WHEREAS, this is a vital machine that is necessary for the landfill, and

WHEREAS, it is in the Town's best interest to consider this an emergency situation,

NOW, THEREFORE, be it

RESOLVED, that Edward Gadzinski of the Sanitation Department is hereby authorized to have said machine repaired on an emergency basis without putting said repairs out to competitive bidding.

The vote, Prusinowski, Yes, Regula, Yes, Lombardi, Yes, Menendez, Yes, and Janoski, Yes.

The resolution was thereupon declared duly adopted.

#339 TRANSFER OF FUNDS - POLICE
Councilman Regula offered the following resolution which was seconded by Councilman Prusinowski,

RESOLVED, that the Supervisor be, and hereby is, authorized to transfer the following:

FROM: Police Recording Equipment	A3120.232	\$185.00
TO: Police Emergency Boat	A3120.230	\$185.00

The vote, Prusinowski, Yes, Regula, Yes, Lombardi, Yes, Menendez, Yes, and Janoski, Yes.

The resolution was thereupon declared duly adopted.

RESOLUTIONS - continued

#340

CREATES THE POSITION OF DEPUTY TOWN ASSESSOR

Councilman Menendez offered the following resolution which was seconded by Councilman Lombardi.

WHEREAS, this Town Board has been advised by the Chairman of the Board of Assessors of the necessity of acquiring knowledgable, qualified personnel to assist in the implementation and application of full value assessment, and

WHEREAS, a duty statement submitted to the Suffolk County Civil Service has been returned with the classification of Deputy Town Assessor,

NOW, THEREFORE, be it

RESOLVED, that this Town Board does hereby create the position of Deputy Town Assessor, at a salary of \$15,140.55 per year, Group 7, Step 1, in the salary administration scheduled.

The vote, Prusinowski: "When I ran on my campaign I said there are times when we should learn to say No. Times are tough. We face a revenue sharing budget cuts. I know we have a problem in the Assessors Office. I don't know if this is the way way to solve it. \$15,140 is a lot of money to add to this budget. It's a new position. It's not in the budget right now and I think I owe it to the people who put me in office to vote No."

Regula, Yes, Lombardi, Yes, Menendez, Yes, and Janoski; "When I called for the Civil Service List, I did so under the assumption that I was going to fill a vacancy. This resolution creates a new positon. I, therefore, vote, No."

The resolution was thereupon declared duly adopted.

#341

APPOINTS 30-DAY TEMPORARY EMPLOYEE IN ASSESSORS OFFICE

Councilman Lombardi offered the following resolution which was seconded by Councilman Menendez,

WHEREAS, the position of Deputy Town Assessor has been established in the Office of the Board of Assessors, and

WHEREAS, this Town Board has been informed that Joseph Loughlin is number 3 on the eligibility list for this position,

NOW, THEREFORE, be it

RESOLVED, that Joseph F.X. Loughlin is hereby appointed to the position of Deputy Town Assessor in the Assessor's Office as a 30-day temporary employee, effective June 30, 1980 at a salary of \$57.78 per diem, as in Group 7, Step 1, in the salary administration scheduled.

The vote, Prusinowski; "To follow up on what I said in the resolution before, I have a lot of respect for Joe Loughlin he's very qualified, however, he lost the last election to the current Assessor. I vote No."

Regula, Yes, Lombardi, Yes, Menendez, Yes, and Janoski; "The Town of Riverhead has, I thought, agreed to a system by which vacancies would be filled. That system has not been followed in this particular case. I, therefore, vote No."

The resolution was thereupon declared duly adopted.

RESOLUTIONS - continued

#342 RESOLUTION GRANTING TO CHANGE THE NAME OF SWAN POND ROAD TO GRUMMAN BOULEVARD

Councilman Prusinowski offered the following resolution which was seconded by Councilman Regula.

WHEREAS, a request was submitted by Expo "80" through the Department of Economic Development, and

WHEREAS, Expo "80" requested that the road named "Swan Pond Road" be changed to "Grumman Boulevard", and

WHEREAS, this Town Board deems it appropriate to change the name of the road since Grumman Aerospace Corporation is located on that street and has been a long-time resident corporation of this Town,

NOW, THEREFORE, be it

RESOLVED, that this Town Board hereby grants the request to change the name of a road known as "Swan Pond Road" to "Grumman Boulevard".

The vote, Prusinowski, "Well I happen to know the name of the Golf Course is not Swan Pond Road Golf Course --- Swan Lake Golf Course. I'm very familiar with the area and I think it had a name before I'm going to vote Yes."

Regula, Yes, Lombardi, Yes, Menendez, No, and Janoski, Yes.

The resolution was thereupon declared duly adopted.

#343 RESOLUTION GRANTING SPECIAL PERMIT APPLICATION FOR WELLINGTON STOVES

Councilman Regula offered the following resolution which was seconded by Councilman Prusinowski.

WHEREAS, Wellington Stoves submitted an application for a special permit to assemble and manufacture stoves on premises located at Route 25 and Kroemer Avenue, Riverhead, New York, and

WHEREAS, Wellington Stoves did file said application with the Planning Board of the Town of Riverhead, and

WHEREAS, the Planning Board of the Town of Riverhead did hereby approve said special permit application, and

WHEREAS, a public hearing was held at the Town Hall, Riverhead, New York, on June 17, 1980, at 8:30 P.M. to hear all interested persons regarding the special permit application of Wellington Stoves, and

WHEREAS, no persons expressed their opposition to said application,

NOW, THEREFORE, be it

RESOLVED, that this Town Board does hereby grant said special permit application to Wellington Stoves wherein they will assemble and manufacture stoves on premises located at Route 25 and Kroemer Avenue, Riverhead, New York, subject to any restrictions, requirements, and/or limitations as detailed in the Code of the Town of Riverhead, Section 108, and the following condition: That there be no outside storage or assembly.

RESOLUTIONS - continued

The vote, Prusinowski, Yes, Regula, Yes, Lombardi, Yes, Menendez, Yes, and Janoski, Yes.

The resolution was thereupon declared duly adopted.

#344 INCREASE SUPERVISOR'S PETTY CASH ACCOUNT

Councilman Lombardi offered the following resolution which was seconded by Councilman Menendez.

RESOLVED, that the Supervisor's Petty Cash account A1220.410 is hereby increased from \$50.00 to \$100.00.

The vote, Prusinowski; "The accounting department has requested this. I have an explanation. I vote No."

Regula, Yes, Lombardi, Yes, Menendez, Yes, and Janoski, Yes.

The resolution was thereupon declared duly adopted.

#345 AUTHORIZES NOTICE OF PUBLIC HEARING RE: OIL REFINERY

Councilman Prusinowski offered the following resolution which was seconded by Councilman Regula.

WHEREAS, citizen's comments, pro and con, regarding a feasibility study of an oil refinery in the Town of Riverhead have been submitted as a matter of record, and

WHEREAS, this Town Board has established the procedure of public hearings to hear all interested persons on matters where citizens have evidenced public concern,

NOW, THEREFORE, be it

RESOLVED, that the Town Clerk be, and is hereby authorized to publish and post a public notice for a public hearing to be held on Wednesday, July 2, 1980 at 7:30 P.M. at Riverhead High School to hear all interested persons regarding a feasibility study for the establishment of an oil refinery plant within the boundaries of Riverhead.

The vote, Prusinowski, Yes, Regula, Yes, Lombardi, Yes, Menendez, Yes, and Janoski, Yes.

The resolution was thereupon declared duly adopted.

#346 TRANSFER OF FUNDS

Councilman Prusinowski offered the following resolution which was seconded by Councilman Regula.

RESOLVED, that the Supervisor be, and hereby is, authorizes to transfer the following:

FROM: PM599 APPROPRIATED FUND BALANCE \$3,900.00

TO: PM3320.200 PARKING METER EQUIPMENT \$3,900.00

The vote, Prusinowski, Yes, Regula, Yes, Lombardi, Yes, Menendez, Yes, and Janoski, Yes.

The resolution was thereupon declared duly adopted.

PERSONAL APPEARANCES

Supervisor Janoski: "I would at this time open the meeting to anyone who wishes to address the Board?"

Robert Arnone: "I wish to thank the Town Board of Riverhead, the people of Riverhead for welcoming Wellington Stoves, in particular Mr. Janoski for making us aware, my staff and myself of the advantages of bringing industry here to Riverhead. We were just on the verge of being in the 110 area of Huntington and by being able to again make us aware of the fact that there was a vast workload in this area of people we can hire from Riverhead and that we're very very close to the Long Island Expressway which is very important to us to help facilitate our industries. And a special thanks to Mr. Wiwczar from your Building Department to help to facilitate to bring this hearing to where it's at now. Thank you very much."

Supervisor Janoski: "Thank you Bob. The gentlemen in the rear who wishes to speak?"

Eddie Dwyer, Riverhead; "I want to speak on 100% assessed valuation. Why did the Town of Riverhead rush this, number one? This afternoon, the Town of Islip knocked it out on a moratorium and I think LaGrandy was the happiest man alive because actually it's going to harm everybody in general and help others, but it's going to harm the old people and the new ones all around, I think it's going to harm."

Now the Town of Huntington and the Town of Smithtown has not even, I think they don't have it and they're holding off. But the question I ask is why did the Town of Riverhead rush this in a hurry? They could hold this off forever. Now they blamed Allen Smith. So I don't know. I got around and heard a lot blamed Allen Smith over this. I brought his name up, I don't know if he's here or not, maybe he could answer. But maybe now you could answer Sir."

Supervisor Janoski: "First of all, word had not reached me that Islip which has implemented 100% evaluation has now changed that. I wonder, Sir, if you have your facts correct. . ."

Eddie Dwyer: "Yes it was on the radio an hour ago."

Councilman Regula: "I think all they declared was a moratorium."

PERSONAL APPEARANCES - continued

Supervisor Janoski: "Yes, that's all they can do."

Councilman Regula: "Is, Tom, our man, here?"

Supervisor Janoski: "No he's left."

Eddie Dwyer: "It was on the air and he was a happy man because he spoke of what the hell happened over there and it's chaos."

Supervisor Janoski: "Well Sir the concept of full-value assessment, of course, as you probably well know, is a court ordered system. The Legislature of the State of New York as far as I know have not extended the moratorium which ends very soon 100% valuation is supposed to be implemented at the end of this tax year. So that I don't see the where with all with which the Town of Riverhead can do as you suggest. However, I do believe, personally, that the system of full-value assessment is the fairer system to use in raising tax revenue beyond my opinion of an income tax being preferably. But that is all that I would have to say on that subject. Would any of you guys — Sir, if you want to address the Board, I wish you would come back to the microphone."

Eddie Dwyer: "I'd like to get an answer from this young man on the end here. I don't know if he has any ideas or not because I heard him speak about it before so maybe he has ideas. I don't know. Maybe he's with it or against it, I don't know."

Councilman Regula: "Well I can give you just one of the reasons."

Eddie Dwyer: "I don't mean you, I mean the other man here on the end. This young follow."

Councilman Prusinowski: "That's one of the vitues about being young Tony. I get stuck. I don't know where you've heard me speak on that full-assessment evaluation, but I know that nearly 60% of the State is going to the system. This system was started about two years ago, if I'm not mistaken, but unless the state legislature does something about it, there's really — everybody's pushing back the day of reckoning because if you read the Newsday editorial today and they told the Towns on Long Island that eventually you do it or a Judge is going to order you to reassess at full valuation and it's going to be ten times worse, plus five

PERSONAL APPEARANCES - continuedCouncilman Prusinowski continues:

times as costly to the taxpayers. My taxes went up. I don't like it, but unfortunately, that is a system that a court order has ordered the Towns and there's a moratorium, I believe, that's running out and that what the big debate in Albany is now is to extend the moratorium and there's all types of bills there.

It was a decision to send this thing out and the Board made it and I don't think we should have a debate on it."

Eddie Dwyer: "Well I'm speaking about the Town of Islip where there's hundreds of homes that have gone down the drain. It's an exodus and that's why they were in a hurry this afternoon which I heard on the radio. I don't know what it's about, but there's a way of hurting and harming and helping, but for the old times and for the younger kids, it's tough."

Councilman Prusinowski: "I agree."

Supervisor Janoski: "Thank you Sir. Bill?"

Bill Nohejl, Wading River; "I, too, had some discussions on reassessment which in the intermission a group of us got to Charlie Crump. He promises us to get things straightened out very shortly, which is quite a dilemma on some of this property. The farmers around Town here, the way the reassessed . . ."

Supervisor Janoski: "I understand Bill that notices will be in the mail on Saturday . . ."

Bill Nohejl: "We have a definite deadline with Charlie. I talked to Charlie a number of times, he kept telling me two weeks, two weeks, two weeks. But not it's a definite deadline. And we're going to have things straightened out one way or the other."

Supervisor Janoski: "But you are aware that no notices will be sent out."

Bill Nohejl: "Well this is what we're waiting for. This was promised a while back. And we haven't received them. You know that time is drawing close and the noose is getting tighter. So . . ."

PERSONAL APPEARANCES - continued

Supervisor Janoski: "No one recognizes that more than I do, Bill."

Bill Nohejl: "So we hope that we can come to some kind of conclusion and get things straightened out. Who was the other on grievance day? I know John Kalba, I missed the other two names."

Irene J. Pendzick, Town Clerk; "Howard Tuthill and Carl Locker."

Councilman Regula: "Bill is Charlie Crump or Tom in that room, yet?"

Bill Nohejl: "I don't know."

Councilman Regula: "I just wondered, Tom might enlighten us a little on that Islip thing so . . ."

Bill Nohejl: "I have another subject to go on here. Why in the hell do you have a public hearing on a certain subject, the change the road and at the same time, have it on the back that you already granted it?"

Supervisor Janoski: "Bill you're asking why we voted on that particular resolution tonight?"

Bill Nohejl: "Yeah, you see there's a difference between Wellington Stoves. There's a decision on Wellington Stoves, on the back here you already got it granted."

Supervisor Janoski: "Well that's the way that the resolution reads. Certainly any member of the Board can vote no with regard to that resolution."

Bill Nohejl: "But it gives you a hell of a feeling to come up here and object to it and it's already all haggled out and it's pretty well . . ."

PERSONAL APPEARANCES - continued

Supervisor Janoski: "Well it wasn't all haggled out, Bill, and I didn't know what the outcome of that vote was going to be."

Bill Nohejl: "I think it's ridiculous, believe me. I would, even if it didn't happen today, to grant it, why couldn't it be put to the next meeting to give somebody a little feeling that it's not clean cut and dry."

Supervisor Janoski: "Bill, because tomorrow is "Expo 80" and that was the date it was requested for. Certainly the public notice has been in the paper for at least ten days. Prior to this meeting, I have received no input in opposition outside of yours and I don't recall if anybody else objected, I think Mr. Smith might have. I wasn't really sure, if you were opposed or not, You like Swans."

Bill Nohejl: "It isn't the idea of liking Swans, it's — but I think just to satisfy someone, I think it's quite ridiculous to go and change things around because this is the way the world is going, it's changing, changing, changing, and it's not going for the better. There was nothing wrong with what was there before. Just to satisfy Grumman "Expo 80". What the hell, we live here too."

Councilman Menendez: "Bill may I say a word. The reason I voted no on this was because I did have some input from people up in that area. And I have no one who lives there who's in favor of it. And some of these timers go way back and they took exception to it."

Bill Nohejl: "Right."

Councilman Menendez: "And the people came first,"

Bill Nohejl: "Right. I thank you for your vote. I heard it and I appreciate it, but the idea I get the feeling that we're satisfying Grumman. We are paying for that Grumman property, each individual are paying taxes for it. The only thing — Grumman is there they are making the airplanes. They are making a good dollar out of it and we're bending over to them even though we are the ones who are supporting them. We're giving them everything."

PERSONAL APPEARANCES - continued

Councilman Prusinowski: "Bill, doesn't Grumman employ people there too?"

Bill Nohejl: "We pay for that."

Councilman Prusinowski: "Out of tax dollars."

Bill Nohejl: "We pay for that in taxes."

Councilman Prusinowski: "Okay, if they close down this plant and go to Louisiana, which all the southern senators do, I think is wrong, so all the money goes down there."

Bill Nohejl: "Yes and if Grumman didn't get free rent there on that naval facility, Grumman would be down there."

Councilman Prusinowski: "They won't get free rent."

Bill Nohejl: "They sure in the hell don't pay it."

Supervisor Janoski: "They pay taxes."

Councilman Prusinowski: "They pay in lieu of taxes."

Bill Nohejl: "But I still object to the change of that name because I feel as though it was there before and I feel as though a company should not be named Grumman Boulevard. Now who the hell is going . . ."

Supervisor Janoski: "Bill I want to make one thing very clear, that Grumman Corporation did not request this change."

Bill Nohejl: "I bet they agreed to it."

Supervisor Janoski: "Bill I am not — I know better and I don't even know why I did that. I don't want to argue about it. Thank you very much. Charlie?"

PERSONAL APPEARANCES - continued

Charles Crump, Assessor, Town of Riverhead; "Why we started? Number one because the state laws, real property tax law 30% says that assessors should be assessing at market value. That was one of the reasons. And also the — getting back to the Islip decision where the courts ordered Islip to reassess and they had a moratorium on they legislature in Albany and they indicated that we must have full value by 1981. And that's one of the reasons we went into it. As far as Islips problem, I don't know anything about it. I just heard it just now and I'm not clear about what happened in Islip."

Councilman Regula: "Well I think we also saved a lot of money for the Town of Riverhead. Didn't we by starting early and federal government paying for a lot of our work?"

Charles Crump: "Well actually the reassessment certainly was a very cheap project considering other projects throughout the state. They are roughly about 50% that have completed the project or in the process of the reassessment program. And from all indication, the cost of reassessment have been considerably higher than the cost of the Town of Riverhead. And because of the fact that we started fairly early and also we use CETA employees to collect the data and so forth, the federal government pays the salaries. And we'll probably get roughly about three-quarters of the expense of the project back from the state."

Supervisor Janoski: "Thank you Charlie. Yes Sir?"

Lou Imundo, Jamesport; "I have a couple of items I'd like to talk to. First thing I'd like to know about is the temik, the water pollution problem. Now if any of you can enlighten us on how and what you intend to do about a problem as serious as any as ever hit the county, I happen to be one and many around in our neighborhood loaded with it, eight times the normal acceptable amount. And we're concerned. Do we need medical advice? Pregnant children are around. My daughter-in-law is pregnant and we have little babies around that have been drinking it. This is an extremely serious problem. We need answers and we need them soon. Before you answer that, I want to go on a little. The other problem I have . . ."

Supervisor Janoski: "Is this a related — or can we just take them one at a time?"

Lou Imundo: "Would you like to answer that first?"

PERSONAL APPEARANCES - continued

Supervisor Janoski: "As a matter of fact, we had a meeting this afternoon with Dr. Zaki from the Suffolk County Health Department and they are conducting a number of, I hate to use the word studies, with regard to filtration to temik from the water, the possibilities the number of different kinds of filters. Now what it came out of that meeting was the seven parts per billion which is set at the tax level, has not been proven to be harmful. As a matter of fact, the harmful, the one case that they know of which I believe is Nebraska, which was harmful to a human was 8,000 parts per billion and that caused nausea, vomiting, diarrhea, but it disappeared after four hours or so. Now certainly this is not an answer because we don't know what the long term effects are."

Lou Imundo: "It really cannot be an answer unless you rescind the letter that was sent out by the Health Department here telling us not only not to use it, not even to cook with it. Now does — to effect you when you bathe with it, I mean what happens with these letters. Now you're telling me that the letter is ridiculous. So we can go ahead, not only cook with it, we can drink it and go on and on and on. Something's wrong. Someone's not telling the other party what it's all about."

Supervisor Janoski: "(Tape ended -- Tape began) . . . documented evidence that seven parts per billion or one hundred parts per billion can cause any side effects. What they talk about now is filtering systems. I'm certainly hopeful that their studies in that regard prove that over a period of time that a charcoal filter is what they talked about activated charcoal would be effected. But there are a number of other things in the water. We're only talking about one thing. There have been insecticides used in this area for years and nobody's talking about them at all. So I don't know the answer to the question. I don't know if any of the members of the Board would like to say something. Victor?"

Councilman Prusinowski: "They suggest the answer is public water. Fifty million dollars plus. So if we want to run water pipes all over the Town, it costs a lot of dough."

Lou Imundo: "You're making it sound like it's a little ridiculous."

Councilman Prusinowski: "I'm saying we have two problems. Number one, well because there are areas all over Town effected by temik. Right now the Health Department is getting a grid system up,

PERSONAL APPEARANCES - continued

town by town and they're going to pin-point to us where the problem areas are. What the Town Board as a whole said this afternoon unless I was mistaken and they can correct me, is that we would like to go to the direction of public water as far as possible. What we need is federal funds. We have to look at the cost and we have to look at where we can run them. There is a law that prohibits special water tax districts that are joined property in somebody's ag districts or farmland preservation programs because they get special tax rates.

So you just can't run the pipe around the town, because if you go by some of these special districts, the state law won't permit you to form a special tax district to pay for that water district. So those are some of the problems we have to address. The short term solution I thought he was talking about investigating water filters, but that's still under testing right now."

Lou Imundo: "I did a little research and I know they're doing this in Greenport. They're checking the water filter. So much for that except I want to let you know we're terribly concerned and we've got to get some answers and if it's a long range answer, more than one pesticide in the water, let's get going on that."

Councilman Prusinowski: "I live ten houses down from you, we've got it too."

Lou Imundo: "Well that doesn't make my problem any less. May be you don't care. Maybe I don't have as many years to live as you. You're not cutting any mustard by telling me you live next to me, Vic. There's a few things I have in mind and because you live next to me I'm wondering how you can make some rash statements in the paper about another subject which I'm going to get to.

I wrote in the paper, in the Riverhead News-Review, one of your statements concerning the problems that we sent you a petition about the loss of sand and your statement reads as follows: Mr. Prusinowski said the erosion in the area is similar to that which is occurring on virtually every beach on Long Island. He said the situation does not justify any intervention of the Town because marina owners are following instructions of the Corps of Engineers. He stated emphatically that the Town will not pay for the redistribution of sand by the beaches. Erosion is a problem which every beach run property owner has to deal with himself he said', I presume those are correct statements? Is that correct, or rather did you say them?"

Councilman Prusinowski: "In a context of an interview, I have."

PERSONAL APPEARANCES - continued

Lou Imundo: "Let me say they're the most incorrect, the most diametrically opposed statements, diametrically opposed to the people who put you in office and that's about one hundred homes around there. We gave you a petition. I have reems of paper by different organizations, the federal, the state and county which prove your statements incorrect. If you don't want to help us, don't stab us."

Councilman Prusinowski: "Mr. Imundo, let me say a couple of points. Number one, I've lived in that area all of my life and I want to help the neighbors and in fact probably know the neighbors more than you do. Number two is that we have been working on this problem for the last two weeks as I told Mr. Reiney and the neighbors up there we're trying to get a solution to the problem. The problem is, is the erosion. Now where the sand ends up, the fact that the beaches are eroded. One of the problems is is that the County is possibly going to dredge out — a solution is the county is going to dredge out that marina and pump it up on both sides east and west. Now Joe Baier is supposed to check this out. We contacted the gentleman who is in charge of the project engineering of the dredging of the marina. Now that sand is still there. The Army Corps of Engineers and I'm not an engineer, tells me that the erosion problem on that beach is happening all over the Island."

Lou Imundo: "I don't want to take too much time of all you people, I'm sorry I started so late. I — the erosion problem you're talking about happens — I have it documented by engineers from the County, State and Federal. Your statements are still incorrect. It's not a normal situation. Those were man-made creeks and we're losing the sand into those creeks. And you should be as concerned or more so and you should be answering for the people in that area much more than I and I can prove to you through these statements that the sand is going."

In addition, the wetlands over there are being over-run by this myriads of sand which is the most horrible looking thing we've had there for months. And the wetlands are being devastated. I don't want to take any more time. Thank you so much for allowing me to speak."

Supervisor Janoski: "Thank you Mr. Imundo. Does anyone else wish to address the Board?"

Jerry Donahue, Right-To-Life Town Leader, Town of Riverhead; "This is in reference to the abortion resolution that was passed last meeting. One of the most important aspects that I think was overlooked in the discussion upon that abortion resolution

PERSONAL APPEARANCES - continuedJerry Donahue continues:

that issue is we are dealing with human life both unborn child and the mothers. When the abortion issue first surfaced in the 60's there's very little good accurate information on when life actually started. But after the Life Magazine picture essay of the unborn child in the 60's and after the rapid technological advances that were made by the medical profession. Today there are a few people that would doubt that the unborn child at any stage of its development is human and possess a life. I think pro-life or anti-life factions have not denied, or both agree that there is human life involved. You have to think about that for a minute. Think about the human life of an unborn baby that human life is not being denied by anyone, in fact it's being acknowledged while the genocide of them continues.

The U.S. Constitution guarantees all within its jurisdiction the right-to-life and the equal protection of the laws. Abortion is the most cowardly act, for it takes our guaranteed right-to-life away from the most helpless and defenseless of our society, the unborn child. Abortion is interpreted by the Supreme Court. In 1973, allows abortion to take place from the time of conception, actually up to the time immediately prior to birth. As macabre and horrible as that may sound, the taking of life, whether two weeks or eight months and three weeks or two years or whatever is still homicide. If we would all reflect openly and objectively on the facts of this issue, I am sure we will realize the correct and courageous stand Mr. Janoski, Mr. Regula, and Mr. Lombardi took in supporting this resolution. Thank you."

Supervisor Janoski: "Thank you Mr. Donahue. Yes ma'am?"

Donna Raab, Edwards Avenue, Calverton; "I feel and I'm sure I'm certainly aware of the fact that I am in the minority, on the issue of abortion. However, people feel that the unborn child has a right-to-life. I feel that children who are born already have a right-to-life. As a teacher, I started teaching in East Harlem. I watched children that were ten years old acting as prostitutes because they could not be fed. I watched children die in the street because their parents had a knife fight and didn't like them. I watched children with brain tumors die because there was no medical services for these children. I watched my ten year olds in the fourth grade have unauthorized back-street abortions. Two of my girls died from the abortions because they had no where to turn and no one to help them. They couldn't go to any organization that could help them before they were pregnant.

And my objection to right-to-lifers is that they want to suppress all of these. They don't even want birth control for these people. You say sure enlighten people, educate people, provide birth control for people. But fortunately and unfortunately our society doesn't work that way. And when you have to see

PERSONAL APPEARANCES - continuedDonna Raab continues:

children that are eight, nine, ten and eleven girls who are pregnant, girls who are working as prostitutes, girls that are part of families that are fifteen years old and they don't have money, these people are dying. My sympathies have to go to these people that will grow up in a world like this. And if I can see a woman who's had thirteen children can't take it any more, can't feed them, has to watch her children starving to death and she can get an abortion and prevent another life like that from being born well, I support abortion and I think that the pro-lifers look at a very narrow view of who has a right to live and who has a right to die."

Supervisor Janoski: "Thank you very much. Mr. Donahue?"

Jerry Donahue: "I don't want to drag this out. I just want to say one thing when we're dealing with human life. The taking of more human life is not solution. I agree with you, there are many problems but we must still continue to respect all life and work together to rid us of and rid society of the problems that you just mentioned. Thank you."

Supervisor Janoski: "I just can't see having a debate here tonight. Ma'am I can't deny you the right to speak either. I want to say something about children. I haven't seen mine all day today."

Donna Raab: "You're also denying the rights — you're also by that statement you are also denying the rights of many many women to have their own choice over their own life. And I think that's very unfair."

Supervisor Janoski: "Thank you ma'am. Yes Sir?"

Howard Tuthill, Aquebogue; "A few weeks ago when this issue was voted on, Doc Menendez clearly said that American men had fought and died for liberty and they did. He was absolutely correct. They fought and died to put down a fascist government in Germany which was chosen who was going to live and who was going to die. It was a holocaust all right. It was not only fourteen million Jews, they leave out the Poles, the Czechs, the rest of the Germans who were not Jews who were killed. Millions and millions of people die because of the right to determine who's going to live and who's going to die. If you don't listen to me — So people who think they have the right to say that an unborn child can die are no better than a fascist, because they're

PERSONAL APPEARANCES - continued

Howard Tuthill continues:

determining who's going to live and who's going to die. God up above will decide who will live and who will die, not them. Thank you."

Supervisor Janoski: "Thank you. Does anyone else wish to be heard?"

There being no further business on motion and vote, the meeting adjourned at 10:02 P.M.

Irene J. Pendzick

IJP/vlv

Irene J. Pendzick, Town Clerk
