DEPARTMENT HEADS

Police Chief Grodski requested authorization to retain services of architect to design and draw up plans and specifications for remodeling the glass front and existing doors of the Police Department Headquarters.

After discussion, the Town Board tabled the matter for further study.

DEPARTMENT HEADS continued:

RECREATION: Stanley Grodski, Recreation Supervisor spoke to the Board on the matter of expediting the removal of trees and stumps in the clearing of the land in the area of Little Flower being done by the Highway Department.

Mr. Grodski reported that he had requests from residents within the area for the trees for use as firewood and asked if the Board is willing to give the wood to these people and if a waiver of insurance covering the Town from any liability be obtained from them.

The Board discussed the matter and it was decided that the Recreation Department oversee the removal of the wood and every precaution be taken to see that the Town is covered by insurance.

After further discussion it was decided that a notice be published stating that this firewood is available for sale.

Mr. Grodski reported that 324 more beach permits were sold over last year's total and recommended that the Board maintain the same fee (\$2.00) for the permit for 1971.

After discussion it was agreed by the Board that the fee remain the same (\$2.00) for 1971.

BUILDING DEPARTMENT

Edward R. Munson, Building Inspector, reported that there is a lot of activity on the airstrip located on Middle Road.

After some discussion by the Board the matter was referred to Town Justice Costello and Councilman Young.

Supervisor Zaloga asked if anyone wished to be heard and the following responded:

Mr. Rollin Hargis, Mobile Home owner appeared before the Board and requested permission to add 20 spaces to the Hubbard Avenue Park and 6 spaces to the Calverton Park.

The Town Board discussed the matter in detail with the Building Inspector and decided that further study be made before a decision is reached.

Mr. Peter Candela, representing Suffolk Land Holding Corporation spoke to the Board regarding a letter sent to the Supervisor requesting consideration in reference to a recreation area map of the Corporation in Aquebogue and asked the Board at this time to consider either accepting these parcels or releasing said lands to the Suffolk Holding Corporation.

Supervisor Zaloga stated that it is his understanding that the Town rejected the offer for two reasons being that it was low land and had a high tension line running through it.

Mr. Candela stated that there is a transmission line on the northern parcel, the southern portion does not have it - but there is no low land - it is all good level farm land.

It was brought out that there are no deeds or covenants on that particular piece of property and the lots would have to be sold as single pieces.

The Town Board tabled the matter for further study.

PERSONAL APPEARANCES continued:

Mr. Lyndon Hallock spoke to the Board about the Riverhead Sanitation Company having to find a facility for the storage of equipment and the only location they found available to them is a building in the ownership of Jack Vetter situated between Osborne and Horton Avenues. However, according to the Zoning Ordinance this is not a permitted use under "Agricultural Use District".

Mr. Hallock asked if there is some way this property could be utilized for the purpose needed.

Mr. Munson explained that this building remains in non-conformity until its use has been discontinued for one year. Mr. Vetter went out of the business (woodwork) and he has a year to get some one else in there with a light or similar use and it would, still remain in non-conformity.

It was brought out that the storage of garbage trucks is not a similar use.

Mr. Munson further stated that the owner can petition the Town Board to amend the map and create a use district which has this type of a use on it - or petition the Town Board to change the zoning and permit this type use in that use district or go to the Board of Appeals and ask if this is similar to any use that is in that use district at the present time. This can be done with restrictions and covenants but the ordinance would have to be amended.

NEW BUSINESS

Town Attorney John J. Munzel called the Board's attention to the notice mailed to customers of the Riverhead Sanitation Co. stating that in the future pick-up days falling on holidays will not be made until the next regular pick-up - which also pertains to snow emergencies.

Supervisor Zaloga stated that the matter will be reviewed by the Board and arrangements will be made for the Town Dump to remain open on holidays and the delay of garbage service will not be permitted.

Town Justice Costello informed the members of the Board that he had received a request from Mercy High School to have the Town Board hold its December 1st Town Board Meeting at the School Auditorium.

The members of the Board expressed a willingness to hold the December 1st Town Board Meeting at the Mercy High School Auditorium and Judge Costello was assigned to finalize the arrangements.

Town Justice Costello submitted communication from Judge Mercator C. Kendrick, Town of Southampton, dated 10/16/70, outlining costs of court room facilities. Filed.

Copies to Town Board.

Town Justice Costello submitted communication from Hi-Temp Liquid Heating Co. Inc., dated 10/14/70, relating to price quotations on pathological incinerator with burners - Model 1510 at a cost of \$2970 - added items would cost \$679. Smaller unit Model 1500 would cost \$700 less.

Tabled for further study by the Town Board.

WHEREAS, at various times heretofore, several different light districts and/or extensions thereof have been created within the Town of Riverhead pursuant to the provisions of Article 12 and 12-A of the Town Law as amended; and

WHEREAS, it appears from studies, reports and recommendations made to this Town Board, that a proposed Consolidation of such districts and extensions thereof would result in a simplification of the affairs of the several presently existing lighting districts and would eliminate the necessity for establishing separate appropriations for each of the individual lighting districts as they now exist, thus allowing for greater efficiency and flexibility, and the complexity of the administration would be reduced having to do with the administration of lighting district matters, and it further appears that such consolidation would tend to decrease, slightly, administrative costs and to allow for a more stable tax rate for a single district as opposed to varying rates for each of several districts, all of which lie wholly within the Town of Riverhead;
