

Minutes of a Town Board Meeting held by the Town Board of the Town of Riverhead at Town Hall, 200 Howell Avenue, Riverhead, New York on Tuesday, July 18, 2000 at 7:00 p.m.

Present:

Robert Kozakiewicz,	Supervisor
Christopher Kent,	Councilman (arrived at 7:20 p.m.)
Philip Cardinale,	Councilman
James Lull,	Councilman
Edward Densieski,	Councilman

Also Present:

Barbara Grattan,	Town Clerk
Dawn Thomas,	Town Attorney

Supervisor Kozakiewicz: "I'd like to call this- the Town Board meeting to order if I could. Col. Pfeiffer, would you lead us in the Pledge of Allegiance? Henry? You have the honor tonight."

(The Pledge of Allegiance was recited, led by Henry Pfeiffer).

Supervisor Kozakiewicz: "Thank you. All right. First things first. Is there a motion to approve the minutes of the Town Board meeting of July 5, 2000?"

Councilman Lull: "So moved."

Supervisor Kozakiewicz: "Moved by Councilman Lull."

Councilman Densieski: "Second."

Supervisor Kozakiewicz: "Second by Councilman Densieski."

The Vote: "Densieski, yes; Cardinale, yes; Lull, yes; Kozakiewicz, yes. 4 yes, 1 absent."

Supervisor Kozakiewicz: "And at this point, I'm going to ask the rest of the Board to join me down below. We have a special evening planned for you. We have Employee of the Quarter. I see Labor/Management Committee here. I ask them to come forward and join us. A quarterly event and we also have Employee of the Year. What I've noticed from the short time I've been here is that individuals

who have been receiving recognition and achieving the Employee of the Quarter are those who, I think, do their job without any complaint. They're the quiet ones. They work hard. They do the job, they take care of things and that was so true in the case of tonight's recipient, Fred Smith. I think it's a clear recognition because he's been honored by his fellow crew and by the people that he works for. If you look around the back, if anybody from B&G, you want to come up here and join? Danny? I'm sure Danny had some role to play in recognizing all you do for us, Fred.

I'm going to turn over the mike at this point to Madelyn."

Madelyn Sendlewski: "Thank you. Good evening, ladies and gentlemen. Congratulations, Fred. Ladies and gentlemen, I asked the Supervisor if I could just indulge myself for one moment here. Many of you may be aware that I have been out of work for a little while. I am fighting a condition for which I am undergoing treatments at this moment and I should be returning to my office in two weeks. Now, I don't know too many people that actually seek out the Assessor to just have a chat with one, but I will be back in two weeks if you've been looking for me and I want to say thank you to everybody who has been so supportive- Bob, the Town Board, gentlemen, and all the- my fellow workers have been wonderful. And it's been greatly appreciated. So I thank you.

Before we present the proclamation to Fred, I would like to introduce the Labor/Management Committee to you. That is Pat Mulcahy, (phonetic), Diane Stuke, Barbara Grattan, Maureen Fagan, myself, and Councilman Lull. We have the pleasure as Mr. Kozakiewicz- Bob, said, we have the honor of being the people that vote on the Employee of the Quarter and Bob is absolutely right. If I've learned anything through my (inaudible), it is to try not to complain. Fred never complains and he is one great guy. So we're really happy for him tonight.

At this moment before Maureen reads the proclamation to Fred, I'm going to ask Danny (inaudible) to say a few words on his behalf because he was nominated by his Department and Danny is the Supervisor."

Danny: "Thank you. Ladies and gentlemen, friends and family, members of the Town Board, members of the Labor/Management Committee, I'd like to thank you for electing Fred Employee of the Quarter. He's very deserving of it, very thorough in his work and like Madelyn says, he never complains. He's a wonderful guy. Thank you very much."

Maureen Fagan: "Whereas it is fitting and proper that the Town of Riverhead join with the Riverhead Town Labor/Management Committee in recognizing those individuals who provide excellent service above and beyond the standards while executing responsibilities of their employment; and

Whereas, the job duties of Fred Smith are widespread. Those responsibilities begin with the systematic (inaudible) of Town Hall which is utilized by close to 100 employees and preparing a meeting space for various civic associations, employee groups and Town Board meetings; and

Whereas, Fred Smith is responsible for accepting deliveries of supplies and diligently ensures that deliveries are sent to the appropriate departments and demonstrates conscientious concern for people through his attendance to detail, willingness to help and his gregarious smile and greeting to all who enter Town Hall.

Now, therefore, I, Robert F. Kozakiewicz, Supervisor of the Town of Riverhead, do hereby proclaim this day to be Fred Smith Day.

Now only does Fred get the proclamation, he gets a \$100 savings bond and a day off with pay."

Fred Smith: "I want to thank everybody, Labor and Management, Buildings & Grounds, all the employees of the Town of Riverhead. Thank you very much."

Supervisor Kozakiewicz: "I'd also like to mention that Fred will not have to worry about whether this meeting runs long or not and have to clean up after us. But he won't complain anyway.

Do we have resolutions we need to take out of order, Barbara?"

Barbara Grattan: "Do you want them?"

Councilman Lull: "Bobby, need copies?"

Supervisor Kozakiewicz: "I pulled them out. I think they're up on my desk. We have two resolutions which I would like to take out of order with permission of the Town Board today. I don't believe we should expect any adverse comment on them.

The first is promotion. We're promoting Police Sergeant- Police Sergeant by the name of Richard T. Smith and we're promoting him to

the rank of Lieutenant. Moved by Councilman Kent."

Councilman Lull: "Seconded."

Supervisor Kozakiewicz: "And seconded by Councilman Lull."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Supervisor Kozakiewicz: "At this point, if Mr. Smith would please join us up front, his family members. I think Dad's also here. I don't know if Dad wants to come up or he wants to take pictures from the back. And I'm going to hand this over at this point in time to Chief Grattan. Oh, they are going to come up, great. All right. Excellent."

Chief Grattan: "Good evening, folks. Lieutenant Grossman who served with us for 30 years plus recently retired and he retired at the rank of Lieutenant and at this point in time, we'd like to promote Sgt. Richard Smith who has got his daughter in his arms here to the rank of Police Lieutenant. Richie started with us 12 years ago. Five years ago he made the rank of Sergeant. Tonight he goes on to make what they call a service commission rank and that would be the rank of Lieutenant."

At this time, Richie, I'd like to swear you in please. Raise your right hand, please."

(At this time Richard T. Smith was sworn in as Police Lieutenant.)

Chief Grattan: "You're duly installed. Congratulations, Richard."

And at this time, I'd like to introduce Richie's wife, Jill, who is going to pin on his new Lieutenant's badge, and his three daughters- I can't keep track of all the kids' names. They're nice daughters and one's prettier than the next."

Supervisor Kozakiewicz: "Do you have any words you want to say? Okay."

Since we just took action in promoting Lieutenant Smith from the former rank of Sergeant Smith, there is a vacancy. As a result, we also have another resolution which I'd like to take out of order.

Before I do that, however, I'd like to make a brief comment because I've known John for a considerably long time. I've known the Vail family for a considerably long time and I know them to be extremely high-standing people with great morale, great moral standing, and I find this to be a personal pleasure of mine to have John Vail move up from- up through the ranks. I'm going to ask that the resolution be adopted.

I also want to say that in retrospect I know John to be a great softball player and I thought maybe initially that might be one of the reasons he made it on the police force because they were trying to really boost up their softball. So I think that's true- one fellow in the back- he's acknowledging it. But as time has shown, John has shown his skills as a police officer and he's been recognized by I think what will happen very shortly.

At this time, I'd like to ask that the resolution be moved."

Councilman Cardinale: "I move resolution 659 promoting John H. Vail to the rank of Sergeant. So moved."

Councilman Densieski: "Second the motion."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Supervisor Kozakiewicz: "And it's all to you now, Chief."

Chief Grattan: "Thank you for those nice words, Bob. This is John Vail. John has been on the police force for just short of 12 years. He's been a patrol officer, most recently working in the Jamesport, Aquebogue and East Main Street area of Riverhead.

Just a couple items, and this also pertains to Lieutenant Smith. These two gentlemen hold the #1 position on the civil service list in the Town of Riverhead and, again, I repeat what I said last time. It gives me great pleasure to see their friends and their family here tonight to help them celebrate and to honor them as they go up through the ranks. They are going to be the leaders of the police department.

I said just the other day that at this point in time, there's only two people on the entire Riverhead police department who are eligible to retire. And I'm one of them. And the other fellow is a

Detective. It goes to show you what a young police department we do have and indeed we do have a great police department.

And I'd like to personally take this opportunity to thank the Town Board for filling these vacancies as quick as they have. With the addition of Lieutenant Smith and with Lieutenant Lessard and Lieutenant Bowden who couldn't be here tonight and my right hand, Captain Hegermiller, I do indeed have the greatest administrative staff of any department on the east end of Long Island and that's the God's honest truth.

Just one more comment. Each one of these individuals take an interest in the police department, sometimes a little bit too much when my phone rings at 3:00 in the morning, but they do and they come here with the intent to do eight hours work. And we're very fortunate to have them.

So, John, if you'd raise your right hand, please?"

Supervisor Kozakiewicz: "Stop for a second. Do you want John's Mom- "

Chief Grattan: "I'm sorry. Yes, Mrs. Vail, please."

Supervisor Kozakiewicz: "I don't know about brother, Bill. Okay."

Chief Grattan: "Anybody else? John's Mother and Grandmother."

(At this time, John Vail was sworn in as Police Sergeant.)

Chief Grattan: "John, you're duly installed. Congratulations. John's wife, Marybeth, will pin his new Sergeant's badge on his gold badge. All right. Thank you very much, folks."

Supervisor Kozakiewicz: "Barbara, are you ready with Reports? All right. Always ready. If you notice, Barbara is getting around a lot better now."

REPORTS:

Tax Receiver

Total taxes collected
\$63,914,425.01

Building Department

Total collected for June, 2000

\$95,360.00

Barbara Grattan: "That concludes Reports. Real quick. Applications."

Supervisor Kozakiewicz: "Applications, please. Thank you, Barbara."

APPLICATIONS:

Special Permit	Sunken Pond Estates, north side of Mill Road, 1300 feet east of Ostrander Avenue for an extension of retirement community complex
Site Plan	New York SMSA Limited Partnership - Sound Ave., Northville
Site Plan	Swan Lake Golf Course, south side of Swan Pond Road to construct an addition to an existing clubhouse
Site Plan	Budget Beepers - 56 East Main Street, facade and interior alteration
Change of Zone	Sunken Pond Estates, north side of Middle Road, acquiring 23 additional acres to include in retirement community
Shows & Exhibition Permit	World of Life Ministries for August 26, church related street rally on Lewis Street, Riverhead
Shows & Exhibition Permit	Timothy Hill Children's Ranch September 9 th from 11 to 5 pm fall festival
Shows & Exhibition Permit	East End Arts Council, July 22 6:30 to 8:30 p.m. Blues Concert at Palmer Vineyard

Sound Avenue, Riverhead

127 postcards

Opposition to the Calverton
Jetport

Barbara Grattan: "That concludes Applications."

Supervisor Kozakiewicz: "Correspondence, please."

CORRESPONDENCE:

Petition

Island Water Park - extension
of the Water District to the
site at Route 25, Calverton

Barbara Grattan: "That concludes Correspondence."

Supervisor Kozakiewicz: "Thank you, Barbara. Any Committee reports? Gentlemen? For those watching, I don't know if you'll get to see this before Friday night, this Friday, Saturday, and Sunday, 2nd annual Blues Festival down at the Peconic Riverfront, starting at 6:00 p.m. on Friday; 3:00 p.m. Saturday, and 12 on Sunday. So anyone interested in the Blues, you generally have to pay money to go watch the Blues players, it's free. So, hopefully, we'll see you down there."

At this point in time, we have a number of public hearings on. As a matter of fact, there was one which was not noted in today's Agenda. It's a public hearing that was scheduled for 7:10 which was a water extension for Wading Woods. At this point, what I'd like to do is call open- or open up the first public hearing. Barbara?"

Public Hearing opened: 7:28 p.m.

Supervisor Kozakiewicz: "The time of 7:28. Is that correct?"

Barbara Grattan: "Yes."

Supervisor Kozakiewicz: "All right."

Barbara Grattan: "I have affidavits of publishing and posting for a public hearing to be held at Riverhead Town Hall, 200 Howell Avenue, Riverhead, New York on July 18, 2000 at 7:05 p.m. regarding the consideration of a local law to amend Chapter 101 entitled Vehicles and Traffic of the Riverhead Town Code, which is Section 101-

10.1 Parking, Standing and Stopping Prohibited. The street is Howell Avenue, the side is west, location from its intersection with the north curblineline of East Main Street (Route 25) to a point 107 feet north."

Supervisor Kozakiewicz: "I'm not sure if there's really much that needs to be explained. Essentially what we're looking to establish is a no parking zone across the street at the multi-family apartment dwelling that's on the west side of Howell where it intersects with Main Street.

We're looking to place a no parking zone from the corner and approximately- what was the distance, Barbara, I'm sorry?"

Councilman Lull: "107 feet."

Supervisor Kozakiewicz: "107 feet which would basically be the distance alongside the structure itself. Once again, this would be solely on the west side of Howell Avenue. Anybody who would like to address the Board with respect to this public hearing? Yes, Steve?"

Steve Haizlip: "Steve Haizlip of Calverton. Is that going to wipe out the parking for the nutrition people?"

Supervisor Kozakiewicz: "No. No, it will not."

Steve Haizlip: "Okay."

Supervisor Kozakiewicz: "Thank you. Anybody else? Being no further comment, I'd like to close this hearing at 7:30."

Public Hearing closed: 7:30 p.m.

Public Hearing opened: 7:30 p.m.

Supervisor Kozakiewicz: "Next public hearing, which we will open at 7:30 is-- Barbara?"

Barbara Grattan: "I have affidavits of publishing and posting for a public hearing to be held at Riverhead Town Hall, 200 Howell Avenue, Riverhead, New York on July 18, 2000 at 7:10 p.m. regarding the petition of Wading Woods to construct a lateral water main composed of 1,150 linear feet of 12-inch water main and appurtenances,

at the sole cost of the developer and at no cost to the District and the payment of key money pursuant to Chapter 105 of the Riverhead Town Code."

Supervisor Kozakiewicz: "Thank you, Barbara. Mr. Kelleher."

Dennis Kelleher: "Good evening. My name is Dennis Kelleher from H2M. We are the consulting engineers to the Riverhead Water District. We've been retained to evaluate the proposal of extending the public water to the proposed residential development known as Wading Woods.

This property is already located within the Riverhead Water District boundaries. So what this hearing is about is just to extend the water mains that are in the streets to service them as well.

The project is a 36 unit condo- condominium complex that is to be located on Sound Avenue just west of North Country Road as shown on the map. The Riverhead Water District can service the project by extending the 12-inch water main that is located on Sound Avenue across the frontage of the property. This will require the installation of approximately 1,150 feet of 12-inch pipe.

In addition, approximately 1,035 linear feet of 6 and 8-inch water main will have to be installed inside the complex to service all the buildings.

We do recommend that the Riverhead Water District obtain a (inaudible) easement from the developer along Sound Avenue which will permit the water main pipe to be installed in the grass area rather than the roadway. In case at a later time there is any problems with the water main and it has to be repaired by Riverhead Water District, this will save on the cost of restoration if we have to dig up the main.

We estimate the water use from the complex to be 5,400 gallons per day on an average day with a maximum water use of 16,200 gallons a day on a peak day. We estimate the cost of extending public water to this property to be approximately \$120,000- \$120,800. This includes construction costs, inspection, legal and contingencies. This entire cost will be paid by the developer.

In addition, the developer will need to pay key money fees equal to \$2,500 per single family home. However, since these are condominium complexes, Suffolk County Department of Health Services

standards states that a condominium unit will use one-half the amount of water of a single family home. We, therefore, recommend that the Town and the Riverhead Water District charge an equivalent of 18 single family homes as key money for this property which would be equal to \$45,000. Thank you."

Supervisor Kozakiewicz: "Anybody who would like to address the Board? Nobody? Okay. At this time, the hour- was there somebody? Did I miss somebody? Okay. The hour of 7:32 having arrived- 7:33, I'm sorry. We'll call this public hearing closed."

Public Hearing closed: 7:33 p.m.

Public Hearing opened: 7:33 p.m.

Supervisor Kozakiewicz: "And we'll move to the next one. I call the public hearing opened at 7:33. Barbara?"

Barbara Grattan: "I have affidavits of publishing and posting for a public hearing to be held at Riverhead Town Hall, 200 Howell Avenue, Riverhead, New York on July 18, 2000, at 7:15 p.m. regarding the establishment of a proposed extension to be known as Extension No. 54, Twomey Avenue."

Dennis Kelleher: "Mr. Supervisor, could I request that the Town read the second public hearing, the next public hearing, because it is part of the same project. It would make my life a little better."

Supervisor Kozakiewicz: "All right. So we'll call the second public hearing open as well. At this point, the time of 7:39- did I say 7:33 before?"

Councilman Kent: "7:33."

Councilman Densieski: "7:34 now, Bob."

Supervisor Kozakiewicz: "What?"

Councilman Densieski: "We're going to get you a digital."

Supervisor Kozakiewicz: "Yeah, I know. Exactly. I need one of them."

Barbara Grattan: "I have affidavits of publishing and posting for a public hearing to be held at Riverhead Town Hall, 200 Howell Avenue, Riverhead, New York, July 18, 2000, at 7:20 p.m. regarding the increase and improvements to the Water District, specifically to be known as Extension No. 54."

Supervisor Kozakiewicz: "Now we're set."

Dennis Kelleher: "Okay, now I'll just quickly explain, let the Board and the public know, why we have this hearing (inaudible)."

This project would be the extension of the Water District boundaries. The property that we're talking about, the homes that we're talking about, are not in the District so we need to hold a formal public hearing to approve the extension of the boundaries to allow us to install pipe outside the boundary.

The second thing is, is the Riverhead Water District will be expending money coming out of their general fund so we need to hold what's called a 202B proceeding that will allow the Town Board to approve the expenditure. So with that introduction, I'll go into the public hearing.

Good evening. My name is Dennis Kelleher. I'm with the engineering firm of H2M. We are the consulting engineers for the Riverhead Water District.

Back in 1998, seven homeowners from Twomey Avenue petitioned the Town Board to extend public water to service their homes. This was due to the fact that their private wells have been contaminated with the pesticide EDD (phonetic) above the drinking water standards. At that time, we did investigate the cost of extending public water to these homes and we found it cost prohibitive unless there would be some outside sources of funding.

The Town, the District, and the Suffolk County Department of Health Services started to look into additional sources of funding. At the time, we could not find any. In late 1999, the District did receive some correspondence from the US EPA that there was some- that there may be some funding available to extend public water to homes that had contaminated source of water.

H2M then conducted a study to determine the best means of extending public water to these homes. The nearest water main to the affected home was approximately 3,000 feet south from the intersection

of- excuse me, north of the intersection of Twomey Avenue and Youngs as shown on the map. On the map, the blue areas highlight existing water district boundaries (inaudible). The proposed extension boundaries I highlighted in yellow which includes the roadway itself, Twomey Avenue, and the seven pieces of property that the homes are located on. So we're just extending- proposing to extend the boundaries of the water district to include those seven homes.

In pink, I've highlighted the proposed water main that will tie in to the existing water main at the intersection of Youngs and Twomey Avenue. We'll run a 12-inch pipe to the furthest location (inaudible).

We estimate the water use of this extension to be 2,100 gallons per day on an average day. And a peak demand of 6,300 gallons per day on a peak summer day. The estimated project cost for this extension is \$131,750. This includes the construction costs, engineering, inspection, legal and contingencies. This also includes different than most extensions in the District, the installation of water service lines from the street into the homes. This is a requirement of the US EPA that these homes must be hooked up. The EPA did not want to share in the cost of the project to install the pipes in this road and then one of these homeowners for whatever reason decided not to hook up. So they must- we must guarantee to them that these homes will disconnect their private wells and they will be using Riverhead Water District water. So we are making part of the project that we have our contractor install the service line. This normally is the homeowner's responsibility and we've made a change here.

Of this price of \$131,750, 75% will be paid for by the US EPA. That works out to approximately \$98,985. The US EPA has issued a purchase order to the town predicated upon what the Town Board approves in the public hearing tonight.

The remaining 25% or \$32,900 will be paid by the Riverhead Water District. The reason for that is we are installing a 12-inch pipe in the road rather than a smaller 6-inch pipe which would only be necessary to serve these home. This will become a transmission main which will be available to anybody who wants to extend the Water District beyond the last home.

The homeowners in this extension will be required to pay the district-wide tax which is now set at approximately \$.99 per \$1,000 assessed value. Plus they will pay for their water use which at the present time, the water charge is \$1.00 per thousand gallons of water

used. So each of these homes will have a water meter and they will pay for their water use.

If this project is approved by the Town Board shortly, the construction should be completed and water supplied to these homes by the end of October of this year.

We do have a representative from the US EPA here tonight if the Town Board or anybody in the public has any questions. Thank you."

Supervisor Kozakiewicz: "Thank you, Mr. Kelleher. Anybody else who would like to address the Board? Mr. Haizlip?"

Steve Haizlip: "Steve Haizlip of Calverton. Well, I'm glad to hear that they're getting some money here- \$98,000- to help them put this in. I wasn't that lucky on Extension 52. I begged the CDA and everybody else to try to get some money, but couldn't get any. I wasn't in no danger. But yet you've got farmlands, you've got sod farms using the same pesticides, using all the good stuff that they use up there. But I couldn't have it. So I'm glad to hear that they're getting some help. And I know of some people that live up there and they're wells go to China and they are having trouble right now and rust is coming up like (inaudible). And one woman testified here one night, she said that when takes a shower, she comes out (inaudible). So I'm glad to hear that they're getting some money and they need it and I say give it to them but we'll sacrifice and pay our way even though we had the same conditions, the same pesticides."

Supervisor Kozakiewicz: "Thank you. Anybody else who would like to address the Board with respect to this public hearing? Sal Mastropolo?"

Sal Mastropolo: "Sal Mastropolo, Calverton. Could you explain the tax versus the hookup from the main to the house? I mean generally when houses are hooked up to town water, the homeowner pays for the copper from the house out to the- "

Supervisor Kozakiewicz: "That's correct."

Sal Mastropolo: "Are they going to be required to pay for that hookup?"

Supervisor Kozakiewicz: "No. If you heard, Mr. Kelleher was explaining that. Part of the reason why this extension is occurring is that the Town was able to achieve cooperation from the US EPA. The

US EPA is providing \$98,000 and change in order to provide for this extension to these particular homes on Twomey Avenue which have detected these above- levels above drinking water standards as far as this chemical pesticide. A condition of the EPA and the purchase order that they've sent to the Town requires that the homeowners receive the service and, therefore, there will be in addition- other than- distinct from any other extension that we do, there will be an actual running of the line or the service to each individual home."

Sal Mastropolo: "Aren't we setting a bad precedent? I mean when Wildwood Acres off Hulse Landing Road hooked up to town water- "

Supervisor Kozakiewicz: "If we get more money from EPA, I guess, but, you know, I think if we get money from EPA it's not bad standard. The EPA is paying \$98,000, 75% of the cost of this and the reason is because of this peculiar situation these homeowners have encountered."

Sal Mastropolo: "The problem is that homeowners in other areas of the town that had to put in town water because of (inaudible) paid their own way from the house out to the street. Okay. And now all of a sudden the town is going to be paying for that hookup."

Supervisor Kozakiewicz: "In that case the (inaudible) Union Carbide also offered filters free of charge that were provided by Union Carbide for that (inaudible) situation."

Sal Mastropolo: "But when that water went in, the homeowners paid for the copper from the house out to the street."

Supervisor Kozakiewicz: "But again there's a distinction and the distinction is that Union Carbide (inaudible) did come out and they offered that interim solution which was that filter. I know it was done in my house and in a lot of other houses."

Sal Mastropolo: "Yeah, but I'm not talking about the interim solution; I'm talking about the actual hookup to town water."

Supervisor Kozakiewicz: "I see there's a distinction or difference but your comments are acknowledged."

Councilman Cardinale: "Sal, how many houses are there in this--"

Councilman Densieski: "Seven."

Supervisor Kozakiewicz: "Seven."

Councilman Cardinale: "I guess what you just said is that we won't get the 98 unless we pay let's say 7 times 500, unless we permit the \$3,500 to be utilized in that fashion, I think that's what you said, right?"

Supervisor Kozakiewicz: "Correct."

Councilman Cardinale: "It's kind of like if you want the 98, you've got to do it this way, but I agree with you, it's not a great policy but they're making us do it to get the 98 grand."

Sal Mastropolo: "Okay. I'm just afraid of the precedent that you're going to set the rest of the town."

Councilman Cardinale: "Yeah, I agree with you."

Supervisor Kozakiewicz: "Okay. Anybody else? Chris, you had some questions I think."

Councilman Kent: "For Dennis, actually. Dennis, this is only north of the intersection of Riley and Youngs Avenue?"

Dennis Kelleher: "That's correct. We have another proposed extension which is probably (inaudible) what we call the south Twomey extension. There was another seven or eight homes in that area that did not have the (inaudible); they just wanted public water and we did look at providing water down further south and at this time that price is also cost prohibitive to hook up. Actually it was much more reasonable if the homeowners were- Superintendent Pendzick interviewed and spoke to all the different homeowners and told them what the price would be and at this time they declined the extension."

Councilman Kent: "Okay, so there were no houses south of the intersection with Riley and Youngs that had any contaminants in their water supply?"

Dennis Kelleher: "Not that I know of."

Councilman Kent: "Okay. Dennis, another question."

Gary Pendzick: "Superintendent Pendzick, Gary Pendzick, Riverhead Water District. South of Twomey Avenue, the six homes that also petitioned for an extension didn't have a need."

Supervisor Kozakiewicz: "Gary, since I know you're very knowledgeable on this, what is EDB?"

Gary Pendzick: "(Inaudible) It's been used as both a gasoline additive and as a herbicide."

Supervisor Kozakiewicz: "Thank you. And you pointed out that what's occurring is there's a larger pipe that's being used for the purposes of extending down the road if there's a need to have the extension done and, again, EPA has agreed to this and is once again picking up 75% share of that, is that correct?"

Councilman Kent: "Dennis, one other question. I notice on the map here there appears to be a large tract of I guess that's the east side of Twomey Avenue."

Gary Pendzick: "East side of (inaudible)."

Councilman Kent: "Right. The east side would be north?"

Gary Pendzick: (Inaudible)

Councilman Kent: "Right. It's pointing- everything is- no-- is there a reason why that large tract is- the boundary is going to go around that large tract like that?"

Gary Pendzick: "That's the actual tax lot. The homes are closer to the road but the tax lots go all the way back- "

Councilman Kent: "So that must be the horse farm- that must be the horse farm. Okay. And the area of blue stripes already served by public water?"

Gary Pendzick: "That's correct. That represents the existing Riverhead Water District."

Supervisor Kozakiewicz: "Is there anyone else out there who has a question or would like to address the Board with respect to this particular public hearing, this extension? Bill Kasperovich."

William Kasperovich: "William Kasperovich from Wading River. I'm embarrassed to say it because I've said it so many times. How come you don't give the public a look at these drawings before the actual meeting? I don't know if my question is a valid one or not but from where I sat I see a straight line from one end going out to

nowhere. Is this a dead end line?"

Supervisor Kozakiewicz: "I- I- when you are referring to the line, are you referring to the line or the pink?"

Councilman Kent: "Yeah, the water main. Are you referring to the water main?"

Supervisor Kozakiewicz: "The water main itself? Correct. The 12-inch transmission main. Is that what you're referring to?"

Councilman Kent: "It dead ends at the end of this last property. I believe that's what this- "

Dennis Kelleher: "That's correct. After it gets to (inaudible)."

Councilman Kent: "Come up to the mike-- "

Supervisor Kozakiewicz: "Dennis, you need to come up to the mike just so we get it on the record."

Councilman Kent: "-- and repeat that."

Dennis Kelleher: "The pink line does represent the proposed water main which will dead end at furthest to the north, the last home. Once it's installed it will be a dead end until the next proposed water main extension occurs further north. So we have plans to eventually take this and tie it into the existing water main that is located (inaudible)."

Councilman Kent: "Now while we're on that point, can I just ask a question? Is this contamination traveling northeast or north? Is that how the contamination traveling- "

Dennis Kelleher: "We did not do any investigation to see where it was traveling."

Councilman Kent: "I believe- "

Supervisor Kozakiewicz: "I see Mr. Hackler from EPA is shaking his head so there must have been some investigation in that regard. Mr. Hackler, if you want to- you have to come up and identify who you are and address those comments."

Jim Hackler: "My name is Jim Hackler and I am an environmental (inaudible) with the US Environmental Protection Agency. Based on the information that we have to date, the contamination is flowing towards the south."

Councilman Kent: "Okay, so did you identify the source of the contamination or- "

Jim Hackler: "No we have not. The contamination to us appears to be diffuse. We do not have any (inaudible) source at this point."

Councilman Kent: "But you don't believe that would affect any of the homes on Twomey Avenue south of Youngs- the Youngs, Riley Avenue intersection?"

Jim Hackler: "At the moment, no. No. In fact, I am working very closely with the Suffolk County Health Department. If there is any- if there's any results which would indicate otherwise, then we'll look at those results and evaluate it."

Councilman Kent: "And what about the homes on Sound Avenue north of this location on Twomey? Are they already serviced by public water?"

Gary Pendzick: "Gary Pendzick, Superintendent Riverhead Water. Yes, city water is already available to all the homes in that area (inaudible)."

Councilman Kent: "But if they're not connected to public water, would they receive a free water service also or is that just to these homes on Twomey Avenue?"

Gary Pendzick: "Right now it's only to the homes on Twomey Avenue."

Councilman Kent: "Okay."

William Kasperovich: "William Kasperovich back again. I'm glad I brought this to light. However, in the past we've had some dead ends anticipating future growth that hasn't occurred for decades, 10, 20 years. So, to me engineering-wise a dead end is a no-no in layman language."

Councilman Densieski: "Gary- oh, I'm sorry."

William Kasperovich: "And is there any way that this could be arranged such that we do not have a dead end and if so what kind of money are we talking about?"

Councilman Densieski: "Gary, I have another question. What's the life span of that 12-inch water main?"

Gary Pendzick: "Well, Gary Pendzick, Riverhead Water. Well over 100 years."

Councilman Densieski: "Okay. Thank you."

Supervisor Kozakiewicz: "Dennis, there was also another question about whether it could have been redesigned to provide a loop and if it had been designed in such a fashion, what would that do with the cost?"

Gary Pendzick: "First I would agree that dead end is not the best thing if they're going to stay there forever, but for the last 10 years since I've been working for the Riverhead Water District that is the way we propose to install water mains because we know eventually water main will be installed. We do not have a tremendous amount of dead ends throughout the community right now. When we looked at this project, we looked at bringing the water down from Sound Avenue or going from the north from Youngs Avenue and we took the shortest route so actually right now we're running a total of 3,000 feet to go to the south which was like 3,500 feet going to the north.

So to answer your question of how much additional money, almost double the amount of money that we're talking now, probably more than double the amount."

Supervisor Kozakiewicz: "Okay. Thank you. Mr. Kasperovich, anything else?"

William Kasperovich: "Well, if such is the case and I say if such is the case since I have no way to know and I can't differ with the Town Engineer that has researched this and looked into it where I am just privy to look at it (inaudible), that we have a I believe they call it a test end configuration of (inaudible) to where water samples can be drawn. But- and it be included in the periodic water tests that are made, the report I believe is on an annual basis so that we could see if this dead end is just a cumulative end for deleterious material.

At the same time, I'm surprised to hear that EPA has gone along with a dead end design. However, and I say this because it's hard to look by \$98,000 but at the same time how a record comes to be with that \$98,000, the people of Riverhead have to live with it for the rest of their lives and then some for generations. I don't know how else to comment upon it."

Supervisor Kozakiewicz: "All right."

William Kasperovich: "I sure would appreciate if an effort would be made to present this to the public- "

Supervisor Kozakiewicz: "Well, it was available for inspection at Barbara's office. Barbara- "

Barbara Grattan: "It was on the board, in the hallway."

Supervisor Kozakiewicz: "Yeah."

Barbara Grattan: "It's displayed."

William Kasperovich: "This is not up-- it was never on the wall in the hallway."

Supervisor Kozakiewicz: "All right. Anybody else who would like to address the Board? Yes, there's a hand in the back, right, and was there somebody who had a hand up here? Yes. Is that Joan Griffing? Okay."

Joan Griffing: "Good evening. My name is Joan Griffing, Baiting Hollow. I think Mr. Kent mentioned or asked a question that the- whatever- "

Supervisor Kozakiewicz: "EDP."

Joan Griffing: "-- running north and east. I live one block east of (inaudible) and everybody's answer was it's going north towards the Sound. Is it going east also traveling a northeast direction and would (inaudible) be affected by this?"

Supervisor Kozakiewicz: "I think at this point in time, the EPA has determined it's not affecting any other properties. So the answer at this point is that it's not gone across any other properties other than those seven. The ground water divide is such that it does at this location go towards the Sound. I'm not sure if it's north or

northeasterly but it's certainly north."

Councilman Kent: "Don't you have public water in the manors?"

Supervisor Kozakiewicz: "Mr. Hackler, can you give us the definitive answer on this? Good."

Jim Hackler: "Yes. Jim Hackler, US EPA. Based on the information from the Health Department, in a generally northerly direction toward the Sound. Ground water tends to flow towards the surface water. I don't know specifically where your house is in relation to Twomey Avenue but if the Health Department has tested your water and it's come out fine, then I don't think you have anything to worry about."

Joan Griffing: "Thank you."

Supervisor Kozakiewicz: "Thank you. I saw a hand- "

Councilman Kent: "Joan, excuse me. Don't the Manors have public water there?"

Supervisor Kozakiewicz: "I was going to ask the question."

Joan Griffing: "Yes, we do."

Supervisor Kozakiewicz: "I know I saw another hand up- John White."

John White: "Good evening, Supervisor, Board Members. I'm John White of Calverton. As far as this extension, usually when there's an extension done, the cost is picked up by the developer. So if the town goes ahead now and pays for an extension, that's going to encourage development in the area and the developer isn't going to have to pay for the water line. I don't really think that the town wants to incur that extra cost. But what we're going to be doing, is we're going to be putting a line in at our cost, the developer is going to say well, gee, the line is there now I want to develop 20, 30 acres of property there that I didn't want to do before because I had to pay for the cost of the water line. So I can't see spending an extra \$200,000, \$300,000 to do that.

Also, we're talking about the materials of a line lasting 100 years- "

Supervisor Kozakiewicz: "I'm going to stop you for a second because \$200,000, \$300,000, where does that number come from, John?"

John White: "I'm just using a number that might cost- "

Supervisor Kozakiewicz: "That the town would have to pay?"

John White: "Right."

Supervisor Kozakiewicz: "Well, we're not. We're paying- we're having a 202B hearing which is our share is going to be around \$32,900 and that's for the seven homes."

John White: "Right."

Supervisor Kozakiewicz: "We're not setting a policy decision or changing our policy decision as to who picks up any extensions down the road and how the cost is paid. It would still be the developer to pick up that cost."

John White: "Well, the gentleman before was talking about not having a dead end and basically continuing on and connecting this to the existing system and not have a dead- "

Supervisor Kozakiewicz: "Right. But not on the town's own volition at the town's cost. In the event there's development that comes in where they'd like to extend it, that's I think what the inference was and it probably didn't come out abundantly clear. That if there was a developer who would come in to extend it, it would be, again, at the developer's cost and expense to have the study done, the engineer- pay for the engineering cost, and then do the actual extension. So that would be at a developer's expense not town expense. I think that's the concept and idea here."

John White: "Okay."

Supervisor Kozakiewicz: "All right."

John White: "You know, to make it clear that, you know, if it was extended past the dead end that the gentleman was thinking about and the town paid for it, that that wouldn't be the right thing that the people of the town would be, you know, taking the cost and they really shouldn't.

And one other thing just to bring up, too, is that they're

talking about a 100 year life of the pipe. In 15 years from now, the life of a pipe might be better materials, 200 years, so, you know, why would somebody want to put it in now when you could have something twice as good later on? That doesn't make sense to me either. So that's basically just what I wanted to say. Thank you."

Supervisor Kozakiewicz: "Thank you, John. Anybody else? If not, what I'd like to do before closing here is just thanking the EPA and thanking Mr. Hackler for being here tonight to lend expertise and response to those questions. And thank you, Mr. Kelleher. I think that's it for today and we'll close this public hearing at 8:00."

Public hearing closed: 8:00 p.m.

Supervisor Kozakiewicz: "And at this point in time open the next public hearing which was scheduled for 7:25."

Public hearing opened: 7:25 p.m.

Barbara Grattan: "I have affidavits of publishing and posting for a public hearing to be held at Riverhead Town Hall, 200 Howell Avenue, Riverhead, New York on July 18, 2000 at 7:25 p.m. regarding the consideration of a local law to amend Chapter 101 entitled Vehicles and Traffic of the Riverhead Town Code Section 101-3 Stop and Yield Intersections, Railroad Crossings, Parking Fields.

Do you want me, Bob, to read all these? There's a lot of them. Yes?"

Supervisor Kozakiewicz: "Probably you should just so that there's no question where we're establishing a number of stop signs."

Barbara Grattan: "Okay. Stop intersections: Intersection of Rabbit Run, stop sign on Sue Lane entrance from the west. Intersection Rabbit Run, stop sign Kathy Lane, entrance from the east. Intersection Ellen Street, stop sign on Rabbit Run, entrance from the south (southern intersection of circle). Intersection Ellen Street, stop sign on Rabbit Run, entrance from the north (southern intersection of circle). Intersection Rabbit Run, stop sign on Ellen Street, entrance from the east (southern intersection of circle). Intersection Ellen Street, stop sign on Rabbit Run, entrance from the west (northern intersection of circle). Intersection Rabbit Run, stop sign on Ellen Street, entrance from the north (northern intersection

of circle). Intersection Rabbit Run, stop sign on Ellen Street, entrance from the south (northern intersection of circle). Intersection Ellen Street, stop sign on Moet Court, entrance from the north. Intersection Ellen Street, stop sign on Doctor's Path, entrance from the south. Does everybody understand that? No, they don't."

Supervisor Kozakiewicz: "I'm not sure if everyone understands it. Basically it's 10 stop signs that are being proposed in a development off of Middle Road, Tall Oaks. There was an investigation, we had this looked at by the Committee, they came back recommending that the stop signs be established in this community. It runs from Middle Road and then comes out on Doctor's Path and there's presently no stop signs in the entire development. So that's what the proposal is.

Anybody who would like to address the Board? Any questions, comments? Steve Haizlip."

Steve Haizlip: "Steve Haizlip of Calverton. All these stop signs, yield signs, very good. We need them, traffic is increasing, people are driving faster, got to slow them up somehow. Now, the- it is a very good project and I approve of it and we need as many stop signs and safety signs as we can get. Thank you."

Supervisor Kozakiewicz: "Thank you, Mr. Haizlip. Anybody else? Anybody- any other hands? Going once, going twice- the time of 8:04 having arrived. I declare the public hearing closed."

Public hearing closed: 8:04 p.m.

Barbara Grattan: "Yeah, I'll let you explain this."

Supervisor Kozakiewicz: "You're going to let me explain this one, huh? All right. The time of 8:04 having arrived. We open the next public hearing."

Public hearing opened: 8:04 p.m.

Barbara Grattan: "I have affidavits of publishing and posting for a public hearing to be held at Riverhead Town Hall, 200 Howell Avenue, Riverhead, New York, on July 18, 2000, at 7:30 p.m. regarding the consideration of a local law to amend Chapter 101 entitled

Vehicles and Traffic of the Riverhead Town Code, Section 101-3 Stop and Yield Intersections, Railroad Crossings, Parking Fields."

Supervisor Kozakiewicz: "Barbara has passed along the responsibility to explain this public hearing and, hopefully, I can do it. If not, I'm sure Mr. Lull who's looking across the paper and who's been part of the Parking District group that recommended these changes can do so.

The changes are essentially dealing with- along Main Street, the riverfront, and what we're looking to do is, once again, place a number of different changes within the Vehicle and Traffic ordinance Chapter 101.

The first deals with stop intersections. We're placing stop signs that will be on the Riverfront Drive which is the drive that runs along the river, Peconic Bay, the Peconic River, along the Peconic River parking lot behind the storefronts and what we're looking to do is establish three stop signs on that Riverfront Drive.

In addition, in order to have the flow of traffic move in a more orderly fashion, we are establishing a one-way street that would be from Riverfront Drive down to Route 25 essentially from where Rosey's cake shop was, that would be your southerly boundary up to the Main Road. So there would be one-way traveling north from Rosey's to the Main Street.

In addition, we are establishing a number of areas where parking, standing and stopping will be prohibited. Again, one of those is Ostrander Avenue- or Riverfront Drive again on the south side. This will be east of McDermott. If- McDermott is the street that runs along McCabes and this would be along the boardwalk. Essentially what we're prohibiting is any parking along that southerly side of Riverfront Drive from McDermott Avenue, again to where the Rosey's location is.

In addition to that, we're also establishing a 30 minute parking zone on Union Avenue, the west side of Union and a one hour parking on the parking lot east of Salvation Army, that would be for- in conjunction with- and that would be the first six spaces which would be south of Route 25, and then a two hour parking which would be the six southerly parking spaces adjacent to the six southerly parking spaces I just described. So if you could picture it, from Main Road, there would be six spaces which would be one hour, and then six spaces which would be two hour. Okay, and the idea is to try and get some

limited parking so that businesses at that location of Main Street can have their customers come in and out as opposed to people parking there all day.

Hopefully, I explained it. Anybody who would like to address the Board?"

Councilman Cardinale: "Who thinks all this up? Seriously, where does this come from?"

Supervisor Kozakiewicz: "These come from the Parking District meetings and the Committee."

Councilman Cardinale: "Jim is in charge of the Parking District?"

Councilman Lull: "Yes."

Supervisor Kozakiewicz: "Correct."

Barbara Grattan: "Wonderful job."

Councilman Cardinale: "Wonderful. Okay. Good."

Supervisor Kozakiewicz: "Anybody who would like to address the Board? I probably confused it so badly no one knows, right? Anybody who would like to address this public hearing?"

Councilman Lull: "I just want to say first of all that part of the problem is the fact that we have at the present time so many people who are not local driving downtown. And this is- this along with some brand new- a great deal of brand new signage is an attempt to make it easier for those who are new to town to find their way to the correct places. Basically that is what it boils down to. And Bob described the one-way in the parking lot beside Salvation Army, that parking lot will stay pretty much the way it looks right now except for it's going to be one-way and it's three lanes and as you're facing from the river towards Route 25, towards Main Street, the right hand lane will continue to be parking, but it will be diagonal parking instead of perpendicular parking. Diagonal parking to emphasize the fact that it is one-way the other way. The center lane will be a regular drive through lane, the left hand lane will be a lane that will be reserved for a bus standing area for those times when the Aquarium has more than the two buses that can fit into its drop off area on Main Street. The buses arriving can stay in that area and can

move up when there's room for them. So that they will not be parking on Main Street."

Supervisor Kozakiewicz: "With that further explanation, anybody would like to address this? Bill?"

William Kasperovich: "William Kasperovich from Wading River. Possibly this situation has been addressed and the question is not necessary. But as I've been traveling down Main Street east and west at midday I've noticed people crossing the Main Street and at times there was a lady in a brown suit there and a cone and a sign but knowing that this is a state road, are we in the process of getting a crosswalk at the nearest corner there?"

Councilman Lull: "We have petitioned the state to do a study to figure out how the parking should be and where there should be a crosswalk. They have done that, they have responded to us what their recommendations are. The Town Board will respond to them as will the police department and together that will be worked out and the crosswalk will be going in reasonably soon."

William Kasperovich: "Well this crosswalk is in the suggested proposal by the DOT?"

Councilman Lull: "Yes, yes."

William Kasperovich: "Okay, fine."

Supervisor Kozakiewicz: "Yeah, we got a letter from Region 10 from the DOT. Right."

William Kasperovich: "Okay. Because that's a necessity."

Councilman Lull: "Yes."

Supervisor Kozakiewicz: "Anybody else? If not, I declare the public hearing closed at the time of 8:10."

Public hearing closed: 8:10 p.m.

Supervisor Kozakiewicz: "And I think this is the last one. Open up the public hearing at 8:10. And, yes. Actually we'll take some testimony, I think, since it was, Barbara."

Public hearing opened: 8:10 p.m.

Barbara Grattan: "I have affidavits of publishing and posting for a public hearing to be held at Riverhead Town Hall, 200 Howell Avenue, Riverhead, New York, on July 18, 2000, at 7:35 p.m. regarding the consideration of a local law to amend Chapter 108 entitled Zoning of the Riverhead Town Code, (14) Park and Playground Sites (c) and (e); Section 108-146 Condominium Map Approval; Section 108-133 Conditions for Approval."

Supervisor Kozakiewicz: "If you notice, there was some discussion between Barbara and myself with regard to this public hearing. And the reason for that is because there's been some further discussion and input from our Committee with respect to this particular public hearing which is proposing to change Chapter 108. Those who are familiar with this particular provision, it involves statutory authority to- I mean it's derived from statutory authority to charge rec fees to developers who develop within the Town of Riverhead.

Many, many moons ago, the fee I'm told, this is before my time, was increased from \$200 a lot to \$2,000 a lot. And that was done quite some time ago. There was some consideration to increase that amount and essentially what today's resolution or the public hearing is doing, it's to consider whether we should increase the per lot rec fee from \$2,000 to \$3,000. And that's what today's public hearing is.

The reason that I had the discussion with Barbara is because there's been discussion about whether we should consider increasing that amount even by a greater sum. I know that maybe some people from the Rec Committee would like to address the Board with respect to this question and certainly open it up to any other comment. So if there's anybody who would like to address the Board at this time, please do. Anybody who would like to address it? Rose Sanders?"

Rose Sanders: "Rose Sanders, Riverhead Rec Advisory Committee Chairperson. I have a question. Does this mean that consideration to increase the fee is- "

Supervisor Kozakiewicz: "It's the one to your left. They're you go."

Rose Sanders: "The consideration is to increase the fee yet even further is not being considered or- "

Supervisor Kozakiewicz: "It's- there's actually another resolution which is in tonight's packet which renders this even more confusing but essentially what that resolution is doing is asking or if the Board adopts it tonight, we'll be calling for another public hearing in light of the comments we receive back from your Committee to increase the rec fees from \$2,000 per lot to \$5,000 per lot. So there is a resolution in tonight's packet. Can't presume how the Board will vote but there is that particular matter which may be considered. In any event, we wouldn't be adopting any of the changes tonight. This is on for public input, public comment, with respect to the proposal and the change to Chapter 108."

Rose Sanders: "Okay. Then if I may read, I have written a letter to the Town Board and if I may read that letter so that it can be- I don't know if it's part of the record yet but I'd like- "

Supervisor Kozakiewicz: "It hasn't been made part of the record with respect to this matter yet. No."

Rose Sanders: "Okay. So then may I read this letter or (inaudible). Would you like me to read it?"

Councilman Kent: "Read it."

Rose Sanders: "I'll make it quick. The Riverhead Recreation Advisory Committee by majority vote respectfully recommends that the Town Board revise the proposed increase in developer rec fees from the suggested amount of \$3,000 to \$5,000 per parcel. This Committee believes that this increase will support both the necessary renovations of current recreation facilities and planned future projects. Serious consideration must be given to those future projects so that they may be developed and constructed in such a way as to withstand our building explosion and the recreational impact that coincides with a significant growth in our population.

The Committee's ideas for the future of recreational development in Riverhead require the capital resources that are concurrent with any plans with growth and expansion. We trust that this recommendation along with our cumulative efforts to include the quality of life here in Riverhead are favorably considered as we all strive to achieve our recreational development goals.

Thanking you in advance for your consideration in this matter.
Riverhead Recreation Committee.

With that, I'd also like to say that I remind you I know we're all embarking on the master plan and the Calverton project as being a state of the art recreational facility that's going to cost a lot of money. We are undergoing right now improvements, renovations, expansions at Stotzky Park as everyone is aware. We are considering a skate park and a roller rink to the tune of almost a half a million dollars. So if that little segment is going to cost us half a million dollars, I can't imagine what Grumman is going to cost us if we develop it the way everybody is talking that they'd like to develop.

And if we could do that, we have to have the capital resources in order to do it the right way. So I can't and I don't know unless we collect those fees up front because we know what the future is going to bring and without proper planning we're going to find ourselves short for the resources that we need in order to do it correctly. We've done this before, you know. Twenty years ago no one ever expected our schools to be in the condition that they're in, kids in portable buildings. We're now expanding finally after probably 25 years of growth. Our roads, transportation, traffic, we have to look. We can't be caught in the same situation when we go and attack the Calverton project that we are now with congestion, traffic, parking, schools.

So I would like to- and that's the purpose of considering this now and not when it's too late and then we'll have to go to the taxpayers and say somebody is going to have to foot the bill here because Calverton is not going to build itself. We're going to have to prepare for it. So I hope that you consider this, if you can possibly- in the resolution for the \$5,000 increase. There are other ways to collect those fees. If there's a compromise that can be made. I understand there are certain exceptions to this collection of fees. I don't know if it's true that- do apartments pay a recreational fee?"

Councilman Densieski: "Garden apartments do not right now."

Supervisor Kozakiewicz: "Not presently."

Rose Sanders: "Okay. I don't know why garden apartments are exempt from this fee. Excuse me?"

Councilman Lull: "They're in the new proposed bill."

Supervisor Kozakiewicz: "They're in the new proposal."

Councilman Kent: "The proposed amendment includes it."

Rose Sanders: "Okay. So I don't think there should be exceptions. I don't think there should be waivers. I don't think if everybody takes a little bit of the brunt, then maybe the developer fees shouldn't go up to five. Maybe they could be four. And there's a compromise. And apartments, mobile parks, whatever is exempt now, should be considered as not being exempt in the future and everybody compromises and it's a win-win situation for everybody.

So I just think it can be open for discussion. There are other ways. We could do a little research, find out what the surrounding towns are doing. To go from \$200 in the 1970's to \$2,000 in the 1980's to \$5,000 in the 2000's, I don't think is a tremendous jump if you look at how we've grown and at the rate that we are growing.

So I hope consideration- I'm available for ideas, suggestions, discussions and so are the other members of the Committee. And thank you for your time."

Supervisor Kozakiewicz: "Thank you."

Councilman Densieski: "Thanks, Rose."

Supervisor Kozakiewicz: "Anybody else who would like to address us?"

Councilman Cardinale: "I have a question for the town attorney. In regard to consideration of the number which apparently we're going to be doing tonight and possibly in a couple weeks if we pass the next resolution, I had heard that there has to be in these situations the demonstrable connection or nexus between the amount of the assessment and the required need or the amount required to fulfill the need. I'd like to see something from your office, if I could, in regard to that backup material. Because we could pick any number, the real question is we must pick a number that is sustainable against the likely challenge of the development community. And it has to be based on reason and, you know, connection to- otherwise it becomes an illegal tax as I understand it. So I think that's going to be the real task here is to not- why don't we pick \$12,000? How about \$18,000? We could put four, three. We can pick two but we have to have one that's sustainable because I can assure you the development community will challenge this."

Supervisor Kozakiewicz: "John- John White and then Bruce."

John White: "Good evening again. I'm John White, Calverton."

I'm also on the Recreation Committee. I'm a new member to the board and I do also agree that it has to be looked at as far as what the current rate is, you know, today. The thing is a lot of people in the town don't realize that when a new house goes up that the houses themselves, it's usually a lose situation for the town as far as taxes go. And I would rather see that when a house is developed that there is a substantial amount of money paid in towards the recreational fee because the town is going to really lose money usually on a house just with the school taxes. Because I believe it's somewhere in the area of \$16,000 a year to put a child through school and I don't think there's that many people in the Town of Riverhead paying \$16,000 a year for the school taxes.

One thing that I've noticed, you know, about being on the board, they are very, very good as far as they want to do a project, they want to do it right, they're not looking to do it the cheapest way. They're looking to do it the most economic way for the long term. And not waste the money of the people in the Town of Riverhead.

Right now they're working on the State park and the roller hockey which I think is a great thing for the kids. In the budget, the money that's in there right now, this park alone would basically deplete everything in there. And I don't know that the people in the town know what's in there. We're talking like a half a million dollars for this project alone. And the Committee is going to need more funding coming in just like Rose says about Calverton. People want recreation, the kids need it. It's a great thing to have but we really have to look now for the long term. And not have to come back to the Town Board later and say, gee, we don't have the money that we need for these projects that the people really want.

And what's going to happen then is the taxpayer that's been carrying everything for years is going to be paying it, not just on the new houses coming in. I think Rose said it greatly. I mean she really has hit just about every point. I mean I've got a page and a half of things to say to you and she's done just about every one of them. But I just- I realize it's going to be up to the Town Board to set the number. We're not saying that it has to be a \$5,000 number. It's whatever the Town Board comes up with, you know, and I just hope that it's a number that's going to be workable for everybody and make everybody happy in the town.

And as far as the exclusions, I think she's 100% right, you know. We shouldn't have exclusions, you know. If a building is being put up to be occupied it should, you know, kick in towards this. Thank you

very much."

Supervisor Kozakiewicz: "Thank you. I have someone- Bruce Stuke and then Sal."

Bruce Stuke: "Bruce Stuke, Jamesport. I- myself and John (inaudible) co-chairs on the Recreation Advisory Committee since its inception until Rose Sanders very capably took over as Chairperson. Is this hearing going to remain open until the next meeting?"

Supervisor Kozakiewicz: "You mean for further public input?"

Bruce Stuke: "Yes."

Councilman Kent: "Well, we're actually calling another one."

Supervisor Kozakiewicz: "Well, actually, we have another public hearing which is scheduled for that next day, so I would say in light of that, no."

Councilman Lull: "Close this and open the next one."

Bruce Stuke: (Inaudible)

Supervisor Kozakiewicz: "I can keep it open for written comment. I'm willing to do that."

Bruce Stuke: "Because I don't think a lot of people really knew by reading- "

Supervisor Kozakiewicz: "It's going to come up the next meeting so there's going to be a further discussion and it will be going on again, so, I mean, it's the same topic revisited with different numbers."

Bruce Stuke: "What you're doing, you know, \$2,000 is a lot of money. By the time you're done on fees to new homeowners in this town, anybody that wants a new home in this town, right now is spending \$4,500 in fees that they get nothing from. A \$2,000 rec fee and I guess a questionable \$2,500 fee which is (inaudible) key money, that's \$4,500 right off the top when they buy a house. Now you want to increase that to \$7,500 if you go with the \$5,000 number. And the developer doesn't necessarily get (inaudible); it's the person who buys the home."

If you take the- excuse me- if you take the exclusions out and it's an individual that buys a lot in this town- "

Supervisor Kozakiewicz: "Can you hear?"

Bruce Stuke: "-- this is a young couple- can you hear me now? A young couple buys a home here, they have to pay an extra \$7,500 to get that home. And what do they get for it?"

Supervisor Kozakiewicz: "Well, with regard to the rec fee, I mean there's two ways the Town Board could approach that. We could ask that you do a recreational area. When developers come in, set aside a recreational area, and establish a park or a recreation area. In lieu of that, the Board has taken the viewpoint we're going to try and direct our recreational resources to certain specified areas that have already been established as recreational parks, therefore, the money that's saved in lieu of establishing that rec park in a particular subdivision, is being used to fund the rec fees so that we can do a skate park or an in line rink. So, certainly with respect to that the homeowners are getting something so I'd have to differ with that comment.

As I also started out saying, we're still looking at this. It's going to be a public hearing. Certainly input from everybody as far as their views is something that I think the Board is going to consider. You heard Councilman Cardinale's request of the town attorney. We're going to have to ask her to do an analysis to make sure that this nexus- we're not picking a number out of air that's not going to be a sustainable number. So- "

Bruce Stuke: "But I think there's a number of people that you haven't heard from such as the Farm Bureau, the farmers, which I've (inaudible)."

Councilman Cardinale: "Yeah, with regard to the exclusions. It is my understanding that both the (inaudible) of the proposed recreation fee apply only to major subdivisions?"

Supervisor Kozakiewicz: "That's correct."

(Unidentified): "Four or more- "

Councilman Cardinale: "Is there some logic to that?"

Supervisor Kozakiewicz: "I think- "

Councilman Cardinale: "Minor subdivisions don't use recreation facilities?"

Supervisor Kozakiewicz: "No. I think the logic is that with the minor subdivision generally it's a family that's carving out a lot for a family member and to impose these additional fees on them it was thought that it was an undue burden. I would guess. I mean- "

Councilman Lull: "Phil, I also believe- "

Councilman Cardinale: "The premise may be wrong that they are, you know, family- four lot subdivisions can be developed just as well. The other thing is, of course, the underlying purpose is to provide money for recreation facilities and that those family members or those other people who are going to buy that lot need recreational facilities, too. So I don't really think we can sustain that exclusion."

Councilman Lull: "You're right, Phil. But I think the original idea was the minor- the building of a minor subdivision almost never included setting aside- "

Councilman Cardinale: "Right."

Councilman Lull: "-- area for recreation."

Councilman Cardinale: "Because the concept had originally been set aside land instead of money and they didn't do it in a minor, they didn't address the minor. But now what we're really trying to do is to assure that, I think, whatever build out there is that there's a contribution at the time of the build out for the recreational facilities. So I think a minor probably should be included."

Councilman Kent: "Rose also brought up a point. Do we exclude prefabricated dwelling or manufactured homes? They're not included now?"

Supervisor Kozakiewicz: "As far as a subdivision is concerned or as far as something other than a subdivision?"

Councilman Kent: "Well, that property is not subdivided. I know recently we extended- we expanded a pre-existing non-conforming, there was no subdivision, it's one lot that allowed- "

Supervisor Kozakiewicz: "It was- the present code applies to

major subdivisions is the way it applies."

Councilman Kent: "So we just forfeited what- another 90 units that were put in recently."

Supervisor Kozakiewicz: "Right."

Councilman Kent: "Yes, that we could have had money from."

Bruce Stuke: "I guess my last question is somehow at the next Town Board meeting other people will be able to be heard on this before you pass any kind of resolution. Okay."

Supervisor Kozakiewicz: "Sal Mastropolo."

Sal Mastropolo: "Sal Mastropolo, Calverton. By definition, is there a difference between garden apartments and condominiums?"

Supervisor Kozakiewicz: "Yes."

Councilman Kent: "Yes. Condominiums are owner occupied usually or they're fee- you own the fee."

Sal Mastropolo: "Is there a fee charged to a condominium, for the recreation?"

Councilman Kent: "Yes."

Sal Mastropolo: "For example, the 36 units going in Wading River- "

Councilman Kent: "Yes, there is."

Supervisor Kozakiewicz: "Yes."

Sal Mastropolo: "Are they going to be assessed \$5,000 or \$3,000?"

Councilman Kent: "\$2,000."

Supervisor Kozakiewicz: "\$2,000 per unit."

Councilman Densieski: "They're already in."

Supervisor Kozakiewicz: "That was done already."

Sal Mastropolo: "And what about senior housing?"

Councilman Lull: "Senior housing pays."

Councilman Kent: "It depends on what type of ownership it is."

Supervisor Kozakiewicz: "It depends if they're a condo or not."

Councilman Kent: "Whether it's condominium or apartment. Right now, if they're apartments, they do not- "

Supervisor Kozakiewicz: "Right."

Councilman Kent: "-- pay."

Supervisor Kozakiewicz: "It depends what kind of- the ownership situation is as pointed out. If it's condo, they pay a condo fee. If it's an apartment they do not."

Sal Mastropolo: "All right. Thank you."

Councilman Cardinale: "You know, I can see a third hearing coming. This one, the one we're about to pass in my judgment to go to consider \$5,000, and then another one to consider a- other changes by incorporating all of these excluded areas."

Sal Mastropolo: "Getting rid of the exclusions."

Councilman Cardinale: "So I think maybe that's what's going to happen."

Supervisor Kozakiewicz: "Yes, it's going to be evolving."

Councilman Kent: "I think the resolution that's before us proposes garden apartments."

Councilman Cardinale: "Yes. But it doesn't propose senior housing or extensions of mobile home facilities."

Councilman Densieski: "Those things should probably be included."

Councilman Kent: "Yeah, I think that we should include- "

Supervisor Kozakiewicz: "Sal, anything else?"

Sal Mastropolo: "No, thank you."

Supervisor Kozakiewicz: "Thank you. George Schmelzer."

Councilman Kent: "But senior housing is not by definition included or excluded because it's a form of ownership."

George Schmelzer: "Does a garden apartment have to have a garden or not?"

Councilman Cardinale: "Not any more."

George Schmelzer: "No more. So (inaudible) the previous gentleman, he's right, stick it to the homeowner. Now, for a few years I've been asking this Town Board to make sure when the Grumman Navy land was given to the State, they make sure the State pays the taxes. Nobody gives a damn. They didn't do anything, they could have, they do it upstate but out here they forget about it. So, you can stick the homeowner with it but they can't do anything that doesn't cost us anything. Up in the Adirondacks, they like the State to buy land because the State agrees to pay taxes on all the land. I called them up the other day about it, was asking some pointed questions, they hung up on me. (Inaudible) I'll tell you about it some time. Maybe write a letter to the paper and send a copy up to them.

So, there was a bit hullabaloo when they put this bill in to pay taxes on Wildwood Park, not a word. No word from-

Supervisor Kozakiewicz: "Not a word yet, no. But that's not what we're- but that's not what the public hearing is about today. The public hearing today is about the establishment of rec fees."

George Schmelzer: "I know. It's about front money."

Supervisor Kozakiewicz: "Well, no. Are you in favor of this proposal or are you against it?"

George Schmelzer: "You are taking money away- why stick the homeowner, that's the last one you can pick on because they can't run. You didn't do a damn thing last year about getting money from the State for that Grumman year. Nothing. You're not doing anything to stop this town from paying five million dollars more in taxes to subsidize that part of the school district in Southampton and Brookhaven. Not a thing. No word."

Supervisor Kozakiewicz: "I'm not going to respond. It's not part of the public hearing. I'm just- "

George Schmelzer: "I know you're not going to respond. The public hearing is about money, you know it is."

Supervisor Kozakiewicz: "No. The public hearing is about changing Chapter 108- George, Mr. Schmelzer, would you please address your comments to the public hearing."

George Schmelzer: "Well, yeah. Your trying to stick it to the homeowner."

Supervisor Kozakiewicz: "You can get up and speak- you can speak later in the general- in open period if you wish to."

George Schmelzer: "It's all money."

Supervisor Kozkaiewicz: "No. Today's hearing is about whether the recreation fee should be increased from the \$2,000 to the \$3,000. Are you in favor of it or are you opposed to it?"

George Schmelzer: "No. I know- people that have recreation businesses, you don't want that. But they had a lot to rent out for to play ball, no, you wouldn't allow it. You wouldn't allow anybody to put up a boatyard anymore. No this, no that."

Supervisor Kozakiewicz: "I'm not sure what you're talking about but anyway \$2,000 to \$3,000, you're opposed to it?"

George Schmelzer: "Yeah."

Supervisor Kozakiewicz: "Okay, thank you."

George Schmelzer: "Get some private recreation allowed."

Supervisor Kozakiewicz: "Thank you. Anybody else who would like to address the Board?"

George Schmelzer: "You're welcome."

Councilman Cardinale: "Could he define private recreation? What did you have in mind? I'll talk to you later."

George Schmelzer: "(inaudible) are you talking to me?"

Supervisor Kozakiewicz: "No, no. Anybody else who would like to address the Board? Thank you, George."

Councilman Densieski: "I'd like to make a comment, Bob, if I may have the floor."

Supervisor Kozakiewicz: "As long as it's not going to be too long."

Councilman Densieski: "Very brief, trust me. The confusion with the dual public hearings and the different amounts is to nobody's fault on the Board except my own. It was probably poor communication on my part to get the proper amounts from the Rec Committee and has no reflection on any of the other Board members. I just want to make that clear."

Councilman Cardinale: "That's generally true. Everything that gets screwed up here is generally us."

Councilman Lull: "I also would like to make a quick comment because we're talking about making a variety of different- we're getting a laundry list of public hearings on recreation fees. But I believe that we should have built into the recreation fee into the plan for recreation fees. We should have built into it a specific plan for those houses- those housing units either individual housing units or garden apartments or whatever they might be, that are specifically meant for seniors, that a percentage of that money will go to senior recreation. There is a recreation- part of the recreation program that is specifically for seniors. It has to do with trips, it has to do with picnics, it has to do with a whole variety of different things and those should be partly paid for by the recreation fees. So of we're collecting money from a project that is 55 and over, a building project, then they should help pay for the recreation fees for that specific purpose."

Councilman Cardinale: "I know we can exclude them from the parks, because they can't get on the jungle gyms if they didn't pay their (inaudible)."

Supervisor Kozakiewicz: "If there's nothing else, what I'd like to do is keep the public hearing open for written comment only. As I said, there's going to be another public hearing. We can leave it open until two weeks, close of business for two weeks, and that will give the Farm Bureau a chance to address us and certainly the people that are watching this program will know that next hearing in August

we'll be addressing this issue and revisiting it again. So the time of 8:35 has arrived."

Public hearing left open for written comment

Supervisor Kozakiewicz: "At this point in time, what I'd like to do is move from the public hearing segment of tonight's portion, open it up for comment from anybody. I apologize first and foremost we didn't have any of the cards available. We should have had them available, so I'm just going to go right down the list when people come up. Sal Mastropolo. I'm going to try to limit you to five minutes today folks. Because I'm going to probably get a belt from both sides of the room if I don't."

Sal Mastropolo: "Sal Mastropolo, Calverton. A quick question. Where are we on the public hearing relative to parking of commercial vehicles in private driveways?"

Supervisor Kozakiewicz: "That public hearing was held, it's still being considered by the Board as to whether we adopt it that way or whether we're going to go back out and modify it and have another public hearing. So we haven't actually adopted that change."

Sal Mastropolo: "Okay."

Supervisor Kozakiewicz: "Thank you. Okay, I'm sorry. Henry-Mr. Danowski."

Henry Danowski: "Henry Danowski, Riverhead. My point is that I'd like to find out about what are we doing about Iron Pier? Is there anything going on about Iron Pier?"

Councilman Kent: "Surprise."

Councilman Cardinale: "If you look at your package."

Supervisor Kozakiewicz: "Actually there is a resolution that's in tonight's packet approving a bid for the low bidder."

Henry Danowski: "Oh, there is?"

Supervisor Kozakiewicz: "Yes. So we're anticipating that we can go out- well, we're going to award the bid, we're expecting we

should be able to start work, I think, if I can remember Mr. Testa thought that we could get out there towards the latter part of the summer and start working on the ramp area and then slowly get around the project and have it hopefully- let's keep our fingers crossed- done and open for next bathing season."

Councilman Kent: "Did we resolve all the archeological- "

Supervisor Kozakiewicz: "Yes."

Councilman Kent: "Okay. That's what was holding us up."

Supervisor Kozakiewicz: "The archeological is done. We dealt with the State Historical- the office, and they're even satisfied. It's now gone to the final stages. So there is a resolution in today's packet approving the bid that came in last November, November 4th I think."

Henry Danowski: "On this bid for this Iron Pier, are you going to raise the parking facility, you know, raise it up so we won't be having when it rains or we have a tide, that you've got- "

Supervisor Kozakiewicz: "There's a seawall as well as the fact that it's going to be elevated somewhat."

Henry Danowski: "In other words, something similar to Wading River?"

Supervisor Kozakiewicz: "I would have to have you sit down with Ken as far as the specifics of the plan if you wanted to see them, but it's a seawall, it's a concrete seawall and then the parking lot is raised up so that the water will not be a problem for the bathing facilities or the bathroom facilities."

Henry Danowski: "Okay. The other thing is that I'd like to know about the Suffolk Theater."

Supervisor Kozakiewicz: "Yes?"

Henry Danowski: "What's happening with that? I mean we- I see it one time in the paper that we appropriated 2 million or something to that effect to complete the job."

Supervisor Kozakiewicz: "We had the architectural firm, RKT&B, meet with us last Friday I believe it was, and what they're going to

do is look at the plans because some of them may have been good at the time but certainly technology and certain things change over time. So we're- and the numbers may change. So what they're doing is looking at the bid packet, the plans that were developed for that Suffolk Theater. They're going to come back to us within approximately 30 days and we can, hopefully, have a better number. I think what we're trying to do is get a gauge on how much we actually need to go out and increase the bond for. So that's what we're looking at."

Henry Danowski: "Would it have been better if we probably sell that piece of real estate to a private person?"

Supervisor Kozakiewicz: "That's one viewpoint, yes."

Councilman Cardinale: "That is one viewpoint. That's what I'm hearing."

Supervisor Kozakiewicz: "I think there's one Board member who would advocate that position."

Councilman Densieski: "They did that to the Vail Leavitt and that's been closed for about 20 years now."

Henry Danowski: "We didn't get no taxes on it either. The other thing is that- the sewage plant. How far are we going with that?"

Supervisor Kozakiewicz: "What do you mean how far are we going?"

Henry Danowski: "Because I'll tell you, Bob, last week when we was going in the boat up the river, you know, to the Peconic Bay to do a little fishing, the stench was unbelievable coming out of there. Now I was just wondering if they opened the gates or what happened."

Supervisor Kozakiewicz: "I know that there was a call, there was a thought that there might have been some problems with the way the effluent was being treated. As a matter of fact, it was in the papers a couple weeks ago. The Department of Health Services came out, they took samples both at the very end of the process, at the manhole cover in the street, and down at the outfall. There was not a problem with the way the effluent was being treated."

In any event, what's going to happen is we're going to have the upgrade anyway, the- as you know there was a sewage plant advanced wastewater treatment facility is the way we call it now, advanced

wastewater treatment facility that will be on line. I know the original anticipation date was October or November. It's a different process; it's treated by- it's not by chlorine, it's ultraviolet treatment, the last stages, it is not a chlorination process which is part of the problem that we had last December when the plastic bag got caught in the impeller and the impeller couldn't infuse or provide the last stage of treatment of chlorine.

As far as the smell, I don't know what to say to you. I know that we've had it tested and it was not a problem."

Henry Danowski: "I don't know how the devil they can test something and give it a negative- I mean a negative answer. We went up there, and this is no kidding. There was four of us in a boat and we had to put handkerchiefs over our noses there. That's how bad it was, Bob, I'm not kidding you. And there was something that was coming out of the sewage there that I'm not going to say but it was just plain terrible. And when he gave me a negative answer like that, something's wrong."

Supervisor Kozakiewicz: "Well, was this last two weekends ago?"

Henry Danowski: Yes."

Supervisor Kozakiewicz: "Okay. As I said, we had the Health Department out there. They took samples and they didn't find the problem. So I can only tell you what I've been told by Mr. Reichel, the Superintendent of the Sewage District, and what the State Department of Health Services found."

Henry Danowski: "Okay. Thank you."

Supervisor Kozakiewicz: "Thank you."

Councilman Cardinale: "Mr. Reichel has lost all sense of smell at this point."

Augusta Field: "Augusta Field, Riverhead, Riverhead Vision 20/20. I just wanted to give an update on what's been going on in the last 18 months with our organization which is community based made up on independent volunteers. We've been holding small community forums called Study Circles as you probably know. Ed has been a part of these Study Circles, Phil has participated in them. I know Bob, you've come to our kick off, and, Chris, I know you've been trying to get there and Jim, you also.

For the past 18 months we've had almost 200 people come to these Study Circles. We talk about issues that concern the town. We've used study guides called Smart Talk for A Growing Community which had been put together by the Study Circle resource center and this organization has been in existence for about 10 years helping communities and towns all over the country to better deal with issues such as youth and violence, education and racism.

And this is one of their newest guides, this Growth in Community which really everybody can relate to. We had residents, leaders from town government, the business community, school district, church officials, civic associations, human and health service professionals, college and high school students to discuss growth in their community and other issues of social and economic concern.

One of the best things that's come out of this, these meetings has been the human service professional meetings. They started in a Study Circle last summer, I think 24 at a time, that we had people from the Family Service League, we had people from the Alternatives, TASC, Planned Parenthood, the (inaudible), the drug and alcohol rehabilitation, the Retreat. We also had Chief Grattan, we had Bob Holmes, the Superintendent of Schools. We had Bruce Johnson, from the-- the Fire Marshal. Everybody had an opportunity to listen to each other.

Out of those Study Circles we conducted a monthly meeting for professionals and now there are collaborations taking place with the school, with the human service groups, they are acting, hopefully, to act as a liaison between the town and the Community Development Agency to have more information about grants coming across the desk here, (inaudible) being able to work together (inaudible).

In the- just so everybody knows, the primary interest of most of the people who come to these Study Circles have been family sustaining (inaudible), recreation for youth downtown, and opening the Suffolk Theater. Recently, I think it was in June, we had a mini-vision (inaudible) and we took all the ideas that have been consolidated over the last 18 months and we broke them down and consolidated them into 10 goals and people had an opportunity to read these goals and vote upon them.

Some of the ideas that were brought up were establishing a community garden at the high school to provide an educational tool to prepare young people for jobs in the agricultural industry. Installing welcoming signs in Riverhead's main access points.

Offering greater recreational opportunities from roller skating and skating rinks to a downtown bowling area and teen center. Creating a Riverhead Vision 20/20 website (inaudible) for local information. Showing support from the community for the efforts being made to bring the YMCA to Riverhead. Bringing back Grangible Park to the community. Have a community clean up and more public involvement with festivals, picnics, and (inaudible). Involving youth in the community through apprenticeships and mentoring programs. Raising the residential property standards through improvement efforts supported by both private and public sources. Fostering collaboration by the town, Cornell Cooperative Extension, Vision 20/20 and the school district. This in particular as Bob well knows is- pertains to a proposal that we've sent off to the Lieutenant Governor of the State of New York on its quality community program.

They have put out 1.5 million dollars to have programs be funded throughout the state and we're hoping to hear favorably for that (inaudible). And coming out of that is to continue the river walk the downtown river walk. Over 50 people participated in the mini-vision fair and by a two to one margin folks who attended the mini-vision fair voted to work to bring the Y to town. I think that's something that everybody would like to see.

The second choice was bringing back Grangible Park. We also had the Assistant Superintendent of Schools, Jean Lipinski, (phonetic) send home the goals to the classes of K through fifth grade so the parents could have an opportunity to put their views in. We got back about 120 responses again supporting the Y as their first choice.

What I'd like to have you all know is that we're continuing our Study Circles. We've had a wonderful diverse group of people talking to each other. We'd like to see more, more Study Circles bring together people who are from different economic and cultural and traditional levels to better learn about the different and same needs of people in our community. We want to see more people in the community participating in these Study Circles.

I'd also just like to ask that Nancy Gray and Ellen Talmage and Larry Williams just say a few words of what these Study Circles have meant in their civic associations in their communities, if they could do that."

Councilman Densieski: "Augusta, is there a phone number if somebody wants to get involved that you could give to us now?"

Augusta Fields: "Yes. They could please call me at 727-5168."

Councilman Densieski: "Thank you."

Augusta Fields: "When we start up our next Study Circle (inaudible)."

Councilman Densieski: "Thank you, Augusta."

Supervisor Kozakiewicz: "I'm going to let the other two individuals speak, Steve, and then I'll call you. Okay. All right."

Nancy Gray: "I'm Nancy Gray. Just a little about the Study Circle. They really are a great process if you've been in one of our Study Circles. It's a small group process. They're not (inaudible). Basically the rules are everybody just has to listen to each other. Nobody has to agree. And the basic underlying purpose of it all is we're such a diverse town, we just have, you know, diversities as far as many different ethnic groups, economic groups, just everything. And what this gives us all a chance to do is to find common ground so we can then build a nice healthy community."

Supervisor Kozakiewicz: "Thank you."

Ellen Talmage: "This is a big day for me. I've never been here in front of the Town Board. This is a big deal. I'm Ellen Talmage from a family that's well known both for local persecution and actually I'm doing okay now. What's interesting with this group and why I've been involved is I have no interest in ever running for politics. I think what you do is a great thing. I think that anybody who is from this town, whether it's just five minutes ago or five generations ago, we love this town and it is changing and it's changing quickly. The people that come here are changing- I went to the new restaurant the other day, the Lobster Roll, there are hand towels that say Baiting Hollow on them. I mean we have arrived. I think that we need to be ready for that."

Part of that is to embrace the people that aren't usually heard from. I mean I've come to some of these Town meetings and you're here all the time. People who are up here talking all the time, do it and that's wonderful. However, I meet all kinds of people all day long, Spanish people that I work with, older people, Polish people, gay people, black people, this people and they all live in this town. Anybody who has something to say, it's scary to be up there. It's the first time I've ever done it.

The Study Circle practice allows people to start talking to each other and it took me a while to get up there. I read the paper every week now. I do this all the time. I'm on my way. If we can just get more people to vote, to just be more interested. This is what it's all about and I think that this process has been very interesting and anybody who has been involved will really be very excited about it and I hope some people will join it. Thank you."

Supervisor Kozakiewicz: "Thank you. Larry Williams."

Larry Williams: "My name is Larry Williams. And first I'd like to say good evening to the Board. And for me also it's the first time I've ever addressed the Board. But speaking of Vision 20/20, I've learned a lot of things while serving as part of the Vision 20/20 committee. I've learned a lot of things about the people in the town. One of the things I've learned is that a lot of people in the town be it of Afro-American descent or Caucasian descent, is that we all have a lot of the same concerns. We're concerned about our schools, we're concerned about the town, (inaudible), and our taxes, of course, and what's going on with the Grumman property."

Because we don't see a large representation of the African-American community here in the town hall, that does not mean that the African community is not concerned about the town of Riverhead. People are very much concerned. I sat in on two Study Circles myself and at that time there was about 20 African-Americans also sat in in those Study Circles and their concerns were also heard. It is our hope, the African community's home, that we could be of some- excuse me- that we could assist the town in some way to make for a better community (inaudible) not to fight against the town because it's your jobs to control and assist to control the town and to sort of lead us. All right. We just want to get on board and go along with the town, to help the town if we can, to help you, Supervisor, and all the members of the council. So, thank you."

Supervisor Kozakiewicz: "Thank you. Steve Haizlip, I saw your hand up."

Steve Haizlip: "Steve Haizlip of Calverton. Can I bring a resolution up at this point?"

Supervisor Kozakiewicz: "Yes. And actually since you are mentioning that, one of the things I did want to mention is we did have a tabled resolution from last meeting. Sal had pointed out to us that there was a discrepancy in numbers for chin straps. We went back

and it was a decimal point that was the problem. All right. So, but the bid had it the right way so even if we had acted on the resolution the bid amount still would have been all right. But it was- I think it was 33.39 or something like that; it should have been \$3.39, so, just to mention that. That's resolution 591 which we have and we're, I think, unless there's going to be any further problems with it, we'll probably take it off the table tonight and vote on it. So, saying that, go ahead, Steve."

Steve Haizlip: "Resolution 655. In reading the resolution's basic title, it doesn't say where these places are at. By any chance is Rolle Brothers place on that list? That grass on 58 has got very high and being a heavy traveled route and we're trying to have a good looking image of the town, that should be trimmed down, too, and cleaned up."

Supervisor Kozakiewicz: "The answer is it's not on this resolution, no."

Steve Haizlip: "All right."

Supervisor Kozakiewicz: "That particular piece of property. This particular piece of property is located in- it's off of Roanoke Avenue, Patti Lane. It's west of Roanoke Avenue."

Steve Haizlip: "Well, I guess you can't do anything with it until you get another resolution printed up citing that."

Councilman Densieski: "No, we can pass it on to code enforcement, Steve. That's not a problem."

Steve Haizlip: "All right. And 661, appoints architect engineer. What's wrong with our Architectural Review Board? Now we're going to employ an architectural engineer- engineer I should say."

Councilman Kent: "This just adds another consultant available to the town. It just adds his name, Marty Sendlewski as an available consultant to the town."

Steve Haizlip: "Oh, this is only on an as needed basis."

Councilman Lull: "Yes."

Supervisor Kozakiewicz: "Correct."

Steve Haizlip: "Okay. All right. At this time, I have rehearsed in my mind over and over but I don't know if it's going to come out this way or not. Now, I think, Bob, or should I address you as Mr. Supervisor and other Board members. Now, during the campaign I kept hearing over and over with effort is achievement. We're going to give the town to the people. We're going to let the people have a say. Whatever the people have a gripe about or differences about, we will address it. Well, on June the 20th, one of the spectators addressed the problem about a piece of land about to be taken away from the town through some kind of manipulation (inaudible) or what have you, by hook or crook.

Now, before I go any further, I want to say maybe I hope you are like Harry Truman. You can take the heat. And not one of your predecessors which couldn't take the heat and ordered people out and had people taken out. So, all right, now, we'll get into it.

To me it appeared that when this particular speaker was speaking your main concern was for him to sum up right quick. It seemed like you didn't want to hear the crucial parts. But you said that you made your point, you'll look into it. Well, I was very interested in that gentleman speaking, that speaker, I was very interested, as being a community advocate and fighting to try to save money in this town with all projects, boats and everything else, and high class lifeguard, so I wrote a letter about it. Well, now, I included all Councilmen. At this stage of the game, I don't know if we need Councilmen at large or we should have Councilmen in wards or district. What I'm leading up to is that letter passed every one of you and you all looked at it. And now did you just lay it aside and don't have no concern with it? Or did you consult someone and someone said ah, don't bother with that?

So, now, I followed it up with a note memo to the Town Clerk. I haven't heard a word from that Town Clerk yet. Now, I don't know if the Town Clerk was stifled or not. But I would like to get an answer to that letter and find out what's going on with this piece of land. I don't- "

Supervisor Kozakiewicz: "Well, the piece of land you're talking about is at the end of- "

Steve Haizlip: "And I think I have the right to address it in public."

Supervisor Kozakiewicz: "And absolutely and I can tell you what

was done. We've asked the town attorney to research the question. It involves a title issue. It's not a black and white issue. It's not something that can be resolved in a day. It's not that easy, so we've asked her to look at it. This involves a parcel of land-- I know very well what you're talking about. It involves the land that's along the creek, on Creek Road, in Wading River and the question of whether the town of Riverhead had any sort of interest in property at that location. We're looking at that question. It's a question of whether there is a title question or whether it's a boundary question. The town attorney is looking at it. And unfortunately until we can have an answer, it's impossible to respond to you in writing. We can't- I think it's- if, you know, until we know the answer, it's tough for us to say, well, we're not sure. I don't think that's what you're looking for from us as public officials."

Steve Haizlip: "Well, I would like to get an answer saying at this particular time, it is being investigated. In order to keep you from being in suspense, I am giving you this memo advising you of that. That's the way I feel about it."

Supervisor Kozakiewicz: "Okay. It's- we try to respond. I think most of the Town Board members do try to address all of the items of correspondence that come to them. They try to address them as first in, first out, and sometimes we fall behind in getting those items of correspondence out. But it's not to say that we're ignoring it by any means of the imagination. It's been passed along and we're asking Dawn in her numerous endeavors to look at this issue for us as well."

Councilman Kent: "Steve, and I spoke privately with the individual who brought this forward to the Town Board and after I spoke with him, I also spoke to the town attorney about it and we're aware that there was a fence put up that may be impeding upon the creek and I think the town attorney has also brought this- there was a summons served and I believe there was an appearance ticket issued and there's going to be also- the party is going to be brought in before Justice Court. So, there is some action being taken but we can't resolve it as Bob said in a day. This is something that we have to get through the legal process."

Steve Haizlip: "Oh, I understand that."

Councilman Kent: "Unfortunately the town, you see, people can violate the town code or do things illegally but the town in order to correct that, we have to follow the legal process. We can't just go

out there and tear things down."

Steve Haizlip: "Well, I don't like to wait 30 days. I'd like to- maybe within 10 or 15 days say this is where we are now and then when it's finally resolved, you will get a finalized letter on it. But for a while there, I was beginning to think my middle initials was outcast which is (inaudible)."

Supervisor Kozakiewicz: "Sid, after the next speaker, okay. There's one person coming up behind you, Sid, and then you can be next."

Kathy Lindstrom: "Kathy Lindstrom, Baiting Hollow."

Councilman Kent: "Could you pull down that left microphone right down?"

Supervisor Kozakiewicz: "There you go."

Kathy Lindstrom: "Calverton Civic Association. I have a letter from Ann Miloski that she would like me to read tonight. She is unable to be here. But before I do, I just have a question. I'm sure you are all aware of the gentleman that was killed, I believe it was last week, riding his bicycle on Sound Avenue. One of the items I've brought up in the past is widening the shoulders. Is that ever going to be done on Sound Avenue?"

Supervisor Kozakiewicz: "I had a conversation along the lines of Sound Avenue and what to do with Sound Avenue with the Highway Superintendent probably two weeks ago. Widening it sort of goes against its historic corridor setting. The idea is that it's an historic corridor and it's an extremely long stretch of highway and it's going to be a very costly proposition. We are looking, however, to improve it. I guess I can further those conversations. You're talking about a bike shoulder?"

Kathy Lindstrom: "Yes."

Councilman Kent: "Bike trail."

Supervisor Kozakiewicz: "Yes."

Kathy Lindstrom: "Yes, definitely. It's very popular by a lot of bicycles. They use it continually."

Supervisor Kozakiewicz: "My understanding with respect to this particular incident was that there was a situation where the bicyclist was off the side of the road and probably the Chief may know more about this if he's still here than I, but the sun was in the driver's eyes and it was very early in the morning sun coming out of the east, the individual's vision was blurred by the sun and the sun was a precipitating factor in the cause of that individual's untimely death."

Kathy Lindstrom: "If the shoulders were just a little bit wider it probably wouldn't have happened. Maybe I shouldn't be saying that."

Supervisor Kozakiewicz: "Well, we don't know. Yeah."

Kathy Lindstrom: "It's very narrow there and even a foot would help."

Supervisor Kozakiewicz: "Okay."

Kathy Lindstrom: "Ann Miloski asked me to read this letter to the Town Board.

Dear Supervisor and Councilmen: It is time for Steve Kirschenbaum and Dave Wilmott to stop criticizing Dick Amper.

Instead, we should be thanking Dick Amper every time we drink a glass of pure water for his work on the Pine Barrens. He has fought hard to protect our drinking water. Because of his efforts, we are drinking from one of the best aquifers in the country. I suggest Steve spend some time checking his water quality, he might need Dick Amper's help in the future.

Many of us are against a general aviation airport for many reasons. The most important of these is because it is over our sole source aquifer. There is presently designated contamination at this location which the Navy has agreed to clean up. The clean up of the site should be the number one priority, not bring something to the area that could add to the problem and cost Riverhead taxpayers more money as a result.

Yours truly, Ann Miloski, Corresponding Secretary."

Supervisor Kozakiewicz: "Sid Bail."

Sid Bail: "Sid Bail, President of the Wading River Civic Association. Actually what I wanted to do was to go after George Schmelzer but I guess that didn't work. I have three quick questions and I won't prolong them, two are about the Calverton Enterprise Park and one is about Wading River. I thought that at the last meeting the resolutions and the discussions, I guess what I'm alluding to is what Councilman Kent (inaudible) to the resolution and to amend it, Councilman Cardinale tried to make it consistent with the existing zoning and the amendment was rejected and Councilman Kent made the observation that it really doesn't matter because the underlying zoning is in place. There was an article in one of the local newspapers- I won't mention the name, the News Review- that talked about the work session and about the discussion about whether or not the town is bound by its own zoning, if the town owns the property in question. Has there been any clarification on this or is it still a matter of discussion?"

Supervisor Kozakiewicz: "I'm going to put the town attorney on the spot. There is a memorandum that's been distributed amongst the Town Board. I have- I'll be honest. I have not had a chance to read the memorandum. It does go into the question of whether there is an exemption or immunity or whether a municipality is bound by its own zoning law. It's a privileged document so I mean it's been rendered- at this point in time we have to really gain full understanding of what it is. So it's still being bantered around, I guess, to say the least."

Sid Bail: "This is a very important question."

Supervisor Kozakiewicz: "Yeah."

Sid Bail: "The second thing was the newspaper talked about at the work session was discussion about a fixed space operator (inaudible) and was this under the- was there any consideration given- first of all, can you have a fixed space operator at a private use facility? Publicly owned, private use."

Supervisor Kozakiewicz: "I've heard two different answers to that. I've heard no and I've heard yes."

Sid Bail: "Well, that- I'm glad you clarified that. The second thing, nothing against the sale, I don't know anything about the outfit but if there were to be a fixed space operator, why wouldn't you put this out for RFP's?"

Councilman Densieski: "We would."

Councilman Lull: "We would."

Sid Bail: "It would automatically (inaudible). Thank you."

Councilman Densieski: "I'm sure there's going to be a long line of people wanting (inaudible) to respond to that RFP."

Supervisor Kozakiewicz: "You also had a Wading River question."

Sid Bail: "A Wading River question."

Supervisor Kozakiewicz: "I didn't want to lose you."

Sid Bail: "I had talked briefly with you and I wrote a letter about the condition of the bulkhead at Wading River ponds. It's deteriorating; it's falling in. The (inaudible) I think the Ken Testa design worked well for a few years and now erosion is working its way around the (inaudible) and we're trying to- we realize most of the pond lies- the ponds lie within Brookhaven. Brookhaven is coming out to evaluate it this summer. I can hardly wait. And we're- been applying for a grant on our own to the county to try to do some beautification of that portion of it. But would it be possible to have Ken Testa or someone from the engineering department to evaluate that?"

Supervisor Kozakiewicz: "Yeah, and actually I had told you I would do that. I neglected it and I'll put it on my list. I'm writing down things right now."

Sid Bail: "I'm glad I reminded you."

Supervisor Kozakiewicz: "That was very nicely done. Thank you."

Councilman Cardinale: "Sid, in regard to the first point you were discussing the issue of whether the town is bound by its own zoning, there's two points I'd like to make. I made one earlier with the town attorney. One is that the town doesn't actually own that site up there right now, the CDA does. And whether the principle that a town which passes zoning or a county or any higher political subdivision is bound by the zoning that is passed may hinge on whether it's the town or the CDA that owns that property."

The other thing is I find- I believe that the result of this research he's doing to be of only passing interest because assume for the moment that as a legal question we could disregard the zoning we passed. I can't imagine a more politically incorrect and undemocratic thing to do. Because what in effect the town would be saying is we pass the zoning, the rest of you abide by it, we don't. It makes- it just flies in the face of what I understand to be- you know, a democracy. So, I think- I don't think that the legal question is critical. I think from the standpoint of a policy question representative democratic principles require us to bind ourselves by the zoning we expect people in the community to abide by."

Councilman Lull: "Like the post office."

Councilman Cardinale: "Like the post office- even the federal government- "

Supervisor Kozakiewicz: "Another bad topic."

Councilman Cardinale: "-- for example, the federal government need not have applied for a site plan approval. They did so because- "

Councilman Lull: "And didn't follow it."

Councilman Cardinale: "-- they did so though because they wanted not to inspire disrespect for the law by saying we're the feds, we don't have to abide by locals. I can't imagine that we would take the position as a Board that we wanted to inspire that sort of disrespect by disregarding our own zoning."

Sid Bail: "I'm heartened by your answer. I no longer have the blues- even with the Blues Festival fast approaching. Thank you."

Supervisor Kozakiewicz: "Thank you. Mr. Golden."

Jim Golden: "Mr. Supervisor, the Town Board of Riverhead."

Supervisor Kozakiewicz: "Just, just- okay."

Jim Golden: "Okay."

Supervisor Kozakiewicz: "Identify yourself, Jim. I'm sorry."

Jim Golden: "I'm Jim Golden."

Supervisor Kozakiewicz: "Okay."

Jim Golden: "A Riverhead resident. And I'd like to congratulate Mr. Haizlip for bringing up the point of- for (inaudible) of public land which is so important for the town of Riverhead. And as for the betterment of Riverhead, I'd like to bring up something about the looks when you approach Riverhead, coming off the expressway, all these tourists from the west end and what they see is an empty sand lot with septic tanks sticking out of the ground. This is a horrible site. And it's a bad example. And you know what I suggest? This is what I personally think. The way Riverhead is growing, they're putting golf courses up all over the place like mushrooms which is good. They should put (inaudible) golf trucks when you approach Riverhead as a gateway. A lot of your major towns and cities in this country and around the world have gateways. This would make a marvelous gateway. And we could even hang a pair of balls on it to match."

Supervisor Kozakiewicz: "It's funny you bring up the topic of the area which has been- is a sand area now along Route 58. And the reason I say that is because we just received a decision back with respect to the change of zone that the Town Board approved earlier this year and I'm happy to report that Judge Dunn found that the town had done everything in the proper manner and sustained our change of zone for the Riverhead Center application. So simply put, the challenge that's been brought by the petitioners, once again, to the Riverhead Center was dismissed. And the court found in our favor."

Councilman Kent: "There are still some pending actions on that though."

Supervisor Kozakiewicz: "Well, there is still the special permit challenge but this is a very good decision. We're happy. Yes, Joan."

Joan Griffing: "Good evening, Joan Griffing, Calverton Civic Association. Inquiring minds want to know, we're back to resolution 642, it says accepts restoration bond of Bell Atlantic. Does that mean the cell (inaudible) is going in?"

Supervisor Kozakiewicz: "No. This is the property that's along Hubbard Avenue. They had had a site plan approved previously. They then cleared the property and went beyond the approved site plan. If you're familiar with where Route 105 cross River Drive? Slightly west of that on the south side of the road is the telephone property and to

the east side they cleared property for additional parking. They went beyond their site plan approval, they had to provide us with a restoration plan to show that they were going to re-vegetate and replant the area they were not supposed to disturb. They did that. The recommendation as part of that restoration plan was that we additionally- we take some additional bond money from them to make sure that it's done."

Joan Griffing: "Okay."

Supervisor Kozakiewicz: "And that's what this resolution does. It's accepting that bond."

Joan Griffing: "Okay. Next one, 645 says authorizes the release of performance bond of Circuit City stores. Are they pulling out of Riverhead Center?"

Supervisor Kozakiewicz: "Yes, they are. At least the indication at this point they are. Who knows if the Riverhead Center principals can attract them back."

Joan Griffing: "Okay. Thank you. Also, correspondence. It says a petition from Island Water Park. What's that all about?"

Supervisor Kozakiewicz: "That's for an extension of the Water District at the Calverton property."

Joan Griffing: "So they'll be using well water to fill their own man made lake?"

Councilman Lull: "And pay for it."

Councilman Kent: "They're going to pay for it."

Supervisor Kozakiewicz: "And they're going to pay."

Joan Griffing: "They're going to pay for it?"

Supervisor Kozakiewicz: "They extended it at their own cost and they pay for the water they use."

Councilman Kent: "They want to put in shower and bathroom- they're going to use public water for that."

Joan Griffing: "And then I have some questions (inaudible). On

Twomey Avenue, that cemetery, they finally closed in the pit but is the fence still going up? (Inaudible)"

Supervisor Kozakiewicz: "The site plan restoration also required them to put up a fence but in stages. As they do the excavation, the fence would be around the area that's being excavated."

Joan Griffing: "A few weeks ago you passed a resolution to approve the budget for the Osborne Avenue and Reeves Avenue flooding problem. Mr. Kwasna was going to take on that project."

Supervisor Kozakiewicz: "I don't know when that's going to start. I haven't spoken to him about that in the last couple of days. I know that he's busy with Peconic Bay Blvd. in light of the culvert being done on Peconic Bay Blvd. He's now in a position to repave Peconic Bay Blvd. and complete that repaving job. And I know after that he's got another couple jobs, but he's assured me he's going to get to it."

Joan Griffing: "Okay. Resolution 583 from the last meeting. I read it. I don't know if general aviation was in there or not in the description of what was passed."

Supervisor Kozakiewicz: "No."

Joan Griffing: "So there's no general aviation going in there?"

Supervisor Kozakiewicz: "We're confined by what the zoning allows. Of course, there has been a topic of discussion with Sid Bail and mentioned in the paper. But the zoning describes aviation uses except general aviation is the way the zoning in the industrial development district describes it."

Joan Griffing: "There's no definition for general aviation?"

Supervisor Kozakiewicz: "That's the biggest question, whether it's a definition that's set forth by FAA or a definition that would be otherwise."

Joan Griffing: "Okay. What is the status on the Burman deal?"

Supervisor Kozakiewicz: "We have asked him to file a subdivision map. He was given until Friday to file a subdivision map which is a condition precedent to close. All indications are that he

will be filing that subdivision map."

Joan Griffing: "So on Friday- "

Supervisor Kozakiewicz: "Yup."

Joan Griffing: "I think that's it."

Supervisor Kozakiewicz: "Okay."

Joan Griffing: "Thank you very much."

Supervisor Kozakiewicz: "You're welcome. Anybody else? Bill Kasperovich."

William Kasperovich: "William Kasperovich from Wading River. Every item I noted to myself that would be appropriate to speak tonight is actually old hat for me, probably not for this Town Board since I started to present these subjects before you gentlemen were ever considering running for office."

Back in the days when the town hall was located in the basement of the Odd Fellows building, the answer I got for keeping the topographic and (inaudible) maps (inaudible) was that we had no room, we had no room. Now we are in a larger building and, again, we have no room. But such that more time doesn't go by and the matter not be dropped, I present to the Town Board that the firm of Young & Young has retained many of the maps and documents in their offices because we just are too tight for space. I think we should start the process of retrieving all those documents from Young & Young.

On a matter of responding to letters written to the Town Board, I think it's inexcusable not to write a letter of acknowledgment to the person who has taken the time to research and write the Town Supervisor or the Town Board a letter concerning town business. You don't have to tell the man what you don't know, you don't always have to reveal what path will follow, but certainly it would be good manners to acknowledge the letter and indicate some possible path of procedure.

On Sound Avenue, I was going to ask at some meeting of the Town Board is why we never see Mr. Kwasna at the Town Board meeting. Like tonight, many questions come up regarding the roads concerning Mr. Kwasna directly. And I think not necessarily every meeting but periodically especially when there are resolutions that involve

matters of roads, that Mr. Kwasna be requested to attend these meetings.

Now, Sound Avenue is being used more and more every day. There would be no change to the historical situation or to different conditions that people have gotten used to that we at least reach out the sides to the right of way of Sound Avenue of areas that just have been overgrown. A lot of areas were never ditched. Now, we can go as far as the right of way. We are legally entitled to do that. And not necessarily in the whole length at one time but in the bad areas first and then work down the line. And if the program is established, year by year we could make an improvement. The traffic has increased and I do notice- the distance- but I don't travel all of Sound Avenue but from here to Wading River, I notice that the traffic is- it moves considerably faster than it did in years past. So we should widen the road as much as possible. This has been overlooked.

Third and last item is the bad smell in the Peconic River the man brought up and this situation smells of several directions. I became aware of the (inaudible) of sewage into the Peconic River when (inaudible) several decades ago presented an overall picture of sewage collection for the township and he took the treated water from the sewer department and piped it up to the head waters and let it flow down the full length of the river. So that was my first research in to the outflow of sewage into the Peconic River. When the scavenger waste system was being proposed to be designed, I thought it was a good time to present the need to modify and improve the outflow. I got no place. When the expansion of the sewer department came to light, I proposed several studies directing to the outflow as it pertains to the original installation, be it modified, enlarged or changed in any way. And yet nobody was interested in including this into their project.

I don't want to cast any aspersions on anybody on the Town Board or the Supervisor or the Superintendent. But we've got to recognize that we have nobody in town looking after our best interests."

Supervisor Kozakiewicz: "Bill, I'm going to ask if you can sum up. You've been up there for 10 minutes at this point and I know I'm going to probably get an eye from some people who feel that I'm cutting you short. I know that I've tried to ask everybody to be considerate and do the five minutes. I try to allow you additional time because you do have a lot of different topics that you try to address to the Board. But if you could sum up at this point in time."

William Kasperovich: "Well, I could sum up by condensing everything I said tonight to much sharper and directing remarks specifically would you rather me do that and keep within the five minutes?"

Supervisor Kozakiewicz: "However you keep within- "

William Kasperovich: "Or would you rather give me a few minutes to speak in an explanatory manner for conditions that you people are responsible for. And when I come to a point that you could see- "

Supervisor Kozakiewicz: "I'm trying to be extremely- "

William Kasperovich: "-- that the Town Board has not done their job well with this expansion of the sewer system, you- "

Supervisor Kozakiewicz: "You're entitled to your opinion and in your opinion and what I'm asking you to do is state your opinion, make your facts, make your presentation, state your evidence of why you feel we haven't done our job but if you can try and do it in a more hasty or higher tempoed fashion. That's what I'm asking you to do. That's all. If you want to be more pointed in what you're saying, fine. I'm just asking you if everyone else, every meeting- almost everyone else I should say, is considerate, they try to abide by the 10 minute- the five minute rule. Most people get up, they either read a letter, they get within five minutes. They address the Board with what their concerns are, their gripe is with the Town Board, their gripe is with myself. They do it in five minutes or close thereto. I'm trying to be patient."

Councilman Cardinale: "But Bill has more gripes. He gets more time."

Supervisor Kozakiewicz: "I guess- that's what I think I was trying to say but 10 minutes-- I've given you twice the time that I ask other speakers to do."

William Kasperovich: "Mr. Cardinale, my gripes are revealing the shortcomings and incompetency within the Town Board."

Councilman Cardinale: "You're right. And you know another thing."

William Kasperovich: "That is not a gripe."

Councilman Cardinale: "Well, it's a complaint."

William Kasperovich: "This is my opinion that you people don't know everything but would like to act like you know everything- "

Supervisor Kozakiewicz: "No, no, no one is saying that we know everything. That's why when we did the advanced wastewater treatment facility we relied upon an expert. We had our consultants come in and design that. We went out and utilized them to help us design an advanced wastewater treatment facility that's going to address, knock on wood, all of these issues that have been confronting us with respect to the sewage treatment plant and certainly we're not the experts on the question of an advanced wastewater treatment facility. They can explain it to us; they explained what the difference is in the process. How this advanced wastewater treatment facility is different from what presently exists. But, yes, there's no question that we have to rely upon the consultants, H2M, any other consultants, because they possess the studies, they possess the academic background, the licenses, the knowledge that we don't possess.

What you're saying is you didn't do it right. What I'm saying is make your case, if you can keep it as moving so that we're not- we're now almost 15 minutes. That's all I'm asking. I don't think I'm being unreasonable."

William Kasperovich: "What would you have me say? That I don't think you're unreasonable?"

Supervisor Kozakiewicz: "That's your retort, yes."

William Kasperovich: "You are unreasonable."

Supervisor Kozakiewicz: "Thank you. I'm trying to run a- what is happening here. If I can say one thing. You want to run the meeting, you don't want me to run the meeting. That's what's happening. I try to ask you nicely to sum up but you're not happy with summing up. You want to tell me what to do. Is that what it comes down to? You want to run the meeting. You want to be able to say how long you can stand up there and address the Board. I'm saying I want to try and run an orderly meeting. I would like everybody to try and be considerate of one another. I would like everybody to address the comments, I would like everybody to bring their gripes to our attention. I am asking that everybody have a chance to bring their gripes to our attention.

One of the things I hear is that the meetings go on too long, people who want to address us don't get a chance to address us because we go too late in the evening. They don't have an opportunity to address us. I would like to have all these other people who feel that there's something of importance to them to come here and address us so the meetings move in a quicker fashion. Maybe I have been too stayed back or laid back in allowing this to occur. I don't want to tell you, listen, five minutes is done, the mike is turned off. Next. I don't think that's the way to do it either. I am trying to be considerate of you. I'm trying to listen to your comments. The whole Town Board is trying to listen to what your gripes are, what your concerns are, what your issues are. When I ask, listen, it's been 10 minutes, I get the response back. I'm not trying to say that you can't speak by any means. I'm just asking if you can do it in a more cogent-- not cogent, a quicker fashion. That's all."

William Kasperovich: "Well, you leave me no alternative then. If you want- if I have when the sewage system was open for comment- "

Councilman Densieski: "Good night, Bill."

William Kasperovich: "That's all right. These are the manners that I could expect. But every point I brought up you people ignored. You ignored it. You did nothing. And now you're telling me the few minutes I'm taking up to tell you where you- "

Supervisor Kozakiewicz: "Let's set the record straight. Let's set the record straight. The time that you were up there tonight is pale in comparison to the time that you ask us to take up on a daily basis or almost daily basis in Town Hall. You come in. I try to make my office available to you. We meet, other Board members meet with you. I mean that's unfair. I think that is an unfair comment that what we're trying to do is restrict you from commenting and discussing your issues with us. You know that we do not deny you access. Just like everyone else you have access to Town Hall. We make ourselves available. We discuss issues with you.

You know, I know we've had a lot of disagreements on various issues. I know we've had disagreements on procedure. I know we've had disagreements on police practice and I think I told you what I felt and, again, I don't want to bring up a sore topic, but it dealt with this whole question of referring it to the District Attorney's office and you did that. But I try and make myself available to you, Bill, and I think for you to say that we're somehow limiting you or somehow engaging in some undemocratic practice of limiting your

speech, is just totally unfair."

William Kasperovich: "Well, I think it's unfair that when I present things to you that I don't see any action or any consideration for remedial or improving conduct. And with that, that's all I could say. I feel that- it's been futile for me to come up here and talk to you people. Whether right, wrong or indifferent, when Kasperovich comes up everybody turns a deaf ear."

Councilman Cardinale: "Mr. Supervisor, one thing I think we can all agree on is the opening remarks that Mr. Kasperovich made. I think he opened with many years ago, Town Hall was located in the basement of the Odd Fellows building. I personally having been on the Board for 31 months, I cannot think of a more perfectly appropriate setting for the Town Board and I would suggest that perhaps a return to the Odd Fellows building would bring us more into the proper mood for democratic procedure."

Supervisor Kozakiewicz: "George Schmelzer, and then we're going to take up the resolutions."

Councilman Kent: "But maybe it should be odd people rather than fellows because especially in light of the sexual harassment."

Councilman Cardinale: "Yeah, the odd people."

George Schmelzer: "If you want to go back to the Odd Fellows building, you've first got to sell this building back to the A&P (inaudible)."

Councilman Kent: "I heard this used to be the ham section up here."

Councilman Densieski: "Nuts."

George Schmelzer: "Yeah, there was something in Newsday which was appropriate. A little item, I'll read it to you. I agree with it 100%."

Councilman Cardinale: "Gee, Bill, and now George."

George Schmelzer: "Gee whiz. (Inaudible) A new study from the insurance institute for highway safety found that there were 76% fewer injury producing crashes and 39 fewer crashes overall at modern traffic circles than there were at intersections with signals or stop

signs. Such circles also called rotaries or roundabouts. I don't know why the hell they use that but it's there, and common in Europe, maybe they call it that in Europe, reduce traffic, speed and eliminate the right angle turns that often lead to accidents. I believe we should not remove the traffic circle up there on 58.

Anyway, you have any news from a study with the county?
(Inaudible). Thank you.

We- does the county still tax the people to give money to the Long Island Railroad for station maintenance? They did that years ago."

Councilman Kent: "The MTA tax?"

George Schmelzer: "Nobody knows."

Supervisor Kozakiewicz: "I'm not positive."

George Schmelzer: "Well, when we had good railroad service, people didn't use cars so much especially week-enders. If you can get the railroad to put some good service out here especially this line and maybe the south side line too and so the people wouldn't have to depend on cars so much. And the people going to work, it's terrible here, there's no service at all. So people drive their own cars (inaudible). It looks like a half million cars are parked, you have to walk a mile from where your car is parked to get to the train. So, if we had service like they had 100 years ago, it would be better. I remember when I went to school we had a train going out of Riverhead 5:30 and two trains from Greenport they'd come here 7 and 9. So now they're too lazy, they don't want to turn the engine around. They have one engine on each end and also they (inaudible) from Greenport to Ronkonkoma. Anyway if they had a "Y" they could correct that.

So you should get at the railroad to make some good service and the people from Wading River wouldn't have to go to (inaudible) to go to work. Really.

And so now this airplane, this airport business, that little corner- northwest corner of the town doesn't run the town, maybe they think they'd like to. I suggested for many years that the Town Board- I don't know what they're afraid of- at the November election have a referendum."

Councilman Densieski: "Couldn't agree more."

George Schmelzer: "The Grumman airfield, should it be an airport, yes or no? Settle it. Let the whole people settle it, really. Yeah. There's money spent there anyway, I'll get into that at another time. Really think about it seriously. That would settle it once and for all. You seem to be afraid of these people down in Wading River. There's a lot of them retired like the Colonel, he won't hurt you, I don't think he's hurt anybody, see. He's still here, see. I can see him."

Supervisor Kozakiewicz: "Thank you, Gus."

George Schmelzer: "He's got so many letters against the airport, well other people can get up letters, really, would you please do that, put that on a referendum ballot?"

Supervisor Kozakiewicz: "We have talked about it. We need to make sure that what we're doing is drafted the right way. So, it's- "

George Schmelzer: "You're really scared of something, aren't you?"

Supervisor Kozakiewicz: "No, sir."

George Schmelzer: "You seem- "

Supervisor Kozakiewicz: "Sir, I- I'm not scared. I think it's a good idea. Personally I think it's a good idea."

George Schmelzer: "I'm glad you think so. And I hope something comes of it just to settle this issue. We've had this long enough."

Supervisor Kozakiewicz: "I'm not sure it will. But it's certainly an idea."

George Schmelzer: "I've got something else, too, but I don't want to use the time up."

Supervisor Kozakiewicz: "Thank you."

George Schmelzer: "So, I forgot something. Now, this scenic river nonsense, are you going to try and get rid of that?"

Supervisor Kozakiewicz: "To get rid of the act itself?"

George Schmelzer: "Yeah."

Supervisor Kozakiewicz: "I think we should- I think what we need to do is get the line moved and be able to redevelop the river in certain areas. But I don't think getting rid of the river act would be an easy proposition."

George Schmelzer: "People across the river, there's plenty of woods there and deer ticks for them to walk through if they want to. You know, especially people who walk- they ride on 25 to look at the river not hit somebody from behind."

Supervisor Kozakiewicz: "No, we're not talking about people looking at it that way but people using it for passive recreation."

George Schmelzer: "Look at the river, people driving by. Boy, you'll get a lot of rear enders then."

Supervisor Kozakiewicz: "All right. Thank you, George."

George Schmelzer: "All right. You're very welcome."

Supervisor Kozakiewicz: "Take care."

George Schmelzer: "I just used up my five minutes. So long."

Supervisor Kozakiewicz: "Thank you."

George Schmelzer: "Is it four and a half minutes or five?"

Supervisor Kozakiewicz: "No, about seven right now. But that's beside the point."

George Schmelzer: "I owe you two minutes then."

Supervisor Kozakiewicz: "Okay."

George Schmelzer: "Okay, so long."

Supervisor Kozakiewicz: "Thank you. All right. I'm going to adjourn our Town Board meeting at this point. We have resolutions. What I'm going to do is take the CDA resolutions up at this point."

Meeting adjourned: 9:44 p.m.

Meeting reopened: 9:50 p.m.

Supervisor Kozakiewicz: "And at this point open the town board meeting and take up the resolutions."

Resolution #640

Councilman Cardinale: "This resolution amends the sexual harassment policy of the Town of Riverhead. And for those of you who are concerned, it's not like we're changing it so we can do it, we're expanding the prohibition against sexual harassment. And with that, move this."

Councilman Kent: "Seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz."

Supervisor Kozakiewicz: "Actually just so it's clear. We're going beyond the sexual harassment prohibitions and also prohibiting other forms of harassment whether it be upon gender, nationality, race, etc., so. Just to make sure, although we've always had an equal opportunity policy. This is expanding that harassment policy in the Town of Riverhead. Yes."

Barbara Grattan: "The resolution is adopted."

Resolution #641

Councilman Densieski: "Authorizes the Town Clerk to publish and post public notice to change the location of a Riverhead Town Board meeting to the Wading River Congregational Church, that will be August 15th at 7:00. So moved."

Councilman Lull: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #642

Councilman Cardinale: "This resolution accepts the restoration bond of Bell Atlantic in the amount of \$10,000 pursuant to a submitted restoration plan. So moved."

Councilman Kent: "Seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #643

Councilman Lull: "643 accepts the performance bond of Pond View Associates, LLC. And that's a performance bond for \$151,000 approximately which is 5% of the site plan bond for Phase II of Saddle Lakes which is the- on Middle Road, north of Ostrander. So moved."

Councilman Densieski: "Second the motion."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Cardinale, yes; Densieski, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #644

Councilman Densieski: "Accepts performance bond of Cargex Properties. So moved."

Councilman Lull: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski."

Councilman Densieski: "That's \$90,000. Yes."

The Vote (Cont'd.): "Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #645

Councilman Densieski: "Authorizes the release of performance bond of Circuit City Stores and that's of \$64,000 and some. So moved."

Councilman Cardinale: "Seconded."

Supervisor Kozakiewicz: "Moved and seconded."

Councilman Kent: "Just to make it clear. I think the second Whereas should say Riverhead Center, rather than River Center."

Supervisor Kozakiewicz: "Yes, yes."

The Vote (Cont'd.): "Cardinale, yes, as amended; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #646

Councilman Cardinale: "This resolution authorizes the release of performance bond for Walter Gezari Maritime Funding Group, Ltd. So moved."

Councilman Lull: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #647

Councilman Kent: "Authorizes the release of the performance bond for Riverhead Medical Arts, Inc. So moved."

Councilman Densieski: "Second the motion."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #648

Councilman Densieski: "Reduces performance bond of North Side Estates. So moved."

Councilman Cardinale: "Seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #649

Councilman Lull: "Authorizes the Town of Riverhead to apply for a NYS D.C.J.S. Stop Violence Against Women grant. So moved."

Councilman Kent: "Seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #650

Councilman Kent: "This approves Watral Brothers, Inc. as a drainlayer for Riverhead Sewer District. So moved."

Councilman Cardinale: "Seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #651

Councilman Densieski: "Awards bid for Iron Pier reconstruction and improvement project. So moved."

Councilman Lull: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski."

Councilman Densieski: "Capital yes."

The Vote (Cont'd.): "Cardinale."

Councilman Cardinale: "Yes, and I hope for \$1,744,024 we get it done."

The Vote (Cont'd.): "Kent."

Councilman Kent: "Yeah, it's good to see that this project can finally move forward. It's something I know that we've been working on since the two and a half years I've been here and for many years prior. So I vote yes."

The Vote (Cont'd.): "Lull."

Councilman Lull: "I can add my two years beyond that and I know it goes two years beyond that. Yes."

The Vote (Cont'd.): "Kozakiewicz."

Supervisor Kozakiewicz: "And probably two beyond that. Yes."

Councilman Cardinale: "And we have the Department of Environmental Conservation to thank for it all."

Councilman Lull: "To thank for that, yes."

Barbara Grattan: "The resolution is adopted."

Resolution #652

Councilman Cardinale: "652 rejects the bid for Benjamin Corwin site improvement project because it's too high and we don't have the money. So moved."

Councilman Kent: "Seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent."

Councilman Kent: "Just a question. Are we amending the specs

Resolution #648

Councilman Densieski: "Reduces performance bond of North Side Estates. So moved."

Councilman Cardinale: "Seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #649

Councilman Lull: "Authorizes the Town of Riverhead to apply for a NYS D.C.J.S. Stop Violence Against Women grant. So moved."

Councilman Kent: "Seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #650

Councilman Kent: "This approves Watral Brothers, Inc. as a drainlayer for Riverhead Sewer District. So moved."

Councilman Cardinale: "Seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #651

Councilman Densieski: "Awards bid for Iron Pier reconstruction and improvement project. So moved."

Councilman Lull: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski."

Councilman Densieski: "Capital yes."

The Vote (Cont'd.): "Cardinale."

Councilman Cardinale: "Yes, and I hope for \$1,744,024 we get it done."

The Vote (Cont'd.): "Kent."

Councilman Kent: "Yeah, it's good to see that this project can finally move forward. It's something I know that we've been working on since the two and a half years I've been here and for many years prior. So I vote yes."

The Vote (Cont'd.): "Lull."

Councilman Lull: "I can add my two years beyond that and I know it goes two years beyond that. Yes."

The Vote (Cont'd.): "Kozakiewicz."

Supervisor Kozakiewicz: "And probably two beyond that. Yes."

Councilman Cardinale: "And we have the Department of Environmental Conservation to thank for it all."

Councilman Lull: "To thank for that, yes."

Barbara Grattan: "The resolution is adopted."

Resolution #652

Councilman Cardinale: "652 rejects the bid for Benjamin Corwin site improvement project because it's too high and we don't have the money. So moved."

Councilman Kent: "Seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent."

Councilman Kent: "Just a question. Are we amending the specs of the bid also? I think we're changing some of the things that we're going to include."

Councilman Lull: "We'll be doing that also and looking for more grant money, too."

Councilman Kent: "Right. I vote yes."

The Vote (Cont'd.): "Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #653

Councilman Densieski: "Approves application of Word of Life Ministries (church related street fair). So moved."

Councilman Lull: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski."

Councilman Densieski: "That will be held on August 26th. Yes."

The Vote (Cont'd.): "Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #654

Councilman Lull: "654 amends Resolution 387 of this year which approved the application of the Riverhead Business Improvement District Management Association - for the Riverhead Blues Festival. Specifically this resolution allows for the closing of Peconic Avenue during certain times of the Blues Festival. Basically it's Friday evening, Saturday afternoon and evening and Sunday afternoon because the stage is set close to the Avenue- to Peconic Avenue and there will be a great deal of foot traffic because there will also be some projects going on in Grangible Park and foot traffic back and forth between the parking fields and Grangible Park. It is, therefore, recommended for safety that we close the street for those time periods. The Police Chief has assured me that the same as with the Country Fair, that all the south side emergency services have been contacted or will be contacted so they may plan alternate routes. So

moved."

Councilman Kent: "Second what he said."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski."

Councilman Densieski: "I hope everybody gets to go. It's a great event. I'll be there. I vote yes."

The Vote (Cont'd.): "Cardinale."

Councilman Cardinale: "I'm going to vote yes. It also strikes me that this is going to begin right after this meeting is shown on TV and I cannot think of a better way to get ready for a Blues Festival if you watch this meeting, so finish about 8, 9, 10:00, go right out because they're open until 11:30 Friday. Yes. I vote yes."

The Vote (Cont'd.): "Kent, yes; Lull, yes; Kozakiewicz, yes.
The resolution is adopted."

Resolution #655

Councilman Cardinale: "This authorizes the Town of Riverhead to remove rubbish, debris and the cutting of grass and weeds from property pursuant to Chapter 96 entitled Trash, Rubbish and Refuse Disposal of the Riverhead Town Code at 39 Patti Lane, Riverhead, New York. So moved."

Councilman Densieski: "Second the motion."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #656

Councilman Kent: "This is a budget adjustment for Highway Department from appropriated fund balance to garbage expense, \$8,000. So moved."

Councilman Cardinale: "Seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski."

Councilman Densieski: "Discussion."

Councilman Cardinale: "Yes, I have the same question Ed's about to ask."

Councilman Kent: "Me, too. I think I wrote it down, too. Discussion. Jack just stepped out, just when we need him. The way it always happens. Well, go ahead, what's the question?"

Councilman Densieski: "I don't know what it is; I'm just curious. I tried to get a hold of Mark and I wasn't able to get (inaudible)."

Councilman Kent: "Yeah, I was wondering if this is for those roll-offs for the yard waste."

Councilman Cardinale: "Oh, okay."

Councilman Kent: "(inaudible) the price, but Jim thinks it is not much."

Councilman Lull: "Maybe it's for demolition."

Barbara Grattan: "Jack's gone?"

Councilman Cardinale: "My concern is that it's coming out of appropriated fund balance which means I assume a savings- "

Supervisor Kozakiewicz: "It's out of the Highway Department though."

Councilman Kent: "Yes, but it's right in the Highway- "

Supervisor Kozakiewicz: "It's out of the Highway Department funds."

Councilman Kent: "-- account, subnumber 111."

Councilman Cardinale: "Yeah, it's in the Highway."

Supervisor Kozakiewicz: "It's not coming out of general funds. It's coming out of Highway funds."

Councilman Cardinale: "Well, anybody know what it's for? Any time constraint? Maybe we can ask- maybe if Mark were here we could ask him."

Supervisor Kozakiewicz: "I'm sure there is a time constraint."

Councilman Cardinale: "(Inaudible) go ahead and do it and ask us to ratify it."

Supervisor Kozakiewicz: "I'm sure it's already been an expense and that's the reason why we need to do a budget adjustment. I wish I knew off the top of my head what it was for."

Councilman Kent: "It's not anticipation of expenses for the yard waste collection at the Highway yard?"

Supervisor Kozakiewicz: "No. No, I don't believe that is it."

Councilman Cardinale: "For those of you who do not have this particular resolution, it asks that \$8,000 be moved from surplus garbage expense without further explanation. But we're not sure if garbage is an adjective explaining the expense or if it's really garbage."

Supervisor Kozakiewicz: "If there's any further discussion- "

Councilman Densieski: "I make a motion to table just because we're unclear of what it is."

Councilman Cardinale: "Second."

Supervisor Kozakiewicz: "Moved and seconded to table. Vote?"

The Vote: "Densieski, yes, to table; Cardinale, yes, to table; Kent, yes; Lull, no."

Barbara Grattan: "No not to table."

The Vote (Cont'd.): "Kozakiewicz, yes. That resolution is tabled."

Resolution #657

Councilman Lull: "657 ratifies the extension of the military leave. Police Officer Antonio Bassi is on military leave, unpaid military leave, that's going to be extended for another period of time. So moved."

Councilman Densieski: "Second the motion."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski."

Councilman Densieski: "Officer Bassi was injured and he needs a little more recuperation time, so I'm going to vote yes. I hope he gets better."

The Vote (Cont'd.): "Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #660

Councilman Kent: "660 ratifies the appointment of Thomas F. Saladino as a part time police officer to the police department. So moved."

Councilman Cardinale: "Seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull."

Councilman Lull: "Tom's done a very good job as a security officer at the high school, good addition. Yes."

The Vote (Cont'd.): "Kozakiewicz, yes. The resolution is adopted."

Resolution #661

Councilman Densieski: "Appoints engineering architect. What this does is take Martin F. Sendlewski and add him to the list of consultants. So moved."

Councilman Lull: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #662

Councilman Kent: "Appoints Stacy Bugdin as a fill in lifeguard to the Riverhead Recreation Department. So moved."

Councilman Cardinale: "Seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #663

Councilman Lull: "Appoints Julie Imwalle as a fill in lifeguard to the Riverhead Recreation Department. So moved."

Councilman Cardinale: "Seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #664

Councilman Kent: "Appoints G.J. Mittleman as a fill in scorekeeper to the Riverhead Recreation Department. So moved."

Councilman Densieski: "Second the motion."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #665

Councilman Densieski: "Appoints a fill in beach attendant to the Riverhead Recreation Department, G.J. Mittleman. So moved."

Councilman Lull: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #666

Councilman Kent: "Appoints Rachael Vaccaro as a summer recreation aide to the Riverhead Recreation Department. So moved."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski."

Supervisor Kozakiewicz: "It needs to be a second. I jumped the gun there."

Barbara Grattan: "Sorry. And I followed suit."

Supervisor Kozakiewicz: "Yes."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #667

Councilman Cardinale: "Amends Resolution 592 to clarify the limitation of 2700 on expenses associated with two conference attendants. So moved."

Councilman Kent: "Seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #668

Councilman Densieski: "Authorizes the Town Clerk to publish and post a public notice for a proposed local law to amend Chapter 101 of the Riverhead Town Code. So moved."

Councilman Kent: "Seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #669

Councilman Lull: "Authorizes the Town Clerk to publish and post public notice to consider a local law to amend Chapter 108 entitled Zoning of the Riverhead Town Code Business F District. So moved."

Supervisor Kozakiewicz: "Is there a second?"

Councilman Cardinale: "Seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #670

Councilman Kent: "670- Jack isn't here, that's right. I wanted to ask about how this relates to 676, are they the same?"

Supervisor Kozakiewicz: "They are the same."

Councilman Kent: "They are the same, right."

Supervisor Kozakiewicz: "And 676 should be withdrawn."

Councilman Kent: "Okay. So I move this- "

Supervisor Kozakiewicz: "Apparently Dick Ehlers did one and then the town- I think maybe the town attorney's office did the other at the same time."

Councilman Kent: "Yeah, I thought they looked very similar."

Okay, so I was paying attention. So, 670 is an order calling public hearing for the purchase of a sewer television inspection system for the Riverhead Sewer District and if you've been complaining about what you see on TV, you'll really be complaining if you watch this. So moved."

Councilman Cardinale: "Seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski."

Councilman Densieski: "It's over \$34,000 so I called the Scavenger Waste Superintendent and he said just by renting this equipment twice will have paid for it plus for future use so it's going to be a savings to the taxpayers in the long run, so I'll vote yes."

The Vote (Cont'd.): "Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #671

Councilman Densieski: "Authorizes the Town Clerk to publish and post public notice for a local law to consider an amendment to Chapter 108 entitled Zoning of the Riverhead Town Code. So moved."

Councilman Cardinale: "Seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #672

Councilman Lull: "Authorizes the Town Clerk to publish and post notice of public hearing William Rule (Blue Meadow Farm Bed and Breakfast). So moved."

Councilman Densieski: "Second the motion."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski."

Councilman Densieski: "More bed and breakfast, you bet. Yes."

The Vote (Cont'd.): "Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted.

Resolution #673

Councilman Cardinale: "673 authorizes the Town Clerk to publish and post notice of public hearing CSC Acquisition Corporation. So moved."

Councilman Kent: "Seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski."

Councilman Densieski: "That's Cablevision. I vote yes."

The Vote (Cont'd.): "Cardinale."

Councilman Cardinale: "It's Cablevision, I'm here to vote no. I'm going to vote yes anyway."

The Vote (Cont'd.): "Kent, yes."

Councilman Kent: "Yeah, what they're looking to do is do some repairs to that building on the south side of Route 58."

Supervisor Kozakiewicz: "Correct."

Councilman Kent: "Make it look a little better, I hope. And I think they're going to expand the use- they're going to make it a little bigger, too."

Supervisor Kozakiewicz: "Right."

Councilman Kent: "Right now I think it's an insurance agency or something. They're going to actually go back to a telecommunications use there. I vote yes."

The Vote (Cont'd.): "Lull, yes; Kozakiewicz, yes. The

resolution is adopted."

Resolution #674

Councilman Kent: "This authorizes the Town Clerk to publish and post public notice to consider the acceptance of a donation of waterfront property of John and Frances Divello along Dolphin Way. The very end of Dolphin Way right on the Sound. This was discussed and approved at the Farmland Select Committee which is also our Open Space Committee and it's a small half-acre parcel which somehow was created as part of the subdivision map when that was first applied for back a number of years ago when Dolphin Way was developed and it's going to be donated to the town. So I move the resolution."

Councilman Lull: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #675

Councilman Lull: "Authorizes the Town Clerk to publish and post public notice in connection with Individualized Residential Alternative for the developmentally disabled (Group Home Living). In other words a public hearing on August 1st at 7:15 on a proposed group home. So moved."

Councilman Densieski: "Second the motion."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski."

Councilman Densieski: "Like Jim says, this is a group home; it's going to be a public hearing, if anybody has- yes, second the motion."

Barbara Grattan: "You're voting yes on this."

Supervisor Kozakiewicz: "Vote, vote, we're on the vote."

The Vote (Cont'd.): "Cardinale, yes; Kent, yes."

Councilman Kent: "I have represented ADD in the past, so I'm going to abstain from this vote even though it's just calling for a public hearing. But I wanted to- I'll abstain."

The Vote (Cont'd.): "Lull, yes; Kozakiewicz."

Supervisor Kozakiewicz: "Just for those who are watching if they're still up at this point in time when the program, the location of the residence is 25 Patti Lane and as pointed out there will be a hearing on August 1st at 7:15. Yes."

Barbara Grattan: "The resolution is adopted.

676 was withdrawn?"

Councilman Lull: "Yes."

Supervisor Kozakiewicz: "676 should be withdrawn."

Resolution #677

Councilman Densieski: "Approves application of East End Arts Council Inc. for their Blues Concert. So moved."

Councilman Lull: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski."

Councilman Densieski: "It will be on Saturday, July 22nd. I vote yes."

The Vote (Cont'd.): "Cardinale."

Councilman Cardinale: "Palmer Vineyards, 6:30 to 8:30. Go right out there, ten bucks. Yes."

The Vote (Cont'd.): "Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #678

Councilman Densieski: "Amends resolution #637 of the year 2000."

So moved."

Councilman Lull: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent."

Councilman Kent: "Wait a second. On 677, I'm sorry. I should have abstained. Can you make by vote an abstention?"

Supervisor Kozakiewicz: "On which one?"

Councilman Kent: "677. We already- "

Barbara Grattan: "For the Blues?"

Councilman Kent: "Yes, because I'm on the Board of Directors of East End Arts Council. I can't vote on this."

Barbara Grattan: "Well, we already voted."

Councilman Densieski: "That's a conflict?"

Supervisor Kozakiewicz: "I don't think- "

Councilman Cardinale: (Inaudible)

Councilman Kent: "I'm going to abstain. I'd like to change my vote to an abstention. You don't need my vote anyway."

Barbara Grattan: "Abstain. The resolution is adopted.
Where are we?"

Supervisor Kozakiewicz: "We're on 678. And the vote was for-
no, I don't think- Chris didn't vote yet."

Councilman Kent: "I'm going to vote yes on amended Resolution
637."

Supervisor Kozakiewicz: "He didn't vote on 678 yet."

Barbara Grattan: "So now you're voting yes on- "

Supervisor Kozakiewicz: "On 678."

Councilman Kent: "I think I will this time, yes."

The Vote (Cont'd.): "Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #679

Councilman Densieski: "Approves application of Vicki Staciwo for the Arts District. So moved."

Councilman Kent: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #680

Barbara Grattan: "Does somebody want to pay bills, 680?"

Councilman Kent: "I'll pay bills."

Councilman Cardinale: "Seconded."

Barbara Grattan: "Cardinale, wow."

Councilman Kent: "Your bills are smaller than mine this time. So moved."

Supervisor Kozakiewicz: "Moved and seconded to pay bills."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. Bills are paid."

Barbara Grattan: "Now we've got the tabled."

Supervisor Kozakiewicz: "We have a tabled resolution. Resolution 591."

Councilman Lull: "Move to bring 591 off the table."

Councilman Kent: "Seconded."

Councilman Densieski: "Second."

Supervisor Kozakiewicz: "Moved and seconded to take it off the table."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes."

Councilman Lull: "Now I'll move the resolution."

Councilman Kent: "Seconded. This is awarding the bid for sports equipment. Second."

Barbara Grattan: "Okay. What are we changing?"

Supervisor Kozakiewicz: "The number 51 chin strap snaps, FELSSXXX- should be \$4.33."

Barbara Grattan: "Okay, \$4.33."

Supervisor Kozakiewicz: "And down to item 81, pro down four point chin strap low buckle- should be \$1.88."

Barbara Grattan: "\$1.88. Kent seconded."

The Vote: "Densieski."

Councilman Densieski: "I did consult the financial wizard here and asked that if there is a typographical error in these resolutions will they be paid-- the proper amounts will be paid even if there's a typographic error. So I vote yes."

The Vote (Cont'd.): "Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes."

Supervisor Kozakiewicz: "In other words, we pay what they bid, not what we approve in the resolution."

Councilman Lull: "Bob, I have to bring up something, sorry. We passed Resolution 668 which authorized public notice for consideration of an amendment to Chapter 101. As we were going through, Chris pointed out to me it looked awful similar to the one we had tonight."

Councilman Cardinale: "It is."

Councilman Lull: "We've already had that public hearing."

Barbara Grattan: "Yeah, I thought- "

Councilman Kent: "I said it; I even asked Jim."

Councilman Densieski: "Which one?"

Councilman Lull: "That's my fault."

Councilman Cardinale: "Is that the one on the recreation fees or no?"

Councilman Kent: "No, no. This is on the river front signage."

Barbara Grattan: "What resolution, 688?"

Councilman Lull: "68."

Supervisor Kozakiewicz: "Wow, this is not a good day. All right. 668?"

Councilman Lull: "Yeah, so I move we just simply withdraw 668."

Councilman Densieski: "Second the motion."

Supervisor Kozakiewicz: "Back to 668. Are you there, Barbara?"

Barbara Grattan: "Yes. And Lull and Densieski withdrawing it."

Councilman Kent: "Motion to withdraw."

Barbara Grattan: "Okay. Are we going to vote on that?"

The Vote: "Densieski, yes; Cardinale."

Councilman Kent: "This is the one with the river front parking, the signs, making one-way street."

Supervisor Kozakiewicz: "Yes. The one I labored over trying to explain."

Councilman Cardinale: "Yes, withdraw that."

Councilman Lull: "There was supposed to be another one tonight and it isn't there, so."

The Vote (Cont'd.): "Kent, yes, to withdraw; Lull, yes; Kozakiewicz, yes. Withdrawn."

Supervisor Kozakiewicz: "Any other motions?"

Councilman Kent: "Move to adjourn."
Meeting adjourned: 10:15 p.m.

Barbara Hutton
Town Clerk
