

Minutes of a Town Board Meeting held by the Town Board of the Town of Riverhead at Town Hall, 200 Howell Avenue, Riverhead, New York, on Wednesday, November 7, 2001, at 2:00 p.m.

Present:

Robert Kozakiewicz,	Supervisor
Edward Densieski,	Councilman
James Lull,	Councilman
Christopher Kent,	Councilman
Philip Cardinale,	Councilman

Also Present:

Barbara Grattan,	Town Clerk
Dawn Thomas, Esq.,	Town Attorney

Supervisor Kozakiewicz called the meeting to order at 2:06.

Supervisor Kozakiewicz: "Let the record reflect that the time of 2:06 p.m. has arrived. I'd like to call this public- the Town Board meeting to order and I see people already up. Steve, would you want to come up and lead us with the Pledge?"

(The Pledge of Allegiance was recited, led by Steve Haizlip)

Supervisor Kozakiewicz: "Thank you. Is there a motion to approve the Town Board meeting of October 16, 2001, as well as the Special Board meetings of the 9th, 11th, and 25th?"

Councilman Lull: "So moved."

Supervisor Kozakiewicz: "Moved by Councilman Lull. Is there a second?"

Councilman Cardinale: "Seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The minutes are approved."

Supervisor Kozakiewicz: "Reports, please."

REPORTS:

Sewer Department	The discharge monitoring report for September
Town Clerk	The monthly report for October which was total collected \$14,150.88
Building Department	The monthly report for October total collected was \$55,623.46
Police Department	Monthly report for September
Receiver of Taxes	Monthly report for October total collected \$397,095.02
Recreation Department	Monthly report for September total collected \$22,597.00
Open Bid Report	Milk which was opened on November 1 st at 11:00. Two bids were received

Barbara Grattan: "That concludes Reports."

Supervisor Kozakiewicz: "Thank you, Barbara. Applications?"

APPLICATIONS

Shows & Exhibition Permit	Hugo Ross which was on October 25 th to November 4 th , a retail garment sale
Site Plan	Amended Kaufman Allied facade alteration
Site Plan	Aircraft Warehousing, Inc. exterior alterations

Barbara Grattan: "That concludes Applications."

Supervisor Kozakiewicz: "We're going to jump to correspondence."

CORRESPONDENCE:

Long Island Farm Bureau Was regarding proposed 12
month moratorium

Michele Pincus Proposed moratorium

Barbara Grattan: "That concludes Correspondence."

Supervisor Kozakiewicz: "Thank you, Barbara. Are there any
committee reports?"

Councilman Densieski: "Yes, from the Handicapped Committee.
I'd just like to thank the committee members because as of today the
handicapped door, the push button doors are going to be installed in
Riverhead Town Hall on the restrooms so handicapped people can
actually use the restrooms."

Supervisor Kozakiewicz: "Thank you. Any other committee
reports?"

I do have an announcement. I'd like to notify all Riverhead
residents that the Riverhead Highway Department will, once again, be
doing their leaf pickup. This is going to be the only pickup. It's
only to be in each of the areas once, and I stress that, only once.
The notice provides that you should have your leaves at curbside by
7:00 a.m. on Monday of the week that your area has been scheduled to
be picked up. And those weeks are as follows: November 6th- I mean,
November 26th, Laurel, Jamesport and Aquebogue. That's all roads
between the Southold town line, west to County Road 105.

December 3rd, Riverhead, Roanoke, Baiting Hollow and Calverton.
That's all roads between County Road 105 and then proceeding west to
Edwards Avenue and then on the week of December 10th, Wading River and
Manorville. That's all roads between Edwards Avenue and the
Brookhaven town line.

Please remember, no bagged leaves will be picked up. No brush or
branches will be picked up. Just leaves. Thank you.

Public Hearing opened: 2:10 p.m.

Supervisor Kozakiewicz: "And, with that, the time of 7:10 p.m.
having arrived, Barbara, would you read the affidavit of the first
meeting, affidavit of publishing and posting? 2:10, 2:10, 2:10. I

know I want to be out of here by seven."

Councilman Kent: "Don't count on it."

Barbara Grattan: "I have affidavits of publishing and posting for a public hearing to be held at Riverhead Town Hall, Riverhead, New York, on November 7, 2001, at 2:05 p.m. regarding the development of the Town of Riverhead's Community Development Block Grant application for fiscal Year 2002."

Supervisor Kozakiewicz: "Thank you. Andrea?"

Andrea Lohneiss: "Andrea Lohneiss, Community Development Director. Is it on?"

Councilman Kent: "You've just got to speak into it."

Supervisor Kozakiewicz: "Maybe you've got to- "

Andrea Lohneiss: "The Town of Riverhead is the recipient of annual grant funds from the federal government for the Community Development Block Grant program, approximately \$175,000 a year. The Town Board determines each year how to best distribute these funds to achieve maximum benefit to the constituents of the Town.

This public hearing is for the purpose of soliciting public comments from the public regarding the use of these funds. Eligible projects must provide benefits to low and moderate income persons or eliminate slums and blight in the community. They may support public services, public facilities, historic preservation, housing rehabilitation or infrastructure improvements.

Based on the request made, the Town Board will evaluate all proposals and determine which will provide the greatest benefit to the Town of Riverhead and its constituents."

Supervisor Kozakiewicz: "Thank you. Anybody who wishes to address the Board at this time? Ms. Newcomb."

Dee Dee Newcomb: "Good afternoon. I'm Dee Dee Newcomb and I'm here representing the volunteers and clients that receive services at the Bread and More Inn Soup Kitchen (phonetic). Once again, we acknowledge and thank you for the current grant of \$3,500 and request that we continue to receive the same for the year 2002, if not more.

We are a small group of volunteers with no paid staff who serve two full dinners a week to the community, that is, to anyone who stops in to the First Congregational Church on Main Street on Monday and Wednesdays, 5:30 to 6:30. We are still serving an average of 138 meals a night. We continue to be a vehicle for the community service programs for the county, for the courts, for local churches and school commitments. We appreciate any and all support you can afford us gratefully. Thank you."

Supervisor Kozakiewicz: "Thank you. Anybody else who would like to address the Board? Someone else is stepping up from the back. We don't want to see a fight."

Maxine Jurow: "No. No. Women don't fight that way. They just let each other go. I'm Maxine Jurow, I'm Executive Director of Literacy Volunteers and I want to congratulate those of you who won the election last night and to tell you that we're really pleased that you're here for us."

Councilman Kent: (Inaudible)

Maxine Jurow: "Literacy Volunteers of America, Suffolk County, is part of a national organization- well, those of you, well, I know, I'm sorry."

Councilman Kent: "That's okay. I don't take it personally."

Maxine Jurow: "I'm sorry. We have been serving the community since 1988 at the Riverhead Free Library. This past year, we served 185 students, adult students, to learn to read and write or speak English with 125 trained literacy volunteers. We still have waiting lists of 123 students that are waiting to be served."

What we're asking for is a continuation of the funding that you have given us in the past couple of years so that we can continue to grow the organization in Riverhead. This past year, we added a workplace project at the Produce Warehouse where 10 employees are being tutored in English by two volunteers. We also are part of the Family Service League B project where six moms are being taught English where their children are being read to in English.

So we're expanding. We hope that we can continue to meet the needs of the Town of Riverhead. Funding comes from the State Education Department, from Salmon Smith Barney (phonetic) this year who gave us some money so we can have some evening hours at the

library and we have somebody working two nights a week so that, again, we can serve our constituents better.

And, again, we appreciate your listening to us and, hopefully, to continue the funding that we've had before. Thank you so much."

Supervisor Kozakiewicz: "Thank you. Yes, next."

Mardyth DiPierro: "Good afternoon. My name is Mardyth DiPierro (phonetic) and I'm here representing the Dominican Sisters Family Health Service. They have served Riverhead and Southampton since 1961, providing health care services. They are licensed for Medicare and Medicaid and just about every health insurance program, but as you are well aware, there are many people who do not have health insurance or who are under insured for the needs that they have.

And, in addition, there are services that do not exist and one of our commitments is to reach out and to fill gaps in service and so in order to do this, we created our own version of the ISIP Program (phonetic). ISIP is an in home program for the elderly. You must be 60 or more. We found that many people were not served by that program including the chronically ill and disabled who were under the age of 60.

So we created Helping Hands and we added to that interfaith volunteer services and in your packet I've put the numbers and Riverhead is outlined so that you can see the number of people that have been served and the thousands of hours. I really hesitate to think what health care would be like on the east end if we did not have these volunteers picking up people, spending thousands of hours getting them to and from their medical services and doctor's appointments.

This past year-- since January, we've served 17 unduplicated Riverhead clients. We are serving nine at this time, but we have a waiting list of 10 more in Riverhead who qualify for services and need them badly.

In addition, we have 38 north fork Interfaith volunteers. Happily, many of our Southold volunteers help out with Riverhead people as well. One hundred and two Riverhead residents are dependent upon this program for their medical transportation. We have a wonderful program that is a training program for young people in the developmentally disabled institute and East End Disabilities who run errands and do shopping lists and make change. It's a training

program for them and yet they serve people who are unable to get to the store and run errands.

We have here proposed the actual budget that we need for Riverhead this coming year. As you can see, there's a considerable shortfall. We had that shortfall last year, too. On your left is the annual report and if you look up the financial report of these special programs, you'll see that our deficit last year for Helping Hands and the Interfaith volunteers for the east end was \$60,930. We won't be able to continue these services long unless we find additional sources for funding.

So while we would welcome your continuing to help us with Community Development funds, we also ask that you help us to find ways to raise the funds so that we can truly meet the needs of all those who really require our services in Riverhead. Thank you."

Supervisor Kozakiewicz: "Thank you. Yes."

Louise Stalzer: "Hi. I'm Louise Stalzer from Peconic Community Council and this is Christina Lewis from the Town of Southampton. We're here today to ask for money from the Community Development funds for our shelters in the Town of Riverhead in the amount of \$24,000. This would be approximately \$12,000 each and we're proposing it by Central Suffolk Hospital, in that vicinity of Central Suffolk Hospital. It would serve the 92 and the 8A.

The Peconic Community Council, just to give you just a very brief background, has been advocating to improve public transportation on the east end for the last three years. We recently advocated and got two hourly gaps in the 92 filled in. We sit on many different planning studies, plans, the Southampton Task Force (inaudible). We did attend the Riverhead Comprehensive Plan, the one meeting they had on transportation and we welcome the opportunity to, when you have some more of those to be involved. So we care very much what happens in the town of Riverhead. It's an integral link to everything we're trying to do.

I asked Christina to bring the model today. We've been working with East Hampton and Southampton, particularly Southampton town over the past year identifying sites."

Christina: "Can I bring it up so you guys can see?"

Councilman Kent: "Sure."

Supervisor Kozakiewicz: "Sure."

Louise Stalzer: "Christina has developed this model and has developed the specifications on it. The County likes the model and would like to see it as the Hampton Shelter, a uniform Shelter throughout the east end. It's- Christina is going to explain it, so I'll let her do all the technical.

And, again, that money would come out of public works, not out of human services pot of money. So- "

Christina: "So, what we attempted to do is to develop a bus shelter which could be built modularly so, therefore, have replacement parts and also be aesthetically pleasing for folks to wait for buses in. And we're- we just went out to bid on this in Southampton town and basically what we're using is a prefabricated metal shelter which is then wood clad. Also, the glass- well, the glass is actually glass and then it has kind of a steel (inaudible) which makes it look like a divided- divided like piece of glass. But in actuality they are all in very small units. So say, for example, one got broken or vandalized, it could be popped out fairly easily and replaced. So we're kind of into- looking at it as something that could be easily maintained and kept really nicely at all times because you notice the ones that are the plexiglass shelters, after about a year they become very, shall we say cloudy, and scratched.

So the other thing that we're proposing to do is to use a solar collector in the roof to run our flourescent light on the inside so, therefore, they could be in remoter locations and we don't have to bring power into them.

And, any questions?"

Supervisor Kozakiewicz: "Yeah. I think you said there would be two proposed at \$12,000 each and you said Central Suffolk Hospital- both would be at Central Suffolk Hospital?"

Louise Stalzer: "In that- yeah, yes."

Supervisor Kozakiewicz: "Okay, so on 58 or-"

Louise Stalzer: "So that we get both ways."

Supervisor Kozakiewicz: "Okay."

Louise Stalzer: "That's a site that is- that qualifies for Community Development funds. We would hope to see that the Town of Riverhead has a few more besides. What we're doing in the Town of Southampton is working with businesses, encouraging them also to support shelters."

And I just wanted to show you what we've done in the Southampton town in terms of identifying sites and they used their GIS (phonetic) system to map it out. The shelter you see here is East Hampton which has one but we're recommending this shelter. (Inaudible) we've identified the sites talking to the providers of transportation and meeting with local community groups. We serve that roll and ensuring that the community is ready and wants them. And we have had 100% support from the community, they welcome them."

Supervisor Kozakiewicz: "Just for the viewers out in the audience, if you would just turn that around and show them what you've done over in Southampton as well."

Councilman Kent: "Yeah, they're proposing these all over the place."

Supervisor Kozakiewicz: "Right."

Louise Stalzer: "They're in 25 locations."

Councilman Kent: "I know. It's incredible."

Supervisor Kozakiewicz: "Okay. Very good. Any questions from the Board?"

Councilman Kent: "How large are the shelters themselves, do you know?"

Christina: "They're 16 feet long by six feet wide and in areas of heavy use, we figured we'd just double them."

Councilman Kent: "Okay. And what type of maintenance are you anticipating once they're erected at a location? Is it going to require annual maintenance? What are you projecting? Do you know? I'm sorry, could you go back to- "

Supervisor Kozakiewicz: "Yes, I was going to suggest so we make sure we have everything on the record."

Christina: "We're wood cladding and I'd be a fool to think that wood doesn't need some maintenance, so, yes, it will need some maintenance. It's not going to be painted. We're going to use either a cedar or a mahogany that would just sort of weather out."

Councilman Kent: "And are you suggesting the town would be the responsible party to maintain them after- "

Christina: "Yes."

Councilman Kent: "Okay."

Supervisor Kozakiewicz: "Thank you."

Louise Stalzer: "Thank you."

Supervisor Kozakiewicz: "Felecia."

Felecia Scocozza: "My name is Felecia Scocozza. I'm from Riverhead Community Awareness Program. Good afternoon, Mr. Kozakiewicz, and members of the Riverhead Town Board. The Riverhead Community Awareness Program would like to thank you for your support in the past few years and especially this past year and is requesting Community Development funds in the amount of \$10,000 for the year 2002 from the Town of Riverhead Community Development Agency to help support our drug prevention and education services for students in Riverhead schools.

CAP is the major provider of prevention programs for the Town of Riverhead and the Riverhead Central School District. This past year we have served 1,964 students which represents a 9% increase over the past year but it also represents a 106% increase over the past five years.

A minimum of 60% of the students served by all CAP's programs are from low to moderate income households. In the past, about 95% of the students who have received services provided by the Community Development Agency have been from low to moderate income households. This year we are asking for an increase in funds due to a growing number of clients that we serve. Thank you."

Supervisor Kozakiewicz: "Thank you. Anybody else who would like to address- yes, Gwen."

Gwen Branch: "I'm Gwen Branch. I'm the Clinical Director of

Alternatives Counseling Center here in Riverhead. Alternatives is a licensed non-profit agency which has served the town of Riverhead for the past 24 years. We offer a comprehensive approach to substance abuse issues as well as providing educational workshops and community consultations.

Since its establishment in Riverhead, Alternatives has been an active participant in addressing the numerous human service needs of the community through its own resources and in cooperation with other community groups. During the past five years, Alternatives has been seen a steady increase in the number of male clients 19 to 43 years old with substance abuse problems, a history of involvement with the justice systems and poor work histories who foster ongoing negative role models for their children and community.

Once these individuals have become clients at our agency, they're expected to remain sober, attend weekly sessions, work toward attaining at least a GED, improve work skills, find employment, work on issues of emotional inappropriateness, and marital and family problems. Non-compliance agency rules, two consecutive no shows and/or erratic attendance can cause a client to be- terminate from the program. Client fees are based on a sliding scale thus providing an affordable fee for each client.

Through a structured program which includes weekly individual and group sessions, we have noted increased success in working with these individuals over the past year. They are remaining in counseling, testing negative for use of drugs, alcohol or other illicit drugs, seeking positive supports, working, beginning to provide financial support for their families and staying out of trouble. This success benefits the community through a decrease in crime, a safe community, increased family support, healthier individuals and increased economic base.

Since January, 2001, we have had waiting lists as much as 45 individuals and that averages out about 35 clients a month. We're requesting \$10,000 to supplement a part time counsel position to assist in decreasing our waiting list and to assist these individuals in seeking positive alternatives to their full potential.

We are appreciative of the past support that the Town Board has seen to give us and we're hoping that you will continue that support in the coming year. Thank you."

Councilman Kent: "Thank you."

Supervisor Kozakiewicz: "Thank you. Anybody else who would like to address the Board? Yes."

Robyn Berger Gaston: "I'm Robyn Berger Gaston from the Family Service League, Riverhead Family Center. The Riverhead Family Center is unique to the Town of Riverhead as it uses a one stop shopping model to provide comprehensive human services offering a full range of programs. Both direct and preventative services are available.

Direct services include case management, mental health counseling, drug and alcohol counseling, parenting education, vocational rehabilitation, parent child groups, after school homework help, and the early literacy program referred to earlier as Project B.

Preventative programs emphasize family centered activities that are geared toward building family relationships and enhancement of individual strengths. Through workshops, role play, play therapy, and the availability of information and referrals, individuals begin to recognize their own talents and abilities. While participants in family center activities are improving their personal and interpersonal skills, they do not report feeling the same stigma that others do in more formal settings.

Families struggling with financial stress who are having trouble coping often work directly with our family case manager and therapist. Children in these families may suffer from bed wetting, nightmares, sibling rivalry, abuse, attention deficit problems, homelessness and low literacy. By using an individual family treatment plan, both personal and family unit goals can be addressed.

To date, funds from the Town of Riverhead have enabled Family Service League to provide as many as 15 parents per week with parenting education. While the parents are in their educational classes, the children are participating in the recreation program where they are also learning the communication, impulse control and problem solving skills that their parents are.

Funds from the Town of Riverhead have also enabled our staff to provide eight youngsters with a camp like experience. This summer eight children received a creative arts program and met twice a week which demonstrated the value of natural resources as well as their own artistic talent. As many as 20 children each week participate in our story hour homework help program. This service not only promotes literacy but also provides children with an opportunity to have support and assistance while doing their homework.

We have been fortunate to have both local business people and local politicians read to the children as part of our celebrity story hour. Continued funds from the Town of Riverhead will permit us to continue to meet the needs of families and children in our community in this unique and effective manner.

In recent months, a number of community members have asked if they could volunteer at the Riverhead Family Center. This indicates an acceptance from the community of the Family Center model and also the sense of community that the Riverhead Family Center has inspired. Additional funds will help us to meet the growing need for supportive and professional Family Center services. As our society faces new challenges, our families are confronted with more and more demands. In keeping up with these new challenges and demands, the range of our services must grow to meet these needs in addition to the growing numbers of those in need. Thank you."

Supervisor Kozakiewicz: "Thank you. Is there anybody else who would like to address the Board as far as 2002 Community Development funds, Block Grant funds? Not seeing anybody move, Andrea, is this one we want to leave open for written comment until the end of the week?"

Andrea Lohneiss: "Right."

Supervisor Kozakiewicz: "Okay. We'll- while the public comment period is closed for today, we'll leave it open for written comment until the end of the week, Friday, close of business. Thank you. The time being 2:32, close the public hearing."

Public Hearing closed: 2:32 p.m.

Public Hearing opened: 2:32 p.m.

Supervisor Kozakiewicz: "The time being 2:32, open the next public hearing."

Barbara Grattan: "I have affidavits of publishing and posting for a public hearing to be held at Riverhead Town Hall, Riverhead, New York, on November 7, 2001, at 2:10 p.m. regarding the change of zone petition of Reliance Leasing, Inc. to provide for the Industrial B Zoning Use District to the exclusion of the prevalent Agriculture A Zoning Use District upon property located at Young's Avenue."

Supervisor Kozakiewicz: "Okay. Do not. Okay."

Steven Angel: "For the applicant, Steven Angel, Esseks, Hefter and Angel. Do you have- Mrs. Grattan, do you have the- an affidavit of posting on that?"

Barbara Grattan: "Yes."

Steven Angel: "It was delivered already?"

Barbara Grattan: "It was delivered. It's in my office."

Steven Angel: "Okay. Because I have an extra copy of it. And as you know, there's a second public hearing on essentially the same issue that follows this. I don't know if we'll be able to separate the comments. Would it be possible to open up both of them?"

Supervisor Kozakiewicz: "Well, it's going to be- the question I was going to ask the Board while you're up there, if there's any objection- "

Councilman Kent: "I think it's easier that way."

Supervisor Kozakiewicz: "-- to noticing the second one and reading that as well.

Just for the record, we did receive a letter from Mr. Anthony B. Tohill with respect to a late submission concerning a memorandum-technical memorandum. I'm not sure if you have a copy of that, Mr. Angel. And he has asked us to consider two alternatives: rejecting the material or alternatively asking that the public be given 30 days to address that new material. But, that's something we'll take up after we put this second- have Barbara read the affidavit of publishing and posting. Let the time reflect that it's now 2:34 p.m.

Public Hearing also opened: 2:34 p.m.

Barbara Grattan: "I have affidavits of publishing and posting for a public hearing to be held at Riverhead Town Hall, Riverhead, New York on November 7, 2001, at 2:15 p.m. regarding the special permit petition of Reliance Leasing, Inc. to allow the construction of a recycling center upon property located at Young's Avenue, Riverhead."

Steven Angel: "Are you going to swear me in, too, because of the provision?"

Supervisor Kozakiewicz: "Yeah, yeah."

Dawn Thomas: "Is that what we're calling it now, the Dunn (phonetic) provision?"

Supervisor Kozakiewicz: "The Dunn (phonetic) provision, yeah."

Dawn Thomas: "Do you swear the testimony you are about to give will be the truth, the whole truth, and nothing but the truth?"

Steven Angel: "I do."

Dawn Thomas: "Thank you."

Steven Angel: "I think that's the first time that's ever happened to me."

Councilman Kent: "You've been (inaudible)."

Steven Angel: "I'm nervous, I'm nervous."

Councilman Kent: "You should be."

Steven Angel: "As I indicated before, my name is Steve Angel. I'm the attorney for the applicant and what we have here are two applications, one for a rezoning from Industrial- from Agricultural A to Industrial B, and the other for a special permit under, I believe, 108-48(B) of your code, (B)(9), to permit a recycling facility on a parcel of land that's about 14 acres in area on Youngs Avenue in Riverhead.

The application was first submitted in May of 2000 and at the time that the application was submitted, it had essentially two components to it. One was to reclaim and recycle C&D debris, that's construction and demolition debris, and the other component was to also recycle or reuse as your town environmental people put it, materials from yard waste excluding grass cuttings. We never intended to recycle or compost grass cuttings on the site. And I will allude to this later on in my brief presentation but the yard waste aspect of the application has been withdrawn and all that's before you is an application to use the site as a place to work on recycling construction and demolition debris, primarily concrete and wood.

Now, the property as you are probably all are aware, is next to an existing facility owned by members of my client's family. Reliance

Leasing is one of their corporations. They generally do- they do business under the name of Crown Sanitation and Crown Sanitation has a recycling and transfer station facility on a two acre parcel on Young's Avenue, right next door, that's permitted by virtue of a resolution of this Board issued in May of 1972 to a predecessor. I think it's May 2, 1972. The zoning was changed to Industrial B and a permit was given to operate this type of facility. I believe your files reflect that zone- resolution of zoning approval.

Now, when we first made application, if you'll give me a second--

Councilman Densieski: "We've got an easel if you want one, Steve."

Councilman Kent: "Yeah, we have, Steve."

Steve Angel: "I have- when we first made application- I'll put it up right now after Ed sets that up, we had a conceptual plan, a colored conceptual plan that showed portions of the property being used for the C&D or construction and demolition debris as well as for the yard waste. Since that time, and we've submitted another conceptual plan that modifies that to show that there is no yard waste, just the C&D debris being sorted and recycled on the property. And I would say- I should point out to you, that the application includes chipping the wood C&D debris into wooden mulch and crushing some concrete C&D debris."

Councilman Kent: "Steve, we're going to get you a couple of those clamps so that you can clamp it right onto the first one, okay? All right?"

Steve Angel: "Now, this had a fairly long history before the Town Board and before various Boards in Riverhead. A SEQRA report, a fairly detailed SEQRA report was done by your Planning Department in September of 2000, and on October 3, 2000, this Board determined that it would be lead agency. It's a type I action. I think that you had looked to see whether any other agencies were interested in being lead agency and nobody indicated that they did and so you took it, without objection. And on that same day, you referred it to the Planning Board for its review and recommendations."

Now, we appeared before the Planning Board, I believe on two or three occasions and at public hearings, and Mrs. Blass is in the audience, she'll recall- "

Councilman Kent: "She's going to speak."

Barbara Grattan: "She just walked out."

Steven Angel: "Oh, okay. And on April 5, 2001, the Planning Board issued a resolution directed to you that-- recommending approval. Now, at that point, in May-- really in April, you scheduled a public hearing that was going to take place on May 1 and at that point, for the first time to our knowledge, and when I say our knowledge I mean the applicant's knowledge, the neighbor, Mr. Warner, Austin Warner who owns a tree farm facility next door, indicated his opposition to the project, primarily or at least the only thing that we had heard, was his fear that the project would result in greater risk to his operation from the possibility of Asian Longhorn Beetle infestation. That's an insect that if it attacks particular types of host trees can have a very substantial economic effect on a nursery man and our understanding of the concern was that he was concerned about us taking-- us being the applicant-- taking stumps and branches where the Asian Longhorn Beetle could have infested the materials and that would put him in greater risk.

Now, he had this fear notwithstanding that across the street at the waste management facility, there already was an existing facility at the time that took in yard waste and I believe was under contract with you to accept yard waste for many years or at least for several years. Well, he operated notwithstanding that being there.

Now, we went-- we asked, after we listened to this concern that Mr. Warner advanced, we asked to adjourn the hearing and we went around and we tried to study the issue to see what we could do about his concerns about the Asian Longhorn Beetle and its potential problem for his operation. We retained consultants and we looked at the regulations, spoke to Ag and Markets and spoke to the DEC and I think even one of my clients, Peter Rosano (phonetic), took the course at the DEC given to people to I guess what perceive or identify Asian Longhorn Beetle and what to do with it. And though we thought we could run a plan that would resolve the problems and take all the yard waste as well as the C&D debris, the client made a business decision and the business decision was to not take the yard waste, exclude that from the process and just limit it to D&D debris, just construction and demolition debris. No stumps, no brush, no leaves, nothing that could come out of a quarantine area that would potentially cause fear in our neighbor's heart.

So that's where we stand now. We come before you with an

application for rezoning for that limited purpose, the limited purpose to be run a recycling facility to process construction and demolition debris on this 13.99 acre parcel on Young's Avenue and have a special permit to operate that facility.

Now, I'm aware of a letter that you received from Mr. Warner's attorney, Mr. Tohill, today. I got wind of it about an hour and a half ago because a copy was not provided to me other than by my client who found out about it speaking to people at Town Hall. He came down to check or he checked in some fashion. And I know that the Supervisor started out with Mr. Tohill's request for 30 days in which to submit comments because of a technical memorandum that I submitted to the Board on Monday. I would note that I sent a copy of that to Mr. Tohill as well as I advised Mr. Tohill even before the publication that this was happening so he could prepare his comments. I have no objection to that. I'd like the same time period to respond to Mr. Tohill's submissions that I only saw by routing around here.

I would mention- I don't know if you have had an opportunity to look at his documents, but his arguments against- a substantial portion of his arguments against the particular application have broadened in scope from the Asian Longhorn Beetle that was originally mentioned to us and now have an agricultural policy basis. I want you people to know that immediately upon receiving this letter, I checked the tax history of my client's parcel. It is not and I underline not and I'm speaking to you in an Agricultural district, it has not had any agricultural, within the recent past I assume, any agricultural district tax relief. It is a fully taxed parcel. There is no prohibition under the Ag and Markets Law to use it for anything.

If you people were to change the zone to allow a reconstruction of the Empire State Building on the property, the Ag and Markets Law would not stop that. It is- it is a piece of vacant land that's currently zoned Ag A. It's not within a Ag district and it's not part of an existing farm operation. And notwithstanding what it says in Mr. Tohill's letter, your hands are not tied in any way in that respect.

I think what you have before you is a traditional zone change application. You have an applicant who has a use that is consistent in the area because of the existing landfill or the closed landfill and the types of uses that you are quite well aware of in the vicinity, including his existing recycling and transfer station next door. You know as well as I from recent litigation involving the town that in making zoning amendment decisions you can take into

consideration changes in circumstances. I would point out to you your successful defense of that Miller v. Mr. Kozakiewicz case involving the Riverhead Center, last go around last year, where- your zoning justification- the change of the zone to commercial from residential in the Route 58 corridor was approved by court.

I think that our particular circumstance is very similar. This is not an area- a pristine area of the town. It's an area of the town that has been used for solid waste related facilities over the years and it would be consistent for you to do that.

And I think that your view of this application is purely a zoning view. You have the authority to do it and I think that when you look at all facts both presented at this hearing and which will be submitted in the future, I think that you will agree with me that this is an appropriate use for the property.

Now, I should mention to you that I've got a cast of characters here in the audience in case you've got any questions. We have two environmental consultants, Jeff Seaman who prepared the long form environmental assessment form is here and here's more technically capable of dealing with any questions that you may have than I. We have Steve McGinn (phonetic) from Nelson Pope and Voorhees who are also environmental consultants on the project as well as engineers. They prepared the second conceptual site plan that I put before you. And we also have members of the Rosano family, Pete and Frank Rosano, who run the existing operation and are principals in Reliance Leasing, the owner of this particular property, and they would all be pleased to answer any questions that you may have. Thank you."

Councilman Kent: "I have a couple- Steve, I have a couple questions. You said that you did receive Tony Tohill's memorandum or letter or- "

Steve Angel: "I got a copy of it from Pete who picked it up at Town Hall about 11:30 or 12."

Councilman Kent: "I think you addressed quite a few of the concerns he raised in it but I want to go through them- "

Steve Angel: "Okay. Go ahead."

Councilman Kent: "-- one at a time and see maybe if we can't- because you say something different today than I've heard before about the application itself being limited to C&D rather than C&D and the

wood."

Steve Angel: "There's a letter in the file, Chris, that goes back several months from Jeff Seaman who indicated that the application and the EAF was changed. I can- you may not have it in your file."

Councilman Kent: "Okay."

Steve Angel: "It was- "

Councilman Kent: "Does that mean that they are no longer going to be grinding wood or does C&D include the grinding of wood?"

Steve Angel: "It includes the grinding of construction wood debris such as two by fours, things that- clean wood that comes out of construction demolition not yard waste."

Councilman Kent: "Okay. So they took those courses at the DEC about the Asian Longhorn Beetle and that scared them enough to change it to not even have to try to recognize the Asian Longhorn Beetle."

Steve Angel: "Well, that's not true, I don't think. I think- "

Councilman Kent: "Well, for whatever reason- "

Steve Angel: "For whatever reason."

Councilman Angel: "-- that's a rhetorical question."

Steve Angel: "I mean, I'm sworn and I had some of those conversations with the people at the DEC and there are numerous protocols that you can go through and very much limit the risk even in a yard waste situation but the business decision was not to get into all that nicety, but to just go forward with the C&D application which is processed wood."

Councilman Kent: "Okay. Are they still going to be doing- using the coloring agent for the creation of mulch or do you not know?"

Steve Angel: "That's still the intention, to use a coloring agent. And the- "

Councilman Kent: "Because that was something else that was

identified regarding that agent itself being a hazardous and toxic material. It was also noted in our planning report from our- the staff report that we have regarding potential impact upon water resources in the area. Do you have any more information about that coloring agent that might be used for the- "

Steve Agent: "No. Only that when I reviewed the documentation before I came here today, there was an alternate coloring agent that wasn't fully explored and it's reflected I believe in the SEQRA report and I do not have that information. We will have to submit additional information on that."

Councilman Kent: "Okay. And a couple of his other concerns. One was the one that he made that you're not able to site a solid waste management facility upon land in agricultural production. You drew a distinction that this land is not in agricultural production though it is zoned agricultural. Is that what you are stating?"

Steve Angel: "Well, I looked at that one very quickly because that's an easy thing to determine based upon looking at the Ag and Markets Law."

Councilman Kent: "Right."

Steve Angel: "The law provides, as you know, agricultural districts are meant primarily to encourage agriculture by reducing taxes and if you have an agricultural district they have prohibitions on non-agricultural uses. So if your property is placed in an agricultural district to take advantage of the lowering in taxes, you can't, while maintaining that tax relief, put a solid waste management facility in there. You have to maintain it for agricultural purposes.

Now, our property is not in an agricultural district. We do not get tax relief. That prohibition doesn't exist. In fact, if you were to look at the law, it's not even clear that Mr. Warner's property itself is within an ag district. It is merely in one of those eight year programs and I'm not sure- I understand Tony's argument, but in the 30 or 40 minutes that I had to address it, I could not determine whether it would qualify as ag district property under that particular provision, Section 305 of the Ag and Markets Law."

Councilman Kent: "Well, he quotes Section 306(1) of the Ag and Markets Law that property located within any (inaudible) commitment program is treated as such- as if such land were in an agricultural district."

Steve Angel: "It means it's treated for tax purposes. I don't know- I saw that provision."

Councilman Kent: "Right."

Steve Angel: "But I don't know whether it is- "

Councilman Kent: "You don't know if it- "

Steve Angel: "-- it suffers the same prohibitions. But it's an academic issue, Chris, because our property is not in- "

Councilman Kent: "No. I know."

Steve Angel: "-- an agricultural district and as I said in my introductory comments when I didn't get involved in the detail, I think that there is no agricultural related prohibition on the Board's consideration of our application."

Councilman Kent: "Okay."

Steve Angel: "And then if you want to go through his letter. I went through some other stuff."

Councilman Kent: "Well, you already addressed somewhat the risk of the Asian Longhorn Beetle."

Steve Angel: "Yeah, number two was this new case, Town of Lisander v. Haffner (phonetic)."

Councilman Kent: "Right."

Steve Angel: "And I brought you guys a full copy of the case somewhere."

Councilman Kent: "I believe we also- we already have one."

Steve Angel: "Oh, you do? Okay."

Councilman Kent: "Yes."

Steve Angel: "That case is just not in point. That deals with, if you read the case- "

Councilman Kent: "I did."

Steve Angel: "It has to do with siting a mobile home on an existing farm in a true agricultural district."

Councilman Kent: "Well, we have that going on, too, but that's another matter. That's another day's discussion."

Steve Angel: "That's another public hearing."

Councilman Kent: "Right."

Steve Angel: "Right. It just doesn't apply to our situation."

Councilman Kent: "I know."

Steve Angel: "Okay. As far as the comprehensive plan, I dealt with that also. I think that if you look at the recent commentaries to the Town Law contained in the codification in McKinney's, you'll see that your case, Miller v. Kozakiewicz, the July 2000 decision, is cited and discussed in quite a great detail as an example of how the Board can make a decision that's not exactly in conformance with the master plan going back 25, 30 years if the circumstances surrounding the particular property have changed and certainly in our situation given the existing land use patterns in this particular area of the Town of Riverhead, one could not say that it would be arbitrary or irrational for this Board to determine that a recycling facility of this nature would be contrary to the existing land use patterns in the vicinity.

I mean there's a lot of land in that area that was used for similar and even much more intensive use. I mean the sand mine is still there. We have the existing and transfer facility that Crown runs. We have the old Riverhead landfill. And we have that yard waste site for waste management.

And I have not reviewed Mr. Tohill's protest."

Councilman Kent: "Okay, also, have you received a copy of the staff report from our Planning Department also or have you not?"

Steve Angel: "The staff report- all I have is the September report from the Planning Department."

Councilman Kent: "I don't even know if this has got a date on it."

Steve Angel: "Is that the September, 2000 staff report on SEQRA?"

Councilman Kent: "Yes, it's a SEQRA report, yes."

Steve Angel: "Yes. Yes. I've read that with detail. Now, the last thing that Mr. Tohill mentions, is that- "

Councilman Kent: "Okay. If I could ask a couple of questions on that report?"

Steve Angel: "Sure. Yes."

Councilman Kent: "Do you have any proposals for visual, noise or dust abatement because they identify three potential impacts?"

Steve Angel: "Yeah, well, yes, I mean probably would prefer to have Seaman deal with this but I'll do my best and hopefully I will not make a mistake. I think the visual impact is going to be- what we propose is a berm, a vegetative berm surrounding the site. The site is quite low and the berm would offer quite bit of visual buffer as well as sound buffer. The other- the other issue was dust. I think the idea was that the site would be watered to keep the dust down. In other words, it would be sprinkled in some fashion to keep the dust down."

Supervisor Kozakiewicz: "Any other question, Chris?"

Councilman Kent: "Not right now, no."

Supervisor Kozakiewicz: "All right."

Steve Angel: "Now, what's before you is not just an application for the rezoning and not just an application on the special permit application but this has been kicked around and studied and looked at and we still have before you the issue of significance which perhaps we can- if you're willing to accept both Mr. Tohill's request to either keep this open- keep it open for comments, and my request, we can also deal with because that obviously has to be your threshold issue. You have to make that decision before you go forward- "

Councilman Kent: "Well, that's why- probably those four issues that I brought up regarding the mulch- the coloring agent which might impact the water resources and then you have the three aesthetic type impacts."

Steve Angel: "Right."

Councilman Kent: "Okay. Which are the visual, noise and dust."

Steve Angel: "Right. And, again, if you have more technical--"

Supervisor Kozakeiwicz: "Mr. Angel?"

Steve Angel: "Yes?"

Supervisor Kozakiewicz: "Just a quick question."

Steve Angel: "Sure."

Supervisor Kozakiewicz: "If we are going to extend this we would also ask that the 62 day time period, I guess it's 62 days. Is that it? That's spelled out in Town Law, would be waived by the applicant to allow both parties to address these issues."

Steve Angel: "Would that be applicable to a zone change? I don't think it's- oh, the special permit?"

Supervisor Kozakiewicz: "Right."

Steve Angel: "You've got it."

Supervisor Kozakiewicz: "Very good."

Councilman Densieski: "Mr. Angel, one question."

Steve Angel: "Shoot."

Councilman Densieski: "Are you going to meet the noise requirements at the property line?"

Steve Angel: "Yeah. I think that what we plan on doing is meeting the noise requirements for the DEC registration which is less than the town requirements."

Councilman Densieski: "Thank you."

Supervisor Kozakiewicz: "At this point, do you wish to call up the other consultants that you want to have- "

Councilman Lull: "Steve, I think by last, you mean more

stringent. Do you not?"

Steve Angel: "More stringent, less noise."

Supervisor Kozakiewicz: "Lower decibels."

Steve Angel: "Lower decibels, less noise, more stringent."

Supervisor Kozakiewicz: "Okay. Thank you."

Steve Angel: "Correct. I stand corrected. I realize what I said was a little bit ambiguous but I decided not to clarify it."

Councilman Kent: (Inaudible)

Steve Angel: "Thank you for asking."

Supervisor Kozakiewicz: "Thank you. Okay?"

Steve Angel: "I think I'd just as soon withhold at this point."

Supervisor Kozakiewicz: "All right. So then at this point I'd ask anybody else who wishes to address the Board either for or against this particular application, the change of zone and special permit, to come forward. Brian Stark."

Brian Stark: "Brian Stark, Riverhead. I've dealt with the principals of Crown for about 10 years in my business at Glenwood Village. I sympathize with the cumbersome process of obtaining a special permit. They are certainly good business people. They have a good organization up there. I would venture to say that the way the town is growing and the need for disposal of waste that a recycling facility is probably best suited up in that location. You're going to have to put in somewhere. It might as well be up there across from the old town dump and next to their existing facility which is contiguous. I support their application and I'll go on record. Thank you."

Supervisor Kozakiewicz: "Thank you. Rolph Kestling."

Rolph Kestling: "Rolph Kestling, Wading River."

Dawn Thomas: "Mr. Kestling, do you swear that the testimony that you are about to give will be the truth, the whole truth, and nothing but the truth?"

Rolph Kestling: "I do."

Supervisor Kozakiewicz: "Thank you."

Rolph Kestling: "First, let me say I'm not for this or against it but the location wouldn't be bad. But it's strange that this came up. Five minutes after one I happened to be at the dog pound, stopped in by the dog pound and the first thing I thought we look down the road, and what the heck, it's got all these cars. There's a big long string of cars down there. And the noise, I was wondering, are they in operation already or was it from the Crown? The noise. There was grinding and smashing going on and the dogs were howling and the dust was all over the place. I was glad I got out of there. The dog pound was closed incidentally. I want to talk to Mr. Lull about that.

But I'm just saying that it's noisy. It may be a good place for it but if there are any houses near there, I feel sorry for those people. Thank you."

Supervisor Kozakiewicz: "Thank you. I have two in the back, Joan, Rita, whoever wants to come up first. They're both moving."

Dawn Thomas: "Do you swear that the testimony you are about to give will be the truth, the whole truth, and nothing but the truth?"

Joan Griffin: "I do. Joan Griffin, homeowner in Baiting Hollow. The zoning change that you are looking at today has a grave impact on the area of Calverton known as the Manors. This community is comprised of about 85 hard working families. There is a proposal for an additional 25 homes on Youngs Avenue and to my knowledge another 27 homes on Deep Hole Road which are very close to the area we are discussing today.

The area is currently zoned agricultural and you are considering changing it to industrial. This is not to the best interests of the 85 families who live there now and the possibility of 25 to 52 new neighbors who will be moving in soon. They have lived side by side with Crown Sanitation for as long as they have been there and have lived by the dump for the same amount of time. They have never had a concern as this before but now due to zone- I'm sorry- but now due to a change in the zoning in the industrial would be permitting industrial concrete smashing and wood chipping operation at their doorstep.

We respectfully request that you do not grant this zoning change.

You must have a master plan in place before handing out zoning changes so we can see the whole picture, not little bits at a time.

Now from what Mr. Angel said, the gentleman just before, he mentioned and showed plans on what the facility will look like. We have no clue what it looks like. You gentlemen do because everything's facing you. I came from the Huntington area near a recycling facility and it was huge. Tremendous building, smokestacks, residue coming out of the top of these stacks, landing on our homes, our pools, our cars, our kids, animals that are outside. So please consider what you're doing and think about this one. Thank you."

Supervisor Kozakiewicz: "Thank you. Rita Hodun."

Councilman Kent: "Can I ask you a quick question because she just brought something to mind that I forgot to ask before? Are you proposing any grinding and burning or just grinding?"

Councilman Densieski: "This is all outside. There's no buildings proposed, is there?"

Dawn Thomas: "Mrs. Hodun, do you swear that the testimony you are about to give to be the truth, the whole truth, and nothing but the truth?"

Rita Hodun: "I do. Rita Hodun, Calverton. I support them. The Hodun family supports them in what they want to do. The dump has been there as long as I can remember and that's 60 some years. Anything that came around in that area, came there to the dump. We need, we have to recycle and I'm 100% in favor of what they want to do. Thank you."

Supervisor Kozakiewicz: "Thank you. These gentlemen, you want to come forward, too? And, and then there's a line coming up. Okay."

Kenneth Kennedy: "Kenneth Kennedy, 62 Youngs Avenue, Baiting Hollow, Calverton."

Barbara Grattan: "What's your name, again?"

Supervisor Kozakiewicz: "Kenneth Kennedy."

Kenneth Kennedy: "Kenneth Kennedy."

Barbara Grattan: "Okay."

Dawn Thomas: "Mr. Kennedy, do you swear that the testimony you are about to give to be the truth, the whole truth, and nothing but the truth?"

Kenneth Kennedy: "I do."

Dawn Thomas: "Thank you."

Kenneth Kennedy: "Well, I'm a 25 year resident of Youngs Avenue and I got a flyer in the mail that said that this hearing was taking place and I felt it was an opportunity to come down and voice some concerns. The operation that's currently going on is intrusive to the local population. The truck traffic is unacceptable as it stands right now. Ask your Highway Department how many times they've had to repair Youngs Avenue. The road is not safe for the truck traffic that they put on it. It's detrimental to my block. It also goes through Riley Avenue, right past the school. It's an unsafe condition. At the very least, they should be routed down Osborne to the old dump site.

With regard to the old dump site, it was a small local dump that you had to be a resident to use. On Saturdays, I could go to my front lawn and wave to people going by because I knew them. You go down and wave to a truck driver, you'll get run over. That's the situation. I don't think- they can paint it any way they want. I'm not a beagle, I'm a human being and I'm telling you what they're doing is intrusive to my lifestyle.

As far as agricultural, we have a horse farm within 50 yards of the current site now. So it's still being used for agriculture. There are cows, there are sheep, pigs, everything on that block. People come down to look at them.

I'm trying to think what else, spontaneous. I would just ask that these people knew exactly what they were buying when they bought it. It was zoned agricultural. Their clear intent was to buy cheap, expand, change the zoning and create an industrial complex for their purposes, whether it's grinding concrete or anything else. I think they ought to be held to the original terms of their agreement, agricultural property. Should operate it under an agricultural diocese. That's the way it should be run.

They're constantly expanding. They put up a berm that they're talking about. It doesn't hide anything. All it does is create a huge puddle where the road is constantly being closed because of

flooding. Their idea of wetting down the dust. They're going to hire a helicopter, put in an irrigation system? They don't have any intention of doing that. They're already parking over 25 trucks in their parking lot. You cannot drive up the road with any surety that you are going to be able to access yourself to Osborne Avenue because they park dump trucks on both sides of the road. They're either too ignorant- or just too- about moving their trucks. They won't get out of your way. You have to sit there in your car and wait for them to move. Whether they do it because they don't know that it would be nice to move or they're just trying to be nasty. I have no idea. But that's the thing.

They're not a great neighbor. They're a dump and it shouldn't be brought any closer or expanded any more to the people who live in the community. Thanks a lot."

Supervisor Kozakiewicz: "Thank you. Yes, sir? Steve, you will be next. There was a gentleman up already."

Lawrence Rehm: "Lawrence Rehm, Youngs Avenue. I'm here today to totally--"

Dawn Thomas: "Could you spell your last name?"

Lawrence Rehm: "Sure. Rehm. R-E-H-M."

Dawn Thomas: "And do you swear the testimony you are about to give to be the truth, the whole truth, and nothing but the truth?"

Lawrence Rehm: "I do. I've lived on Youngs Avenue for 12 years. Just as the gentleman before me has said, I've seen the- expand, from my understanding it was only an overnight facility to keep trucks and has totally escalated into something what I classify a junkyard. A total junkyard. Because that's all that it is down there.

I've lived on Youngs Avenue I'd say 12 years. That road was not meant for what it's being used for now. Tractor trailer trucks coming through an "S" turn down there on Youngs Avenue, God forbid a school bus is coming the other way.

It's just totally- it's just totally horrendous. I mean, I take- I kind of get angry at what Mr. Angel said that this is not a pristine area. I live on that street, sir. I bought my house, I pay taxes to Riverhead. I do not like someone telling me that it's not a pristine

area and that's where they should be. I take exception to that.

As far as berming the property, there is a berm now which the gentleman before me has stated has caused the flood each and every time it rains. From where I am at the other end of Youngs Avenue, I still hear operations that they're conducting now. That area carries sound. As far as the noise level, I don't see how you can put anything up unless you're going to put a berm to heaven to keep out the noise.

As I say, I just totally- on both counts, I am totally against. There should be no reason. I'm sure Riverhead has plenty of industrial areas that this- that we have to take time here today to have another one created in an agricultural area. We now have a 25 unit housing plan going up just down the street on Youngs Avenue, more children, more school buses. We're going to have a disaster on that street and I don't know who- where it's going to lie. It's going to lie on someone though if someone is hurt on that street. Youngs Avenue was not made for that kind of traffic.

I've had my telephone lines, my electric lines taken down from these tractor trailers. Where I live the road is higher. I've had these trucks take down my lines piled with junk because the road is exceptionally high there. Just keep going. I have to (inaudible) the expense of having it repaired. I mean that's not what I moved here for and that road is not made for that. Thank you very much."

Supervisor Kozakiewicz: "Thank you. Mr. Haizlip."

Steve Haizlip: "Steve Haizlip of Calverton."

Dawn Thomas: "Mr. Haizlip, do you swear the testimony that you are about to give will be the truth, the whole truth, and nothing but the truth?"

Steve Haizlip: "Yes, I do."

Supervisor Kozakiewicz: "Thank you."

Steve Haizlip: "Steve Haizlip of Calverton. You know, this is not doing the residents of Riverhead town any good. It is only accommodating the developers which has potential building of some 2300 homes or what have you. The Highway Department- Mr. Kozakiewicz."

Supervisor Kozakiewicz: "I'm listening. I'm listening. I'm

just grabbing something for my throat. Okay."

Steve Haizlip: "Oh, you're not talking?"

Supervisor Kozakiewicz: "No, no, no."

Steve Haizlip: "All right."

Supervisor Kozakiewicz: "Just grabbing a lozenge for my throat."

Steve Haizlip: "All right. Good. The Highway Department is burdensome right now with limbs, leaves, grass and tree stumps and what have you that comes in there. I was over there this morning to get rid of my leaves that I raked up and I counted somewhere in the neighborhood of nine dumpsters, the large type, not the small type, the large one. This is taking up valuable highway man hours and time and equipment where they could be out doing road work. Manor Lane right now has got a bad crater in here and they should be up there doing that. But instead they're tied up with that.

If they're not going to take branches from tree trimmings, grass, and leaves and limbs, then we don't need them up there. They only want to accommodate the developers. They don't want to accommodate the residents. Thank you."

Supervisor Kozakiewicz: "Thank you. Anybody else who would like to address the Board for or against- yes, come on up, sir."

Chris Herbst: "My name is Chris Herbst, I'm a resident of Youngs Avenue."

Dawn Thomas: "Mr. Herbst, do you swear that the testimony that you are about to give to be the truth, the whole truth, and nothing but the truth?"

Chris Herbst: "I do. I'm actually against this facility. I've been living on Youngs Avenue for roughly 10 years. I'm kind of blown away by the size that they're introducing here, 14- 13.9 acres. On my way over here, I decided to drive down Youngs Avenue, excuse me, just to take a drive on the way over and look at the facility. The two acres that they're operating on now is an absolute eyesore. There's a pile of garbage in the back of that facility that towers over the actual building which is a pretty large structure.

My biggest concern is the fact that I have young children that play on Youngs Avenue. What's bothered me most of all, I generally don't see the facility unless I drive by it. I don't have to drive by it. And if I don't go that way that's generally why I don't go that way because I chose not to look at it because that's my backyard. My biggest problem is my children and the trucks that come back and forth across from my house, in front of my house every day.

I was under the assumption that Youngs Avenue was not supposed to have these tractor trailers on them because there are other ways around to that facility. My biggest problem is Youngs Avenue. Youngs Avenue is a farm road. If you drive down Youngs Avenue there are real tight curves, there are bumps, there are hills. My wife at one point was run off the road by one of these garbage trucks coming around one of those tight curves.

I have- I found on my front lawn pieces of these trucks because it is a beat up farm road. There is a bump in the road in the lot next door that when these trucks come by, they have the dumpsters hanging on the back of them, when these dumpsters hit that bump, they fly up in the air about three feet and come back down and rock my whole house. And this is a very common experience.

I found a 50 pound- I would say roller from one of these roll off dumpsters on my driveway from that bump. So when these guys- I don't think that the truck drivers are aware that they are driving through a residential neighborhood but this was zoned back in 1972. This area was a lot different in 1972 and today we have residential houses all around, residential developments going up. They're proposing to put more residential neighborhoods on Youngs Avenue which is great as far as I'm concerned, but my biggest concern is these trucks driving through these residential neighborhoods.

If the trucks were coming around from a different way, Roanoke Avenue, which could actually handle trucks that size, I really wouldn't have so much of a problem. But I actually do. I mean, there's nothing about a facility this size that makes me happy in my backyard. I work up the island in the Bohemia area, drive down Lincoln Avenue and look at the facilities over there. They totally destroyed the residential neighborhoods in that area. And to put an industrial- to go from agriculture to industrial, you're just inviting to open the door for even more and more. And I have a real problem with that. Thank you."

Supervisor Kozakiewicz: "Anybody else who would like to address

the- yes, Andy."

Dawn Thomas: "Do you swear that the testimony you are about to give to be the truth, the whole truth, and nothing but the truth?"

Andrew Mendelson: "Yes. And I like the Dunne law. Andrew Mendelson, Riverhead. And I wanted to listen to all the concerns of the people here today and although some of them are legitimate, we can't make believe that we don't make garbage and this is a growing community and Crown provides, you know, a great service to the community. Steve said they don't give any, you know, anything to the community, but they happen to do a great service.

I happen to be a contractor in town and I am a contractor that's concerned about the overdevelopment of residential. Maybe we should not be putting more residential subdivisions up in that area. The town dump was there. Crown has been operating there for years and the service that they want to provide is something that's needed. We have a lot of old buildings in Riverhead.

We have a lot of old potato barns and so on and so forth. Everywhere we go to build for people in this community, things have to be ripped down. They're proposing to do a service where this material doesn't get landfilled. It gets made into products that we can then reuse where now we're trucking that product in from all over the place. It would be nice to take buildings that were taken down in this community and reuse them as mulch, as road blends, as, you know, products that the builders do need.

We can't just develop residential properties without developing an industrial tax base here. People have to realize that. Crown Sanitation runs a good operation. Youngs Avenue, I agree, is a dangerous road. It is something the town should address. We're doing a development, you know, on Route 58. We're totally rebuilding Mill Road. Mill Road also is a road that can't handle the traffic. So some traffic improvement needs to be made.

I'm sure if the Rosanos were asked to put drainage around this facility, they would have no problem doing something like that. They do not want to be bad neighbors. They're responsible people and people need to express these concerns and they will modify their plan so that it addresses some of those concerns. Putting up a berm, planting around it, we planted 500 trees across the back of our property. You can no longer see the farm behind us.

And to say that they won't water down the site, that's not true. They'll do and conform to what needs to be done. And we just can't make believe that garbage- I know how I feel when I take my garbage out every, you know, Sunday night, and I say to myself if everybody is making as much garbage as we make, where does it all go? So it needs to be addressed and I think that they're responsible people that care about this community and I think that they should be worked with and their application should be, you know, seriously considered. Thank you."

Supervisor Kozakiewicz: "Thank you. Anybody else who would like to address the Board either for or against the change of zone special permit of Reliance Leasing? Mr. Angel, do you wish to come up and make any comments with respect to some of the questions, issues raised? And maybe also answer some questions about what road improvements we could- road improvements, drainage improvements and others, all right? Traffic improvements."

Councilman Kent: "Can I ask you a question before you- and maybe you can use this in part of your closing up."

Steve Angel: "I didn't intend to make a closing statement, but, I'm sorry."

Councilman Kent: "Whatever, your remarks. Okay, maybe you can address some of these. Have we made a SEQRA determination on this yet? I don't believe we have."

Steve Angel: "No. I mentioned that before. You still have to make a determination of significance."

Supervisor Kozakiewicz: "Right. That's correct."

Steve Angel: "There's been no SEQRA determination."

Councilman Kent: "There appear in my mind to be a few issues that probably should be scoped and included within some type of analysis. So, maybe we should discuss that at a later date but we're going to keep this hearing open I believe anyway."

Supervisor Kozakiewicz: "We talked about 30 days."

Steve Angel: "That's fine with me."

Supervisor Kozakiewicz: "And you said that's okay."

Steve Angel: "Right. And we will submit written comment on the SEQRA issue. But, yes, you have not made a SEQRA determination other than lead agency so the determination of significance is still open."

Supervisor Kozakiewicz: "Is still out there."

Councilman Kent: "Well, actually, we determined it to be a Type I action- "

Steve Angel: "It is a Type I action."

Supervisor Kozakiewicz: "Right."

Councilman Kent: "But we did not determine yet whether it required any kind of environmental impact analysis."

Steve Angel: "Right. That's the threshold question. Now, rather than sum up and to address these things and so technically I'm not going to say anything. I'm going to introduce Jeff Seaman who, hopefully, will be more eloquent than I was and will- knows more about the application and he'll make a couple of comments. And I don't think they'll- I think they'll be relatively brief. Thank you."

Supervisor Kozakiewicz: "Thank you."

Dawn Thomas: "Mr. Seaman, do you swear that the testimony you are about to give to be the truth, the whole truth, and nothing but the truth?"

Jeff Seaman: "Yes, I do. And if I was more eloquent, I would be an attorney, not an environmental scientist."

Councilman Kent: "I was thinking just the opposite. If I was eloquent, I would be an environmental- "

Jeff Seaman: "I think I would just like to point out for the benefit of the Board some of the issues that have been raised here this afternoon are the same issues that had been raised by the Planning Board during several reviews and presentations to that Board.

And just briefly, with respect to traffic, first, you need to identify which trucks are on the road from which facility because there at the present time have been two facilities operating opposite each other at Young's Avenue, each using 40 and 30 yard containers.

Separate companies, neither related to each other, so one needs to separate those two transportation points before general comments can be made.

Secondly, with respect to dust. One of the products that is being recycled here is concrete and suitable masonry debris. That material is going to be used as a gravel base for both the internal roadways, a new parking area to be added on the inside of the facility, and for the travel lanes inside where the material can be stock piled and then processed. So the applicant will be using some of his own material to stabilize the ground and with that stabilization process, during the review of Planning Board's interpretation of what else was needed here as well as the requirements of the DEC's registration because the site would require a registration under 360-16, drainage needs to be provided. And so there are on site drainage facilities that are part of this site plan.

Corrective action with respect to drainage and the potholes and ruts have been created along Young's Avenue have not been specifically identified in this application but after having discussions with the town as to the cause of this, some of it has come from sources beyond this site's limits. There have been corrective actions that have been taken recently in order to temporarily mitigate that problem. But as this goes through the entire process the engineering behind this site plan will need to address anything that this Board identifies and we would be happy to do that.

With respect to the growing aspect of C&D debris, I'd also like to add that the majority of the material that is envisioned to be processed here is already entering the two acre site that is Crown's facility now. What is essentially happening is as C&D debris is picked up within the town, it is brought to this site, used as a transfer station where the unadulterated wood products and construction debris material including concrete and masonry debris are separated out and repacked up into trucks and transported off the site.

One of the ideas that we have is that truck traffic will actually be reduced because we're bringing material into the site first and not really processing it, just repackaging it and shipping it out. The same volume of material is coming in and going out twice. When you process wood waste debris and you process the concrete debris as you grind it up it is made into smaller piles. It can be stockpiled on site for 60 days and so that we will be reducing the volume and by breaking up the vehicle trips we expect that we will have a reduction

in truck traffic entering and exiting the site, not an increase.

Those projections have been made, as I said before testimony and other records have been provided to the Planning Board and I invite all of you or anyone here interested in this project to check that record as well. And if you have any questions that I can help you with, I'd be happy to."

Supervisor Kozakiewicz: "Any questions? Thank you."

Jeff Seaman: "Thank you."

Supervisor Kozakiewicz: "Anybody else who would like to address the Board? Yes, yes, come up, Mr. Kennedy, you are still considered sworn."

Kenneth Kennedy: "Still sworn?"

Supervisor Kozakiewicz: "Yes, you are."

Kenneth Kennedy: "With regard to the two truck services using (inaudible) Road, yesterday, approximately 12:00, Crown truck, right past the Riley Avenue School, from right in front of my house, I was out walking. With regard to this nonsense about less truck traffic, once these people open this huge plant, they will draw waste from all over Long Island. This is not limited to Riverhead only. I've seen trucks, I've followed trucks from Lake Ronkonkoma to my own block and to the dump. These people bring stuff in from all over the Island now. So creating this plant is going to give them a bigger business and they're going to draw more traffic from more locations. That's a simple fact of business. That's all."

Supervisor Kozakiewicz: "Thank you. Anybody else who would like to address the Board either for or against, understanding that the applicant has agreed to keep this open for public comment for 30 days- written comment. Not seeing anybody indicate they wish to speak, the time being 3:30 p.m., close the hearing and keep it open for written comment for 30 days. Thank you."

Public Hearing closed: 3:30 p.m.

Public Hearing opened: 3:30 p.m.

Supervisor Kozakiewicz: "Do you want to take a break? Okay, all right. All right. The time still being 3:30, Barbara, would you read the affidavit of publishing and posting for the next public hearing?"

Barbara Grattan: "I have affidavits of publishing and posting for a public hearing to be held at Riverhead Town Hall, Riverhead, New York on November 7, 2001 at 2:20 p.m. regarding the adoption of the 2002 annual budget for the Town of Riverhead."

Supervisor Kozakiewicz: "Thank you. Anybody who would like to address the Board with respect to this particular public hearing which is the adoption of the 2002 budget? Going once, going twice, no hands. Close the public hearing, the time still being 3:30."

Public Hearing closed: 3:30 p.m.

Public Hearing opened: 3:30 p.m.

Supervisor Kozakiewicz: "And the time still being 3:30, Barbara, would you read the affidavits of publishing and posting for the last public hearing? Thank you."

Barbara Grattan: "I have affidavits of publishing and posting for a public hearing to be held at Riverhead Town Hall, Riverhead, New York, on November 7- "

Supervisor Kozakiewicz: "Hold it, excuse me. Is this one being- "

Barbara Grattan: "Yeah 7."

Supervisor Kozakiewicz: "Okay, so we're going to renotece it. Is that what we're doing?"

Barbara Grattan: "Well, let's read it through and then- "

Supervisor Kozakiewicz: "Sure, okay."

Barbara Grattan: "-- 2001, at 2:25 p.m. regarding the consideration of a local law to repeal and replace Chapter 107

entitled Wetlands, Floodplains and Drainage of the Town Code."

Supervisor Kozakiewicz: "Dawn, is there an update on this that as far as the amendment and the repeal of this Chapter 107, the Wetlands, that came up recently?"

Dawn Thomas: "As I understand it- "

Supervisor Kozakiewicz: "You are going to have to talk into the mike so that the folks out there can hear us. There you go."

Dawn Thomas: "As I understand it, the code revision committee and the CAC is asking that this be held over to another date."

Supervisor Kozakiewicz: "So what we're going to do is renotece this?"

Dawn Thomas: "Yes."

Supervisor Kozakiewicz: "Is that the understanding?"

Dawn Thomas: "Yes, we'll have to renotece it."

Supervisor Kozakiewicz: "Okay. So at this point in time, we'll not proceed. There's issues that came up with the code revision committee- "

Dawn Thomas: "And I'm not- I'd have to ask Sean Walter who's been working with them- "

Supervisor Kozakiewicz: "Okay. But that is the desire of that group and the CAC to hold off and renotece this."

Dawn Thomas: "Yes."

Supervisor Kozakiewicz: "Is there any objection from the Board? Okay. So at this point we're going to not conduct the public hearing. There's some further revisions, redrafting of this particular chapter, Chapter 107, which have been asked for jointly by our code revision committee and the CAC and we'll renotece it and have a chance for the public to address the changes to 107 at a later date."

That being the case, we'll now go to the public comment period. The five minute rule is in effect as noted in the past. I have a couple of cards. Steve Haizlip."

Steve Haizlip: "Steve Haizlip of Calverton. Let me ask you. When you ask questions about the resolutions, does that count towards the five minutes?"

Supervisor Kozakiewicz: "Yes, it does."

Steve Haizlip: "Holy smokes. You know, I've got problems in this town and the town has got problems. The people are not trying to help them and solve them and you won't give me no time to work on them.

Now, when it comes to Cablevision, now, somebody is not telling the truth. The Public Service Commission states that they're not in the business of overseeing Cablevision programing. This is not- in other words, they say while the Public Service Commission oversees certain aspects of Cablevision television programing, this is not one of them. This is taken in Channel 70 where they don't let us see. Now, the part I want you to take notice to here is the Public Service Commission called these people and told them about the issues that I had raised and they said in response to the issue you raised, Mrs. Van Horn (phonetic) Cablevision program has personally contacted you and explained that beginning December 1, 2001, will activate a town for civic government access channel.

I've got news for you. There has never been no Mrs. Van Horn contacting me. They didn't contact me whatsoever and I wrote a letter to Cablevision to their management and- complaining about this. And guess what? My middle initials is "O" but it don't stand for outcast so they've got me as outcasted. I don't count. The only way I count is give them the monthly fees. They don't want to hear what I had to say and my concerns. So now I guess Cablevision is going to have a field day with you. They are just going to do what they want to and you are going to help them along, I imagine.

Excuse me a minutes as I get part of my correspondence. All right. My next subject here is I have two letters, one copy for the Board and I'll keep the other copy. I have been selected these two weeks to take care of the Grumman monument at Memorial Airport to open and closing the gates. Naturally I have to pass by Calverton Industries. Now, I wrote a letter to Mr. Brodman (phonetic), head of transportation. Mr. Brodman in turn turned it over to Mr. Dias (phonetic). Now, Mr. Dias says in the letter that the improvement to safety accommodate the type and quality of traffic your site generates. It's not my site, it's the Calverton Industries' site on a public highway. Then the last comment was please contact Mr. Smith, a

regional permit engineer, gives the telephone number, to secure a highway work permit to make the necessary improvement to your driveway. It's not my driveway. It's the Calverton Industries driveway in there, as required by the Department.

Now, I get through here I'll bring this copy up. And I do want to say, all due respect to Ed Densieski. He did work hard and he called and he pleaded and he's begged. It is still there. And if anybody hits them holes in that road on the edge of them shoulders and lose control, I'll be the first one to testify for them. It's just not right that they run you around and they give you all kind of soap opera stuff and they pass the buck, they don't get down to look at nothing or do nothing, and they let it exist. So I'm asking the town here to get in touch with Mr. Dias and get them shoulders fixed and get that driveway fixed and they went on to say it was a farm road at first. Well, it ain't no longer a farm road, it's an industrial road so let's make it to hold the weights of those trucks.

Now, let me get- the 19 people that was on the water extension petition have now been reactivated. You know something? It was lost, it was forgotten. It just wasn't in nobody's mind. So now it's been reactivated thanks to Mr. Pednzick. I got a hold of him and he has looked into it and he advised Sue Jaeger (phonetic) as to what to do and how to go about it and hopefully we'll get those people taken care of pretty soon.

1131 - Keyspan site, approve the amendment. Where are they at? I didn't know they were out here. Have they got a site out here?"

Supervisor Kozakiewicz: "This is the property on Doctor's Path."

Steve Haizlip: "Oh."

Councilman Densieski: "The LILCO site."

Steve Haizlip: "The LILCO site. All right."

Supervisor Kozakiewicz: "Doctor's Path and Middle Road and what they're looking to do is install a gas service utility structure where they'll bring gas in from the street in order to service. It's not requiring any tank or anything like that."

Steve Haizlip: "I'm going to tell you right now, somebody from there better start looking at these telephone poles on Route 25 across

from Mr. (inaudible) sign and up near Mr. (inaudible) there where there's two transformers and these poles are leaning so bad that the slack of the wire going across the street is like that and one of these days it will break on somebody. It's just slowing taking- and a good wet storm might do it."

Supervisor Kozakiewicz: "Thank you. We'll see if we can contact the appropriate party and have them take a look at that."

Steve Haizlip: "I had brought this to your attention once before."

Supervisor Kozakiewicz: "Thank you."

Steve Haizlip: "At a work session. Resolution 1121 and 22 it seems like to me something ain't right here. You're going to have a public- you are going to have a hearing- let me get it so I can say it right. In other words, both things can't come off at the same time, can they?"

Councilman Lull: "We just had one like that today, Steve."

Supervisor Kozakiewicz: "I'm not sure of the- 1120 is 7:05 and 1121 is 7:10."

Councilman Lull: "But we can do them together the same evening, same day."

Steve Haizlip: "Yeah. In other words, so what's happening here? Are you going to post in the paper authorize a public hearing in the paper and then turn around at the same time, have the public hearing? That's what I- I mean, maybe I'm a little confused."

Supervisor Kozakiewicz: "If the time has arrived, yes, that could happen, yes. But- "

Steve Haizlip: "All right."

Supervisor Kozakiewicz: "All right. I'm going- Mr. Haizlip. I'm going to ask you to sum up, if you would."

Steve Haizlip: "I guess I've already summed up, Bob."

Supervisor Kozakiewicz: "All right. Thank you."

Steve Haizlip: "And I want to leave this letter with Barbara and I hope that it will go in the class 26 for a while which is long term storage, then from there you can put it in 13 which is put in a garbage pail."

Supervisor Kozakiewicz: "Rolph Kestling."

Rolph Kestling: "Rolph Kestling, Wading River. That Cedar Road sign."

Supervisor Kozakiewicz: "I spoke to the Highway Department about that. They're waiting for the signs to come in so they can change it. They're aware of it. I'm not sure if you had spoken to them."

Rolph Kestling: "I had to call up Monday, it's 10 weeks already."

Supervisor Kozakiewicz: "They're waiting for the sign, the material."

Rolph Kestling: "You know what happened there? They sent a man down and he removed the wrong sign."

Supervisor Kozakiewicz: "Okay. I know they're waiting for new sign material to make the sign up is what I was told from the Highway Department. Because I did follow up after your last time coming up in front of us. I said have we heard anything?"

Rolph Kestling: "No. This Monday I had to call again."

Supervisor Kozakiewicz: "As I said, I spoke to them after last time."

Rolph Kestling: "Okay. Mr. Lull, this is for you. Are you still on the animal committee- "

Councilman Lull: "Yes."

Rolph Kestling: "I was up there like I said five minutes after one and I dropped off- somebody passed away and a whole bunch of blankets so the dogs will be warm, but there's nobody there."

Councilman Lull: "Yes. I don't know specifically what happened as far as that is concerned, Rolph. We have been advertising for a

second dog control officer. We have interviewed twice already, have not come up with somebody satisfactory. We're interviewing again. So we're trying to fill that time but right now we don't have all the time slots full."

Rolph Kestling: "The volunteers aren't there anymore, then?"

Councilman Lull: "Pardon?"

Rolph Kestling: "No more volunteers there?"

Councilman Lull: "The volunteers are there but the volunteers usually don't stay there unless somebody is there- "

Rolph Kestling: "Oh, okay."

Councilman Lull: "-- to oversee them."

Barbara Grattan: "Rolph, do you have the blankets?"

Rolph Kestling: "Do I have the what?"

Barbara Grattan: "Do you have- you said you have the blankets?"

Rolph Kestling: "I dropped two big bundles of blankets, nice ones, in front of the gate."

Barbara Grattan: "Oh, okay."

Councilman Lull: "Yeah, that's fine. They'll take them. We can do that ourselves. Yes."

Rolph Kestling: "They'll take them. And I probably got more. Next one. In the business section, Sunday, could you explain this to me, tax exempt bonds facility at former Grumman site, something about \$7.1 million dollars finance with the Town of Riverhead Industrial Development tax free?"

Supervisor Kozakiewicz: "It's got to be- that would be the Michael Reilly design- and that would be- they went to the IDA to finance their improvement."

Rolph Kestling: "And where does the tax free part come in- tax exempt, I beg your pardon? Is that from the real estate transfer tax that they don't have to pay it or- "

Supervisor Kozakiewicz: "No. I think the real estate tax, they'd still be responsible for that."

Rolph Kestling: "You think? I hope they are."

Supervisor Kozakiewicz: "I believe it to be the case, yes."

Rolph Kestling: "Okay. How come Riverhead Industrial Development is involved in that? Why is Riverhead? Are they backing anything or- "

Supervisor Kozakiewicz: "The Riverhead Industrial Development Agency is a separate and distinct agency from the Town Board. They do receive applications from businesses who are looking to take advantage of the benefits that they can provide and I take it that what Mr. Reilly did in this case, was he looked at the Empire Zone benefits, he looked at the IDA benefits and he chose to go with the IDA benefits in order to get sales tax benefits and whatnot. There was- "

Rolph Kestling: "The only thing I'm- "

Supervisor Kozakiewicz: "There were public hearings on this, I know, earlier in the year."

Rolph Kestling: "-- the town isn't hanging up on there, going to be responsible if anything goes- "

Supervisor Kozakiewicz: "No, no, no. The Industrial Development Agency is a separate and distinct body. It doesn't affect the town or the CDA."

Councilman Lull: "And it's mostly sales tax benefits."

Rolph Kestling: "Okay. Thank you."

Supervisor Kozakiewicz: "You're welcome. Anybody else?"

Bard Berthold: "Hi. My name is Bard Berthold, B-E-R-T-H-O-L-D from Northville. I must say I'm very disappointed to hear about the postponing of the wetlands hearing. It's the second time it's been postponed. It seems to be it was advertised- "

Supervisor Kozakiewicz: "No. It was actually- there was a public hearing previous- we had a public hearing and then there were some changes made to the chapter based upon comment received and this

is something that apparently came up after we had originally posted obviously and it came up as an issue that both the CAC and the code revision committee agreed there needs to be some clarification."

Brad Berthold: "Okay. So the draft that was published and put in the Town Clerk's Office is going to be revised?"

Supervisor Kozakiewicz: "That's correct. That's correct."

Brad Berthold: "Do you have any idea how long this will take?"

Supervisor Kozakiewicz: "I don't, no, I don't."

Bard Berthold: "Okay, would you guess months, weeks?"

Dawn Thomas: "You could speak to Sean Walter in my office."

Bard Berthold: "Okay. Because the reason I'm disappointed is we have a major development application coming before the Board soon that has a lot of wetlands on it and that's going to be a major issue and we are hoping that this code will be revised before that but I see now it's not going to be probably so it's going to put us at somewhat of a disadvantage because you're going to have another draft out that may or may not affect this project by the time you have to make your decision on it. All right. Thank you."

Supervisor Kozakiewicz: "Thank you. Anybody else who would like to address the Board? Yes, Joan Griffin. I'll get to you, George."

Joan Griffin: "Good afternoon. Joan Griffin, Calverton Civic Association. Mr. Kozakiewicz, I would like to congratulate you and the new Town Board members for your victory in this year's elections."

Supervisor Kozakiewicz: "Thank you."

Joan Griffin: "You have the support of the majority of the voters of Riverhead. I'd like to remind you that you do have the trust of the voters and that they have given that to you. They have entrusted you with the welfare of the town, business as well as residential. You have been entrusted to maintain the quality of life for us as citizens of Riverhead that we have come to enjoy.

You have also been entrusted to protect our groundwater supply and you have been entrusted to guide us forward for the next two

years.

Saying that, I have a question for you about the website. On the Town Hall meetings that list the whole year- "

Supervisor Kozakiewicz: "Right."

Joan Griffin: "-- the next meeting on November 20th says it's at 7:00 p.m. and on the new calendar that lists everything, it says it's 2:00 p.m. So we're having two meetings? Thank you very much."

Supervisor Kozakiewicz: "No. It's 7:00 p.m. The only other one that would be at 2:00 p.m. would be the very last, second meeting in December. So that's a matter that we- "

Joan Griffin: "So it's 7:00 p.m.?"

Supervisor Kozakiewicz: "It's 7:00 p.m."

Joan Griffin: "Okay. And, also, Barbara's office was nice enough to give me a copy of code 108-56. I tried going through it to find out about the utility poles because I worked for the phone company many company names ago and one of the things I did in the company was to fill out accident reports and get copies from the hospitals of the utility workers climbing these poles because nails, staples, whatever stick out of them when they were climbing them. Now it's not as bad because they have what's known as a cherry picker to go up and down. But the town, I'm not complaining about the politicians' signs, I know they're all going to come down from both parties in the next few days. The town has taken a metal pole that was on Twomey and Young's Avenue that had the sign names there, and they put it across the street that says Twomey and Riley which changes name at Twomey, which is fine. Then they removed the pole from the Youngs Avenue side and put the sign on the utility pole at a height that you don't even know the signs are there unless you're driving one of the Mack trucks- "

Supervisor Kozakiewicz: "These are street signs?"

Joan Griffin: "Street signs. I guess they're 12 inches long and two to three inches tall."

Councilman Kent: "That's because of the big truck population."

Joan Griffin: "Yeah, so they can read the sign. But anyway as

a former utility worker, as a concerned safety type thing, can we get the silver pole back in there with the street signs on it and off the utility pole?"

Supervisor Kozakiewicz: "I'll certainly refer this over to the Highway Department and they can contact you if you wish or it can be done right away. I know there's a problem with the signs, the machine to make the signs and the plates, but I don't see a reason why they couldn't relocate it."

Joan Griffin: "Those signs that are up there right now just need the pole to put back on."

Supervisor Kozakiewicz: "They just need the pole. Okay. Thank you."

Joan Griffin: "Thank you."

Supervisor Kozakiewicz: "Good. Anybody else who would like to address the Board? If not, we can take up resolutions. Oh, I'm sorry, George, yes, yes, yes."

Councilman Kent: (Inaudible)

Supervisor Kozakiewicz: "No, he didn't, no he didn't."

George Schmelzer: "I'm a little confused here on meeting- about that public hearing you didn't have, about floodplains. I don't know, what is a floodplain in Riverhead town?"

Supervisor Kozakiewicz: "You've got to look at the definitional clause in the statute."

George Schmelzer: "Oh, you don't know?"

Supervisor Kozakiewicz: "It's in there, George, and I'm not going to recite it off the top of my head because I don't know what it says word for word."

George Schmelzer: "I don't know of any place in Riverhead where any plain gets flooded. Maybe on the Mississippi Valley, but not here. And it comes to water, protect the water supply, we might have to abolish farming because the farmers use chemicals and fertilizers, it gets into the water. So- "

Councilman Kent: "What about the Peconic River Delta?"

George Schmelzer: "Delta?"

Councilman Kent: "I think we're going to- yeah, we're going to try and do rice farming down in that area."

George Schmelzer: "What kind of farming?"

Councilman Kent: "Rice."

Supervisor Kozakiewicz: "Rice paddies."

Councilman Kent: "What do you think?"

George Schmelzer: "Where's the flat land to do it? Anyway, this 17 million dollar sale that was negotiated in the previous administration which someone bribed me about, not it closed recently. Within a week or 10 days, the guy who bought it sold part of his land for 25 million. Some people think this is a grease job. Well, it almost looks like it. I'm not saying it is but I wonder if the people responsible for that are very proud of what happened now recently. The guy who sold part for 25 million and the week before he bought it for 17 million. Are you all proud of that?"

Councilman Kent: "Has he sold it for (inaudible)?"

George Schmelzer: "No answer."

Supervisor Kozakiewicz: "What are you expecting us to say, George? I mean, you know, we had a deal, you have a contract, we were advised that if we violated the contract, we'd be tied up in litigation for five years. No businesses would locate on the property. It would be a burden for an additional period of time. There was a decision by the Board to go forward with the contract. The deal was made. The deal has been consummated. There's been a closing. Let's move on."

George Schmelzer: "What are you going to move on to now?"

Supervisor Kozakiewicz: "I'm just saying it's done. I mean- "

Councilman Kent: "What's he selling for 25 million? I'm curious."

George Schmelzer: "I just read in the paper. I just read in the paper like Will Rogers did and he said all I know is what I read in the paper because I can't get anything from here."

Councilman Kent: "What did he sell for 25 million?"

George Schmelzer: "You never get an answer here."

Councilman Densieski: "(inaudible) total of the 16 buildings."

Supervisor Kozakiewicz: "I think that statement was that he had them all sold and they were going to sell for 25 million."

Councilman Kent: "I think he only sold one as far as- "

George Schmelzer: "Not all of it, part of it."

Councilman Kent: "I think he's only sold one building so far."

Supervisor Kozakiewicz: "Correct. Existing buildings, you're right. Correct."

Councilman Kent: "He sold them all?"

George Schmelzer: "No."

Supervisor Kozakiewicz: "All right."

Councilman Kent: "I don't think so. I only think he sold one building."

Councilman Lull: "He hasn't sold six. I know he hasn't sold six."

Councilman Kent: "Okay. I don't think- are you saying he signed contracts for these?"

Supervisor Kozakiewicz: "Folks, folks, folks. Please."

Councilman Kent: "I'm trying to figure it out."

Supervisor Kozakiewicz: "Between George and Councilman Kent, the exchange here, and that's it."

George Schmelzer: "You don't know Eddie Sullivan, huh?"

Councilman Kent: "As far as I know, he sold one building."

George Schmelzer: "For 25 million?"

Councilman Kent: "No, not for 25 million."

Councilman Densieski: "Are you trying to tell me that the newspaper said something that wasn't accurate?"

Councilman Kent: "It could be."

Supervisor Kozakiewicz: "God forbid."

Councilman Kent: "God forbid is right. But I don't know if any of the buildings have been sold except for one that I'm aware of. You think they've all actually been sold?"

Supervisor Kozakiewicz: "He's commenting on what he read in the papers, that all the buildings were sold, the 16 buildings, and the sum was 25 million."

George Schmelzer: "That reminds me of Bush and Clinton. I know this guy that worked for the Immigration Department in the Clinton administration. He got special orders don't touch the illegal aliens. Leave them alone. If they do anything bad, don't deport them. Leave them alone. So then we got all this junk in here now. They come in with a false name, false identification. Next day, disappear. So Bush got in he wanted to pardon three million of them. He doesn't dare say that now. It's all in the same pot.

So when this thing happened, September 11th, I think both parties in Washington got together, gee, we can't point our fingers at each other, we better now do that. We'll point our fingers at this guy 12,000 miles away in Afghanistan. Bin Laden. What's his name? Sullivan Bin Laden or something. And maybe Laden, that means loaded, you know, laden does. So- "

Supervisor Kozakiewicz: "I think that might be a different Laden."

George Schmelzer: "No Afghan citizen was involved in this mess so we're bombing the Afghans now. Of course, at work now, they- the bunch in Washington saved their butt but the American people pay for it. I think Washington is infested with a triumvirate. A triumvirate is of three, political hypocrites, political whores and political

criminals. And some of them are all three; some of them are one. You have to figure that out yourself. If it gets any worse, it will filter down to local government."

Councilman Kent: "I think it has."

George Schmelzer: "I got nothing else to say."

Supervisor Kozakiewicz: "Thank you, George."

George Schmelzer: "Yeah, you're very welcome."

Supervisor Kozakiewicz: "Have a good day."

George Schmelzer: "Good bye."

Barbara Grattan: "That's it."

Supervisor Kozakiewicz: "Good bye."

George Schmelzer: "So long."

Supervisor Kozakiewicz: "Okay. Thank you. We have Halloween poster awards at 4:00. Do we want to open up the Community Development Agency portion? There was a resolution that was on for the Community Development Agency and we'll see how far we get and then we'll take a break at four to announce the Halloween poster award winners. Thank you."

Meeting adjourned: 3:55 p.m.

Meeting reconvened: 3:56 p.m.

Supervisor Kozakiewicz: "Reconvene the Town Board portion, take up the resolutions."

Councilman Densieski: "Are you going to start the resolutions now?"

Supervisor Kozakiewicz: "Yeah, we'll start them and then we'll, unless you have to get out. Do you have to get out right away or do you mind going through the resolutions? What's your choice?"

Councilman Kent: "Is everybody here?"

Supervisor Kozakiewicz: "Is everybody here? Okay. Go ahead. Take up the resolutions."

Resolutions #1091

Councilman Lull: "Approves the application for fireworks permit of CBS Whitcom Technologies, Corp. That fireworks scheduled for at the Fox Hill Golf and Country Club on November 17th at 9:00 p.m. or approximately so. So moved."

Councilman Densieski: "Second the motion."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, absent; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #1092

Councilman Densieski: "1092 is an authorization authorizing water service contract with Union Avenue Homeowners for the Riverhead Water District. So moved."

Councilman Kent: "Seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes."

Councilman Densieski: "I'm going to definitely support this. I've been working with some of the people on Union Avenue for almost two years now so thank God it finally got here. Yes."

The Vote (Cont'd.): "Cardinale, absent; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #1093

Councilman Densieski: "Authorizes the Supervisor to execute an easement between the Town of Riverhead and Albert P. Stepnoski, Linda M. Stepnoski for the purpose of installing a traffic light at the intersection of Middle Road and Roanoke Avenue. So moved."

Councilman Lull: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, absent; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #1094

Councilman Lull: "1094 is the same type of resolution which executes an easement between the Town of Riverhead and the Andersons, Richard Anderson, Faye Anderson, Thomas Anderson, Sharon Anderson for the purpose of installing a traffic light at the intersection of Middle Road and Roanoke Avenue. So moved."

Councilman Kent: "Seconded. Just a question."

Supervisor Kozakiewicz: "Moved and seconded."

Councilman Kent: "How much are we- are we paying for these easements? No, these are for nothing, right?"

Councilman Lull: "That's correct. Safety purposes."

Supervisor Kozakiewicz: "Okay. No further discussion? Vote, please."

The Vote: "Densieski, yes; Cardinale, absent; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #1095

Councilman Kent: "1095 appoints DeMitra Bartlett as assistant recreation leader for the Go Girls Title V program. So moved."

Councilman Lull: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #1096

Councilman Lull: "Reappoints Rob Stromski, Robert Stromski as a member of the Architectural Review Board. So moved."

Councilman Densieski: "Second the motion."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #1097

Councilman Densieski: "Appoints Frank Phillips a volleyball official to the Riverhead Recreation Department. So moved."

Councilman Lull: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #1098

Councilman Kent: "Resolution 1098 extends the term of Maribeth Vail to the temp position of temporary secretary to the Board of Assessment Review. So moved."

Councilman Lull: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #1099

Councilman Densieski: "Authorizes the attendance for a grants coordinator to attend 2001 grants performance summit workshop in Washington, D.C. So moved."

Councilman Kent: "Seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski."

Councilman Densieski: "Yeah, quick question. I got this paper

here that you can't read and I don't know the amount. Did anybody get it?"

Councilman Lull: "It's \$1,100. It's on the back page."

Councilman Densieski: "Okay."

Councilman Lull: "That's the conference itself."

Councilman Densieski: "Okay. That's the conference not including- "

Supervisor Kozakiewicz: "The conference is- "

Councilman Kent: "Well, the conference is- "

Supervisor Kozakiewicz: "Conference only is \$795.00."

Councilman Lull: "Instead of \$800.00. Yes."

Councilman Kent: "\$795 and then each workshop is \$300. So I think with the conference- I don't know it says conference only."

Councilman Densieski: "Are we going to put a limit on it or just, you know, we were supposed to be notified. I don't know what the exact cost to the taxpayers is going to be on all of these and we don't know that number."

Councilman Kent: "I think Jack's here. I don't know- "

Councilman Lull: "Jack, do you know?"

Councilman Kent: "Do you know what we're authorizing by this?"

Supervisor Kozakiewicz: "All right. Do you want to hold this aside? Okay."

Councilman Kent: "We have another opportunity on December- on November 20th."

Councilman Lull: "Well, he can find out- "

Supervisor Kozakiewicz: "We'll take a break anyway. 4:00 has arrived. We'll take a break. We'll go down and announce the Halloween Post Contest winners. So we'll do that at this point."

Kelly?

What we're going to ask is that the contest winners when their names are announced, if they would come up and stand behind their particular poster and we'll recognize them and we'll have the award for them. So, any questions on that? Okay, Kelly?"

Kelly: "Okay. I came this afternoon and hung the posters up all along here so everyone could see them. For the past week or so they've been hanging out in the hallway decorating the hall for everyone to see. But I would like to take this opportunity to recognize and congratulate this year's winners. They did a wonderful job and all the posters were really, really well done as you can see.

Okay. We'll start with the third graders. First place for the third grade is Macey Reichel who is a student at Riley Avenue School. Okay. And second place for the third grade is Stacy Griffing from Aquebogue School. And then we have third place, Billy Goode from Riley Avenue School. Okay, you can stay up there while we call everyone else up, okay, so everyone gets a chance to see.

Fourth graders. First place, Olesya Shayda from Pulaski Street School. Okay, I'll keep that- I'll get that to her. Second place, Brittany Normandin from Pulaski Street School. You can stand right over there sweetie. Okay. And third place for fourth grade, Gregory Czaplak from St. Isidore's School.

Okay, moving on to our fifth graders, first place, Kenny Cheng from Pulaski Street School. Second place, Sarah Rose from St. Isidore's School. Okay. Sara Rose. Okay. Third place for the fifth grade, Erin Finnegan from St. Isidore's.

Okay, we just got to the sixth grade. So first place for the sixth grade, Gregory Rourke from Riverhead Middle School. Second place, Danielle Finn from Riverhead Middle School. And third place, Becky Hernandez from Riverhead Middle School.

Okay, that's everybody. So, once again, let's give them a round of applause. They did a great job. If anybody wants to take a picture, thank you. Thank you to the Town Board for allowing us the time to recognize our winners."

Supervisor Kozakiewicz: "Okay. We'll resume as soon as they finish up with the posters. Thank you. Once again, congratulations to all the winners and the great job done. Thank you."

Kelly: "Thank you."

Supervisor Kozakiewicz: "Kelly, while you're doing that, we also want to thank you for helping us out and doing the program. You know. Thank you so much."

Okay, we're going to resume. On- we're going to pick up from Resolution 1099. I spoke to the accounting department. The total cost is estimated to be between \$1,600 and \$1,800 for a two day workshop."

Councilman Densieski: "All right. So we can limit it to not more than \$1,800, then?"

Supervisor Kozakiewicz: "Yes. Yes. Do you want to add that in there?"

Councilman Lull: "The workshop itself is going to be about \$1,400."

Supervisor Kozakiewicz: "Right."

Councilman Lull: "And there's transportation."

Councilman Densieski: "That's fine."

Supervisor Kozakiewicz: "So if you want to put that in there?"

Councilman Kent: "Right after the word proper receipts of not more than- is that what you want to say?"

Councilman Densieski: "Yeah, not more than \$1,800."

Councilman Kent: "Than \$1,800. Okay."

Supervisor Kozakiewicz: "Okay? Good."

Councilman Densieski: "Thank you."

Supervisor Kozakeiwicz: "Okay."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #1100

Councilman Kent: "1100 approves the temporary sign permit of Hugo Boss banner type."

Supervisor Kozakiewicz: "Is there a second?"

Councilman Cardinale: "Seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #1101

Councilman Lull: "General fund budget adjustment, several pages of that. So moved."

Councilman Densieski: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull."

Councilman Lull: "I will notice one thing and actually you know there's something about that, I'm sure and that is Buildings and Grounds repair and maintenance, extra \$10,000, and that's because that repair and maintenance budget has been not only Buildings and Grounds but also vehicle."

Supervisor Kozakiewicz: "That's correct."

Councilman Lull: "And that's going to be changed in next year's budget, so."

Councilman Kent: "I just have one question, (inaudible), actually before we finalize the vote. Also we're giving money for haz mat clothing. Do we have a team? I thought we were kind of- put that on hold."

Supervisor Kozakiewicz: "This was for the issue with respect to the Anthrax."

Councilman Kent: "Oh, okay."

Supervisor Kozakiewicz: "To have clothing for that purpose."

Barbara Grattan: "Councilman Lull, did you vote yes?"

Councilman Lull: "Yes."

The Vote (Cont'd.): "Kozakiewicz, yes. The resolution is adopted."

Resolution #1102

Councilman Densieski: "Ambulance fund budget adjustment. So moved."

Councilman Kent: "Seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #1103

Councilman Lull: "Refuse and garbage district budget adjustment. So moved."

Councilman Densieski: "Second the motion."

Supervisor Kozakiewicz: "Moved and seconded."

Councilman Kent: "Is it supposed to say the stipend expense or stipulation?"

Supervisor Kozakiewicz: "Stipulation."

Councilman Kent: "Yeah, I thought- "

Supervisor Kozakiewicz: "DEC stipulation. That amendment needs to be made."

Barbara Grattan: "Okay, stipulation. I know you (inaudible) the other day at work session."

Councilman Kent: "I did it, I did it."

Barbara Grattan: "We got a new one, but I guess we didn't."

Supervisor Kozakiewicz: "With that change. Vote, please."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #1104

Councilman Densieski: "Ag-Fest Committee Fund budget adjustment, \$2,000. So moved."

Councilman Kent: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #1105

Councilman Lull: "Budget adjustment in the Sewer District. So moved."

Councilman Densieski: "Second the motion."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #1106

Councilman Densieski: "Risk Retention Fund budget adjustment. So moved."

Councilman Kent: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #1107

Councilman Lull: "Budget adjustment in Calverton Sewer District. So moved."

Councilman Kent: "Seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. Resolution is adopted."

Resolution #1108

Councilman Densieski: "Recreation Program Fund budget adjustment. So moved."

Councilman Lull: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #1109

Councilman Densieski: "Vernon Wells, Jr. Farmland Preservation budget adjustment. So moved."

Councilman Kent: "Seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #1110

Councilman Lull: "Budget adjustment for Water District Northside Road Water Extension capital project. So moved. Sorry, it's an adoption. It's not an adjustment."

Councilman Densieski: "Second the motion."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #1111

Councilman Densieski: "Farmers Field Water Ext. No. 68 capital project budget adjustment. So moved."

Councilman Lull: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #1112

Councilman Lull: "Water District Soundview Meadows water extension budget adoption. So moved."

Councilman Kent: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #1113

Councilman Kent: "This is a budget adoption for the Sunken Ponds Estates Phase III capital project budget adoption. So moved."

Councilman Lull: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #1113

Councilman Kent: "It's a budget adjustment for water extension #64 Tsunis capital project. So moved."

Councilman Densieski: "Second the motion."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #1115

Councilman Densieski: "Water District budget adjustment. So moved."

Councilman Lull: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent."

Councilman Kent: "Hold on a second now. We're- they're still going to buy a truck? Is that- "

Supervisor Kozakiewicz: "Yes."

Councilman Kent: "-- I don't understand why it's going from Administration trucks to source of supply trucks. Is there a difference between the two?"

Supervisor Kozakiewicz: "The- yes, it's an administration which is basically to run the office and supplies is for the supply side for the water. This way-- it's broken up, I understand."

Councilman Kent: "But they're buying a truck, right?"

Supervisor Kozakiewicz: "They are buying a truck, correct."

Councilman Kent: "This is going to be from operating not capital. Okay. Yes."

The Vote (Cont'd.): "Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #1116

Councilman Lull: "Delores Avenue Chapter 96 budget adjustment. So moved."

Councilman Kent: "Seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #1117

Councilman Densieski: "Workers Compensation Fund budget adjustment. So moved."

Councilman Kent: "Seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #1118

Councilman Lull: "Budget adjustment in the Highway Department. So moved."

Councilman Kent: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #1119

Councilman Lull: "Budget adjustment in the Phase I resurfacing of Sound Avenue. So moved."

Councilman Densieski: "Second the motion."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #1120

Councilman Kent: "1120 is a resolution authorizing the Town Clerk to publish and post a notice of public hearing for the special

permit of James Tsunis also known as TC 58, Inc. The public hearing, I believe is for a hotel, to be held on November 20th at 7:05- 89 unit motel facility- excuse me, motel facility, on Route 58. So if you're interested in a motel facility, come on down to the public hearing. So moved."

Councilman Cardinale: "Seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski."

Councilman Densieski: "A quick question. On these notices for these developers, does the town pay for that or does the developer pay for that?"

Barbara Grattan: "We pay for that."

Supervisor Kozakiewicz: "Public notice, we pay for the public notice. Certified mailing, if there's a requirement that there's certified mail, then they pay for that."

Councilman Kent: "But are you- your question is is it built into our fee structure that we collect the money as a fee and then pay it out? I don't know if it is."

Councilman Densieski: "Okay, so we do get reimbursed?"

Councilman Kent: "I don't know if it is. That's a good question."

Supervisor Kozakiewicz: "We do have a special permit fee but the question of whether it pays for this or not is something that- probably not off the top of my head."

Councilman Kent: "These notices generally run about \$50?"

Barbara Grattan: "Excuse me?"

Councilman Kent: "About 50 bucks for the notice?"

Barbara Grattan: "Twenty-five, depending on how big it is. This one here would probably- I estimate about 25."

Councilman Densieski: "All right, well, it might be something

we want to take up at a further time."

Barbara Grattan: "Densieski, is that a yes?"

Supervisor Kozakiewicz: "Any further discussion?"

Councilman Densieski: "Yes."

The Vote (Cont'd.): "Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #1121

Councilman Cardinale: "Authorizes the Town Clerk to publish and post notice of public hearing change of zone petition of John Blaney. So moved."

Councilman Lull: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #1122

Councilman Kent: "This authorizes the Town Clerk to publish and post notice of public hearing for the special permit of John Blaney. That's also going to be on November 20th at 7:15 p.m. He's converting a residence to a professional office upon real property located on Main Road in Aquebogue. So moved."

Councilman Densieski: "Second the motion."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #1123

Councilman Densieski: "Awards bid for Wading Woods Condominiums for the Riverhead Water District. So moved."

Councilman Kent: "Seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #1124

Councilman Densieski: "Awards the bid for the Meadowcrest IV at Settlers Landing, Riverhead Water District. So moved."

Councilman Lull: "Seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #1125

Councilman Lull: "Awards bid for ink cartridges, toner and ribbons. So moved."

Councilman Kent: "Seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #1126

Councilman Lull: "Authorization to rescind and re-award bid for janitorial supplies. So moved."

Councilman Densieski: "Second the motion."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent."

Councilman Kent: "United Supply System proved itself to be an irresponsible bidder or a non-responsive bidder. Is that- "

Supervisor Kozakiewicz: "Non-responsive. We have a letter that's attached."

Councilman Kent: "Oh, okay. Okay. That word didn't make sense to me. Okay, so yes."

The Vote (Cont'd.): "Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #1127

Councilman Kent: "1127 is an authorization of the Town Clerk to post and publish a notice to bidders for Polish Town lighting or for lighting in Polish Town. It doesn't have to be Polish Town lighting, it could be lighting in Polish Town. So moved."

Supervisor Kozakiewicz: "Lighting for."

Councilman Lull: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #1128

Councilman Densieski: "Adopts a local law to repeal and replace Chapter 45 Alarm Systems of the Town of Riverhead. So moved."

Supervisor Kozakiewicz: "Bob, are you going to get that door? Are you going to get the door for us so we can work in peace for the last few moments? Thank you."

Councilman Kent: "That's what we thought you were jumping up for."

Councilman Densieski: "He was going to join the party."

Supervisor Kozakiewicz: "All right. Well, you can close it on the way out. Okay. Motion."

Barbara Grattan: "Okay, we're ready? Densieski."

Supervisor Kozakiewicz: "I don't think it was seconded. Was it seconded?"

Barbara Grattan: "I don't think it was."

Councilman Cardinale: "Seconded."

Supervisor Kozakiewicz: "Okay, moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #1129

Barbara Grattan: "1129, Councilman Densieski."

Councilman Kent: "Are we going with 1129?"

Supervisor Kozakiewicz: "No."

Councilman Densieski: "No. Want a motion to table 1129- "

Councilman Kent: "Okay. That's what I had- "

Councilman Densieski: "-- further Town Board work."

Councilman Lull: "I second that motion to table."

Supervisor Kozakiewicz: "Okay, motion to and a second to table. Vote on the tabling."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is tabled."

Resolution #1130

Councilman Lull: "Adopts the hourly rate schedule for H2M. So moved. Here we go."

Councilman Densieski: "Second the motion."

Supervisor Kozakiewicz: "Moved and seconded. Discussion? Is that- "

The Vote: "Densieski."

Councilman Kent: "Well, we just got the-- last year's rates were just handed to me about 35 seconds ago, I think. Do we need some opportunity to look at them, or are we just going to go with the rates?"

Councilman Densieski: "Do you have one copy or do you have other copies?"

Councilman Kent: "I have one."

Councilman Densieski: "How much of a difference is there? A percentage or- "

Councilman Kent: "Who did you want me to hand this to? Do you want us to share it?"

Councilman Lull: "They're in different order."

Councilman Kent: "They ordered it differently and so, you know, they made it difficult so that I have to fine- "

Councilman Densieski: "Chris, can you just look at a couple examples and see if it's, you know, relatively close and reasonable?"

Councilman Kent: "All right, let's take a look here. You want to look at (inaudible). How about (inaudible). (Inaudible) project architect, \$36.63."

Supervisor Kozakiewicz: "I have \$39- "

Councilman Lull: "39 for these architects- six now."

Councilman Kent: "We're going \$3.00 on 36- one over 12- what is that, 8%, 8 1/2%. Who else? Anybody else you want to?"

Councilman Lull: "Hill?"

Councilman Kent: "Who?"

Councilman Lull: "Hill."

Councilman Kent: "No. I'm looking at the- Hill must be a new employee. Where is he? Oh, Steven Hill. Not on the old- let's see if we have any other CAD operator. 13.50- "

Supervisor Kozakiewicz: "Was the old one?"

Councilman Lull: "Still the same."

Councilman Kent: "Yeah, that's staying the same. Anybody else

you want to- oh, let's go with like an engineer II. \$25.00 I see, oh, but different names, Kevin Terry. Staff engineer, \$22.50. That's actually a decrease."

Councilman Lull: "How about the guys we've used?"

Councilman Kent: "Oh, that's an increase. He's making \$22.50 going up to \$25.00."

Supervisor Kozakiewicz: "\$25, right."

Councilman Kent: "Oh, you want to look at some of the guys we've used, like Russo?"

Councilman Lull: "Yeah, sure."

Councilman Kent: "What's he on the old one? See if you can find him- I mean on the new one. I'll look at the old one. \$53.00 an hour."

Councilman Lull: "\$55.60."

Councilman Kent: "Oh, that's not that- 7%. Who else? How about Dennis Kelleher. I wonder if they like us discussing this."

Councilman Densieski: "\$65.12."

Councilman Kent: "Oh, he's going up \$5.00 an hour. So that's about five over six is 8%. One over 12 roughly."

Supervisor Kozakiewicz: "So, the pleasure of the Board is to- "

Councilman Densieski: "Can we negotiate with them or not?"

Supervisor Kozakiewicz: "-- take a look at this."

Councilman Kent: "Yeah, we can. We'd have to table it today."

Supervisor Kozakiewicz: "Yeah."

Councilman Kent: "And, we did this last year, too. Two years ago."

Councilman Densieski: "What do you guys think?"

Supervisor Kozakiewicz: "Is there a motion to table?"

Councilman Cardinale: "Motion to table."

Supervisor Kozakiewicz: "Seconded?"

Councilman Kent: "Seconded."

Councilman Densieski: "I'd like to see if we can get a better deal, sure."

Supervisor Kozakiewicz: "Motion and second."

Councilman Kent: "At least we'll have the opportunity to compare and see what we can do."

Councilman Lull: "Let's give Chris that job."

Councilman Kent: "Okay. Sure. Thanks."

Supervisor Kozakiewicz: "It's fair for him to do that. Vote on the motion to table. Motion and seconded."

The Vote: "Densieski."

Councilman Kent: "I'd like to be negotiating with somebody else like a different engineer though."

Councilman Densieski: "I think we should see if we can negotiate a better deal. I think they are a good and reliable firm. I'm not going to debate that. I think if we can get a better price, why shouldn't we try. Yes."

The Vote (Cont'd.): "Cardinale, yes; Kent."

Councilman Kent: "If Bill Kasperovich was here, I would suggest that we negotiate with Nelson Pope and Voorhees, but since he's not here- "

Supervisor Kozakiewicz: "Don't do that."

Councilman Kent: "But since he's not here, I won't suggest that. And I'll vote yes to table."

The Vote (Cont'd.): "Lull, yes; Kozakiewicz, yes. The

resolution is tabled."

Councilman Kent: "That's where he used to work, by the way."

Councilman Lull: "Yes."

Supervisor Kozakiewicz: "Resolution 1131."

Resolution #1131

Councilman Densieski: "Approves amended site plan of KeySpan.
So moved."

Supervisor Kozakiewicz: "Is there a second?"

Councilman Kent: "Seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull,
yes; Kozakiewicz, yes. The resolution is adopted."

Councilman Kent: "Oh, but the way, I don't know if Phil heard.
There was a question remember we asked about this. This is street
gas, not tank gas."

Councilman Cardinale: "Yeah."

Supervisor Kozakiewicz: "There is no storage tank. That's
correct. Okay."

Resolution #1132

Councilman Lull: "Amends the site plan, excuse me, approves the
amended site plan of Robert and Nancy Bertorello Bertsand Plumbing and
Heating on Osborne Avenue. So moved."

Councilman Cardinale: "Seconded."

Supervisor Kozakiewicz: "Moved and seconded."

Councilman Kent: "Question. Did we add the- I didn't really
get to look at this. We were going to add one restriction on the use
by non-owner occupied, for the office space as a covenant."

Supervisor Kozakiewicz: "I don't see it in the covenants."

Councilman Kent: "Yeah, neither do I. Yeah, here, do you want to do that in the declaration and covenants? The issue was we didn't want to allow them to establish this office and then rent it out to someone else."

Supervisor Kozakiewicz: "Right. So it would be accessory to the warehouse use the main building."

Councilman Kent: "Only accessory to the actual used by the owner."

Barbara Grattan: "I hold it out?"

Supervisor Kozakiewicz: "Hold it out and then we'll come back to it. Yes."

Resolution #1133

Councilman Kent: "Accepts the assignment of certificate of deposit of John and Maria Verderber. So moved."

Councilman Cardinale: "Seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #1134

Councilman Cardinale: "Accepts the performance bond of Dwayne Early. So moved."

Supervisor Kozakiewicz: "Is there a second?"

Councilman Lull: "Oh, I'm sorry. Second."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #1135

Councilman Lull: "Amends Resolution 1037 of 2001 which releases the irrevocable letters of credit of- letters of credit (2) of Manzi Homes. So moved."

Councilman Densieski: "Second the motion."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #1136

Councilman Densieski: "Accepts assignment of certificate of deposit of True Tech, Inc. So moved."

Councilman Cardinale: "Seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #1137

Councilman Densieski: "Authorizes the Supervisor to execute a contract to acquire property at 59 Sigal Avenue. So moved."

Councilman Kent: "Seconded."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski."

Councilman Densieski: "Yeah, that's just to make a little note, there's not going to be any cost to taxpayers for that. It's going to be with the CDBG funds. Yes."

Councilman Kent: "And that's a capital transfer."

The Vote (Cont'd.): "Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #1138

Councilman Kent: "1138 order calling for a public hearing in the matter of the increase and improvements of the facilities of the Riverhead Street Lighting District #1 of the Town of Riverhead. The public hearing will be on December 4th at 7:05 p.m. What are we adding?"

Councilman Densieski: "It's the stop light at Edwards Avenue."

Supervisor Kozakiewicz: "This is for the signal light at Edwards and- "

Councilman Kent: "Oh, yeah, that's right. Okay. It's for the traffic signal at the intersection of Edwards Avenue and Sound Avenue at a cost of \$75,000. So moved."

Councilman Lull: "I'll second it."

Supervisor Kozakiewicz: "Moved and seconded."

The Vote: "Densieski, yes; Kent- Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. 5 yes."

Resolution #1139

Councilman Densieski: "Resolution authorizing the issuance of \$350,000 in serial bonds for the Town of Riverhead, Suffolk County, New York to pay the cost of the purchase and installation of an 800 megawatt radio system for the police department, including a UPS and a laptop network system in and for the said town. So moved."

Supervisor Kozakiewicz: "Is there a second?"

Councilman Lull: "Second."

Supervisor Kozakiewicz: "Moved and seconded."

Councilman Cardinale: "Discussion."

Supervisor Kozakiewicz: "Yes?"

Councilman Cardinale: "What is it?"

Supervisor Kozakiewicz: "Basically it's a replacement of the

current radio system that the police department utilizes. It's- part of the reason is that it's going to eliminate some of the dead zones where they don't have radio coverage. There's also a problem with another police department whose signal comes in on our frequency and as it turns out they use some of the very same sector numbers such as 601, 602, so when the calls come in, there's confusion as to whether it's our force being asked to respond or this other police agency.

The UPS is a system that protects in the case of an outage the computers from shutting down, and what they're also looking to do with the laptop computers is tie into the county laptop computer system so there will not be a monthly fee.

The other thing that's important to note here is that there's E911 monies that have been provided to the town this year in the sum of \$90,000 which must be vouchered prior to the end of the year arriving and the police department has agreed in the discussions that we would utilize those monies, those E911 monies to be applied to this bond right at the outset so theoretically it's going to be reduced by that amount right away and then committing future E911 monies to pay the bond down."

Councilman Densieski: "I'd also like to point out I think it was probably Jack, that there were several different modes of paying for this and this turned out to be the most economical versus leasing and other means of payment."

Supervisor Kozakiewicz: "That's right."

Councilman Kent: "What's the total cost of the project? Is it the 350 or is that- is the 350 the difference between the total cost and the application of the current 911?"

Supervisor Kozakiewicz: "The total cost is the 350 as I understand it. So that would be the bond authorization."

Councilman Kent: "All right. And then immediately we'll have 90,000, is that what- "

Supervisor Kozakiewicz: "Ninety something- it's like 95, 96 if my memory serves me right."

Councilman Kent: "Okay. And what is the potential for future E991 monies?"

Supervisor Kozakiewicz: "Next year they are talking about the sum of about 50 or 60,000."

Councilman Densieski: "Which can be used for the debt service?"

Supervisor Kozakiewicz: "That's correct."

Councilman Kent: "Yes. Is this grant money?"

Supervisor Kozakiewicz: "These are monies that we get back as a result of the E911 system- E911 monies that are received by the county to- "

Councilman Densieski: "Suffolk County sales tax I believe, Chris."

Supervisor Kozakiewicz: "No. It's from- on phone bills. That's correct. Yes. It's a surcharge or a fee that's collected by all phone users for this particular service, E911. And it's collected by the county and then the county distributes the money. That's right. That's the one."

Councilman Cardinale: "Is there any cheaper way to do this?"

Supervisor Kozakiewicz: "We could lease but it wouldn't be cheaper and we wouldn't own the equipment. Jack, do you want to discuss the options that you looked at?"

Councilman Kent: "You said it would be 10 years?"

Jack Hansen: "Just so everyone knows. It's to give the Riverhead PD compatibility with the county and other police jurisdictions so they can all talk to one another, and that's become evident since 911. But that is one problem they have right now. They cannot talk to one another car to car. This would allow that."

Councilman Densieski: "800 megawatts is a police channel."

Jack Hansen: "MHz not megawatts. Watts is power--"

Supervisor Kozakiewicz: "It's a different frequency."

Jack Hansen: "Frequency. This band is also going to be dedicated strictly from the FCC for police law enforcement. Whereas currently the current system they are on now which is a high band is

not strictly dedicated to police."

Supervisor Kozakiewicz: "It's- it should be noted as MHz not megawatts. Furthermore, as I understand it, the present police radios can be reutilized by other departments if we chose to have them reutilized. Is that correct?"

Jack Hansen: "We're investigating right now to put the current radio system into the Highway Department. The Highway Department is on a low band, they already have the infrastructure for the high band which the police department has currently and it would be more utilization in the Highway Department than continuing on with their high band- the low band that they have now. So they would get more range in the Highway. So it's a double whammy here."

Supervisor Kozakiewicz: "Okay. Any other discussion?"

Councilman Kent: "What are- a couple other things, Jack. I'm trying to see what we're going to be facing. It's 350 for 10 years. We're going to pay it back semi-annually, is that how it works?"

Jack Hansen: "Yes."

Councilman Kent: "All right. And how much would the payments be in the first year and we'd go down, I know, from then. Do you know generally- "

Jack Hansen: "The first payment if we (inaudible) the entire \$350,000 at 5% interest, the first payment would be 70 grand."

Councilman Kent: "And then it would go down to- "

Jack Hansen: "It would go down gradually every year."

Councilman Kent: "Sixty-five, sixty."

Jack Hansen: "As the Supervisor pointed out, there is somewhere in the neighborhood of \$96,000 that we have earmarked from the county- "

Supervisor Kozakiewicz: "Which we must voucher."

Jack Hansen: "We must voucher prior to 12/31. And this has a permissive referendum 30 days- "

Councilman Kent: "So that's going to- "

Jack Hansen: "-- December 7th and December 31st we have to give vouchers and (inaudible)."

Councilman Kent: "We're not going to be able to use that as a payment of the bond. We're going to be able to use that to offset the actual cost- "

Jack Hansen: "We would not have to borrow as much."

Councilman Kent: "Right. Right."

Jack Hansen: "The 350 is the total cost."

Councilman Kent: "And then so that would reduce the amount. If we borrowed then only 260- "

Jack Hansen: "Right. The payments would go down."

Councilman Kent: "The first payment would be that much less and we'd have enough you think from E911 monies next year to pay the- "

Jack Hansen: "Next year it's going down because of the fact that the county has dedicated some more of the E911 money to something else and the following year should go back up again."

Councilman Kent: "Okay."

Jack Hansen: "So we believe that that will be more than sufficient to cover the debt service."

Councilman Kent: "Enough to service the debt. Okay."

Supervisor Kozakiewicz: "Any other discussion? If not, vote please."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Barbara Grattan: "And you are changing megawatt?"

Councilman Kent: "It should be MHz in two places. It's not in the title; it's in the body of the resolution."

Barbara Grattan: "All right. And also we've got this resolution which is 1132."

Supervisor Kozakiewicz: "Right. He added a paragraph proposed office use shall be- okay, so with that change we want to move that. It was moved I think."

Councilman Kent: "Moved as amended."

Councilman Lull: "I'll second it."

Supervisor Kozakiewicz: "Okay. Moved and seconded as amended. That was Resolution 1132."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Resolution #1140

Barbara Grattan: "Resolution 1140 to pay bills."

Councilman Lull: "So moved."

Councilman Kent: "Seconded. I'll move it."

Supervisor Kozakiewicz: "Moved by Kent; seconded by Densieski. Okay. Vote, please."

The Vote: "Densieski, yes; Cardinale, yes; Kent, yes; Lull, yes; Kozakiewicz, yes. The resolution is adopted."

Councilman Kent: "Abstain?"

Supervisor Kozakiewicz: "Do you want to change your vote?"

Councilman Lull: "I'll abstain from that."

Supervisor Kozakiewicz: "Just make the note that his is abstention. Thank you. No further business? Motion to adjourn. The time being 4:35. Thank you."

Meeting adjourned: 4:35 p.m.

Barbara Grattan
Town Clerk
