

**When you're washing your car in
the driveway, remember - you're
not just washing your car
in the driveway.**

All the soap, scum, and oily grit runs along the curb. Then into the storm drain and directly into our creeks, the Peconic, and the Long Island Sound. This causes pollution, which is unhealthy to our beaches, fish, and shellfish. So how can you avoid all this? Easy... Wash your car on grass or gravel instead of the street. Or better yet, take it to a car wash where the water is treated and recycled.

Thank you, on behalf of the Town of Riverhead
