

STATE OF NEW YORK
PUBLIC SERVICE COMMISSION

CASE 20-E-0586 - Proceeding on Motion of the Commission of an Investigation into the Utilities' Preparation for and Response to August 2020 Tropical Storm Isaias and Resulting Electric Power Outages.

NOTICE OF PUBLIC FORUMS AND REQUESTING COMMENTS CONCERNING ALLEGED HARM TO RATEPAYERS AS A RESULT OF ELECTRIC SERVICE PROVIDERS' PERFORMANCE IN RESPONSE TO TROPICAL STORM ISAIAS

(Issued December 4, 2020)

Public comment is sought by the New York State Department of Public Service (DPS) and the DPS Special Counsel for Ratepayer Protection (Special Counsel), regarding potential damages and harm suffered by ratepayers, if any, as a result of electric service providers' performance in response to Tropical Storm Isaias (TSI). Comments will be part of the official record and may be utilized by the Special Counsel as part of direct testimony admitted into the record in the above-referenced proceeding.

On the afternoon of August 4, 2020, TSI struck New York, bringing strong winds and heavy rain that particularly impacted the Mid-Hudson Valley, New York City, and Long Island regions. TSI caused extensive damage to electric distribution infrastructure that, in turn, led to lengthy outages for a substantial number of New York utility customers. Peak outages in New York State due to TSI reached approximately one million customers, and roughly 1.5 million New York customers experienced power outages during this event. On August 5, 2020, Governor Andrew M. Cuomo directed DPS to investigate the electric service providers' performance in response to TSI,

including of Central Hudson Gas & Electric Corporation (Central Hudson), Consolidated Edison Company of New York, Inc. (Con Edison), Orange and Rockland Utilities, Inc. (O&R), and PSEG Long Island, LLC (PSEG LI).

As a result of that investigation, the Public Service Commission (Commission) issued an Order directing Central Hudson, Con Edison, and O&R to show cause why they should not be penalized and sanctioned for allegedly violating various obligations to ratepayers, including, among other things, allegedly failing to properly track TSI and secure adequate staffing to promptly restore power; properly communicating with, and receive complaints from, the public; and properly ensuring the safety of Life Support Equipment customers. Separately, DPS and the Special Counsel have urged the Long Island Power Authority to similarly take appropriate action in connection with PSEG LI's alleged failures to properly prepare for and respond to TSI.

Accordingly, DPS and the Special Counsel seek comments on the following questions:

- How were you affected by the outages, including but not limited to (i) concrete and measurable economic and material impacts, and (ii) physical, emotional, or social impacts?
- Did you received timely, accurate and adequate information from your utility company about what was happening before, during and after the service outages?
- Did you attempt to contact your utility for information or assistance immediately before, during or after the outages, and did you get the response you were requesting?

This list is not exhaustive and comment may be made on other issues deemed important for consideration.

PLEASE TAKE NOTICE that **virtual public forums** will be held as follows before the Special Counsel to receive comments regarding potential damages and harm suffered by ratepayers, if any, as a result of electric service providers' performance in response to Tropical Storm Isaias (TSI). Please note that each forum will focus on the performance of a specific utility.
