PRESENT:

Dwight T. Corwin, Supervisor
J. Fred Dugan, Town Clerk.

William F. Flanagan,
George W. Hildreth,
David E. Warner, Justices.
Dr. A. G. Terrell, Health Officer.

Minutes of previous meeting read and on motion adopted.

On motion it was ordered that this Board acting in conjunction with the Board of Water Commissioners of the Riverhead Water District in pursuance of the recommendation contained in the report of Theodore Horton, Civil Engineer of the Division of Sanitary Engineering of the New York State Department of Health take steps to eliminate the sources of contamination within a radius of 500 feet of the wells of the Riverhead Water District Plant by requiring all cesspools to be of watertight construction and all privies to be provided with watertight, removable containers; and subsequently the removal and satisfactory disposal of the contents from these receptacles in some remote place.

On motion it was further ordered that the following recommendations contained in above mentioned report be followed out:

That great care be exercised at all times to obtain the maximum efficiency of the purification plant.

That analyses of the water be regularly made occasionally during the year,

To detect any undue contamination which may occur in the raw water.

To determine the efficiency and control the operation of the purification plant.

That should such contamination occur at any time and the present purification plant prove insufficient to remove it, steps be taken immediately

To determine and eliminate the sources of pollution, if possible, or

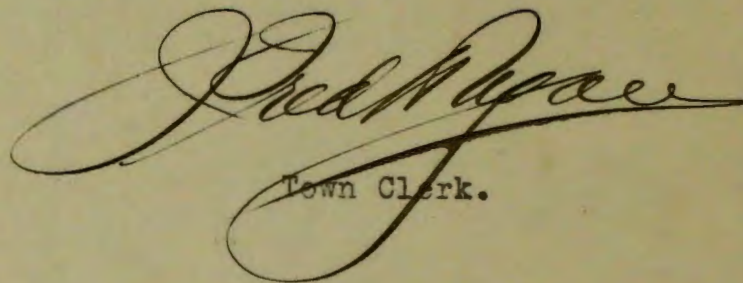

Supplement the present treatment by steriliza-
