Reference Bid for "Ambulance Body Remount of 2003 & 2006 PL Custom Type III Ambulance"

On behalf of Hendrickson Fire Rescue Equipment and PL Custom Emergency Vehicles I am pleased to submit for your consideration and approval our bid proposal for the remount of your existing 2003 and 2006 PL Custom Medallion ambulance bodies onto new ford E-450 chassis'. We have reviewed your specifications carefully and are able to comply with your requirements 100% taking no exception and/or clarifications.

Our bid price for the 2003 (unit 18) PL Body Remount on a 2017 Ford E-450 Chassis is:

(\$114,684.00)

One Hundred Fourteen Thousand, Six Hundred Eighty Four Dollars and No Cents

Our bid price for the 2006 (unit 20) PL Body Remount on a 2017 Ford E-450 Chassis is:

(\$133,086.00)

One Hundred Thirty Three Thousand, Eighty Six Dollars and No Cents

Please note that this price includes a new customer concession, a multiple vehicle concession and a fleet discount as disclosed in the "Bid Quick Spec", found in section 3 of the bid binder, also please note that additional discount options and payment terms are listed in section 4 of the bid binder

2015 marked Hendrickson's 30th anniversary in business and in that time we have provided many agencies the best products and services available. We have recently moved to a much larger facility in Islandia, NY and are proud to say we have one of the largest emergency vehicle service/parts facilities in the area. Hendrickson has recently been recognized as a "Blue Seal of Excellence" heavy duty truck center by the National Institute for Automotive Service Excellence (ASE). All of our service technicians are ASE/EVT certified, and we have multiple road service vehicles available to handle all of your service needs/requirements.

PL Custom is conveniently located in Manasquan, New Jersey. PL Custom originated in 1946 and in 1970 was purchased by the Smock family who still currently owns the company. The PL manufacturing facility is a state of the art facility, totaling 110,000 square feet allowing all aspects of engineering and manufacturing to be controlled within the same footprint.
